Respectfully submitted,

(Signed) H. D. CAPITAIN,
Chairman.

The following certificate was submitted with said report:

RESOLUTION ADOPTED BY THE BOARD OF SUPERVISING ENGINEERS.

Resolved, that inasmuch as this board is the arbiter in the controversy between the Chicago Surface Lines and the Chicago & West Towns Railway Company (formerly the County Traction Company) with reference to the terms of the operating agreement between the County Traction Company (later the Chicago & West Towns Railway Company) and the Chicago Railways Company, as passed by the City Council March 18, 1913; it is the decision of this board that a just and

equitable settlement of the controversy is hereby declared to be that the Chicago Surface Lines pay to the Chicago & West Towns Railway Company $3,000 per annum as rental, in addition to furnishing power and making such expenditures upon the property of the Chicago & West Towns Railway Company used by the Chicago Surface Lines, as provided for in the operating agreement. This decision of the board to apply as of April 5, 1914.

It is further hereby agreed and understood that this action is taken by the board, subject to any action that may be necessary for the City Council to take with reference to it.

—

I hereby certify that the above is a true and correct copy of Resolution No. 5760, passed by the Board of Supervising Engineers at its 778th meeting, February 8, 1918.

(Signed) L. H. DAVIDSON,
Secretary.

The following is said ordinance as passed:

WHEREAS, Edwin S. Jackman has offered to the City of Chicago the sum of ten thousand dollars for the purpose of enabling the said City to erect a new dog pound on a site to be determined by the City Council, and has further donated plans for such new dog pound, prepared by Holabird and Roche, architects, and

WHEREAS, The City has accepted the offer of said Edwin S. Jackman, now therefore,

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That the Commissioner of Public Works be and he is hereby authorized and directed to construct and supervise the erection of a dog pound, to be erected by the City of Chicago in accordance with plans prepared by Holabird and Roche, architects, on a strip of land located at the southwest corner of the grounds of the House of Correction, and to remove and relocate and reconstruct, if deemed necessary or advisable by said Commissioner of Public Works, a certain wall on said grounds, all as shown on the plat which is hereto attached and which is hereby made a part of this ordinance.

SECTION 2. The Board of Inspectors of the House of Correction is hereby authorized and directed to permit the work of construction and reconstruction herein authorized, and to furnish, upon application of the Commissioner of Public Works, any material manufactured at the House of Correction that may be necessary and that the Commissioner of Public Works may deem advisable to use in said work of construction and reconstruction, and is also authorized and directed to furnish to the Commissioner of Public Works, upon his application, such number of inmates of the House of Correction as he may require, and as may be available from time to time, for the purpose of performing such services in said work of construction and reconstruction, as the Commissioner of Public Works shall determine and the Superintendent of the House of Correction shall approve, such application or applications by said Commissioner of Public Works to be made to said Board of Inspectors of the House of Correction in writing.

SECTION 3. The sum of ten thousand dollars heretofore offered by Edwin S. Jackman shall be set aside, when paid into the hands of the City Treasurer, as a separate fund to be used solely for the purpose of defraying the cost of the work of construction and reconstruction herein authorized. Into said fund there shall likewise be placed any and every sum or sums of money which shall hereafter be donated or offered for the purpose of carrying on or extending the work of construction and reconstruction herein authorized.

SECTION 4. The Commissioner of Public Works is hereby authorized to use moneys in the Construction Division Capital Account to pay the cost of the work of construction and reconstruction herein authorized, subject to reimbursement from the moneys in the special fund created in Section 3 hereof; Provided, however, that the total aggregate amount of moneys so used from said Construction Division Capital Account shall not exceed the aggregate amount of money in said special fund created in Section 3 hereof.

Provided, further, that no expenditure shall be made and no liability shall be incurred by the Commissioner of Public Works in the work of construction and reconstruction herein authorized, in excess of the total aggregate amount of money in said special fund, unless and until an appropriation for the further carrying on of said work shall have been made by the City Council.

SECTION 5. The City Comptroller and the City Treasurer are hereby authorized and directed to transfer from said special fund created in Section 3 hereof, to the Commissioner of Public Works for the purpose of reimbursing the Construction Division Capital Account, such sum or sums of money as shall from time to time be certified by the Commissioner of Public Works as having been expended from said capital account for defraying the cost of the work of construction and reconstruction herein authorized, as hereinabove provided.

SECTION 6. This ordinance shall take effect and be in force from and after its passage.

Respectfully submitted,

(Signed) JOS. O. KOSTNER,
Chairman.

ALSO,

The same committee submitted a report as follows:

CHICAGO, August 3, 1918.

To the Mayor and Aldermen of the City of Chicago in City Council Assembled:

Your Committee on Home Defense, to whom was referred (June 10, 1918, page 396) an order directing an investigation of the charge made by A. C. Caldwell that Alderman Sheldon W. Govier is not a citizen of the United States, having had the same under advisement, beg leave to report and recommend that the report of said investigation herewith submitted be published in the Journal of the Proceedings of the City Council and placed on file.

Respectfully submitted,

(Signed) JOS. O. KOSTNER,
Chairman.

Ald. Kostner moved to concur in said report.

No request being made by any two Aldermen present to defer consideration of said report for final action thereon until the next regular meeting, and the question being put,

The motion prevailed.

The following is the report recommended for publication in the foregoing report:

REPORT OF THE COMMITTEE ON HOME DEFENSE IN THE MATTER OF THE RESOLUTION REFERRED TO SAID COMMITTEE BY THE CITY COUNCIL FOR INVESTIGATION OF THE CHARGES MADE IN A CERTAIN LETTER, DATED JUNE 5, 1918, WHEREIN ONE A. C. CALDWELL QUESTIONED THE CITIZENSHIP OF ALD. SHELDON W. GOVIER.

Your Committee has investigated the charge and the circumstances in connection therewith insofar as it was deemed necessary for the purpose of making a report to your Honorable Body.

The facts would appear to be, that one of Ald. Govier's constituents, who claimed that his children had been sold intoxicating liquors in what is commonly called a "blind pig," ran in connection with a drug store by A. C. Caldwell, called upon Ald. Govier to join with the father of the children, and others, in seeing that the matter was properly tried in court; and, that when the case was called in court, Ald. Govier did appear with the father of the children, and others, and Ald. Govier's presence greatly irritated the said A. C. Caldwell and his attorney. Whereupon A. C. Caldwell and his attorney turned their attention from the facts in the case to a verbal attack of vituperation and abuse directed at Ald. Govier, and among other things openly stated in court that Ald. Govier was not a citizen.

Later, namely, on June 5, 1918,, the said A. C. Caldwell addressed the letter in question to Eugene R. Pike, asking Mr. Pike, as Comptroller, to hold up the salary of Ald. Govier. The only evidence which the said A. C. Caldwell and his attorney were able to furnnish your Committee in substantiation of their charge, was a rumor that Ald. Govier was not a citizen, the source of which they did not reveal and also that Ald. Govier had informed the Election Board in the 30th Precinct of his Ward that he was a citizen by Act of Congress which fact Ald. Govier states he did not do, when, as they claimed, he had been naturalized through procedure in the Circuit Court. They further charged that the index record of the Circuit Court shows Sheldon Govier; whereas, a registration book shows Sheldon W. Govier.

It is our conclusion that the Judge or Clerk of Election one of whom is the wife of A. C. Caldwell, who made the record, was as likely to be in error in making the record as Ald. Govier was in answering the question (in any event the naturalization reverts back to an Act of Congress); and the fact that the registration book might show that Ald. Govier was naturalized by an Act of Congress, or by an Act of Congress followed by an Act of the Circuit Court, is a trivial matter, when taking into consideration the fact that Ald. Govier has been, and is, a legally naturalized citizen of the United States. Likewise, the omitting of the initial "W" is in all probability a clerical error, for which Ald. Govier is not responsible.

We respectfully submit that in our opinion from an investigation of the naturalization record of the Circuit Court as of date November 7, 1904, which we have examined, Ald. Govier is a citizen of the United States and is entitled to all the rights and privileges of a citizen including the right to hold offices of public trust and to receive compensation therefor.

We further submit it as our opinion that animosity and retaliation were responsible for the said A. C.

Caldwell seizing upon trivial technicalities, or clerical errors, upon which to base a charge, which, if not disapproved, would do a great injustice to Ald. Govier.

We further recommend that the Honorable City Council pass a resolution condemning the action of the said A. C. Caldwell in making the charges against Ald. Govier notwithstanding the fact that the said A. C. Caldwell has subsequently admitted that Ald. Sheldon W. Govier is a citizen of the United States and has attempted to qualify and deny his charge and has even apologized for making same, and that this Honorable Body, in consequence of the investigation by this Committee, go on record as concurring in the report of the Committee that Ald. Govier is a citizen of the United States, entitled to hold office, and worthy of the same respect which is due any citizen of the United States or any officeholder thereof.

We further recommend that this report be published and made a part of the record of the City Council.

ALSO.

The same committee submitted a report as follows:

Ald. Lyle presented the following resolution, which was, together with a survey of comfort stations on

elevated railroad stations, prepared by the Juvenile Protective Association of Chicago submitted therewith, referred to the Committee on Local Transportation:

WHEREAS, The Juvenile Protective Association of Chicago has made an investigation, collected data, and prepared a report with recommendations to the Mayor and City Council concerning public comfort facilities in about 300 elevated railway stations, and

WHEREAS, Said report has been prepared with much labor and expense and covers a matter of vital interest at this time,

Therefore, Be It Resolved, That if the facts therein set forth in relation to the possibility of opening about three hundred public comfort stations with very little expense are true and the recommendations practicable, that the City Council hereby goes on record as favorable to the matters proposed by the Juvenile Protective Association for more public comfort stations and better sanitary conditions. Such stations are of particular importance at this time because of the large number of soldiers and sailors coming in and going out of Chicago on Saturday afternoons and Sundays when so many public buildings are closed. We realize the duty of the City of Chicago to do everything it can to protect the health and administer to the comforts of soldiers and sailors passing in and out of Chicago, and likewise our duty to our own citizens, who reside here.

To this end it is hereby directed that the whole matter be referred to the Committee on Local Transportation for its consideration and with directions to take such immediate steps as in its opinion the circumstances warrant.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That permission and authority be and the same are hereby given and granted to Thomas Koscielski, his heirs, executors and assigns, to construct, maintain and operate a single railroad switch track over and across the northwesterly-and-southeasterly fifteen (15) foot public alley lying northeasterly of Baltimore avenue from a point on the northeasterly line thereof approximately two hundred seventy-five (275) feet northwesterly of the northwesterly line of Commercial avenue to a point on the southwesterly line thereof approximately three hundred twenty (320) feet northwesterly of the northwesterly line of Commercial avenue, as shown in red upon blue print hereto attached which for greater certainty is hereby made a part of this ordinance.

SECTION 2. The permission and authority herein granted shall cease and determine twenty (20) years from and after the date of the passage of this ordinance, and this ordinance shall at any time before the expiration thereof be subject to modification, amendment or repeal without the consent of the grantee herein, and in case of repeal all the privileges hereby granted shall thereupon cease and determine. In the event of the termination of the authority or privileges hereby granted by the repeal of this ordinance, the grantee by the filing of the written acceptance hereinafter mentioned, shall be understood as consenting that the city shall retain all money it shall have previously received from said grantee under the provisions of this ordinance, said money to be considered and treated as compensation for the authority, permission and privileges enjoyed from the date of the passage of this ordinance until such repeal.

By the filing of the written acceptance of this ordinance hereinafter provided for, said grantee hereby agrees to elevate at his own expense and without any expense, damage or liability to the City of Chicago of any kind whatsoever, the switch track herein authorized, upon notice so to do from the Commissioner of Public Works, or failing so to do, shall within sixty (60) days after being notified to that effect by the Commissioner of Public Works, remove the switch track herein referred to. Said switch track, if elevated, shall be elevated under the direction and supervision and to the satisfaction of the Commissioner of Public Works, and the construction and material used in the elevation of said switch tracks shall be of the same character as that used in the construction of the main tracks with which said track connects.

SECTION 3. During the life of this ordinance the grantee herein shall keep such portion of said alley as is occupied by said switch track in good condition and repair and safe for public travel, to the satisfaction and approval of the Commissioner of Public Works. At the termination of the rights and privileges herein granted, by expiration of time or otherwise, the said grantee shall forthwith restore such portion of said alley occupied by said switch track to a condition safe for public travel, similar to the remaining portion of said alley in the same block, to the satisfaction and approval of the Commissioner of Public Works. If said grantee shall fail to restore said alley at the termination of said privileges, then the work shall be done by the City of Chicago, and the cost and expense of doing such work shall be paid by the said grantee.

SECTION 4. The operation and maintenance of the switch track herein provided for shall be subject to all existing ordinances of the City of Chicago now in force or which may hereafter be in force relating to the use and operation of switch tracks and railroad tracks, and the construction and maintenance thereof shall be under the supervision and to the satisfaction of the Commissioner of Public Works.

SECTION 5. The said grantee agrees to pay to the City of Chicago as compensation for said switch tracks, the sum of Fifty Dollars ($50.00) per annum, payable annually in advance, the first payment to be made as of the date of the passage of this ordinance and each succeeding payment annually thereafter, provided that if default is made in the payment of any of the installments of compensation herein provided for, the privileges herein granted may be immediately revoked by the Mayor, or this ordinance may be repealed by the City Council under the powers reserved in Section two (2) hereof, and thereupon this ordinance shall become null and void.

SECTION 6. Before doing any work under and by virtue of the authority herein granted, said grantee shall execute a bond to the City of Chicago in the penal sum of Ten Thousand Dollars ($10,000.00), with sureties to be approved by the Mayor, conditioned upon the faithful observance and performance of all and singular the conditions and provisions of this ordinance; and conditioned further to indemnify, keep and save harmless the City of Chicago against all liabilities, judgments, costs, damages and expenses which may in any wise come against said City in consequence of the granting of this ordinance, or which may ac-

crue against, be charged to or recovered from said City from or by reason or on account of the passage of this ordinance, or from or by reason or on account of any act or thing done by the grantee herein by virtue of the authority herein granted. Said bond and the liability of the sureties thereon shall be kept in full force throughout the life of this ordinance, and if at any time during the life of this ordinance such bond shall not be in full force, then the privileges herein granted shall thereupon cease.

SECTION 7. This ordinance shall take effect and be in force from and after its passage, provided that a written acceptance of this ordinance and the bond hereinafter provided for shall be filed with the City Clerk within sixty (60) days after the passage of this ordinance.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That permission and authority be and the same are hereby given and granted to The Pittsburgh, Cincinnati, Chicago and St. Louis Railroad Company, a corporation, its successors and assigns, to maintain and operate as now constructed a single railroad switch track across Ann street from a point on the west line thereof approximately seventy-five (75) feet north of the north line of Carroll avenue to a point on the east line thereof approximately sixty-five (65) feet north of the north line of Carroll avenue; also to maintain and operate as now constructed two single railroad switch tracks across the first east-and-west eighteen-foot public alley north of Carroll avenue, from points on the north line thereof approximately one hundred ten (110) and one hundred eighty-five (185) feet east of the east line of North Elizabeth street to points on the south line thereof approximately one hundred seventy (170) feet and two hundred fifty (250) feet east of the east line of North Elizabeth street respectively, the location of the said tracks being substantially as shown in red upon blue print hereto attached, which for greater certainty is hereby made a part of this ordinance.

SECTION 2. The permission and authority herein granted shall cease and determine twenty (20) years from March 1, 1918, and this ordinance shall at any time before the expiration thereof be subject to modification, amendment or repeal without the consent of the grantee herein, and in case of repeal all the privileges hereby granted shall thereupon cease and determine. In the event of the termination of the authority or privileges hereby granted by the repeal of this ordinance, the grantee by the filing of the written acceptance hereinafter mentioned, shall be understood as consenting that the city shall retain all money it shall have previously received from said grantee under the provisions of this ordinance, said money to be considered and treated as compensation for the authority, permission and privileges enjoyed from the date of the passage of this ordinance until such repeal.

By the filing of the written acceptance of this ordinance hereinafter provided for, said grantee hereby agrees to elevate at its own expense and without any expense, damage or liability to the City of Chicago of any kind whatsoever, the switch tracks herein authorized, upon notice so to do from the Commissioner of Public Works, or failing so to do, shall within sixty (60) days after being notified to that effect by the Commissioner of Public Works, remove the switch tracks herein referred to. Said switch tracks, if elevated, shall be elevated under the direction and supervision and to the satisfaction of the Commissioner of Public Works, and the construction and material used in the elevation of said switch tracks shall be of the same character as that used in the construction of the main tracks with which said tracks connect.

SECTION 3. During the life of this ordinance the

grantee herein shall keep such portion of said street and alley as are occupied by said switch tracks in good condition and repair and safe for public travel, to the satisfaction and approval of the Commissioner of Public Works. At the termination of the rights and privileges herein granted, by expiration of time or otherwise, the said grantee shall forthwith restore such portion of said street and alley occupied by said switch tracks to a condition safe for public travel, similar to the remaining portion of said street and alley in the same block, to the satisfaction and approval of the Commissioner of Public Works. If said grantee shall fail to restore said street and alley at the termination of said privileges, then the work shall be done by the City of Chicago, and the cost and expense of doing such work shall be paid by the said grantee.

SECTION 4. The operation and maintenance of the switch tracks herein provided for shall be subject to all existing ordinances of the City of Chicago now in force or which may hereafter be in force relating to the use and operation of switch tracks and railroad tracks, and the construction and maintenance thereof shall be under the supervision and to the satisfaction of the Commissioner of Public Works.

SECTION 5. The said grantee agrees to pay to the City of Chicago as compensation for said switch tracks the sum of Two Hundred Fifteen Dollars ($215.00) per annum, payable annually in advance, the first payment to be made as of the date of March 1, 1918, and each succeeding payment annually thereafter, provided that if default is made in the payment of any of the installments of compensation herein provided for, the privileges herein granted may be immediately revoked by the Mayor, or this ordinance may be repealed by the City Council under the powers reserved in section two (2) hereof, and thereupon this ordinance shall become null and void.

SECTION 6. Before doing any work under and by virtue of the authority herein granted, said grantee shall execute a bond to the City of Chicago in the penal sum of Ten Thousand Dollars ($10,000.00), with sureties to be approved by the Mayor, conditioned upon the faithful observance and performance of all and singular the conditions and provisions of this ordinance; and conditioned further to indemnify, keep and save harmless the City of Chicago against all liabilities, judgments, costs, damages and expenses which may in any wise come against said City in consequence of the granting of this ordinance, or which may accrue against, be charged to or recovered from said City from or by reason or on account of the passage of this ordinance, or from or by reason or on account of any act or thing done by the grantee herein by virtue of the authority herein granted. Said bond and the liability of the sureties thereon shall be kept in full force throughout the life of this ordinance, and if at any time during the life of this ordinance such bond shall not be in full force, then the privileges herein granted shall thereupon cease.

SECTION 7. This ordinance shall take effect and be in force from and after its passage, provided that a written acceptance of this ordinance and the bond hereinabove provided for shall be filed with the City Clerk within sixty (60) days after the passage of this ordinance.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That permission and authority be and the same are hereby given and granted to the Chicago Junction Railway Company, a corporation, its successors and assigns, to maintain and operate as now constructed the following described switch tracks, to wit:

A single railroad switch track beginning at a point on the westerly line of the first northwesterly-and-southeasterly twenty-foot public alley east of Lake Park avenue approximately two hundred twenty (220) feet northwesterly of the north line of East 42nd street; thence running in and along said alley, crossing East 42nd street to the north line of East 42nd place; and

A single railroad switch track connecting with the above-described track in said alley at a point approximately eighty (80) feet northwesterly of the north line of East 42nd street; thence running in, along and across said alley to a point on the westerly line thereof approximately one hundred sixty (160) feet northwesterly of the north line of East 42nd street, as shown in yellow upon blue print hereto attached, which for greater certainty is hereby made a part of this ordinance.

SECTION 2. The permission and authority herein granted shall cease and determine twenty (20) years from and after October 5, 1914, and this ordinance shall at any time before the expiration thereof be subject to modification, amendment or repeal without the consent of the grantee herein, and in case of repeal all the privileges hereby granted shall thereupon cease and determine. In the event of the termination of the authority or privileges hereby granted by the repeal of this ordinance, the grantee by the filing of the written acceptance hereinafter mentioned, shall be understood as consenting that the city shall retain all money it shall have previously received from said grantee under the provisions of this ordinance, said money to be considered and treated as compensation for the authority, permission and privileges enjoyed from the date of the passage of this ordinance until such repeal.

By the filing of the written acceptance of this ordinance hereinafter provided for, said grantee hereby agrees to elevate at its own expense and without any expense, damage or liability to the City of Chicago of any kind whatsoever, the switch tracks herein authorized, upon notice so to do from the Commissioner of Public Works; or failing so to do, shall within sixty (60) days after being notified to that effect by the Commissioner of Public Works, remove the switch tracks herein referred to. Said switch tracks, if elevated, shall be elevated under the direction and supervision and to the satisfaction of the Commissioner of Public Works, and the construction and material used in the elevation of said switch tracks shall be of the same character as that used in the construction of the main tracks with which said tracks connect.

SECTION 3. During the life of this ordinance the grantee herein shall keep such portion of said street and alley as are occupied by said switch tracks in good condition and repair and safe for public travel, to the satisfaction and approval of the Commissioner of Public Works. At the termination of the rights and privileges herein granted, by expiration of time or otherwise, the said grantee shall forthwith restore such portion of said street and alley occupied by said switch tracks to a condition safe for public travel, similar to the remaining portion of said street and alley in the same block, to the satisfaction and approval of the Commissioner of Public Works. If said grantee shall fail to restore said street and alley at the termination of said privileges, then the work shall be done by the City of Chicago, and the cost and expense of doing such work shall be paid by the said grantee.

SECTION 4. The operation and maintenance of the switch tracks herein provided for shall be subject to all existing ordinances of the City of Chicago now in force or which may hereafter be in force relating to the use and operation of switch tracks and railroad tracks, and the construction and maintenance thereof shall be under the supervision and to the satisfaction of the Commissioner of Public Works.

SECTION 5. The said grantee agrees to pay to the City of Chicago as compensation for that portion of the tracks heretofore constructed the sum of Four Hundred Twenty Dollars ($420.00) per annum for the period beginning October 5, 1914, and ending with the date of the passage of this ordinance, said sum to be paid to the said City within sixty (60) days after the passage hereof; and the said grantee further agrees to pay to the said City of Chicago as compensation for the privileges granted by this ordinance, the sum of Eight Hundred Thirty Dollars ($830.00) per annum, payable annually in advance, the first payment to be made as of the date of the passage of this ordinance and subsequent payments annually thereafter on October 5th of each year, provided that if default is made in the payment of any of the installments of compensation herein provided for, the privileges herein granted may be immediately revoked by the Mayor, or this ordinance may be repealed by the City Council under the powers reserved in Section two (2) hereof, and thereupon this ordinance shall become null and void.

SECTION 6. Before doing any work under and by virtue of the authority herein granted, said grantee shall execute a bond to the City of Chicago in the penal sum of Ten Thousand Dollars ($10,000.00), with sureties to be approved by the Mayor, conditioned upon the faithful observance and performance of all and singular the conditions and provisions of this ordinance; and conditioned further to indemnify, keep and save harmless the City of Chicago against all liabilities, judgments, costs, damages and expenses which may in any wise come against said City in consequence of the granting of this ordinance, or which may accrue against, be charged to or recovered from said City from or by reason or on account of the passage of this ordinance, or from or by reason or on account of any act or thing done by the grantee herein by virtue of the authority herein granted. Said bond and the liability of the sureties thereon shall be kept in full force throughout the life of this ordinance, and if at any time during the life of this ordinance such bond shall

not be in full force, then the privileges herein granted shall thereupon cease.

SECTION 7. This ordinance shall take effect and be in force from and after its passage, provided that a written acceptance of this ordinance and the bond hereinabove provided for shall be filed with the City Clerk within sixty (60) days after the passage of this ordinance.

Ald. Toman moved to adopt said amendment.

The motion prevailed.

Ald. Toman moved to pass said ordinance as amended.

The motion prevailed, by yeas and nays as follows:

Yeas—Coughlin, L. B. Anderson, Jackson, Iliff, Schwartz, Hickey, McDonough, A. A. McCormick, Nance, Fetzer, Guernsey, Woodhull, Furman, Johnson, Govier, Klaus, McNichols, Cullerton, Novak, Kerner, Ahern, Horne, Maypole, Smith, Kaindl, Olsen, Kunz, Piotrowski, Adamkiewicz, Touhy, Kavanagh, Powers, Bowler, Fick, Franz, Walker, Ellison, Bauler, Wallace, Steffen, Roeder, Haderlein, Link, Pretzel, Kennedy, Littler, Adamowski, Hrubec, Byrne, O'Toole, Long, Moran, Fisher, A. O. Anderson, Kostner—55.

Nays—None.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That permission and authority be and the same are hereby given and granted to the Monarch Refrigerating Company of Chicago, a corporation, its successors and assigns, to reconstruct, maintain and operate a bulkhead or loading platform in the sidewalk space on the north side of East Austin avenue between a point fourteen (14) feet east of the east line of Cass street and a point fourteen (14) feet west of the west line of Rush street in connection with the premises known as 40 to 66 East Austin avenue. Said bulkhead or loading platform shall not exceed two hundred seventy-two (272) feet in length, fourteen (14) feet in width and the grade of the same at the inside edge thereof shall not be more than one and one-tenth (1 1/10th) feet above the established inside grade at that point. The ends of said bulkhead or loading platform shall be connected with the regular sidewalk grade at the east line of Cass street and the west line of Rush street by ramps fourteen (14) feet long and fourteen (14) feet wide, constructed of the same material as said bulkhead or loading platform and surfaced either with metal cleats spaced approximately fifteen (15) inches on center, or with a durable non-slip material. The said bulkhead and ramps shall be constructed and maintained entirely in the sidewalk space within the property lines of the said grantee, the location and construction thereof to be substantially as shown upon sketch hereto attached, which for greater certainty is hereby made a part of this ordinance.

SECTION 2. The permission and authority herein granted shall cease and determine April 30, 1923, or may be revoked at any time prior thereto by the Mayor in his discretion without the consent of the grantee herein named. This ordinance shall also be subject to amendment, modification or repeal at any time without the consent of the said grantee, and in case of such repeal all the privileges herein granted shall thereupon cease and determine. In the event of the termination, revocation, amendment or modification of the privileges herein granted, by lapse of time, the exercise of the Mayor's discretion, or the exercise by the City Council of the powers above reserved, the grantee, by the filing of the written acceptance hereinafter provided for, shall be understood as consenting that the City shall retain all money it shall have previously received from said grantee under the provisions of this ordinance, said money to be considered and treated as compensation for the authority, permission and privileges enjoyed from the date of the passage of this ordinance until such repeal.

SECTION 3. During the life of this ordinance said grantee shall at all times keep said bulkhead or loading platform and ramps and the portion of the sidewalk immediately surrounding same in good condition and repair, safe for public travel, and free from snow, ice and dirt, to the satisfaction of the Commissioner of Public Works of the City of Chicago. No permit shall be issued allowing any work to be done in and about the construction or reconstruction of said bulkhead or loading platform and ramps until plans and specifications of the completed structure shall first have been submitted to and approved by the Commissioner of Public Works, and the construction or reconstruction and maintenance thereof shall at all times be under the supervision and to the satisfaction of the said Commissioner of Public Works.

SECTION 4. At the expiration of the term herein granted, upon the revocation by the Mayor of the permission and authority herein granted, or upon the repeal of this ordinance, said grantee, its successors or assigns, shall forthwith remove said bulkhead or loading platform and ramps and restore the sidewalk to its proper condition, to the satisfaction of the Commissioner of Public Works, so that the portion of said sidewalk where said bulkhead or loading platform and ramps had been located shall be put in the same condition as the other parts of said sidewalk in the same block.

SECTION 5. No work shall be done under the authority of this ordinance until a permit authorizing same shall have been issued by the Commissioner of Public Works, and no permit shall issue until the grantee herein shall execute to the City of Chicago a good and sufficient bond in the penal sum of Ten Thousand Dollars ($10,000.00) with sureties to be approved by the Mayor, conditioned upon the faithful observance and performance of all and singular the conditions and provisions of this ordinance, and conditioned further to indemnify, keep and save harmless the City of Chicago against all liabilities, judgments, costs, damages and expenses which may in any wise come against said City in consequence of the granting of this ordinance, or which may accrue against, be charged to

or recovered from said City from or by reason or on account of the passage of this ordinance, or from or by reason or on account of any act or thing done by the grantee herein by virtue of the authority herein granted. Said bond and the liability of the sureties thereon shall be kept in force throughout the life of this ordinance and if at any time during the life of this ordinance such bond shall not be in full force, then the privileges herein granted shall thereupon cease.

SECTION 6. The said grantee agrees to pay to the City of Chicago as compensation for said bulkhead or loading platform and ramps the sum of Six Hundred Thirty Dollars ($630.00) per annum, payable annually in advance, the first payment to be made as of July 10, 1917, and each succeeding payment annually thereafter on May 1 of each year; provided that if default is made in the payment of any of the installments of compensation herein provided for, the privileges herein granted may be immediately terminated under any one of the powers reserved to the Mayor or City Council by Section two (2) hereof, and thereupon this ordinance shall become null and void.

SECTION 7. This ordinance shall take effect and be in force from and after its passage and approval, provided that the grantee herein files its written acceptance of this ordinance and the bond hereinabove provided for with the City Clerk within sixty (60) days after the passage hereof.

REPORTS AND COMMUNICATIONS FROM CITY OFFICERS.

War Veterans: Preference in Civil Service Examinations.

The Mayor submitted the following communication, which was ordered published, and consideration of which was deferred:

OFFICE OF THE MAYOR,
CHICAGO, August 14, 1918.

To the Honorable, the City Council of the City of Chicago:

GENTLEMEN—I am in receipt of a communication from the Chairman of the Cook County Commanders

Association of the United Spanish War Veterans, which reads as follows:

"Sometime ago the United Spanish-American War Veterans, Commanders Association of Cook County, addressed a communication to the City Council, in reference to Civil Service preference for Spanish-American War Veterans and all War Veterans, which communication was referred to the Committee on Schools, Fire, Police and Civil Service, and was mentioned in the Council Proceedings of May 20, 1918.

"Up to the present time said Committee has taken no action in the matter, and we are informed that certain Members of the Committee propose to wait action until after September primaries. As the Spanish War Veterans and all War Veterans are interested in seeing the City of Chicago take action requested, which is no more than has been granted by many States and municipalities, we would respectfully request that, if possible, this matter receive favorable action before the vacation adjournment."

Permit me to suggest that if the matter is not, it should be entirely divorced from political considerations, and I recommend that your Honorable Body act upon the pending proposition before you adjourn for the summer.

Yours very truly,

(Signed) WM. HALE THOMPSON,
Mayor.

Proposed Boxing Exhibitions at Comiskey Park for Salvation Army Fund Benefit.

The Mayor submitted the following communication, which was ordered published, and consideration of which was deferred:

OFFICE OF THE MAYOR.
CHICAGO, August 13, 1918.

To the Honorable, the City Council of the City of Chicago:

GENTLEMEN—The newspapers having misrepresented what took place with respect to the proposed prize fights and sparring or boxing exhibitions at Comiskey Park, on Aug. 10, 1918, I submit herewith the correspondence on that subject, so that you and through you the people may have accurate information as to what occurred. First, is a letter from L. E. Myers, Chairman, to Samuel A. Ettelson, Corporation Counsel, as follows:

THE STATE COUNCIL OF DEFENSE.
COOK COUNTY AUXILIARY, 120 W. ADAMS ST.,
CHICAGO, August 8, 1918.

Honorable Samuel A. Ettelson, Corporation Counsel, City Hall, Chicago, Illinois:

MY DEAR MR. ETTELSON—At our first interview with respect to the Athletic Carnival to be held Saturday next at Comiskey Park, for the benefit of the Salvation Army fund for the care and comfort of our men overseas, you suggested that I arrange to have Comiskey Park taken over by the Federal troops, thus relieving the Administration of all responsibility.

In accordance with your suggestion, that arrangement has been perfected, and I telephoned you a few days ago that Company I, Fortieth U. S. Infantry, under command of Captain Staton, will encamp at Comiskey Park tomorrow afternoon and remain there until Sunday.

In view, of all the foregoing, I was this morning very much surprised to hear that Chief Alcock had issued an order to stop the performance slated for Saturday and I assume it was done under misapprehension, that is, that Chief Alcock did not know of your suggestion regarding a Military Camp.

I am afraid the public will misunderstand the situation and that the sale of seats will be very much effected, thereby substantially decreasing the amount of money we want to raise for this very worthy purpose.

Will you be good enough to set Chief Alcock right on this situation? We will, of course, be very glad to have Chief Alcock police the streets around the park, but we can if he prefers provide the necessary protection through the Eleventh Regiment Illinois Reserve Militia.

Permit me in conclusion to emphasize the fact that nothing on Saturday's program in any way violates the law. There is to be wrestling, gladiatorial posing, tug of war between the police and fire departments, and a scientific exhibition of boxing by the men of Camp Grant and Fort Sheridan, which is a part of their usual course of training to fit them for overseas duty, and which will be given Saturday at the express direction of General Martin, Commanding Officer at Camp Grant and Colonel Chapman, Commanding Officer of Fort Sheridan.

In view of the fact, that this is an entirely military affair, held at the direction of the proper Military Officer, and no way in violation of the law of the State, I fail to understand Chief Alcock's order and respectfully submit that he ought not to allow a false impression to find place in the public mind.

On Saturday I would be very glad to have you be my guest together with some other patriotic gentlemen who are going to attend the affair with me.

Very truly yours,

(Signed) L. E. MYERS,
Chairman.

The Corporation Counsel replied to Mr. Myers as follows:

CHICAGO, August 8, 1918.

Mr. L. E. Myers, Chairman, 120 West Adams St., Chicago:

DEAR SIR—I am in receipt of your letter of today, in relation to the athletic carnival to be held Saturday next at Comiskey Park.

If, as you state, "nothing on Saturday's program in any way violates the law," you need have no fear of police interference.

However, let me call your attention to Sections 231 to 236, both inclusive, of the Criminal Code of the State of Illinois, which read as follows:

"231. **Sending Challenge—Training For.)** Sec. 231. Whoever sends, publishes or causes to be sent or published, or otherwise made known, any challenge to fight what is commonly known as a prize fight, or shall accept any such challenge, or

cause the same to be accepted, or goes into training preparatory to such fight, or acts as trainer for for any person contemplating any participation in such fight, or witnesses such training or engages as a witness in any such fight, shall be confined in the county jail not exceeding six months, and fined not exceeding $500. (L. 1869, p. 307, Sec. 1; p. 112, Sec. 3.

'232. **Engaging In.)** Sec. 232. Whoever, by previous appointment or arrangement, meets another person and engages in a prize fight, shall be imprisoned in the penitentiary not less than one nor more than ten years. (L. 1869, p. 307, Sec. 1; p. 112, Sec. 3.

'233. **Aids, Seconds, Etc.)** Sec. 233. Whoever is present at such fight as an aid, second or surgeon, or advises, encourages or promotes such fight, shall be imprisoned in the penitentiary not less than one nor more than five years, or be confined in the county jail not exceeding one year and fined not exceeding $1,000. (L. 1869, p. 307, Sec. 1; p. 112, Sec. 3.

'234. **Leaving the State to Fight.)** Sec. 234. Whoever, being an inhabitant or resident of this state, by previous appointment or engagement made therein, leaves the state and engages in a fight with another person without the limits thereof, shall be imprisoned in the penitentiary not exceeding five years, or fined not exceeding $5,000. (L. 1869, p. 112, Sec. 3.

'235. **Sparring and Boxing Exhibitions.)** Sec. 235. Whoever instigates, carries on, promotes or engages in as a witness any sparring or boxing exhibition, shall be fined not exceeding $500, or confined in the county jail not exceeding six months. (L. 1869, p. 307, Sec. 2.

'236. **Preventing.)** Sec. 236. Any person who shall, upon complaint made before any judge or justice of the peace, appear to be about to engage in any such fight or sparring or boxing exhibition, may be compelled to enter into bond with security to keep the peace, as in other cases of threatened breaches of the peace.'

For years, and more especially since the war began, many persons, on a variety of pretexts, have attempted to evade the above law and promote in Chicago prize fights and sparring or boxing exhibitions. But the city officials who are charged with the enforcement of the law have refused to allow such exhibitions to be held.

This situation has been fully explained to you many times and you have been told that prize fights and sparring or boxing exhibitions would not be permitted in this city.

You were also told, as the fact was, that I had taken this matter up directly with the Secretary of War and the Secretary of the Navy; that I had received no reply from the Secretary of War, but that I had received from the Navy Department a communication reading as follows:

'The Bureau has received, by reference from the Secretary of the Navy, your letter of July 2nd, 1918, with reference to correspondence relative to boxing bouts planned as part of the Elks program on July 6th.

'It appears from the correspondence that bouts of this character are prohibited by the State laws of Illinois, and the Navy Department of course does not wish to take any action in matters of this kind which would be inconsistent or in violation with State laws.'

Notwithstanding all this, you have proceeded to advertise the carnival for next Saturday and to cause tickets for admission thereto to be sold, on the assumption that some way or other you would be permitted to violate the State law.

Hence, your alleged surprise at the attitude taken by Chief Alcock is wholly without foundation.

Your statement that I suggested to you that prize fights or boxing or sparring exhibitions could be held at Comiskey Park next Saturday provided the military authorities took possession thereof is not true. Such suggestion was discussed between you and me, but it emanated from you and not from me. You were referred to Assistant Corporation Counsel James W. Breen, who took up the matter with you and told you plainly that such exhibitions could not be permitted. You then promised Mr. Breen that you would procure authority from the Secretary of War for the giving of this exhibition. But you have failed to do so.

According to the newspapers, you expect to have Jack Dempsey, Jesse Willard, and other well-known professional prize fighters on exhibition next Saturday afternoon. And, while, in your letter, you state, as above quoted, "that nothing on Saturday's program in any way violates the law" you go on to say: "There is to be * * * a scientific exhibition of boxing by the men of Camp Grant and Fort Sheridan." Perhaps when you made the statement in your letter, your attention had not been called to Section 235, above quoted, which reads as follows:

'Whoever instigates, carries on, promotes, or engages in as a witness, any sparring or boxing exhibition, shall be fined not exceeding $500, or confined in the County Jail not exceeding six months.'

In considering this question, it is important to avoid a confusion of issues.

As above pointed out, the State law positively prohibits not only prize fights, but sparring or boxing exhibitions.

The Legislature has frequently considered this question and has conclusively established that such exhibitions in public are contrary to good morals and against the public interest. Their value as a part of the training of soldiers and sailors in military camps is not a question here involved. The question here presented is as to the legality of such exhibitions before the general public in a place of amusement.

The city officials are charged with the enforcement of the State laws, as they find them; and they have no right to enforce such laws as they deem wise and refuse to enforce such laws as they think unwise.

And no responsible Federal authority has attempt-

ed to suspend the State laws with respect to prize fighting and sparring or boxing exhibitions. On the contrary, as we have seen, the Navy Department has taken the position that such laws should be obeyed.

No one questions the propriety or commendableness of making contributions to the Overseas Fund of the Salvation Army. Let there be no misunderstanding on that point. Such contributions are most praiseworthy and should be encouraged in every legitimate way. Everyone should contribute to the extent of his ability. But no one having only the interests of the soldiers and sailors at heart will make his contribution to such fund depend upon prize fights and boxing and sparring exhibitions being held in violation of the Statutes of the State of Illinois.

In short, no one has the slightest desire in any way to obstruct contributions to the Overseas Fund of the Salvation Army, but every good citizen should be opposed to the promotion of prize fights and sparring or boxing exhibitions in defiance of the State law.

In view of the foregoing, you will perceive that it is my opinion that Chief Alcock has taken the only position which, as Chief of Police, he could take, under the law.

Very truly yours,

(Signed) SAMUEL A. ETTELSON,
Corporation Counsel.

The Corporation Counsel sent copies of the letter of Mr. Myers to him and his reply to Mr. Myers to Governor Lowden, Secretary of War Baker, Secretary of Navy Daniels and Major General Thos. H. Barry. He has received no reply from Governor Lowden or Secretary Baker or Secretary Daniels. From General Barry he received a letter as follows.

"WAR DEPARTMENT,
HEADQUARTERS CENTRAL DEPARTMENT,
CHICAGO, August 9, 1918.

Hon. Chester E. Cleveland, First Assistant Corporation Counsel, No. 511 City Hall, Chicago, Illinois:

DEAR SIR—I just have your letter of August 8th, inclosing copy of a letter same date from L. E. Myers, Chairman, and replying thereto I beg to say that this Department has nothing to do with the athletic carnival, to be held at Comiskey Park, Saturday, August 10th.

Mr. Myers' letter to Honorable Samuel A. Ettelson states among other things:

(a) 'At our first interview with respect to the Athletic Carnival to be held Saturday next at Comiskey Park, for the benefit of the Salvation Army fund for the care and comfort of our men overseas, you suggested that I arrange to have Comiskey Park taken over by the Federal troops, thus relieving the Administration of all responsibility. In accordance with your suggestion, that arrangement has been perfected, and I telephoned you a few days ago that Company I, Fortieth U. S. Infantry under command of Captain Staton, will encamp at Comiskey Park tomorrow afternoon and remain there until Sunday.

(b) 'Permit me in conclusion to emphasize the fact that nothing on Saturday's program in any way violates the law. There is to be wrestling, gladiatorial posing, tug of war between the police and fire departments, and a scientific exhibition of boxing by the men of Camp Grant and Fort Sheridan, which is a part of their usual course of training to fit them for overseas duty, and which will be given Saturday at the express direction of General Martin, Commanding Officer at Camp Grant and Colonel Chapman, Commanding Officer at Fort Sheridan.'

In respect of (a), Captain Staton and Company I, 40th Infantry, have not been authorized to be at Comiskey Park on Saturday, and will not encamp there.

In respect of (b), it is therein stated that the boxing will be given 'at the express direction of General Martin, Commanding Officer at Camp Grant, and Colonel Chapman, Commanding Officer at Fort Sheridan'. I have no jurisdiction over General Martin, but as to Colonel Chapman, Commanding Officer at Fort Sheridan I have jurisdiction, and I have to say that he will have no direction over what takes place at Comiskey Park on Saturday.

Any troops belonging to the Central Department who appear at Comiskey Park Saturday, August 10th, will be there for drilling purpose and participants in the carnival, but their presence will in no way partake of military occupation, nor will they have anything whatever to do with the management or control of the carnival.

Very respectfully,

Major General, U. S. A."

Unpaid Back Taxes on Unlisted Property: Proposition of W. F. Mulvihill To Secure Payment.

The Mayor submitted the following communication, which was ordered published and referred to the Committee on Finance:

OFFICE OF THE MAYOR,
CHICAGO, August 14, 1918,

To the Honorable the City Council of the City of Chicago:

GENTLEMEN—It is generally understood that a very large amount of personal property, consisting of moneys, credits, notes, bonds, stocks and like property is not listed for taxation in this city. The result, among other things, is that the city is severely crippled for want of revenue necessary to carry on its business; and, furthermore, the burden of taxation is unjustly and inequitably distributed.

I submit herewith a letter from William F. Mulvihill to me, which contains his proposition to aid in discovering property not listed for taxation. He asks nothing for his services and expenses except a small percentage of the revenue which shall be produced as the result of his efforts.

In view of your inability to procure adequate revenue properly to carry on the City's business, I recommend that you accept Mr. Mulvihill's proposition, as it seems to be a very proper means of adding materially to such revenue without imposing any burden on the City.

His proposition is as follows:

"CHICAGO, July 15, 1918.

The Hon. Wm. Hale Thompson, Mayor, City Hall, Chicago:

DEAR MR. MAYOR—As you know, there are large sums of money due the City of Chicago as taxes on personal property which has been omitted to be listed, scheduled and returned for taxation, such property consisting of moneys, credits, notes, bonds, stocks and shares of capital stock of companies and associations not incorporated by the laws of this state, owned by persons residing in this city and subject to taxation therein, which said taxable property has been sequestered and concealed for years, and, because of the fact that no evidence of the existence and ownership of such taxable property is to be found in the public records of Cook County, and because of the failure of the several owners of such property to list, schedule and return the same for taxation, neither the assessors nor the Board of Review have been able to discover and to assess the same, by reason whereof an unequal burden of taxation has been imposed upon all other tax-payers and the total amount of taxes collected for municipal, as well as for school and other purposes, has been materially curtailed.

As a result of extended investigations which have been made and are now going forward under my direction I believe I am in a position, if authorized to act as counsel for the City of Chicago for that purpose, to discover and to cause to be listed and assessed a very considerable amount of personal property, as aforesaid, which has heretofore, for several years past, "been omitted in the assessment"; to enforce the assessment on such omitted property, in accordance with the law, and thus to cause large sums in back taxes, due from wealthy tax-evaders, to be paid into the treasury for the benefit of the City of Chicago.

The law expressly empowers the several taxing bodies interested in the collection of taxes upon omitted taxable property to employ counsel to appear before the Board of Review and take all necessary steps to enforce the assessment on such omitted property. I therefore, submit the following proposal:

In consideration of a proper agreement between the City and myself, authorizing me to represent the City as counsel for such purpose, I will undertake, at my expense, promptly to discover and to report for assessment and taxation in accordance with the law, to the Board of Review, of Cook County, Illinois, such property subject to assessment as shall have been omitted from assessment for any year or number of years, such as money, credits, notes, bonds, stocks and shares of capital stock of companies and associations not incorporated by the laws of this state, owned by persons who are residents of the City of Chicago and subject to taxation therein, my compensation to be fixed at a sum equal to and not more than fifteen percentum (15%) of the amount of taxes belonging to the City of Chicago actually collected upon such omitted taxable property as I shall report or cause to be reported as aforesaid, no payment to be made to me except and until the taxes upon such omitted property are actually collected and paid into the treasury, all investigations to be made at my expense and no liability to attach to the City on account of the same, the said fifteen percentum (15%) to include compensation of any and all persons employed by or assisting me in carrying out the foregoing proposition.

In this connection permit me to say that as the school and municipal taxes of Chicago are levied upon the same assessed properties, the failure of the owners of the personal property as above to schedule the same has deprived the schools of taxes almost equal to the amount the City has so far failed to receive, and I have, therefore, heretofore made an agreement with the Board of Education of the City of Chicago, similar in character to the one herein proposed, under which I am now authorized to represent that body as counsel for the same purposes as are herein proposed.

My contract with the Board of Education fixes a maximum compensation to me from all taxing bodies and the Board of not exceeding thirty percentum (30%) of the amount of taxes actually collected for school purposes on property reported by me, and provides for a proportionate reduction to the Board if the City of Chicago or other taxing body interested in the collection of taxes upon omitted taxable property shall see fit to employ me in the premises, and thus divide the expense of collection between the bodies benefitted, the provision reading:

"It is further understood and agreed by and between the parties that should the party of the second part (Wm. F. Mulvihill) consummate and enter

into an agreement with the City of Chicago, or other taxing body interested in the collection of taxes from property subject to assessment which shall have been omitted from assessment for any year or number of years, to represent said city or other taxing body as counsel for the purpose of discovering and reporting for taxation such omitted property, then the total amount of compensation to be paid to the party of the second part by all of said taxing bodies and said Board of Education combined shall not exceed thirty per cent (30%) of the total amount of taxes actually collected for the Board of Education upon such omitted property discovered and reported by the party of the second part; and the amount of compensation to be paid to the party of the second part by the party of the first part (The Board of Education of the City of Chicago) as hereinbefore provided shall be reduced to such part of said thirty per cent (30%) as will be in proportion thereto that part of such total taxes set apart by law for school purposes bears to the aggregate of such taxes set apart by law for each and all of said taxing bodies represented by the party of the second part, including said Board of Education.'

May I also state that it is my purpose to submit a similar proposal to the above to the Trustees of the Sanitary District and if the same is accepted I shall be happy to reduce the compensation to be paid me by the City of Chicago and by the Board of Education in due proportion and in harmony with the above agreement, and I am willing to so stipulate in any agreement with the City of Chicago.

If the above proposal meets with your approval I trust you will transmit the same forthwith to the City Council with such indorsement and suggestions as you may deem appropriate.

Respectfully submitted,

(Signed) WM. F. MULVIHILL."

Respectfully submitted,

(Signed) WM. HALE THOMPSON,
Mayor.

Local Transportation System: Request for a Hearing on a Proposed Ordinance.

The Clerk presented the following communication, consideration of which was deferred:

GREATER CHICAGO FEDERATION,
CHICAGO, ILL., August 14, 1918.

To the Honorable Mayor and the Members of the City Council:

GENTLEMEN—The Greater Chicago Federation has given much study to the traction question now being considered by the city, and feels that the proceedings so far, have been hurried and without any opportunity

for discussion at public hearings, a right which we think the public are entitled to.

It is true that several hearings were granted but the discussion at such hearings has been confined to the alluring side of the program, the physical features, but no discussion on the general policy, financial, or other sides of the question has been invited by the Local Transportation Committee in any public hearings.

Inasmuch as this is the greatest piece of legislation that the city has ever had under consideration, and inasmuch as the traction grant is for an indeterminate or practically perpetual period, as the traction interests will at no future time be required to ask for further extension of time, and will only terminate at such time as the city may legally acquire if that should ever be possible, we think that the City Council should afford very open, free and broad public discussion.

In order to give free expression and for the purpose of throwing the entire question open to the public for discussion we ask and do hereby request the Mayor and the City Council, to resolve the City Council into a committee of the whole, and invite the public to appear before it and voice their expression for or against the ordinance.

The Greater Chicago Federation, through its counsel, is prepared to analyze and give expression on many important features of the proposed ordinance, of which we believe the entire City Council are not familiar with.

We hope to be able to have the opportunity of appearing before your Honorable Body, in a fair, free, and uninterrupted appearance, to present our side of the question.

We remain,

Very respectfully,

GREATER CHICAGO FEDERATION,

(Signed) TOMAZ F. DEUTHER,
Secretary.

Local Transportation System: Protests against a Proposed Ordinance.

The Clerk presented the following resolutions submitted by sundry organizations, which were ordered published and placed on file:

CHICAGO POLITICAL EQUALITY LEAGUE,
CHICAGO, ILL., August 12, 1918.

To the Honorables, Mayor Thompson, and the Members of the Chicago City Council:

GENTLEMEN—

WHEREAS, The Trustee plan as in the traction ordinance now pending before the City Council means control by the traction interests, and does not give the city any representation, and

WHEREAS, It has hitherto been the public policy of the State of Illinois to grant only twenty-year franchises to street car companies; and that only last year the thirty and fifty-year franchises were defeated showing that the sentiment of the people is against long term grants, and

WHEREAS, We believe that this ordinance provides for a perpetual franchise which the citizens of Chicago will not tolerate, and

WHEREAS, We believe this amortization plan is a delusion, and Municipal Ownership almost impossible because the interest granted in this large over-capitalization would reduce all surplus receipts that make up the amortization fund,

WE, The Board of Directors of the Chicago Political Equality League, urge you as the people's representative elected to protect and care for the democracy for which our boys are giving their lives, to vote against this proposed unpatriotic ordinance.

CHICAGO, POLITICAL EQUALITY LEAGUE,

CENTRAL EDGEWATER IMPROVEMENT ASSOCIATION,
CHICAGO, August 13, 1918.

To His Honor, the Mayor, and the City Council of Chicago:

GENTLEMEN—The following resolution was passed last evening by the Central Edgewater Improvement Association:

"WHEREAS, A measure of the most far reaching importance in the City of Chicago, for the merger of the surface and elevated lines, is now before the City Council, and about to be reported for action; and

"WHEREAS, It is proposed to pass this ordinance for a referendum vote at the November election, at a time when thousands of voters are in the army, and at a time when citizens generally are deeply engaged in solving war problems; and

"WHEREAS, Well qualified people claim the proposed ordinance to be a perpetual grant, radically changing the former policy of the City Council, which has heretofore limited all such franchises to twenty years; and

"WHEREAS, There is a wide difference of opinion in regard to the value of the street railway and elevated properties, and the proposed ordinance will legalize any inflated values and so place a burden for generations to come upon the tax payers of this city; and

"WHEREAS, It is contrary to public policy to recommend the approval by the people of grants of such incalculable value at a time when there will be little opportunity to have these questions thoroughly considered by the people; be it therefore

"*Resolved,* By the Central Edgewater Improvement Association at a special meeting held on August 12, 1918, that it respectfully urge the aldermen of the 25th Ward to vote against the passage of the proposed ordinance hereinbefore mentioned, at this time and be it further

"*Resolved,* That a copy of this resolution, be sent to the aldermen of the 25th Ward, and to the Mayor and City Council of Chicago."

Respectfully submitted,

(Signed) H. B. PARKERSON,
President.

Secretary.

August 12, 1918.

To the Honorables, Mayor Thompson, and the Members of the Chicago City Council:

GENTLEMEN—At a special meeting of the Edgewater and Rogers Park Real Estate Men's Association, held on August 12, 1918, called for the purpose of discussing Chicago's Traction question resulted in the passing of the following resolution:

WHEREAS, The present traction question in Chicago has come to the most critical situation, and

WHEREAS, On account of the vast difference of opinion as to the merits of the pending traction ordinance, and

WHEREAS, The present grants of the traction interests still have at least nine more years to run making it unnecessary for the present haste of a new grant, and

WHEREAS, The proposed ordinance has not been permitted to be thoroughly discussed in public hearings, and

WHEREAS, The grant is virtually a perpetual grant being a change in policy from the present 20-year grant, and not best for the interests of the citizens of Chicago, and

WHEREAS, The proposed ordinance would legalize the exaggerated valuations of the surface and elevated lines making the price prohibitive should the city be granted the power to purchase same, and

WHEREAS, Should this ordinance pass the City Council would lose forever the opportunity to barter, compromise, and exact improvements as the only chance the city had to obtain anything was when the traction interests wanted new franchises, the present ordinance being perpetual they will never need to seek permission for further grants from the city, and

WHEREAS, It will be necessary to obtain legislation requiring the abolition of the frontage consent law for elevated roads and subways and as it is planned to put elevated roads over business streets without the owners of frontage having any voice in the matter, and

WHEREAS, These are but a few of the many objections to the proposed ordinance, therefore be it

Resolved, That the Edgewater and Rogers Park Real Estate Men's Association does protest to the aldermen of the City Council against putting the people of Chicago to the expense of a campaign, and to await the coming Constitutional Convention, and through amendments seek the power to make bona fide Municipal Ownership possible and be it further

Resolved, That it is not proper or patriotic to put this referendum before the people at a time when they will be deeply engrossed with the success of our next Liberty loan, other patriotic campaigns, the proposed new draft law, therefore, be it further

Resolved, That we favor the appointment of the city "of a commission, with ample power and financial support, to report such appropriate legislation or such changes required in our constitution, together with a plan of financing and management, as will make public ownership an early possibility, in compliance with the wish repeatedly expressed by our people", and be it further

Resolved, That a copy of these resolutions be sent to our Mayor and each alderman of the 25th Ward.

Elevated Railroad System: in Matter of an Extension to W. 119th St., Etc.

The Clerk presented the following communication, which was ordered published and placed on file:

THE 119TH STREET COMMERCIAL CLUB,
CHICAGO, August 13, 1918.

To the Honorable William Hale Thompson, Mayor, and the City Council of Chicago:

GENTLEMEN—We respectfully call your attention to a petition filed some time ago with the State Board of Public Utilities, signed by several thousand citizens, asking for an extension of the elevated railroad to 119th street, at some point between State and Halsted streets. We note with regret that the pending traction ordinance provides for an extension of the elevated railroad on the southeast side to 87th street only. If you cannot see your way clear to amend the ordinance so as to comply with our petition, we would respectfully ask that you at least make provision for an extension to 111th street, at some point between Michigan avenue and Halsted street.

We feel sure that it would be a good investment for the Elevated Railroad Company inasmuch as the intermediate territory is thickly settled, and the terminal we ask for is in the midst of the Calumet District, now so largely engaged in the manufacture of munitions, and short of houses for its workers. We will work hard at the polls in November for the ratification of the ordinance, which has some excellent features, but it is needless to say that compliance with our petition would be an added incentive for action.

Yours respectfully,

(Signed) JAMES GILLIGAN,
Secretary.

Louis Pfaelzer & Sons: Bridge over Alley (Protest against a Proposed Ordinance).

The Clerk presented a communication, submitted by James Duffy, protesting against the proposed passage of an ordinance granting permission to Louis Pfaelzer & Sons to construct a bridge over an alley in the rear of Nos. 3941-7 South Halsted street, which was

Referred to the Committee on Streets and Alleys.

Fort Dearborn Massacre: Memorial Resolution.

The Clerk presented a resolution, submitted by Dr. Alexander Pope and others, in memory of the heroes of the Dearborn Massacre, which was

Referred to the Committee on Finance.

Juvenile Detention Home: Monthly Reports (for June, 1918).

The Clerk presented a report of the Matron of the Juvenile Detention Home, together with dental and medical reports of said institution, for the month of June, 1918, which were ordered

Placed on file.

DEPARTMENT OF LAW.

City of Chicago vs. O'Connell: Request for Additional Funds for Presentation of Said Case to the U. S. Supreme Court.

The Clerk presented the following communication submitted by the Corporation Counsel, which was referred to the Committee on Finance:

DEPARTMENT OF LAW,
CHICAGO, August 13, 1918.

To the Honorable, the City Council of the City of Chicago:

GENTLEMEN—At your meeting on August 5, 1918, your Honorable Body adopted a resolution (Council Proceedings 834-35) to the effect that the case of City of Chicago vs. O'Connell, 278 Ill. 591, should be taken to the Supreme Court of the United States for final determination.

This is the case which involves the power of the State Public Utilities Commission to regulate the street railways in the City of Chicago.

We beg to advise you that several months ago we sued out a writ of error in this case and filed a transcript of the record and had the case docketed in the Supreme Court of the United States.

The Clerk of that court has furnished an estimate of the cost of printing the portions of the transcript which are to be printed, and we have paid such estimate.

When the case is about to be reached the Clerk of the Supreme Court will cause the transcript to be printed and then we shall be obliged to prepare printed briefs and appear in court and argue the case orally. In the meantime, there is nothing further that we can do.

This case has been and will continue to be quite expensive. Among other items we have paid $340 to the Clerk of the United States Supreme Court on his estimate of the cost of printing the transcript.

The city also owes an unpaid bill of $274.30 to Hon. Charles W. Vail, Clerk of the State Supreme Court, for his costs in preparing the record for the United States Court. We have on hand no money to pay this bill.

We agree with your Honorable Body that "it is desirable that said matters be presented for final determination to the Supreme Court of the United States," and we hope that you will find some way to supply the funds necessary to enable us properly to present the case to that court.

Yours truly,

(Signed) CHESTER E. CLEVELAND,
First Assistant Corporation Counsel.

Corporation Counsel.

DEPARTMENT OF POLICE.

Habitual Criminals: Arrests and Prosecutions.

The Clerk presented reports, submitted by the Acting General Superintendent of Police, of arrests and prosecutions of habitual criminals for the weeks ended August 3 and August 12, 1918, which were ordered

Placed on file.

Persons Arrested for Carrying Concealed Weapons without Authority: Weekly Reports.

The Clerk presented reports, submitted by the Acting General Superintendent of Police, of persons arrested for carrying concealed weapons without authority during the weeks ended August 3 and August 10, 1918, which were ordered

Placed on file.

DEPARTMENT OF PUBLIC SERVICE.

Civil Service Employes: Resignations and Leaves of Absence.

The Clerk presented the following report, which was ordered published and placed on file:

DEPARTMENT OF PUBLIC SERVICE,
OFFICE OF THE COMMISSIONER,
CHICAGO, August 14, 1918.

To the Honorable Members of the City Council, City of Chicago:

GENTLEMEN—In accordance with order passed under date of June 28, 1918, Council Proceedings, page 562, as follows:

"Ordered, That heads of all city departments report to the City Council not later than August 1, 1918, a list of all civil service employes who have resigned or have taken leaves of absence for more than two weeks since January 1, 1917, such lists shall specify those who have been called to the army."

In compliance with the request of your Honorable Body, which, through an oversight was not complied with before this date, I am submitting herewith the information.

Trusting that the time is not too late to serve the purpose for which it is desired, I am,

Yours very truly,

(Signed) JOHN P. GARNER,
Commissioner of Public Service.

BOARD OF TRUSTEES, FIREMEN'S PENSION FUND.

Estimate (for Tax Levy) for 1919.

The Clerk presented the following communication, which was ordered published and referred to the Committee on Finance:

OFFICE OF THE BOARD OF TRUSTEES OF THE FIREMEN'S PENSION FUND OF THE CITY OF CHICAGO,
CHICAGO, ILL., August 7, 1918.

To the Honorable, the City Council of the City of Chicago:

GENTLEMEN—I have been directed by The Board of Trustees of the Firemen's Pension Fund of the City of Chicago to advise Your Honorable Body that in order to have sufficient funds on hand to meet the payment of pensions due and payable during the year commencing January 1, A. D. 1919 and ending December 31, A. D. 1919, it will be necessary that a tax sufficient to raise the sum of $500,000.00 shall be levied in accordance with the provisions of an Act of the General Assembly of the State of Illinois authorizing the raising of funds by taxation for the purpose of paying pensions to retired members of the Fire Department and to the widows and children of deceased members thereof.

Yours very truly,

(Signed) EUGENE R. PIKE,
President of the Board of Trustees of the Firemen's Pension Fund of the City of Chicago.

HARBOR BOARD.

Municipal Pier: Lease of Storage Space to U. S. Government (Amendment).

The Clerk presented the following communication:

DEPARTMENT OF PUBLIC WORKS,
BUREAU OF COMPENSATION,
CHICAGO, August 10, 1918.

To the Honorable, the Mayor, and the City Council of the City of Chicago:

GENTLEMEN—I transmit herewith for consideration by your Honorable Body an ordinance amending an ordinance authorizing and directing the Commissioner of Public Works to enter into a lease with the United States Government for the use of 50,000 square feet of space on the Pier.

It was intended that the lease should cover the period from May 1, 1918 to April 30, 1919, but inadvertently, through misunderstanding of the Depot Quartermaster, the period fixed was from May 1, 1918 to June 30, 1918, a term of only two months. The enclosed amendment covers a period of one year.

Yours very truly,

(Signed) FRANK I. BENNETT,
Chairman, Harbor Board.

H. V. MCGURREN,
Secretary, Harbor Board.

Unanimous consent was given for consideration of the ordinance submitted with the foregoing communication.

WHEREAS, On the 28th day of April A. D. 1917, the City of Chicago by its Commissioner of Public Works, after due advertisement for bids, made and entered into a contract in writing with C. H. Norwood, who was the lowest bidder, by which C. H. Norwood undertook and agreed to properly construct, deliver and install the entire electrical equipment complete and ready for operation for the Franklin-Orleans Street Bridge across the Chicago River, and to furnish and provide all labor, tools, facilities and appurtenances required for that purpose to which contract for its terms in detail reference is hereby made; and

WHEREAS, Said contract contained the terms of payment to be made by the City of Chicago to said C. H. Norwood thereunder being in part as follows: "It is further agreed by said City that if the rate of progress be satisfactory to the Commissioner of Public Works, estimates in the usual form will be issued to said party of the first part (C. H. Norwood) during the making of said improvements for eighty-five per cent (85%) of the value of the work completed and accepted at the time of issuing such estimate, the remaining fifteen per cent (15%) being reserved until the final completion and acceptance of the whole of said work."

WHEREAS, Owing to the abnormal conditions in the labor and material markets and the severe cold weather during last winter, the work on the substructure of this bridge was delayed and the substructure is not ready to receive the superstructure; and

WHEREAS, The fabrication of the structural steel of the superstructure is now being delayed by war conditions and the date of delivery of this material is uncertain, the Contractor for the electrical equipment is unable to proceed with the work on his contract;

WHEREAS, The work of installing electrical equipment is deferred through no fault of C. H. Norwood, and is directly dependent on the progress of the work on the superstructure; therefore,

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That the Commissioner of Public Works of said City of Chicago be, and he is hereby authorized to modify the said contract between the City of Chicago and said C. H. Norwood, so as to authorize the payment by the City to said C. H. Norwood on account of said contract for electrical conduit pipe delivered at the City store room at the Municipal Plant, 31st street and Sacramento avenue, in a sum not to exceed $1200.00, said amount being the value of the conduit pipe so delivered but not installed. Provided, however, that such modification of such contract shall be made only by and with the consent of the surety of the bond given by said C. H. Norwood as security for the performance by said Company of said contract.

SECTION 2. This ordinance shall be in force and effect from and after its passage and approval.

Track Elevation.

The Committee on Track Elevation submitted the following report, which was ordered

Published and placed on file:

COMMITTEE ON TRACK ELEVATION,
CHICAGO, August 14, 1918.

To the Honorable, the Mayor and City Council:

GENTLEMEN—Your Committee on Track Elevation beg leave to submit the following report of its activities for the first half of the Council year 1918-1919:

When your Committee on Track Elevation took up its labors for this year it was confronted with the following conditions:

The railroads had passed from private management to federal government control, under the direction of William G. McAdoo, Director General of Railroads, and local railroad representatives advised your committee that, under a ruling of the Director General, the railroad companies were prevented from doing any track elevation work, either new or uncompleted.

No one thing is more vital or has contributed more to the proper development of Chicago and to the safety and welfare of its inhabitants than track elevation, and a cessation of track elevation work, especially the completion of work under way, would mean a serious setback to our city, and it was apparent to your committee that its first duty was to endeavor to obtain a modification of the order of the Director General of Railroads, or effect a situation that would permit the completion of the most necessary track elevation work under way.

With that view in mind, a delegation representing your committee conferred with the Director General at Washington, D. C., on May 15, 1918, and urged upon him the necessity of permitting the completion of unfinished track elevation work in Chicago, together with the desirability of negotiating with railroad companies for track elevation ordinances for future work. As a result of this conference your committee learned that the ruling of the Director General relative to track elevation work was not as broad and inclusive as had been represented by the officials of the railroad companies, and your committee was advised by the Director General to take up our local situation with Mr. H. M. Aishton, Regional Director for this district.

Upon the return of the committee from Washington, a conference was held with Mr. H. M. Aishton at which time a program of work was outlined, and after a trip of inspection of the various track elevation projects under way, followed by other conferences, the railroad companies were directed to continue with such work as was deemed necessary to safeguard the interest of the public, with the result that, as outlined to your committee on track elevation in a communication from Mr. Aishton dated July 23, 1918, the following has been accomplished:

1. Grade crossing of the Kensington & Eastern Railroad (I. C. R. R.) at 111th, 113th and 115th streets, near the Pullman Company's works:

The grade crossings of these three streets have been eliminated; the Kensington & Eastern tracks have been taken from the streets and temporary terminal has been installed south of 115th street.

2. Grade crossing at Cottage Grove avenue, near 95th street of Chicago & Western Indiana Railroad and Chicago, Rock Island and Pacific Railway Company:

The tracks have been planked from curb to curb and contract has been let for the paving outside of the tracks, which will be completed by the first of August,

dependent upon delivery of material. When the paving is completed the street at the crossing should be in equally good condition as the street is at other points where not affected by railroads.

The uniform police flagmen have been guarding the crossing for some time.

3. Completion of three subways on Chicago. Rock Island & Pacific Railway at Vincennes road, 87th and 88th streets:

The work at the Vincennes subway is 60% completed; at 87th street, 80% completed, and at 88th street, 85% completed. All of the work will be finished by October 1st.

4. Grade crossings at 64th, 65th, 67th and 69th streets of the Baltimore & Ohio Chicago Terminal Railroad:

On account of the Pennsylvania Railway completing their track elevation, insofar as it affects the streets, we find it necessary in order to comply with our agreement, to proceed at once with the elevation of the B. & O. C. T. tracks, which work is now under way and will be completed, at least so far as streets are concerned, by the last of the year.

5. Grade crossings on Englewood Connecting Railroad (Pennsylvania Lines):

The crossings of this line are being put in first-class condition and additional flagmen placed at the crossings. I will advise you later and more definitely the progress on this project.

6. Grade crossings of the Illinois Central on the South Chicago Branch:

Additional watchmen have been placed at 80th place and Oglesby avenue.

We have not yet reached a satisfactory arrangement for the protection of these crossings and will advise you further concerning them.

Since receipt of the above communication another conference was held with Mr. Aishton at which time a plan was formulated for the thorough protection of all grade crossings of the Illinois Central Railroad on the South Chicago Branch, the details of which are to be outlined to us in a letter from Mr. Aishton in the near future.

It is the hope of your committee, through the co-operation of Mr. Aishton, to push to as early completion as possible, all uncompleted track elevation work and to effect engineering and other plans and to negotiate with the railroad companies for the acceptance of ordinances for track elevation work to be done as soon as war conditions and the unusual demands upon the railroads will permit.

Your committee wishes to express its appreciation of the full and hearty co-operation given it by Mr. Aishton and his staff, and also its appreciation of the assistance rendered to it in its work by his Honor, Mayor Thompson, and his administration.

Respectfully submitted,

(Signed) GEORGE M. MAYPOLE,
Chairman.

Compensation.

The Committee on Compensation submitted the following reports, which were, on motion of Ald. Iliff, ordered published and placed on file:

CHICAGO, August 9, 1918.

To the Mayor and Aldermen of the City of Chicago in City Council Assembled:

Your Committee on Compensation, to whom was referred by the Bureau of Compensation, Department of Public Works the application of Leslie R. Harsha and John Monighan to use certain space in the east-and-west sixteen foot public alley between North Hoyne avenue, Carroll avenue, North Robey street and West Kinzie street, having had the same under advisement, beg leave to report the passage of the following order by your Committee:

Ordered, That the Commissioner of Public Works be and he is hereby authorized and directed to issue a permit to Leslie R. Harsha and John Monighan to use the east three hundred twenty-five and seventy-five one-hundredths (325.75) feet of the east-and-west public alley in the block bounded by North Hoyne avenue, Carroll avenue, North Robey street and West Kinzie street, for a period of three years at an annual rental of two hundred seventy and eighty-two one-hundredths dollars ($270.82), payable annually in advance, upon filing a bond for ten thousand dollars ($10,000.00) to indemnify the City in connection therewith, said permit to be subject to revocation upon thirty (30) days' notice in writing.

Respectfully submitted,

(Signed) GEORGE F. ILIFF,
Chairman.

Gas Litigation.

The Committee on Gas Litigation submitted the following report, which was, on motion of Ald. Capitain, deferred and ordered published:

CHICAGO, August 14, 1918.

To the Mayor and Aldermen of the City of Chicago in City Council Assembled:

Your Committee on Gas Litigation, having under consideration the report of Special Counsel for this Committee which is herewith attached, beg leave to report and recommend that the attached resolution and order be recommended for passage.

Respectfully submitted.

(Signed) H. D. CAPITAIN,
Chairman.

To the Honorable, the Committee on Gas Litigation of the City Council:

In accordance with the instructions of the Committee, I present herewith an order to be suggested for passage by the City Council for the following reasons:

It is my opinion, first, that under the contract ordinance of 1917 the Peoples Gas Light and Coke Company is required to furnish gas at the rates provided in that ordinance until those rates are changed by action of the City Council; second, that the injunctive order of the Circuit Court issued August 2, 1911, by Judge Gibbons still restrains the Company from charging more than 80 cents per thousand cubic feet; third, that the order of the Public Utilities Commission of July 31 does not legally authorize the Company to charge the increased rates provided therein, for both of these reasons.

Because the Gibbons injunction is still in force, I do not believe it necessary at the present time to file a bill for injunction. The issue between the City and the Company can be more appropriately litigated either upon a motion of the Company to modify the Circuit Court injunction or by contempt proceedings instituted by the City for violation of that injunction. Inasmuch, however, as the City's rights depend largely upon action by a court of equity, the City should exhibit entire willingness to deal fairly with the Gas Company, even though the Gas Company refuses to deal fairly with the City.

The application of the Company to the Utilities Commission was printed in the Council Proceedings of January 18 and referred to the Committee on Gas, Oil and Electric Light. At a meeting of this committee on January 17 Mr. Boetius H. Sullivan, attorney for the Gas Company, stated that the Company did not take the position that it had broken the ordinance, but rather that it was making a "temporary appeal for modification." Yet the Company requested no action by the City Council to modify the ordinance of June 25, 1917, but endeavored to ignore the City Council and seek relief elsewhere. Despite its conduct, the Company might argue in a court of equity, as it has already argued before the Utilities Commission, that the City Council was unwilling to act and to fulfil its responsibilities in the regulation of gas rates, and it would strengthen the City's position if the Council should give clear evidence of its readiness to fulfill all its responsibilities in this matter.

The first year of the ordinance is now passed, and the City Council may properly consider whether any revision of the ordinance is desirable. Information as to this can be furnished to the Committee on Gas, Oil and Electric Light very promptly by the City's representatives. It appears particularly desirable that the Peoples Gas Light and Coke Company should be required to definitely state its position, as suggested in the attached resolution, in order that it can take no advantage from its present false claim that City Council regulation is impractical and unjust to public utilities. Whenever the City Council exhibits its readiness and ability to handle utility problems fairly and promptly, it replies most effectively to the arguments of the public service corporations against home rule.

Respectfully submitted,

(Signed) DONALD R. RICHBERG,
Special Counsel.

August 12, 1918.

WHEREAS, It is provided in the ordinance passed June 25, 1917, and accepted by The Peoples Gas Light and Coke Company July 31, 1917, that "Neither the City nor the Company shall alter, or seek to alter, the rates, standards or service regulations herein provided during the period of twelve months following the acceptance of this ordinance," which period has now expired; and,

WHEREAS, By acceptance of said ordinance the said Company agreed that the City of Chicago, by action of the City Council, should have the power, and expressly conceded the authority of the City from and after the date of the acceptance of said ordinance, to regulate the rates to be demanded and the standards and service to be maintained by said Company in the manufacture and distribution of gas in the City of Chicago; and

WHEREAS, It appears from the Journal of the Proceedings of the City Council of January 18, 1917, that the said Company claimed at that time that the rates provided in the ordinance of June 25, 1917, did not provide sufficient revenue to enable the Company to carry on its business or to meet the demands upon it for service, which representations of said Company were referred to the Committee on Gas, Oil and Electric Light, under the direction of which Committee an investigation has been made of the operations of the Company, and whereby information has been obtained by the City's representatives necessary for any adjustment of rates or standards of service which might be deemed advisable after the period of twelve months following the acceptance of said ordinance; therefore it is

Ordered, That the Committee on Gas, Oil and Electric Light make due inquiry to determine whether it is advisable to revise the rates, standards or service regulations provided in the ordinance of June 25, 1917, and particularly that said Committee request from the president and directors of The Peoples Gas Light and Coke Company a formal statement, first, as to whether said Company claims that it has ever requested the City Council of the City of Chicago to revise the rates, standards or service regulations provided in the ordinance of June 25, 1917; and, second, as to whether said Company desires at the present time to request the City Council of the City of Chicago to make any revision of the rates, standards or service regulations provided in said ordinance.

The following is said ordinance as passed:

WHEREAS, On November 25, 1916, the City of Chicago entered into a contract with the United Engineering Company for the purchase of two turbine units of 3,000 K. W. each, with their accessories, for the Municipal Power and Heating Plant, located in the Bridewell grounds, the purpose of the erection of said municipal power and heating plant being to furnish power for the new electrical pumps at 22d Street Pumping Station, for municipal lighting, for power,

heat, and light for the municipal shops, Contagious Disease Hospital, and for the House of Correction, the contract price for said turbo generators, together with the cost of inspection of the same, amounting to $154,308.70, of which amount the City has now paid the sum of $78,608.53; and

WHEREAS, The United States Government, through the United States Shipping Board, has determined to appropriate one of said turbines, and to deliver the same to the Alexandria Lighting Company, at Alexandria, Virginia, and through the Secretary of the Navy, has commandeered the other of the said turbines for the purpose of turning the same over to the British Government for shipment to the Tampico Electric Light and Power Traction, Limited, at Tampico, Mexico; and

WHEREAS, The condensers and other of the accessories of said turbo generators have already been received and installed at the Municipal Power Plant, and heavy steel foundations for the support of the turbo-generators have been erected, and it will be necessary to take out and remove said steel foundations and to disconnect said condensers and other accessories, in order that compliance with the request of the Government and shipment of the same may be made; and

WHEREAS, It will be necessary, in order that the City may be fully reimbursed for its outlay and for the expense of taking out the said turbo generators and their replacement at a later date, that the said United States Government should take the said equipment direct from the City and deal with the City in reference to same; therefore,

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That the Commissioner of Public Works be and he is hereby authorized to turn over and deliver to the United States Government the two turbo-generators and their accessories now in the Municipal Power and Heating Plant of the City, upon the undertaking by the United States Government to pay the amount of the contract price for said generators, plus the amount expended for inspection of the same, and in addition thereto the cost of taking down, dismantling, and shipping such portions of such generators and their accessories as have already been put into place and installed in said Municipal Power Plant, and in addition thereto such sum or sums as the said turbo-generators and their accessories will cost to replace,—this latter amount to be demanded from the Government in case and to the extent that the cost of replacement shall exceed the contract price above stated.

SECTION 2. The Commissioner of Public Works and the Corporation Counsel are hereby authorized and directed to assume complete control of the matter of making the contract and arrangement with the Federal Government provided for in Section 1 hereof, and they are hereby vested with full authority to do any and all things necessary to contract in the name of the City in connection therewith, to secure the City against loss and to safeguard it from claims of contractors or others who may undertake to assert such claims against the City by reason of the taking of said turbo-generators by the United States Government.

SECTION 3. The Commissioner of Public Works is hereby authorized to expend the necessary money for dismantling, taking down, and loading for shipment the condensers and accessories appurtenant to the said turbines, and to bill the United States Government the actual cost thereof.

SECTION 4. The Commissioner of Public Works is further authorized to cause to be paid to the United Engineering Company the balance unpaid on the contract hereinabove referred to, by assuring and paying to sub-contractors of the said United Engineering Company such sum or sums as may be due and owing to said subcontractors, and to credit the United Engineering Company, on account of sums due and owing by it to the City of Chicago, the amount remaining after the payment of said subcontractors; and the City Comptroller and City Treasurer are hereby authorized and directed to pay and credit the same on vouchers drawn by the Commissioner of Public Works, in accordance with the terms of this ordinance.

SECTION 5. In case it shall be necessary to take a separate undertaking from the Government of the United States for the turbo unit and accessories required by the United States Shipping Board and a separate undertaking for the turbo unit and accessories commandeered by the Secretary of the Navy, then and in that event the Commissioner of Public Works is hereby authorized to make such an arrangement.

SECTION 6. The express authority given herein concerning the specific things mentioned in Sections 3, 4 and 5 hereof shall not be understood as limiting the general authority given by Section 2 of this ordinance to the Commissioner of Public Works and Corporation Counsel.

SECTION 7. This ordinance shall take effect and be in force from and after its passage and approval.

WHEREAS, The City Council has learned with sorrow of the death of John D. Shoop who for many years was prominently identified with the management of the Public School System of Chicago and for a number of years has been Superintendent of the Public Schools, and recognized as one of the world's prominent and constructive educators; Therefore be it

Resolved, That in the death of John D. Shoop the City of Chicago has lost an able and useful citizen and official who gave his best efforts to the advancement of our Public School System and the cause of education; and, be it further

Resolved, That as a tribute of respect to his memory and life-long public service these resolutions be spread upon the records of the City Council and that a copy thereof suitably engrossed be forwarded to the bereaved family as a testimonial of our heartfelt sympathy.

Ald. Fisher moved to adopt the foregoing resolution.

The motion was carried unanimously by a rising vote.

Ald. Fisher presented the following resolution, which was ordered published and referred to the Committee on Finance:

WHEREAS, Of the general taxes levied against the tax payers of the City of Chicago the corporate fund of the City receives but 17¼ cents of each dollar collected, out of which meager percentage it must carry on all the manifold and gigantic municipal activities in all departments for the general public welfare, involving an annual wage-roll alone of over nineteen millions of dollars; and

WHEREAS, Many of the other public bodies who are the beneficiaries of the taxes levied are allowed, under the law, such inequitably large proportions of taxes collected as enable them not only to perform their required, but much more limited functions and also to carry large surplus balances throughout their fiscal year; and

WHEREAS, The City of Chicago with its steadily increasing activities, and notwithstanding the most rigid curtailment possible in annual expenditure appropriations, is compelled to discount and pay interest on its revenue twelve months in advance of its collection, yet with a deficit piling up and increasing in each succeeding year from one to three million dollars annually; and

WHEREAS, It is therefore apparent that the immediate and imperative financial remedy required should first be sought, not by increasing the taxes of the already overburdened tax payer, but rather by the securement of such state legislation as shall give to Chicago her just and equitable proportion of the taxes already levied; to the end not only that municipal bankruptcy may be averted, but also that there may be no curtailment of those benefits and protections to which the public is entitled by virtue of such taxation; now, therefore be it

Resolved, That the Council Committee on Finance be and it is hereby requested, prior to entering on its labors of compiling the annual appropriation bill for the year 1919, to take up for its consideration the drafting of such form of legislation as shall be competent to secure to the corporate fund of the City of Chicago, by legislative re-apportionment of the taxes levied, such an increased, just and equitable proportion thereof as shall be adequate to meet the financial requirements of the City of Chicago in the conduct of its legitimate municipal activities; and, be it further

Resolved, That the Committee on Finance at as early a date as practicable, submit such draft of legislation to the City Council for its approval, and for presentation to the next General Assembly of the State of Illinois for enactment into law.

Nays—None.

The following is said ordinance as passed:

WHEREAS, On the 10th day of April, A. D. 1917, the City of Chicago, by its Commissioner of Public Works, after due advertisement for bids, made and entered into contract in writing with the Great Lakes Dredge & Dock Co., which was the lowest bidder, by which the Great Lakes Dredge & Dock Co., undertook and agreed to construct the sub-structure for the Franklin-Orleans St. Bridge across the Chicago River, in said City of Chicago, and to furnish and provide all labor, tools, facilities and appurtenances required for that purpose, to which contract for its terms in detail reference is hereby made; and

WHEREAS, Said contract contained the terms of payment to be made by said City of Chicago to said Great Lakes Dredge & Dock Co., thereunder, being in part as follows:

"If the rate of progress be satisfactory, to the Commissioner of Public Works, estimates and vouchers in usual form will be issued to the contractor for eighty-five per cent (85%) of the value of the work completed at the time of issuing such estimate, less all sums previously paid or retained in accordance with the terms of the contract, the remaining 15% being reserved until the final completion and acceptance of the whole of said work," and

WHEREAS, Owing to the abnormal conditions due to strikes, shortage of labor, adverse winter weather, war and other circumstances beyond the control of the contractor, the sub-structure work has been delayed so that the contractor has been unable to place in the sub-structure large quantities of creosoted oak and pine timber, which are stored at the bridge site, and which under the terms of the contract could not be paid for until placed in the sub-structure; and

WHEREAS, The Great Lakes Dredge & Dock Co. states that they have had the purchase price of the timber tied up for the past six months, and have been put to additional expense in storing and re-handling this material at the bridge site, and are desirous of obtaining a partial payment on the contract price, to partially reimburse them for the expense thus far incurred; therefore,

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That the Commissioner of Public Works of the City of Chicago be, and he is hereby authorized to modify the said contract between the City of Chicago and the Great Lakes Dredge & Dock Co., so as to authorize the payment by the City of Chicago to said Great Lakes Dredge & Dock Co. for creosoted oak timber and creosoted pine timber required in the Franklin-Orleans Bridge sub-structure, and stored at the bridge site, an amount equal to sixty per cent (60%) of the contract price of such timber in place, the payment at this rate to be made only after the timber is stored and properly protected from the elements, to the complete satisfaction of the Commissioner of Public Works; provided, however, that such modification of said contract shall be made only by and with the consent of the surety on the bond given

by the said Great Lakes Dredge & Dock Co., as security for the performance by said company of said contract. It is expressly understood that any payment in advance of the placing of timber in the sub-structure is not to be construed as relieving the contractor of full responsibility for the material so stored and its satisfactory placement in the sub-structure, under the terms of the specifications. Neither is such payment to be construed as an acceptance of material for construction purposes, or as a waiver to further inspection.

SECTION 2. This ordinance shall be in force and effect from and after its passage and approval.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That the City Comptroller be and hereby is authorized and directed to negotiate with the owner or owners of the property hereinafter described, for the purpose of purchasing said property for the City of Chicago, and to endeavor to agree with such owner or owners upon a price for the purchase of said property, and to offer therefor not to exceed the sum of twenty-seven hundred and no-100 dollars ($2,700.00), said property being known and described as follows:

Lots 445, 446, 454, 455, the north half of Lot 456, Lots 467, 468, 469, 470, 474, 478, 480 and the south half of Lot 481 in Dewey and Cunningham's Subdivision of the north three-quarters of east half of northeast quarter of Section thirty (30), Township thirty-eight (38) North, Range fourteen (14) East of the Third Principal Meridian.

SECTION 2. That in case the City Comptroller is able to agree with the owner or owners of said property, or any part thereof, or any right or interest therein, he is hereby authorized to purchase said property, or so much thereof as he shall be able to acquire at a price within the limits above prescribed, and in case less than said entire property be purchased, the price therefor shall not exceed a just proportion of the price for the whole property above stated; the Comptroller is further authorized to accept title to the property to be purchased, subject to tax claims and other liens and incumbrances, if any, making a fair deduction from the purchase price for any such claims or incumbrances, providing that in the opinion of the Corporation Counsel the existence thereof will not endanger the city's right of possession; and the Comptroller is further authorized to settle all such claims and incumbrances on a reasonable basis, in his discretion, charging moneys so expended as purchase price for said premises.

SECTION 3. That in case of the inability of the City Comptroller to agree with the owner or owners of said property, or of any part thereof, upon a price within the limits prescribed by this ordinance, or in case the owner or owners of said property, or any of them are

incapable of consenting, or their names or residences are unknown, or they are non-residents of the State of Illinois, the City Comptroller shall report such facts to the Corporation Counsel.

SECTION 4. That the Corporation Counsel, upon receiving such report from the City Comptroller, shall thereupon commence and prosecute condemnation proceedings for the purpose of acquiring title by the City of Chicago to the property described in Section 1 hereof, or so much thereof as the City Comptroller shall have reported his inability to acquire by direct purchase, under the city's right of eminent domain, and said property is hereby declared to be useful, advantageous and desirable to the City of Chicago for playground purposes.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That permission and authority be and the same are hereby given and granted to the Indian Refining Company, a corporation, its successors and assigns, to construct, maintain and use a single railroad switch track beginning at a point on the north line of West 32d street approximately twenty-five (25) feet west of the west line of South Western avenue; thence running in a southwesterly direction along and across West 32d street and across the first north-and-south public alley west of South Western avenue to a point on the west line of said alley approximately five (5) feet south of the south line of West 32d street; thence across private property to the east line of South Artesian avenue and across South Artesian avenue from a point on the east line thereof approximately fifty-five (55) feet south of the south line of West 32d street to a point on the west line thereof approximately eighty-five (85) feet south of the south line of West 32d street, as shown in red upon blue print hereto attached, which for greater certainty is hereby made a part of this ordinance.

SECTION 2. The permission and authority herein granted shall cease and determine twenty (20) years from and after the date of the passage of this ordinance, and this ordinance shall at any time before the expiration thereof be subject to modification, amendment or repeal without the consent of the grantee herein, and in case of repeal all the privileges hereby granted shall thereupon cease and determine. In the event of the termination of the authority or privileges hereby granted by the repeal of this ordinance, the grantee by the filing of the written acceptance hereinafter mentioned, shall be understood as consenting that the city shall retain all money it shall have previously received from said grantee under the provisions of this ordinance, said money to be considered and treated as compensation for the authority, permission and privileges enjoyed from the date of the passage of this ordinance until such repeal.

By the filing of the written acceptance of this ordinance hereinafter provided for, said grantee hereby agrees to elevate at its own expense and without any expense, damage or liability to the City of Chicago of any kind whatsoever, the switch track herein authorized, upon notice so to do from the Commissioner of Public Works, or failing so to do, shall within sixty (60) days after being notified to that effect by the Commissioner of Public Works, remove the switch

track herein referred to. Said switch track, if elevated, shall be elevated under the direction and supervision and to the satisfaction of the Commissioner of Public Works, and the construction and material used in the elevation of said switch track shall be of the same character as that used in the construction of the main tracks with which said track connects.

SECTION 3. During the life of this ordinance the grantee herein shall keep such portion of said streets and alley as are occupied by said switch track in good condition and repair and safe for public travel, to the satisfaction and approval of the Commissioner of Public Works. At the termination of the rights and privileges herein granted, by expiration of time or otherwise, the said grantee shall forthwith restore such portion of said streets and alley occupied by said switch track to a condition safe for public travel, similar to the remaining portion of said streets and alley in the same block, to the satisfaction and approval of the Commissioner of Public Works. If said grantee shall fail to restore said streets and alley at the termination of said privileges, then the work shall be done by the City of Chicago, and the cost and expense of doing such work shall be paid by the said grantee.

SECTION 4. The operation and maintenance of the switch track herein provided for shall be subject to all existing ordinances of the City of Chicago now in force or which may hereafter be in force relating to the use and operation of switch tracks and railroad tracks, and the construction and maintenance thereof shall be under the supervision and to the satisfaction of the Commissioner of Public Works.

SECTION 5. The said grantee agrees to pay to the City of Chicago as compensation for said switch track, the sum of two hundred dollars ($200.00) per annum, payable annually in advance, the first payment to be made as of the date of the passage of this ordinance and each succeeding payment annually thereafter, provided that if default is made in the payment of any of the installments of compensation herein provided for, the privileges herein granted may be immediately revoked by the Mayor, or this ordinance may be repealed by the City Council under the powers reserved in section two (2) hereof, and thereupon this ordinance shall become null and void.

SECTION 6. Before doing any work under and by virtue of the authority herein granted, said grantee shall execute a bond to the City of Chicago in the penal sum of ten thousand dollars ($10,000.00), with sureties to be approved by the Mayor, conditioned upon the faithful observance and performance of all and singular the conditions and provisions of this ordinance; and conditioned further to indemnify, keep and save harmless the City of Chicago against all liabilities, judgments, costs, damages and expenses which may in any wise come against said city in consequence of the granting of this ordinance, or which may accrue against, be charged to or recovered from said city from or by reason or on account of the passage of this ordinance, or from or by reason or on account of any act or thing done by the grantee herein by virtue of the authority herein granted. Said bond and the liability of the sureties thereon shall be kept in full force throughout the life of this ordinance, and if at any time during the life of this ordinance such bond shall not be in full force, then the privileges herein granted shall thereupon cease.

SECTION 7. This ordinance shall take effect and be in force from and after its passage, provided that a written acceptance of this ordinance and the bond hereinabove provided for shall be filed with the City Clerk within (60) days after the passage of this ordinance.

The motion prevailed.

Ald. Fisher moved to concur in said report and to pass said ordinance, with compensation of $100.00 per annum, as fixed by the Committee on Compensation [printed in Pamphlet No. 912].

The motion prevailed, by yeas and nays as follows:

Yeas—Coughlin, L. B. Anderson, Iliff, Schwartz, Richert, Mulcahy, Fetzer, Guernsey, Woodhull, Furman, Johnson, Klaus, McNichols, Cullerton, Krumdick, Ahern, Maypole, Smith, Olsen, Kunz, Piotrowski, Adamkiewicz, Walkowiak, Touhy, Powers, Bowler, Fick, Franz, Walker, Ellison, Bauler, Wallace, Steffen, Roeder, Haderlein, Capitain, Link, Pretzel, Kennedy, Littler, Adamowski, Hrubec, Byrne, Wm. J. Lynch, O'Toole, Long, Moran, Fisher, Hazen, A. O. Anderson, Kostner, Toman, Clark, Thos. J. Lynch—54.

Nays—None.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That permission and authority be and the same are hereby given and granted to the United States Brewing Company of Chicago, a corporation, its successors and assigns, and Edwin Lister, William Lister and Amanda S. Lister, their heirs, executors and assigns, to construct, maintain and operate a single railroad switch track across Elston avenue at a point approximately six hundred eighty (680) feet southeasterly of the southeasterly line of Snow street, as shown in red upon blue print hereto attached, which for greater certainty is hereby made a part of this ordinance.

SECTION 2. The permission and authority herein granted shall cease and determine twenty (20) years from and after the date of the passage of this ordinance, and this ordinance shall at any time before the expiration thereof be subject to modification, amendment or repeal without the consent of the grantees herein, and in case of repeal all the privileges hereby granted shall thereupon cease and determine. In the event of the termination of the authority or privileges hereby granted by the repeal of this ordinance, the grantees by the filing of the written acceptance hereinafter mentioned, shall be understood as consenting that the city shall retain all money it shall have previously received from said grantees under the provisions of this ordinance, said money to be considered and treated as compensation for the authority, permission and privileges enjoyed from the date of the passage of this ordinance until such repeal.

By the filing of the written acceptance of this ordinance hereinafter provided for, said grantees hereby agree to elevate at their own expense and without any expense, damage or liability to the City of Chicago of any kind whatsoever, the switch track herein authorized, upon notice so to do from the Commissioner of Public Works, or failing so to do, shall within sixty (60) days after being notified to that effect by the Commissioner of Public Works, remove the switch track herein referred to. Said switch track, if elevated, shall be elevated under the direction and supervision and to the satisfaction of the Commissioner of Public Works, and the construction and material used in the elevation of said switch track shall be of the same character as that used in the construction of the main tracks with which said track connects.

SECTION 3. During the life of this ordinance the grantees herein shall keep such portion of said street as is occupied by said switch track in good condition and repair and safe for public travel, to the satisfaction and approval of the Commissioner of Public Works. At the termination of the rights and privileges herein granted, by expiration of time or otherwise, the said grantees shall forthwith restore such portion of said street occupied by said switch track to a condition safe for public travel, similar to the remaining portion of said street in the same block, to the satisfaction and approval of the Commissioner of Public Works. If said grantees shall fail to restore said street at the termination of said privileges, then the work shall be done by the City of Chicago, and the cost and expense of doing such work shall be paid by the said grantees.

SECTION 4. The operation and maintenance of the switch track herein provided for shall be subject to all existing ordinances of the City of Chicago now in force or which may hereafter be in force relating to the use and operation of switch tracks and railroad tracks, and the construction and maintenance thereof shall be under the supervision and to the satisfaction of the Commissioner of Public Works.

SECTION 5. The said grantees agree to pay to the City of Chicago as compensation for said switch track, the sum of one hundred ($100.00) dollars per annum, payable annually in advance, the first payment to be made as of the date of the passage of this ordinance and each succeeding payment annually thereafter, provided that if default is made in the payment of any of the installments of compensation herein provided for, the privileges herein granted may be immediately revoked by the Mayor, or this ordinance may be repealed by the City Council under the powers reserved in section two (2) hereof, and thereupon this ordinance shall become null and void.

SECTION 6. Before doing any work under and by virtue of the authority herein granted, said grantees shall execute a bond to the City of Chicago in the penal sum of ten thousand ($10,000.00) dollars, with sureties to be approved by the Mayor, conditioned upon the faithful observance and performance of all and singular the conditions and provisions of this ordinance; and conditioned further to indemnify, keep and save harmless the City of Chicago against all liabilities, judgments, costs, damages and expenses which may in any wise come against said City in consequence of the granting of this ordinance, or which may accrue against, be charged to or recovered from said City from or by reason or on account of the passage of this ordinance, or from or by reason or on account of any

act or thing done by the grantee herein by virtue of the authority herein granted. Said bond and the liability of the sureties thereon shall be kept in full force throughout the life of this ordinance and if at any time during the life of this ordinance such bond shall not be in full force, then the privileges herein granted shall thereupon cease.

SECTION 7. That an ordinance passed by the City Council May 12, 1913, and appearing upon pages 390-1-2 of the Journal of the Proceedings of said date, granting permission to the United States Brewing Company of Chicago to maintain and use as now constructed a switch track in Snow street and across Elston avenue be and the same is hereby repealed.

SECTION 7½. The rights and privileges hereby granted are upon the express condition that the grantees herein shall operate no cars or engines upon or along said switch track, except between the hours of 8:00 P. M. and 6:00 A. M.

SECTION 8. This ordinance shall take effect and be in force from and after its passage, provided that a written acceptance of this ordinance and the bond hereinabove provided for shall be filed with the City Clerk within sixty (60) days after the passage of this ordinance.

Vacation of Alley: in the Block Bounded by Altgeld St., Ward St., Wrightwood Av. and C., M. & St. P. R. R. (Consumers Company, Beneficiary).

Ald. Fisher moved to proceed to consideration of the report of the Committee on Local Industries on an ordinance providing for the vacation of the east-and-west alley in the block bounded by Altgeld street, Ward street, Wrightwood avenue and C., M. & St. P. R. R., in County Clerk's Division of Block 43 of Sheffield's Addition to Chicago, in Sections 29, 31, 32 and 33-40-14 (Consumers Company, beneficiary), deferred and published August 5, 1918, page 793.

The motion prevailed.

Ald. Fisher moved to concur in said report and to pass said ordinance, with compensation as fixed by the Committee on Compensation [printed in Pamphlet No. 912].

The question being put, the vote thereon was as follows:

Yeas—Coughlin, L. B. Anderson, Jackson, Schwartz, Hickey, Mulcahy, A. A. McCormick, Nance, Fetzer, Guernsey, Woodhull, Furman, Govier, Klaus, McNichols, Cullerton, Krumdick, Kerner, Novak, Ahern, Horne, Maypole, Smith, Olsen, Piotrowski, Adamkiewicz, Walkowiak, Walker, Bauler, Steffen, Capitain, Link, Lipps, Pretzel, Watson, Littler, Hrubec, O'Toole, Fisher, Lyle, A. Ald. Fisher moved to proceed to consideration of the report of the Committee on Local Industries on an ordinance granting permission and authority to Wisconsin Lime & Cement Company to construct, maintain and use a railroad switch track over and across North Lamon avenue, north of Sunnyside avenue, deferred and published August 5, 1918, page 794.

The motion prevailed.

Ald. Fisher moved to concur in said report and to pass said ordinance, with compensation of $100.00 per annum, as fixed by the Committee on Compensation [printed in Pamphlet No. 912].

The motion prevailed, by yeas and nays as follows:

Yeas—Coughlin, L. B. Anderson, Iliff, Schwartz, Richert, Mulcahy, Fetzer, Guernsey, Woodhull, Furman, Johnson, Klaus, McNichols, Cullerton, Krumdick, Ahern, Maypole, Smith, Olsen, Kunz, Piotrowski, Adamkiewicz, Walkowiak, Touhy, Powers, Bowler, Fick, Franz, Walker, Ellison, Bauler, Wallace, Steffen, Roeder, Haderlein, Capitain, Link, Pretzel, Kennedy, Littler, Adamowski, Hrubec, Byrne, Wm. J. Lynch, O'Toole, Long, Moran, Fisher, Hazen, A. O. Anderson, Kostner, Toman, Clark, Thos. J. Lynch—54.

Nays—None.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That permission and authority be and the same are hereby given and granted to the Wisconsin Lime and Cement Company, a corporation, its successors and assigns, to construct, maintain and operate a single railroad switch track over and across North Lamon avenue from a point on the east line thereof approximately four hundred (400) feet north of the north line of Sunnyside avenue to a point on the west line thereof approximately four hundred eighty (480) feet north of the north line of Sunnyside avenue, as colored in red and indicated by the letters "E-F" on blue print hereto attached, which for greater certainty is hereby made a part of this ordinance.

SECTION 2. The permission and authority herein granted shall cease and determine twenty (20) years from and after June 6, 1918, and this ordinance shall at any time before the expiration thereof be subject to modification, amendment or repeal without the consent of the grantee herein, and in case of repeal all the privileges hereby granted shall thereupon cease and determine. In the event of the termination of the authority or privileges hereby granted by the repeal of this ordinance, the grantee by the filing of the written acceptance hereinafter mentioned, shall be understood as consenting that the city shall retain all money it shall have previously received from said grantee under the provisions of this ordinance, said money to be considered and treated as compensation for the authority, permission and privileges enjoyed from the date of the passage of this ordinance until such repeal.

By the filing of the written acceptance of this ordinance hereinafter provided for, said grantee hereby agrees to elevate at its own expense and without any expense, damage or liability to the City of Chicago of any kind whatsoever, the switch track herein authorized, upon notice so to do from the Commissioner of Public Works, or failing so to do, shall within sixty (60) days after being notified to that effect by the Commissioner of Public Works, remove the switch track herein referred to. Said switch track, if elevated under the direction and supervision and to the satisfaction of the Commissioner of Public Works, and the construction and material used in the elevation of said switch track shall be of the same character as that used in the construction of the main tracks with which said track connects.

SECTION 3. During the life of this ordinance the grantee herein shall keep such portion of said street as is occupied by said switch track in good condition and repair and safe for public travel, to the satisfaction and approval of the Commissioner of Public Works. At the termination of the rights and privileges herein granted, by expiration of time or otherwise, the said grantee shall forthwith restore such portion of said street occupied by said switch track to a condition safe for public travel, similar to the remaining portion of said street in the same block, to the satisfaction and approval of the Commissioner of Public Works. If said grantee shall fail to restore said street at the termination of said privileges, then the work shall be done by the City of Chicago, and the cost and expense of doing such work shall be paid by the said grantee.

SECTION 4. The operation and maintenance of the switch track herein provided for shall be subject to all existing ordinances of the City of Chicago now in force or which may hereafter be in force relating to the use and operation of switch tracks and railroad tracks, and the construction and maintenance thereof shall be under the supervision and to the satisfaction of the Commissioner of Public Works.

SECTION 5. The said grantee agrees to pay to the City of Chicago as compensation for said switch track, the sum of one hundred dollars ($100.00) per annum, payable annually in advance, the first payment to be made as of the date of June 6, 1918, and each succeeding payment annually thereafter, provided that if

default is made in the payment of any of the installments of compensation herein provided for, the privileges herein granted may be immediately revoked by the Mayor, or this ordinance may be repealed by the City Council under the powers reserved in section two (2) hereof, and thereupon this ordinance shall become null and void.

SECTION 6. Before doing any work under and by virtue of the authority herein granted, said grantee shall execute a bond to the City of Chicago in the penal sum of ten thousand dollars ($10,000.00), with sureties to be approved by the Mayor, conditioned upon the faithful observance and performance of all and singular the conditions and provisions of this ordinance; and conditioned further to indemnify, keep and save harmless the City of Chicago against all liabilities, judgments, costs, damages and expenses which may in any wise come against said city in consequence of the granting of this ordinance, or which may accrue against, be charged to or recovered from said city from or by reason or on account of the passage of this ordinance, or from or by reason or on account of any act or thing done by the grantee herein by virtue of the authority herein granted. Said bond and the liability of the sureties thereon shall be kept in full force throughout the life of this ordinance, and if at any time during the life of this ordinance such bond shall not be in full force, then the privileges herein granted shall thereupon cease.

SECTION 7. This ordinance shall take effect and be in force from and after its passage, provided that a written acceptance of this ordinance and the bond hereinabove provided for shall be filed with the City Clerk within (60) days after the passage of this ordinance.

Ald. Kerner presented the following communication, which was read by the Clerk:

THE PACIFIC COMPANY,
ENGINEERING AND CONTRACTING,
CHICAGO, July 19, 1918.

To The Hon. Otto Kerner,
Chairman Judiciary Committee,
City of Chicago.

DEAR SIR—I am informed that the Judiciary Committee has reported favorable to the City Council an ordinance in favor of all street openings or repairs under permits being done by the Commissioner of Public Works.

We, The Pacific Company, now have a contract with The Peoples Gas Light & Coke Co., The Commonwealth Edison Co., and The Chicago Telephone Company for the performance of this work for the year 1918; and I think were this ordinance passed without said interests being heard in the matter it would result in litigation between them and the City; however, in due respect to all parties concerned, I think it only fair and just that we should have a hearing before your Committee before same is reported favorable to the City Council.

Trusting we may have your kind consideration for a hearing, we beg to remain

Yours very truly,

(Signed) THE PACIFIC COMPANY,
JOSEPH E. BIDWELL.

Ald. Woodhull presented the following amendment to said ordinance:

Amend an ordinance for amendment of Sections 2446 and 2448 of The Chicago Code of 1911, printed in Pamphlet No. 906, by inserting at the end of the third paragraph of Section 2 of said ordinance the following language:

"Provided, however, that where such permit is granted to any person or corporation to open any street, sidewalk, alley, avenue or public place, where such street, sidewalk, alley, avenue or public place is still under reserve of the guarantee period of the contract under which such street, sidewalk, alley or public place was improved, such replacement or restoration shall be made by the contractor in accordance with the terms of his contract for the construction and maintenance of such improvement."

Ald. Woodhull moved to adopt the foregoing amendment.

The motion prevailed.

The question being put on the passage of said ordinance as amended, the motion prevailed, by yeas and nays as follows:

Yeas—Coughlin, L. B. Anderson, Iliff, Schwartz, Rich-

ert, Mulcahy, Fetzer, Guernsey, Woodhull, Furman, Johnson, Klaus, McNichols, Cullerton, Krumdick, Ahern, Maypole, Smith, Olsen, Kunz, Piotrowski, Adamkiewicz, Walkowiak, Touhy, Powers, Bowler, Fick, Franz, Walker, Ellison, Bauler, Wallace, Steffen, Roeder, Haderlein, Capitain, Link, Pretzel, Kennedy, Littler, Adamowski, Hrubec, Byrne, Wm. J. Lynch, O'Toole, Long, Moran, Fisher, Hazen, A. O. Anderson, Kostner, Toman, Clark, Thos. J. Lynch—54.

Nays—None.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. Section 2446 of The Chicago Code of 1911 is hereby amended to read as follows:

Before a permit shall be granted to any person or corporation to open any street, sidewalk, alley, avenue, or public place, for any purpose, an estimate of the cost *of inspection as hereinafter provided and of* restoring *the pavement and the surface of the street,* sidewalk, alley, avenue, or public place to a condition equally as good as before it shall have been so opened, *to the satisfaction of the Commissioner of Public Works,* with a fair additional sum as margin for contingent damages, *to be determined by the Commissioner of Public Works,* shall be made by the Commissioner of Public Works, and the permit shall be issued and transmitted to the City Collector, *who, before delivering the same, shall collect the amount of the said estimate and the fee for the said permit.*

SECTION 2. Section 2448 of The Chicago Code of 1911 is hereby amended to read as follows:

The Commissioner of Public Works shall not issue any permit for the opening of any street, alley or public way by any person or corporation until he shall have been fully advised of the time, place, and character of such opening, and the purpose thereof; and all applications for permits shall be accompanied by a plat or pencil tracing or sketch showing the location, character and dimensions of the proposed opening for the installation of new work or the location and character of the alterations involving changes in the location of pipes, conduits, wires or *other* conductors.

All work done under the authority of such permit shall be supervised and inspected by a city inspector, to be designated by such Commissioner *of Public Works, and immediately after the completion of the work done under such authority, the Commissioner of Public Works shall, with city workmen, immediately put back and restore and replace in proper shape and condition any pavement displaced by reason of such work, and shall restore and replace the surface of any street or alley or other public way which may be opened or otherwise disturbed; all of the work to be done in such manner as shall be satisfactory to the said Commissioner of Public Works, and as will leave the said street in a condition equally as good as before it was opened or disturbed under the said authority. Provided, however, that where such permit is granted to any person or corporation to open any street, sidewalk, alley, avenue, or public place, where such street, sidewalk, alley, avenue or public place is still under reserve of the guarantee period of the contract under which such street, sidewalk, alley, or public place was improved, such replacement or restoration shall be made by the contractor in accordance with the terms of his contract for the construction and maintenance of such improvement.*

The cost of the supervision and inspection and of restoring the said pavement and street as hereinbefore provided shall be determined by the Commissioner of Public Works, and shall be deducted from the amount deposited with the City Collector as hereinbefore provided.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That Section 2392 of The Chicago Code of 1911 be and the same is hereby amended to read as follows:

"SECTION 2392. **Duty of Owners—Low Pressure Boilers—Inspection.)** It shall be unlawful for any person to use any steam boiler, or any tank or tanks subject to pressure, other than city pressure, until he shall have first procured a certificate from said chief inspector that such apparatus may be safely used, and that the boiler or boilers, boiler settings, means of producing draft, smoke connections, and furnace or fire box are of such size and capacity that they will do the work required, and be capable of being so managed, for the purpose of generating steam, that no dense smoke shall be emitted from the chimney connected with such furnace or fire box.

"If such owner, agent or person using a steam boiler or tank shall fail to notify said chief inspector of his intention to make any alteration, repairs or enlargement of such steam plant, and shall fail to file plans and specifications for the enlargement or alterations of the same, and shall proceed to make such alteration, repairs, or enlargement without a

permit therefor, he shall be liable to a fine of twenty-five dollars for each day on which he shall have prosecuted such alteration, repairs or enlargement without said permit, and each day's violation shall constitute a separate offense; provided, however, that minor necessary or emergency repairs, which do not increase the capacity of such apparatus or involve any substantial alteration of structure, may be made *without such permit, but such work shall be done only by one properly licensed therefor.*

"If at any time when inspecting a steam boiler, generator or other apparatus used for generating steam for power or heating purposes, the inspector of boilers shall find that the furnace or fire box in which fuel is used for the purpose of generating steam is so constructed or operated as to cause the emission of dense smoke from the chimney connected therewith he shall report to the Department of Smoke Inspection the condition of such plant.

"Any boilers for heating purposes only, in which the permit specifies that not more than ten pounds of steam pressure to the square inch shall be carried, shall be known as 'low pressure boilers.'

"After the next inspection of such low pressure boilers shall have been made, following the adoption of this ordinance, inspections thereafter shall be made once in every three years. But all of such low pressure plants may be inspected at any time thereafter and without charge, with reference to the provisions for draft, complete combustion or degree of combustion of fuel and prevention of the emission of smoke."

SECTION 2. This ordinance shall take effect and be in force from and after its passage, approval and due publication.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That permission and authority be and the same are hereby given and granted to Griswold & Walker, Inc., a corporation, its successors and assigns, to reconstruct, maintain and operate a bulkhead or loading platform in the sidewalk space on the south side of East Austin avenue adjoining premises known as 113-21 East Austin avenue. Said bulkhead or loading platform shall not exceed eighty-six (86) feet in length, twelve (12) feet in width and two (2) feet, eight (8) inches in height. The ends of said bulkhead or loading platform shall be connected with the regular sidewalk grade at each end by ramps sixteen (16) feet long and twelve (12) feet wide, constructed of the same material as said bulkhead or loading platform and surfaced with either metal cleats spaced approximately fifteen (15) inches on center, or with a durable non-slip material. Said bulkhead or loading platform and ramps shall be constructed and maintained entirely in the sidewalk space within the property lines of the said grantee, the location and construction thereof to be substantially as shown upon sketch hereto attached, which for greater certainty is hereby made a part of this ordinance.

SECTION 2. The permission and authority herein granted shall cease and determine April 30, 1923, or may be revoked at any time prior thereto by the Mayor in his discretion without the consent of the grantee herein named. This ordinance shall also be subject to amendment, modification or repeal at any time without the consent of said grantee, and in case of such repeal all the privileges herein granted shall thereupon cease and determine. In the event of the termination, revocation, amendment or modification of the privileges herein granted by lapse of time, the exercise of the Mayor's discretion, or the exercise by the City Council of the powers above reserved, the grantee, by the filing of the written acceptance hereinafter provided for, shall be understood as consenting that the city shall retain all money it shall have previously received from said grantee under the provisions of this ordinance, said money to be treated and considered as compensation for the authority, permission and privileges enjoyed from the date of the passage of this ordinance until such repeal.

SECTION 3. During the life of this ordinance said grantee shall at all times keep said bulkhead or loading platform and ramps and the portion of the sidewalk immediately surrounding same in good condition and repair, safe for public travel, and free from snow, ice and dirt, to the satisfaction of the Commissioner of Public Works of the City of Chicago. No permit shall be issued allowing any work to be done in and about the construction or reconstruction of said bulkhead or loading platform and ramps until plans and specifications of the completed structure shall first have been submitted to and approved by the Commissioner of Public Works, and the construction or reconstruction and maintenance thereof shall at all times be under the supervision and to the satisfaction of the said Commissioner of Public Works.

SECTION 4. At the expiration of the term herein granted, upon the revocation by the Mayor of the permission and authority herein granted, or upon the repeal of this ordinance, said grantee, its successors, or assigns, shall forthwith remove said bulkhead or loading platform and ramps and restore the sidewalk to its proper condition to the satisfaction of the Commissioner of Public Works, so that the portion of said sidewalk where said bulkhead or loading platform and ramps had been located shall be put in the same condition as the other parts of said sidewalk in the same block.

SECTION 5. No work shall be done under the authority of this ordinance until a permit authorizing same shall have been issued by the Commissioner of Public Works, and no permit shall issue until the grantee herein shall execute to the City of Chicago a good and sufficient bond in the penal sum of ten thousand dollars ($10,000.00) with sureties to be approved by the Mayor, conditioned upon the faithful observance and performance of all and singular the conditions and provisions of this ordinance, and conditioned further to indemnify, keep and save harmless the City of Chicago against all liabilities, judgments, costs, damages and expenses which may in any wise come against said City in consequence of the granting of this ordinance, or which may accrue against, be charged to or recovered from said City from or by reason or on account of the passage of this ordinance, or from or by reason or on account of any act or thing done by the grantee herein by virtue of the authority herein granted. Said bond and the liability of the sureties thereon shall be kept in force throughout the life of this ordinance, and if at any time during the life of this ordinance such bond shall not be in full force, then the privileges herein granted shall thereupon cease.

SECTION 6. The said grantee agrees to pay to the City of Chicago as compensation for said bulkhead or loading platform and ramps, the sum of two hundred six and fifteen one-hundredths ($206.15) dollars per annum, payable annually in advance, the first payment to be made as of the date of June 2, 1917, and each succeeding payment annually thereafter on May 1st of each year; provided that if default is made in the payment of any of the installments of compensation herein provided for, the privileges herein granted may be immediately terminated under any one of the powers reserved to the Mayor or City Council by Section two (2) hereof, and thereupon this ordinance shall become null and void.

SECTION 7. This ordinance shall take effect and be in force from and after its approval; provided that the grantee herein files its written acceptance of this ordinance and the bond hereinabove provided for with the City Clerk within sixty (60) days after the passage hereof.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That permission and authority be and the same are hereby given and granted to Morris, Goldschmidt and Company, Inc., a corporation, its successors and assigns, to maintain and use as now constructed a bulkhead or loading platform on the south side of

West Quincy street in the rear of the premises known as 700 West Jackson boulevard; said bulkhead or loading platform not to exceed twenty-five (25) feet, six (6) inches in length; eleven (11) feet, six (6) inches in width and three (3) feet in height, the location and construction being substantially as shown upon sketch hereto attached which for greater certainty is hereby made a part of this ordinance.

SECTION 2. The permission and authority herein granted shall cease and determine April 30, 1923, or may be revoked at any time prior thereto by the Mayor in his discretion without the consent of the grantee herein named. This ordinance shall also be subject to amendment, modification or repeal at any time without the consent of said grantee, and in case of such repeal all the privileges herein granted shall thereupon cease and determine. In the event of the termination, revocation, amendment or modification of the privileges herein granted, by lapse of time, the exercise of the Mayor's discretion, or the exercise by the City Council of the powers above reserved, the grantee, by the filing of the written acceptance hereinafter provided for, shall be understood as consenting that the City shall retain all money it shall have previously received from said grantee under the provisions of this ordinance, said money to be treated and considered as compensation for the authority, permission and privileges enjoyed from the date of the passage of this ordinance until such repeal.

SECTION 3. During the life of this ordinance said grantee shall at all times keep said bulkhead or loading platform and the portion of the sidewalk immediately surrounding same in good condition and repair, safe for public travel, and free from snow, ice and dirt, to the satisfaction of the Commissioner of Public Works of the City of Chicago.

SECTION 4. At the expiration of the term herein granted, upon the revocation by the Mayor of the permission and authority herein granted, or upon the repeal of this ordinance, said grantee, its successors or assigns, shall forthwith remove said bulkhead or loading platform and restore the sidewalk to its proper condition, to the satisfaction of the Commissioner of Public Works, so that the portion of said sidewalk where said bulkhead or loading platform had been located shall be put in the same condition as the other parts of said sidewalk in the same block.

SECTION 5. No work shall be done under the authority of this ordinance until a permit authorizing same shall have been issued by the Commissioner of Public Works, and no permit shall issue until the grantee herein shall execute to the City of Chicago a good and sufficient bond in the penal sum of ten thousand dollars ($10,000.00) with sureties to be approved by the Mayor, conditioned upon the faithful observance and performance of all and singular the conditions and provisions of this ordinance, and conditioned further to indemnify, keep and save harmless the City of Chicago against all liabilities, judgements, costs, damages and expenses which may in any wise come against said City in consequence of the granting of this ordinance, or which may accrue against, be charged to or recovered from said City from or by reason or on account of the passage of this ordinance, or from or by reason or on account of any act or thing done by the grantee herein by virtue of the authority herein granted. Said bond and the liability of the sureties thereon shall be kept in force throughout the life of this ordinance, and if at any time during the life of this ordinance such bond shall not be in full force, then the privileges herein granted shall thereupon cease.

SECTION 6. The said grantee agrees to pay to the City of Chicago as compensation for said bulkhead or loading platform, the sum of eighty-seven and ninety-seven one-hundredths ($87.97) dollars per annum, payable annually in advance, the first payment to be made as of the date of June 2, 1917, and each succeeding payment annually thereafter on May 1st of each year; provided that if default is made in the payment of any of the installments of compensation herein provided for, the privileges herein granted may be immediately terminated under any one of the powers reserved to the Mayor or City Council by Section two (2) hereof, and thereupon this ordinance shall become null and void.

SECTION 7. This ordinance shall take effect and be in force from and after its passage; provided the grantee files its written acceptance of this ordinance and the bond hereinabove provided for with the City Clerk within sixty (60) days after the passage hereof.

Such application shall also set forth the location at which it is desired or intended to keep, operate or maintain a filling station, and the capacity or capacities in gallons of the container or containers, tank or tanks described in Section 1 of this ordinance.

Upon receipt of such application, the Chief of Fire Prevention and Public Safety, if he shall be satisfied that the applicant has complied with all of the requirements of the ordinances of the City of Chicago regulating the storage, use, sale, or distribution of inflammable liquids, now in force or which may hereafter be passed, shall approve such application and shall transmit the same with his approval thereon to the City Collector. Upon the payment by the applicant to the City Collector of a license fee, as specified in paragraph (b) of this section, the City Clerk, upon order of the City Collector, and if authorized so to do by the Mayor, shall issue to the applicant or applicants a license authorizing such applicants to keep, operate or maintain a filling station at the location specified in the application.

(b) The amounts of the license fee for the licenses described in this section shall be as follows:

1. Five ($5) dollars for containers or tanks *in one and the same premises,* and having a total capacity of one hundred (100) gallons or less; provided, however, that where kerosene only is stored the fee shall be three ($3) dollars.

2. *Fifteen ($15) dollars for each portable wheel tank.*

3. Fifteen ($15) dollars for containers or tanks *in one and the same premises* and having a *total* capacity of more than *one hundred (100)* gallons but not exceeding *four hundred (400)* gallons.

4. Twenty-five ($25) dollars for each container or tank having a capacity of more than *four hundred (400)* gallons, but not exceeding *one thousand and sixty-five* gallons.

5. For each container or tank having a capacity in excess of one thousand and sixty-five gallons, the license fee shall be twenty-five ($25) dollars for the first one thousand and sixty-five gallons and an additional fee of twenty-five ($25) dollars for each additional one thousand and sixty-five gallons capacity or fraction thereof. Provided, however, that any container or containers, tank or tanks, used exclusively as initial storage container or containers, tank or tanks, from which the sale of any of the inflammable liquids mentioned in Section 1 of this ordinance is not made direct to the consumers, the license fee for the licenses of such initial container or containers, tank or tanks, shall be two ($2) dollars for each one thousand (1000) gallons or fraction thereof capacity in excess of five (5000) thousand gallons.

A garage license issued in accordance with Article VIII of the Chicago Code of 1911, as amended, or a peddler's license issued in accordance with Article LIV of The Chicago Code of 1911, as amended, shall be deemed to include a license for a filling station, provided the total capacity or capacities of the container or containers, tank or tanks, described in Section 1 of this ordinance shall not exceed one thousand and sixty-five (1065) gallons, and where such capacity or capacities exceed one thousand and sixty-five (1065) gallons, an additional fee as provided for in this paragraph shall be charged.

(c) Every license issued hereunder shall expire on the 31st day of December following the date of its issuance.

If at the time of the application for a license under the provisions of this article less than three months of the current license year shall have expired, the applicant for a license shall be required to pay the full annual license fee hereinbefore fixed. If three months or more, but less than six months have expired, he shall be required to pay three-fourths of the annual license fee. If six months or more, but less than nine months of the current license year shall have expired, the applicant shall be required to pay one-half of the annual license fee. If nine months, or more of the current year shall have expired, the applicant shall be required to pay one-fourth of the annual license fee hereinbefore specified and no license hereunder shall be issued for a less sum than one-fourth of the annual license fee.

No license granted under the provisions of this article shall be assigned or transferred to any other person, firm, co-partnership or corporation, nor shall any such license authorize any person, firm, co-partnership or corporation other than the licensee named therein to do business or act under such license.

Such license shall be posted in a conspicuous place in the immediate vicinity of the container or containers, tank or tanks.

If any person, firm, co-partnership or corporation licensed under this ordinance shall, before the expiration of such license, desire to change the location of the business conducted thereunder, the licensee shall notify the Chief of Fire Prevention and Public Safety of such fact. If the Chief of Fire Prevention and Public Safety shall be satisfied that the licensee, at the premises at which it is proposed to locate, has complied with all of the requirements of the ordinances of the City of Chicago regulating the storage, use, sale or distribution of inflammable liquids, now in force or which may hereafter be passed, he shall so inform the City Collector who shall thereupon notify the City Clerk of said change of location.

SECTION 4. **Penalty.)** Any person, firm, co-partnership or corporation who shall violate any of the provisions of this ordinance, or who shall neglect or refuse to comply with any of the requirements thereof, shall be fined not less than five ($5) dollars, nor more than two hundred ($200) dollars for each offense, and a separate and distinct offense shall be regarded as having been committed for each and every day on which any such person, firm, co-partnership or corporation shall violate, fail or refuse to comply with any of the provisions of this ordinance.

SECTION 5. This ordinance shall be in full force and effect from and after its passage and due publication.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That Sections 2667, 2669, 2670, 2671 and

2677 of The Chicago Code of 1911, be and the same are hereby amended to read, respectively, as follows:

"SECTION 2667. **Livery Stable Defined.)** The words "livery stable" as used in this article shall be held to mean and are hereby defined as meaning any barn, stable, building, or other place within the city, the principal use of which or the chief source of profit of which is derived from the boarding of horses or the keeping of horses for rent or reward, or from the keeping or letting for hire or reward carriages, cabs, hacks or other horse-drawn vehicles for carrying passengers, whether such vehicles be hired out or let with or without a driver furnished by the livery keeper."

"SECTION 2669. **License Required.)** No person, firm or corporation shall keep, conduct or operate a livery stable or carry on the business of a livery stable keeper in this city without first obtaining a license so to do in the manner hereinafter provided."

"SECTION 2670. **Application.)** Any person, firm or corporation desiring to keep, conduct or operate a livery stable or to carry on the business of keeper of a livery stable shall make application to the Mayor on a form to be provided by the City Collector. Such application shall set forth the name of the applicant, and, if an individual or individuals, the place of his or their residence; and if a corporation, the names of its officers and their places of residence. Such application shall also contain the location of the place at which it is intended to keep such livery stable or to conduct the business of keeper of a livery. The Mayor shall thereupon issue or cause to be issued a license upon the payment by such applicant to the City Collector of a license fee in accordance with the rate hereinafter fixed."

"SECTION 2671. **Fee—License not Transferable.)** The license fee for keeping, conducting or operating a livery stable as hereinbefore defined, is hereby fixed at fifteen dollars per annum.

If at the time of the application for a license under the provisions of this article less than three months of the current license year shall have expired, the applicant for a license shall be required to pay the full annual license fee hereinbefore fixed. If three months or more, but less than six months have expired, he shall be required to pay three-fourths of the annual license fee. If six months or more, but less than nine months, have expired, the applicant shall be required to pay one-half of the annual license fee. If nine months, or more, of the current license year have expired, the applicant shall be required to pay one-fourth of the annual license fee hereinbefore specified, and no license hereunder shall be issued for less than one-fourth of the annual fee.

No license granted under the provisions of this article shall be assigned or transferred to any other person, firm or corporation, nor shall any such license authorize any person, firm or corporation other than the licensee named therein to do business or act under such license."

"SECTION 2677. **General Superintendent of Police to Enforce Ordinance—Right of Entry—Penalty.)** The General Superintendent of Police shall from time to time inspect, or cause to be inspected, each livery stable licensed hereunder for the purpose of inquiring whether the provisions of this article are being observed by such livery stable keeper, and any member of the police department shall have the right to enter any licensed livery stable at any time when such livery stable is open for business for the purpose of carrying out and enforcing the provisions of this article. Any keeper of a livery stable who shall refuse to permit the entry of any member of the police department when requested to permit such entry for the purposes herein specified, shall be fined not less than five dollars nor more than one hundred dollars for each offense."

SECTION 2. That Sections 2668, 2672, 2673, 2674, 2675 and 2676 of The Chicago Code of 1911 be and the same are hereby repealed.

SECTION 3. This ordinance shall be in full force and effect from and after January 1, 1919.

The following is said ordinance as passed:

AN ORDINANCE

Licensing and Regulating Public Places of Amusement.

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That the term "public place of amusement" as used in this ordinance shall be construed to include and to mean any building, hall, room or inclosure to which the general public may be admitted without the payment of an admission fee, or charge of any kind or character where they may engage in or witness the performance of any amateur theatrical entertainments, any exhibition, show, amusement, cabaret, entertainment, whether musical or otherwise, or any dance or skating either of patrons or other persons.

SECTION 2. No person or persons, society, club, firm or corporation either as owner, lessee, manager, officer or agent, shall give, conduct, produce, present, offer, permit, suffer or allow at any public place of amusement within the City of Chicago any amateur theatrical entertainments, any exhibition, show, amusement, cabaret, entertainment, act of entertainment, performance whatsoever, whether musical or otherwise, or any dance or skating either of patrons or other persons, except as herein provided by this ordinance.

SECTION 3. Any person or persons, society, club or corporation desirous of conducting a place of public amusement, as defined in this ordinance, within the City of Chicago, shall apply in writing for a license therefor from the City of Chicago. Before any such license is granted, an application in writing signed by the applicant shall be made therefor to the Mayor of the City of Chicago setting out the full name and address of the applicant, if an individual, the members of the firm, if the applicant be such, and if a society, club or corporation the full names and residences of the principal officers of such, and a description of the place where it is proposed to conduct a place of public amusement as defined in this ordinance, and a description of the kind and class of entertainment the applicant proposes to give, and the seating capacity of such place. Upon any such application being made the General Superintendent of Police of the City of Chicago shall make or cause to be made an investigation of such applicant, and if as a result of such investigation the General Superintendent of Police finds that the applicant is of good moral character and a proper and suitable person to be so licensed, he shall so recommend and refer the said application to the Commissioner of Buildings, who shall cause an investigation to be made of the premises for which a license is requested, and if the Commissioner of Buildings shall find that the premises in question are suitable for the purpose for which a license is desired, he shall recommend the issuance of a license and refer the application to the Commissioner of Health who shall make or cause to be made an investigation as to the sanitary conditions of the said premises, and if he shall believe that the place for which an application for a license has been filed is a suitable and proper place to be so licensed, he shall so recommend, and the Mayor upon the recommendation of the General Superintendent of Police, the Commissioner of Buildings and the Commissioner of Health shall, if in his discretion he deems it advisable, issue or cause to be issued to such applicant a license, attested by the City Clerk, which shall entitle the licensee to conduct, produce, present, operate or offer the class of entertainment specified in such license at the place designated in such application, and for the period of time specified in such license upon the payment of the license fee hereinafter provided.

SECTION 4. If the place at which it is desired to conduct, produce, present, operate or offer any of the amusements or exhibitions authorized by this ordinance be not a fit or proper place, and not constructed, maintained, operated or conducted in accordance with the provisions of the ordinances of the city governing and controlling said places, or if the amusement or entertainment desired to be produced or offered be of an

immoral or dangerous character, or if the person making application for a license be not of a good moral character, the Mayor may refuse to approve such application and no license shall be issued by the City Clerk except upon the approval of the Mayor.

SECTION 5. All places of public amusement within the City of Chicago as defined by this ordinance shall be closed on or before the hour of one o'clock A. M.; provided, however, that upon the application of a bona fide and responsible organization or society, and upon investigation by the General Superintendent of Police, the Mayor is hereby authorized in his discretion to grant to such organization or society a permit to continue a dance or any other amusement specified herein until three o'clock A. M.; provided, however, that no ticket shall be sold or accepted for admission after the hour of one o'clock A. M. and provided further that during the duration of the war all places of public amusement as defined herein shall close at not later than one o'clock A. M.

SECTION 6. That the fee to be charged for a license to produce, present, conduct, operate or offer any of the foregoing specified amusements shall be as follows:

For any place, room, hall or building in which it is proposed to conduct such entertainment or amusement the seating capacity of which is sufficient to accommodate not exceeding 300 persons, or if such place has a floor space not exceeding 2,400 square feet, the annual license fee shall be twenty-five dollars; if such place has a seating capacity sufficient to accommodate more than 300 persons but not more than 500 persons, or a floor space exceeding 2,400 square feet but not exceeding 4,000 square feet, fifty dollars per annum; if such place has a seating capacity sufficient to accommodate more than 500 persons but not more than 800 persons, or a floor space exceeding 4,000 square feet but not exceeding 6,400 square feet, seventy-five dollars per annum; if such place has a seating capacity sufficient to accommodate more than 800 persons, or a floor space exceeding 6,400 square feet, the annual license fee shall be one hundred dollars. In computing floor space, aisle space, space between walls and the partitions of such space, and balcony space shall be computed.

SECTION 7. Any person or persons, society, club, firm or corporation that shall violate any of the provisions of this ordinance shall be fined not less than ten nor more than two hundred dollars for each offense, and each day such violation continues shall be regarded as a separate offense. The Mayor is hereby authorized, in case any person or persons, society, club, firm or corporation shall violate any of the provisions of this ordinance or any of the general ordinances of the City of Chicago or laws of the State of Illinois, upon the request of the General Superintendent of Police or of the City Council to revoke any such license issued to any such person or persons, society, club, firm or corporation under and by virtue of the terms of this ordinance.

SECTION 8. This ordinance shall take effect and be in force from and after its passage, approval and publication.

Licensed Places of Amusement: Requirement for Closing at 1:00 A. M.

Ald. Kostner moved to pass the ordinance recommended in said report, amending The Chicago Code of 1911, by adding thereto Section 108½, requiring licensed places of amusement to close at 1:00 o'clock A. M. [printed in Pamphlet No. 910].

The motion prevailed, by yeas and nays as follows:

Yeas—Coughlin, L. B. Anderson, Iliff, Schwartz, Richert, Mulcahy, Fetzer, Guernsey, Woodhull, Furman, Johnson, Klaus, McNichols, Cullerton, Krumdick, Ahern, Maypole, Smith, Olsen, Kunz, Piotrowski, Adamkiewicz, Walkowiak, Touhy, Powers, Bowler, Fick, Franz, Walker, Ellison, Bauler, Wallace, Steffen, Roeder, Haderlein, Capitain, Link, Pretzel, Kennedy, Littler, Adamowski, Hrubec, Byrne, Wm. J. Lynch, O'Toole, Long, Moran, Fisher, Hazen, A. O. Anderson, Kostner, Toman, Clark, Thos. J. Lynch—54.

Nays—None.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That Chapter VI of The Chicago Code of 1911 be and the same is hereby amended by adding thereto another section to be known as Section 108½, said section to read as follows:

"Section 108½. Any person or persons, society, club, firm or corporation licensed to conduct amusements under this chapter shall during the duration of the war close all such places of amusement not later than 1:00 A. M."

SECTION 2. This ordinance shall be in full force and effect from and after its approval and publication.

Ald. Kostner, by unanimous consent, presented the following communications, which were ordered published and placed on file:

UNITED STATES DEPARTMENT OF JUSTICE,
BUREAU OF INVESTIGATION,
CHICAGO, August 13, 1918.

Alderman Joseph O. Kostner, Chairman, Committee on Home Defense, Chicago, Ill.:

MY DEAR MR. KOSTNER—Referring to my conference with both you and Acting Superintendent of Police Alcock, it is my judgment that the ordinance which you are endeavoring to have passed immediately, with reference to the one o'clock closing order and the anti-cabaret drive, is a good one and will be of invaluable assistance to the Government in its effort to enforce Sections 12 and 13 of the Federal Selective Service Act relating to the sale of liquor to soldiers and sailors and vice conditions.

Very truly yours,

(Signed) HINTON G. CLABAUGH,
Division Superintendent.

DEPARTMENT OF LAW,
CHICAGO, August 14, 1918.

Hon. Jos. O. Kostner, Chairman, Committee on Home Defense, City Council:

DEAR SIR—We are in receipt of your communication of recent date, requesting us for an opinion on the constitutionality and legality of an ordinance submitted

to your committee on August 5th, licensing and regulating places of amusement, and also an opinion on an amendment to the amusement ordinance in the Chicago Code of 1911.

In reply to your communication we beg to advise you, that the ordinance in question defines public places of amusement to which the general public may be admitted without the payment of an admission fee, and provides for the licensing of same. The ordinance provides that the application shall be filed by the applicant, giving a description of the place where it is proposed to conduct a public place of amusement, and the seating capacity of such place. It provides that upon such application being made, it shall be referred to the General Superintendent of Police for investigation, and if he shall find the applicant to be a person of good moral character, he shall refer the same to the Commissioner of Buildings, who shall cause an investigation to be made of the premises for which a license is requested, and if the Commissioner of Buildings shall find that the premises in question are suitable for the purpose for which the license is desired, he shall recommend the issuance of a license, and refer the application to the Commissioner of Health, who shall make or cause to be made an investigation as to the sanitary condition of said premises, and, if he shall believe that the place for which an application for a license has been filed is a suitable and proper place to be so licensed, he shall so recommend, and the Mayor upon the recommendation of the General Superintendent of Police, the Commissioner of Buildings and the Commissioner of Health shall if in his discretion he deems it advisable issue or cause to be issued to such applicant a license to conduct a place of public amusement.

The ordinance also provides that all places of public amusements shall during the duration of the war close, not later than 1 A. M.

Clause 41 of paragraph 62 of the City and Villages Act, Hurd's Statutes of 1915 and 1916, page 306, confers upon the City Council power to "license, tax, regulate, suppress and prohibit hawkers, peddlers, pawnbrokers, keepers of ordinaries, theatrical and other exhibitions, shows and amusements, and to revoke such license at pleasure."

Clause 66 of the same paragraph, confers upon the City Council power to regulate the police of the city and village and to pass and enforce all necessary police ordinances.

Clause 78 of paragraph 62, confers upon the City Council power to do all acts, make all regulations which may be necessary or expedient for the promotion of health or the suppression of disease.

In order to sustain an ordinance under the police powers of the Council, it must appear that the ordinance has for its purpose the preservation of the public peace, morals or health of the community. There is express power given to the City Council to regulate amusement but even if it were to rely upon the general police power of the Council, we are satisfied that the ordinance in question will be held constitutional and its provisions sustained by the courts.

In the case of *Nahser vs. City of Chicago*, the Supreme Court on page 291, in discussing the power of the City Council to regulate places of amusement said:

"Clause 41 gave cities all the power the State had to do the things purported to be authorized by said clause, subject to no limitations except those imposed by the constitution upon the legislature."

Clause 41 does not limit the power of the Council to license and regulate only places of amusements where an admission fee is charge, but confers upon the Council power to license, tax and regulate theatricals and other exhibitions and shows wherever given, and we are of the opinion that the Council has express power conferred upon it to pass the ordinance in question.

In regard to the amendment you talk about in your communication, it simply provides that all places of public amusements to which an admission fee is charged shall be closed not later than 1 A. M. And, in our opinion the Council possesses express power to pass the amendment to the amusement ordinance referred to in your letter.

In conclusion, we beg to advise you that in our opinion the ordinance licensing and regulating public places of amusement, and the amendment to the amusement ordinance requiring places of amusements to close at 1 A. M. are both constitutional, and the provisions of the same can be enforced by the municipal authorities and that if the ordinances are ever tested before the courts, it is our opinion that they will both be sustained.

Very truly yours,

(Signed) JAMES W. BREEN,
Assistant Corporation Counsel.

Approved:
(Signed) SAMUEL A. ETTELSON,
Corporation Counsel.

Ald. Bowler moved that the City Clerk be directed to transmit a copy of the foregoing communication from the Corporation Counsel to the General Superintendent of Police.

The following is said ordinance as passed:

AN ORDINANCE

AUTHORIZING THE CHICAGO LOCAL TRANSPORTATION COMPANY TO CONSTRUCT, MAINTAIN AND OPERATE A SYSTEM OF LOCAL TRANSPORTATION, INCLUDING STREET RAILWAYS AND ELEVATED RAILROADS, IN STREETS, ALLEYS AND PUBLIC WAYS OF THE CITY OF CHICAGO, AND PROVIDING FOR THE CONSTRUCTION OF SUBWAYS BY THE CITY OF CHICAGO, AND THE OPERATION THEREIN OF LOCAL TRANSPORTATION FACILITIES BY THE CHICAGO LOCAL TRANSPORTATION COMPANY.

PREAMBLE.

WHEREAS, the Street Railways and Elevated Railroads used for local transportation in the City of Chicago are owned by several distinct and separate corporations; and

WHEREAS, the said Street Railways and said Elevated Railroads are operated separately without reference to the convenient use thereof as a combined system by the public; and

WHEREAS, the City of Chicago desires for the proper accommodation of the public, that said existing street railways and elevated railroads be combined and coordinated as a comprehensive unified local transportation system under the ownership and management of a single corporation, and so improved and extended and operated in conjunction with a system of subways to be constructed and owned by the City, as to provide rapid, convenient and economical local transportation facilities and to give the maximum of service of which the physical properties of such system are capable at the cost of such service with full protection of the capital investment therein; and also that definite terms and conditions be fixed and determined, upon which the City shall have the right to acquire and take over such transportation system; THEREFORE,

Be it ordained by the City Council of the City of Chicago:

AUTHORITY.

SECTION 1. Subject to all of the provisions, conditions, requirements and limitations of this ordinance and in consideration of the acceptance thereof by the grantee herein, consent, permission and authority to acquire, construct, reconstruct, maintain and operate a local transportation system (hereinafter described) in the City of Chicago and the suburban territory in the State of Illinois, extending not more than twenty (20) miles distant from the nearest point in the line marking the corporate limits of said city are hereby granted to a corporation formed under statutory authority enacted by the General Assembly of the State of Illinois, hereinafter called "the Company" and named the Chicago Local Transportation Company or such other name as the City shall by ordinance approve. The Company shall be a corporation not for pecuniary profit, and the entire control and management of the Company and of its affairs, property and funds shall be vested in a Board of Trustees or Directors. The said trustees or directors shall be nine (9) in number and shall be selected and hold office in the following manner and subject to the following limitations and conditions:

No trustee or director shall be the owner of any bonds, debentures or other obligations or securities of the Company or be financially interested in the property or revenues of the Company except in his fiduciary capacity as trustee or director, or shall receive any

compensation for his services except the salary or other compensation herein expressly authorized to be paid to such trustee or director. The trustees or directors shall be residents of the City of Chicago or the said suburban territory. The persons constituting the first Board of Trustees or Directors shall be selected on or before the date of the passage of this ordinance and on or before said date a resolution shall be passed by the City Council to the effect that the persons therein named have been so selected and are, in the judgment of said City Council, men of business ability and public spirit and qualified to direct and manage the Local Transportation System authorized by this ordinance so as to furnish by means of said system and its betterments and extensions the best possible local transportation service to the public at the cost of such service and to protect the investment therein as provided in this ordinance. Said first Board of Trustees or Directors shall hold office without classification until the 31st day of December, nineteen hundred and twenty-seven (1927), but prior to the expiration of said period the said Board shall, by such method as it may provide (and in default of agreement by lot), be divided into three classes of three each, the term of office of one of which classes shall expire on the 31st day of December, nineteen hundred and twenty-eight (1928), the term of office of another of said classes shall expire on the 31st day of December, nineteen hundred and twenty-nine (1929), and the term of office of the remaining class shall expire on the 31st day of December, nineteen hundred and thirty (1930). As the term of office of each of said classes expires, their successors shall be elected for a term of three (3) years following such expiration and within not less than sixty (60) days nor more than ninety (90) days prior to each annual election of trustees or directors, the City may in such manner as it may provide by ordinance designate persons who, in its judgment, are persons of business ability and public spirit and suitable to be elected as the successors respectively of the trustees or directors whose terms of office are about to expire, and by its acceptance of this ordinance the Company agrees that, at the ensuing election, the persons so designated shall be elected as trustees or directors. Any vacancy occurring in said board by death, resignation, removal or otherwise than by expiration of the term of office shall be filled by said board. In case of the death, resignation or inability to serve of any of the persons selected as aforesaid to constitute the first Board of Trustees, the remaining Trustees shall select the Trustee or Trustees to fill any such vacancy or vacancies. By its acceptance of this ordinance, the Company agrees that after the effective date hereof, the Company shall not, without the consent (by ordinance) of the City change its charter or method of selecting its Trustees or Directors. The compensation of each of such trustees or directors shall be the sum of Five Thousand Dollars ($5,000) per year, to be paid as one of the operating expenses of the Company, but the Board of Trustees or Directors shall have the power to elect officers of the Company, who may or may not be trustees, and to select an Executive Committee of three of its members to have direct and immediate charge of the operation and management (subject to the authority and direction of said board) of the business of the Company and of the said Local Transportation System and the members of said Executive Committee may receive additional compensation as hereinafter provided. The said Board of Trustees or Directors shall have the power and it shall be its duty to employ suitable agents and attorneys and to pay to the same and to the officers and the members of the Executive Committee hereinabove provided, as a part of the operating expenses, compensation for their services commensurate with the service actually rendered by them respectively, taking into consideration the compensation paid to members of Executive Committees, officers, agents and attorneys of other corporations or enterprises of similar magnitude and general character for like services; provided, however, that no contract with respect to such compensation shall be made for a longer period than one (1) year.

Said local transportation system shall include the lines of street railways and elevated railroads in the City of Chicago, set out in Exhibit A hereto attached and made a part hereof, and all equipment thereof and appurtenances thereto, and also the lines herein provided for of street railways and elevated railroads outside the City, set out in Exhibit A, including all equipment thereof and appurtenances thereto, and all additions to and extensions of said lines which the Company shall acquire authority to construct, maintain and operate with the consent and permission of the City and of the local authorities having jurisdiction thereof, provided, however, that no part of such lines lying outside the City of Chicago shall be more than twenty miles distant from the nearest point in the line marking the corporate limits of said City, or outside the State of Illinois. The Company shall acquire no right and incur no obligation under this ordinance to construct any new line or extension without compliance with the frontage consent laws of Illinois applicable thereto, and the passage of such ordinances as may be necessary to confer lawful authority upon the Company for such purpose and the Company shall not use or acquire by purchase, condemnation or otherwise, a right of way exceeding in width fifty-five (55) feet, except at curves and at or approaching termini, stations or platforms, or except for the location, construction and maintenance of termini, stations or platforms.

No part of the local transportation system shall be used for any purpose but the transportation of passengers except as herein expressly provided.

Subject to all the provisions of this ordinance, there are hereby granted to the Company, its lessees, successors and assigns, the right, permission and authority during the life of this grant to occupy and use for the purpose of the local transportation system, upon payment of the rental therefor herein provided for, the subways constructed and owned by said City under the provisions of Section 7 of this ordinance.

ACQUISITION OF EXISTING TRACTION PROPERTIES.

SECTION 2. On or before the effective date of this ordinance the Company shall acquire and on said date shall own, free and clear of all liens and claims except those herein expressly authorized, the street railway and elevated railroad systems and all equipment thereof and appurtenances thereto of the Surface Companies and the Elevated Companies, respectively, including (a) all the then existing property, franchises and rights of the Surface Companies acquired, held or operated by them or any of them under the provisions of the Traction Ordinances and the moneys and securities then constituting or belonging to the special funds created under the provisions

of the traction ordinances, and (b) all the property, franchises and rights of the Elevated Companies on the date of the passage of this ordinance, including, the elevated railroads, properties and rights described in the appraisal inventory of the elevated railroads and property as of June 30, 1916, made by William Barclay Parsons, Bion J. Arnold and Robert Ridgway, as members of the Chicago Traction and Subway Commission, a copy of which inventory was filed with the City Comptroller of the City on the 30th day of July, A. D. 1918, and including all land and buildings owned by the Elevated Companies or any of them on the date of the passage of this ordinance (except any properties of the Elevated Companies included in said inventory which shall have been lost, destroyed, sold or disposed of, between the 30th day of June, 1916, and the effective date of this ordinance), and (c) all property existing on said effective date which shall have been purchased or acquired by the Elevated Companies between June 30, 1916, and said effective date, for use as a part of or in connection with the lines of elevated railroad now owned by said Elevated Companies. The title of the Company on said effective date to the said properties, franchises and rights may be subject only to such liens or claims under the mortgages, trust deeds or equipment trusts now existing thereon as may be then outstanding and unpaid; provided that the aggregate amount of all liens and claims shall in no event then exceed the original capital account of the Company herein authorized, and that the amount by which the said original capital account exceeds the said aggregate amount of said liens and claims (which excess amount shall not be more than forty (40) per cent. of said original capital account) shall be represented by debentures or other obligations of the Company; but neither said debentures nor other obligations shall have any right of foreclosure or bear any due date or time of redemption but they shall be subject to be called for payment under the provisions of this ordinance and shall be entitled to payment (subject to the rights of lienors) upon the distribution of the property of the Company out of the proceeds of sale to the City of the local transportation system of the Company and subject to the provisions of the statutes applicable thereto. The owners or holders of said debentures or other obligations shall be entitled to receive an annuity or interest thereon at the rate of eight (8) per cent. per annum (payable quarterly) from and after the effective date of this ordinance, until July 1, nineteen hundred and thirty-two (1932), and thereafter at the rate of seven (7) per cent. per annum (payable quarterly).

The Company may enter into an agreement providing for the issuance thereunder of the said debentures or other obligations and containing appropriate covenants and provisions for the protection of the rights of the holders of said debentures or other obligations, under and subject to the provisions of this ordinance.

The Company may acquire the properties, franchises, and rights (which it is hereinbefore in this section obligated to acquire prior to and to own on the effective date of this ordinance) subject to the leases and operating agreements set out in Exhibit C attached hereto, and to such other leases or operating agreements as shall have been made with the consent and approval of the City, and subject to any other leases or operating agreements made between the date of the passage of this ordinance and the effective date hereof, with the approval of the Public Utilities Commission of the State of Illinois, provided the City shall have been given notice, in writing, of the application for such approval, and an opportunity to appear and be heard upon said application; and provided further that the Company may acquire any lands and buildings included in said properties and not used for transportation purposes, subject to such leases as exist thereon at the time of the passage of this ordinance, and expiring not later than February 1, nineteen hundred and twenty-seven (1927).

The Company may at its option acquire all the said properties, franchises and rights subject to the foregoing provisions of this section in the following manner and subject to the following terms and conditions:

1. The Company may acquire the properties, franchises and rights of the Chicago City Railway Company, Calumet and South Chicago Railway Company and The Southern Street Railway Company (including all moneys and securities in or belonging to the special funds created under the provisions of the traction ordinances applicable to said Companies, respectively), and may pay for the same a purchase price equal to but not exceeding the aggregate amount of the capital account of the said Companies as said capital account is fixed and determined as of the effective date of this ordinance by the Board of Supervising Engineers under said traction ordinances respectively, and under and subject to which ordinances the said Companies are operating on the date of the passage of this ordinance. The said purchase price shall be paid (a) by the taking over by the Company of the said properties, franchises and rights subject only to such liens or claims under the mortgages or trust deeds now existing thereon under the provisions of the traction ordinances as shall then be outstanding and unpaid, provided that the interest payable on said liens or claims shall not exceed five (5) per cent. per annum and that the aggregate amount of all liens and claims shall in no event exceed sixty-five (65) per cent. of the said capital account on said effective date; and (b) by the issuance and delivery to the said companies of the debentures or other obligations of the Company of the character hereinabove described to an aggregate amount (par value) equal to the remainder of said purchase price, which remainder, however, shall in no event exceed forty (40) per cent. of said purchase price. In case the total amount of said liens, subject to which the Company shall take over said properties, rights and franchises, shall exceed sixty (60) per cent. (but in no case to exceed sixty-five (65) per cent.) of said purchase price, the Company, as a further consideration for such acquisition, may agree to pay annually, in equal quarterly installments, to such corporation, corporations, person or persons as may be designated by the Chicago Title and Trust Company, Trustee, from said effective date until July 1, nineteen hundred and thirty-two (1932), a sum equal to three (3) per cent. on such excess, and from July 1, nineteen hundred and thirty-two (1932), during the remainder of the life of this ordinance a sum equal to two (2) per cent. on such excess.

2. The Company may acquire the properties, franchises and rights of the Elevated Companies (including all land and buildings owned by the Elevated Companies or any of them on the date of the passage of this ordinance) at the purchase price of Seventy

Million Nine Hundred and Forty-three Thousand and Twenty Dollars ($70,943,020) (to which shall be added or from which shall be subtracted, as the case may be, the amounts which are to be added or subtracted under the provisions of paragraph 2, under the heading "Capital Account" in Section 24 of this ordinance). The said purchase price shall be paid (a) by the taking over by the Company of the said properties, franchises and rights, subject only to such liens and claims under the mortgages, trust deeds and equipment trusts now existing thereon, as shall be then outstanding and unpaid, provided that the aggregate amount of all liens and claims shall in no event exceed the sum of Forty-six Million Five Hundred Thousand Dollars ($46,500,000), and (b) by the issuance and delivery to the Trustees under the agreement and declaration of trust, dated June 30, 1911, establishing the trust therein called Chicago Elevated Railways Collateral Trust, of debentures or other obligations of the Company of the character hereinabove described, to an aggregate amount (par value) equal to the excess of said purchase price over and above said liens.

In case there shall be included within said liens any bonds of any issue bearing a rate of interest less than five per cent. per annum, the Company, as a further consideration for said acquisition, may agree to pay in equal quarterly installments (to such corporation, corporations, person or persons, as may be designated by said Trustees of said Chicago Elevated Railways Collateral Trust) from said effective date and until the specified date of maturity of such issue, an additional annual sum equal to the difference between the total annual interest on all such bonds at the time of said purchase and an amount equal to five (5) per cent. of the principal amount of all such bonds; and in case the total amount of said liens, subject to which the Company shall take over said properties, rights and franchises, shall exceed sixty (60) per cent. of said purchase price, the Company, as a further consideration for such acquisition, may agree to pay annually from said effective date until July 1, nineteen hundred and thirty-two (1932), a sum equal to three (3) per cent. of such excess, and annually from July 1, nineteen hundred and thirty-two (1932), during the remainder of the life of this ordinance a sum equal to two (2) per cent. of such excess, such payments to be made in equal quarterly installments, to such corporation, corporations, person or persons as may be designated by said Trustees of said Chicago Elevated Railways Collateral Trust.

Provided, however, that if there shall be included within said liens any bonds of any issue bearing a rate of interest more than five (5) per cent. per annum. there shall be deducted from the interest payments to be made by the Company, as aforesaid, during the period between the effective date of this ordinance and the specified date for the maturity of such bonds, an annual amount (deductible quarterly) equal to the difference between the annual interest paid by the Company on such bonds and an amount equal to five (5) per cent. of the principal amount of such bonds; and, provided further, that in case the City at any time purchases the local transportation system of the Company, under the provisions of this ordinance, the agreements of the Company to make the payments hereinabove in this subdivision numbered 2 of this section mentioned, shall wholly cease and determine, and the Company shall be under no further obligation to make any payment or to do or refrain from doing any other act thereunder.

3. The Company may acquire the properties, franchises and rights of the Chicago Railways Company (including all moneys and securities in or belonging to the special funds created under the provisions of the traction ordinances applicable to said Company), and may pay for the same a purchase price equal to (but not exceeding) the amount of the capital account of the said Chicago Railways Company as said capital account is fixed and determined as of the effective date of this ordinance by the Board of Supervising Engineers under the traction ordinances applicable to said Company and under and subject to which the Chicago Railways Company is operating on the date of the passage of this ordinance and shall acquire said properties, franchises and rights subject to the following terms and conditions:

(a) The Company shall take over the said properties, franchises and rights, subject only to such liens or claims under the mortgages or trust deeds now existing thereon under the provisions of the said traction ordinances as shall then be outstanding and unpaid, provided that the aggregate amounts of such liens and claims shall not exceed the amount of the said capital account on said effective date; and provided further that on said effective date the Chicago Railways Company shall have caused the total amount of all liens and claims against its said properties, franchises and rights to be reduced to an amount which does not exceed the capital account on said effective date.

(b) The Company shall, after the taking over by it of the said properties, franchises and rights, as aforesaid, pay to the Trustee in the mortgage deed of trust from the Chicago Railways Company to the Merchants Loan and Trust Company, Trustee, dated February 1, 1907, the moneys therein provided to be paid to said Trustee as a sinking fund under the provisions of said mortgage deed of trust for the retirement of certain "C" Bonds and "A" Bonds, specified in said mortgage deed of trust, which payments are at the rate of Two Hundred and Fifty Thousand Dollars ($250,000) per annum.

(c) The Company shall enter into an agreement with the said Chicago Railways Company providing that from the effective date of this ordinance and until July 1, nineteen hundred and thirty-two (1932), the Company shall pay annually (in equal quarterly installments) to the Chicago Title and Trust Company, as Trustee, a sum equal to three (3) per cent. upon an amount equal to forty (40) per cent. of the said purchase price, which moneys so paid to the Chicago Title and Trust Company, Trustee, shall be paid out by the said Trustee as the Board of Directors of the Chicago Railways Company shall specify and direct.

(d) The Company shall enter into a further agreement with the Chicago Railways Company that from July 1, nineteen hundred and thirty-two (1932), and until said agreement ceases and determines, as hereinafter provided, the Company shall pay annually (in equal quarterly installments) to the Chicago Title and Trust Company, as Trustee, a sum equal to two (2) per cent. upon an amount equal to forty (40) per cent. of the said purchase price, which money, so paid to the said Trustee shall be paid by the said Trustee, first, as interest (at the rate not to exceed five (5) per cent. per annum) upon such obligations as may be given by the Chicago Railways Company in exchange for bonds or other liens or claims retired by the Chicago Railways Company on or before the effective date of this ordinance, in pursuance to the requirement in the foregoing paragraph (a) for the reduction of the liens and claims against the franchises, properties and rights of the said Chicago Railways Company, provided that the aggregate amount of said obligations shall not exceed the total amount (par

value) of the bonds, liens or claims so retired, and shall in no event exceed the sum of Six Million Five Hundred Thousand Dollars ($6,500,000); and second, any residue of said money remaining in the hands of said Trustee after the payment of said interest shall be applied by the said Trustee to the amortization or payment of the principal amount of said obligations. Upon the amortization or retirement of all said obligations, the agreement mentioned in this paragraph (d) shall cease and determine, and the Company shall be under no further obligation to make any payments or to do or to refrain from doing any other thing thereunder. All said obligations given by the Chicago Railways Company shall be subject to the provision which shall be expressed on their face that the interest thereon and the principal thereof shall be payable only out of funds received by the Chicago Title and Trust Company, Trustee, from the Company under the provisions of this subdivision 3 of this Section.

(e) It shall be an express condition of the making by the Company of any of the said agreements with the said Chicago Railways Company specified in the foregoing paragraphs (c) and (d) that in case the City at any time purchases the local transportation system of the Company under the provisions of this ordinance, said agreements, and each of them, shall wholly cease and determine, and the Company shall be under no further obligation to make any payments or to do or to refrain from doing any other thing thereunder.

All new and additional capital needed for carrying out the provisions of this ordinance (including the refunding or payment of the liens or claims herein authorized) and not paid out of the Amortization Fund, provided for in Section 14 of this ordinance, shall be secured by the sale of bonds, debentures or other obligations of the Company after public advertisement, on the most advantageous terms available to the Company and in accordance with the provisions of this ordinance.

From and after the effective date of this ordinance the local transportation system of the Company shall be maintained and operated under the provisions of this ordinance, subject to the right of the City to purchase and take over, upon the notice and terms herein provided, the entire local transportation system and all special funds provided for in connection therewith.

DESIGNATING TERMS.

SECTION 3. The following designating terms are used in this ordinance including the foregoing sections thereof:

"City," to designate the municipal corporation known as the City of Chicago in the County of Cook and State of Illinois.

"City Council," to designate the City Council of the City.

"Company," to designate the Chicago Local Transportation Company, or such other corporation which shall become the successor or assignee of said Company, subject to the provisions of this ordinance.

"Surface Companies," to designate the four (4) corporations owning or operating the existing Surface Lines, viz: Chicago Railways Company, Chicago City Railway Company, Calumet and South Chicago Railway Company, and The Southern Street Railway Company.

"Elevated Companies," to designate the five (5) corporations owning or operating the existing rapid transit lines, viz: South Side Elevated Railroad Company, The Metropolitan West Side Elevated Railway Company, Northwestern Elevated Railroad Company, Chicago and Oak Park Elevated Railroad Company and Union Consolidated Elevated Railway Company.

"Elevated railroad," to designate a railroad the greater portion of which is located upon an elevated structure, of the general character described in Exhibit B (hereto attached and made a part hereof), provided, however, that said railroad shall be used chiefly for the transportation of passengers conducted by cars or trains operated by electricity, stopping at stations, and shall not be used for the transportation of freight within the City except mail, package freight and express matter of such character and to such extent as said City by this or subsequent ordinances permits to be transported.

"Surface Lines," to designate that part of the local transportation system hereby authorized, consisting of the street railway lines now owned or operated by the Surface Companies, described in Part 1 of Exhibit A hereto, together with all equipment thereof and appurtenances thereto, and all extensions thereof and additions thereto hereafter made.

"Rapid Transit Lines," to designate that part of the local transportation system hereby authorized consisting of the railroad lines now owned or operated by the Elevated Companies described in Part II of Exhibit A hereto, together with all equipment thereof and appurtenances thereto, and all extensions thereof and additions thereto hereafter made.

"Metropolitan Elevated," to designate the existing tracks and structure of The Metropolitan West Side Elevated Railway Company, and loop connection of the Union Consolidated Elevated Railway Company, located and described in Part II of Exhibit A.

"South Side Elevated," to designate the existing tracks and structure of the South Side Elevated Railroad Company, located and described in Part II of Exhibit A.

"Northwestern Elevated," to designate the existing tracks and structure of the Northwestern Elevated Railroad Company, located and described in Part II of Exhibit A.

"Oak Park Elevated," to designate the existing tracks and structure of the Chicago and Oak Park Elevated Railroad Company, located and described in Part II of Exhibit A.

"Union Loop," to designate the existing elevated railroad tracks and structure in Wells street from Lake street to Van Buren street; in Van Buren street from Wells street to Wabash avenue; in Wabash avenue from Van Buren street to Lake street; and in Lake street from Wabash avenue to Wells street.

"Settlement Ordinances," to designate the two ordinances passed by the City Council on February 11, 1907, granting street railway rights to the said Chicago Railways Company and Chicago City Railway Company, respectively.

"Unification Ordinance," to designate the ordinance passed by the City Council on November 13, 1913, entitled: "An ordinance authorizing unified operation of the surface street railways in the City of Chicago."

"Traction Ordinances," to designate collectively the settlement ordinances; the ordinance passed by the City Council on March 30, 1908, granting street railway rights to the said Calumet and South Chicago Railway Company; the ordinance passed by the City Council on March 15, 1909, granting street railway rights to the said The Southern Street Railway Company; the Unification Ordinance; and all other ordinances passed

by the City Council subsequent to February 11, 1907, and before the passage of this ordinance, relating to the Surface Companies or any of them.

"Local Transportation System," to designate the unified system of railways consisting of the surface lines, the rapid transit lines, and the lease or right to operate the lines of railway and the appurtenances thereto located in the subways to be constructed and owned by the City and rented to the Company, as provided in Section 7 of this ordinance, including the properties, franchises and rights which the Company is by this ordinance required to own on the effective date hereof and all betterments and extensions thereof.

"City Traction Fund," to designate the fund to be established under the provisions of Section 13 of this ordinance.

"Amortization Fund," to designate the fund to be established under the provisions of Section 14 of this ordinance.

"Initial Construction Period," to designate the period of six years next following the effective date of this ordinance, and consisting of the "First Three-Year Period" and the "Second Three-Year Period," described in Exhibit B.

"Betterments and Extensions," to designate and include all betterments, extensions, additions, equipment and other property (including original pavement of the right of way) acquired by the Company after the effective date of this ordinance, through construction, reconstruction, alteration, purchase or otherwise, as a part of or for use in connection with its local transportation system,

"Fiscal Year," to designate the twelve months' period beginning January 1st and ending December 31st in each calendar year.

"Initial Fiscal Year," to designate the period beginning with the effective date of this ordinance and ending on December 31st following.

"Effective date of this ordinance," to designate the date on which this ordinance goes into effect, as provided in Section 34 of this ordinance.

"Original Capital Account," to designate the total purchase price or value of the properties, franchises and rights of the Surface Companies and the Elevated Companies which the Company is required by Section 2 hereof to have acquired by and to hold on the effective date of this ordinance, and which total purchase price or value shall constitute the capital account of the Company on the said effective date as determined under the provisions of paragraphs 1 and 2 under the heading "Capital Account" in Section 24 hereof.

"Capital Account," to designate, from time to time, the price at which the City may purchase the entire local transportation system of the Company, as provided in Section 24 of this ordinance.

"Depositaries," to designate the banks or trust companies selected in the manner and subject to the conditions stated in Section 25 of this ordinance.

"Trustees," to designate the board of trustees or directors of the Company, constituted as provided in Section 1 hereof.

The term "street" or "avenue" as used in this ordinance shall be deemed to include street connections by means of bridges over, or tunnels under, rivers or canals, or by means of viaducts over, or subways under, steam railroads, railroad yards, or other like obstructions; and in all cases where a specific street or avenue is named, it shall be deemed to include such street or avenue, within the limits mentioned in such cases respectively, irrespective of whether part of said street or avenue shall be known as "north," "south," "east" or "west," street or avenue.

MOTIVE POWER.

SECTION 4. The motive power to be used in the operation of the local transportation system and of transportation facilities within the subways hereinafter provided, shall be electricity applied by overhead trolley system, underground conduit, third rail, or otherwise, as more particularly set forth in Exhibit B.

IMPROVED LOCAL TRANSPORTATION.

SECTION 5. The Company shall proceed at once to furnish and provide the betterments and extensions as described in this ordinance and in full compliance with the specifications and provisions for such work in this ordinance and in the exhibit hereto attached, marked Exhibit B, and made a part of this ordinance with the same force and effect as though herein fully set forth, and to operate and maintain said system in accordance with the provisions of this ordinance and of said Exhibit B.

The Company shall at all times construct such additions to and extensions of both the rapid transit and surface lines as may be required for furnishing adequate local transportation facilities and service under the principles and provisions in this ordinance and in Exhibit B set forth.

Such provisions of this ordinance as are in the nature of specifications shall be given at all times full force and effect, except in cases, if any, in which they conflict with express provisions of Exhibit B, in which cases the latter shall prevail. The provisions of this ordinance and those of Exhibit B, however, shall be construed together, and both, so far as practicable, shall be given full effect.

The Company shall proceed with all due diligence, subject to the provisions of this ordinance, to acquire by purchase, condemnation or otherwise such private rights of way and lands as may be necessary for the construction of the extensions of elevated and rapid transit lines required by this ordinance; and consent, permission and authority is hereby given to the Company to proceed by condemnation or otherwise to acquire such rights of way, and to construct its elevated railroad structure thereon and across the streets, alleys and public ways of the City which intersect such private rights of way; but no elevated railroad extension shall be located in or along any of said streets, alleys or public ways under the authority granted in this ordinance (or without specific authority hereafter granted by the City by ordinance), except at and across such intersections; and the permission and authority hereby granted are upon the express condition that whenever any streets or alleys shall be laid out or opened by dedication or condemnation or otherwise, across the line of any elevated structure herein authorized, the Company shall construct and maintain its elevated structure over any such street or alley intersection in the same manner as herein generally provided for other street crossings or intersections.

CONTROL OF WORK AND EXPENDITURES.

SECTION 6. All betterments and extensions provided for or required by this ordinance, or the exhibits thereto shall be furnished and provided by the Company (but not including subways or extensions thereof to be constructed and owned by the City), and the cost and expense thereof shall be borne and paid by the Company out of new and additional moneys provided by it by the sale of bonds, debentures or other obligations as herein provided or out of the Amortization Fund as herein provided.

The Company shall purchase materials and equipment, and employ engineers, superintendents, clerks, foremen and workmen, and shall pay all expenses of every nature, including legal expenses, necessary to the proper, complete and prompt performance of the above-mentioned work, upon the lowest advantageous terms.

In case the Company shall let a contract for the construction or equipment of any power house, substation, car house or other building, passenger cars, elevated or surface line tracks or structure or any part of any of the foregoing, the cost of which is in excess of the sum of Five Thousand Dollars ($5,000), such contract shall be based on plans and specifications prepared by the Trustees and shall be let to the lowest responsible bidder after public advertisement for sealed bids in a daily newspaper of general circulation in the City of Chicago for a period of not less than thirty (30) days prior to the date fixed for opening such bids. The bids shall be publicly opened on the day and hour and at the place mentioned in the advertisement, and shall remain on file in the office of the Company and shall be open to public inspection for at least forty-eight (48) hours after such opening before any contract is let thereon. Any and all bids may be rejected, and if rejected a readvertisement shall be made and bids shall be let in the manner above provided for the original advertisement and bidding.

The cost of any betterments or extensions (but not including renewals) shall be deemed to include expenditures on account of injuries to persons or property occurring in connection with and on account of the construction thereof, and expenses or amounts properly chargeable for the use of equipment of the Company employed in such construction.

SUBWAYS.

SECTION 7. The City shall proceed promptly, after the effective date of this ordinance, to construct the subways described in Exhibit B and required by Exhibit B to be constructed and completed during the Six-Year Initial Construction Period, to the extent that the said subways can be constructed and paid for out of the City Traction Fund, or out of other moneys which the City may in its discretion provide for this purpose. Subject to the provisions of this ordinance, including Exhibit B, the plans, specifications and estimates of cost for such subways shall be prepared by the Trustees and the construction thereof shall be under the supervision of the Trustees, but the contracts for all work done or to be done and the payment of all moneys shall be made by the City as may be provided by ordinance under and in accordance with the laws of the State of Illinois applicable thereto.

Whenever, in the judgment of the Trustees, the traffic requires or justifies the construction of additional subways or the extension of the subways provided for in Exhibit B, the Trustees shall prepare plans, specifications and estimates of cost for such additions or extensions under and subject to the provisions of this ordinance, and shall submit the same to the City Council and upon the authorization thereof by the City by ordinance the City shall proceed to construct the same in the same manner as herein provided for the construction of the subways specified in Exhibit B; provided, however, that if at any time the City Traction Fund is not sufficient to pay for any of such additional subways or such extensions herein provided for, the Company, after the City shall have expended its Traction Fund in the construction of such additional subways or extensions, or for other purposes authorized by this ordinance, shall furnish to the City during or after construction in such installments and at such times as the City may provide, the money necessary to enable the City to pay for such construction. Any moneys so provided by the Company shall be taken out of its Capital Account Fund, and shall be regarded as capital expenditures and shall be treated in all respects under the provisions of this ordinance as is herein provided for other capital expenditures. Without the consent of the City by ordinance hereafter passed for that purpose, no subways or additions or extensions of subways shall be constructed in any street or public way or portion thereof in the City, except the subways expressly provided for in Exhibit B, to be constructed during the Six-Year Initial Construction Period.

If the City by ordinance shall so authorize, the plans and specifications for any of said subways shall provide for passageways, corridors, galleries or other facilities for the accommodation and use of public utilities belonging to the City or authorized by the City, but in no event shall the Company be required to advance to the City any money to be used for the construction, maintenance, repair or renewal of any such passageways, corridors, galleries or other facilities, and no public utility or other corporation or party shall have the right to use any portion of said subways or their appurtenances without express authority from the City and upon such terms as the City by ordinance shall prescribe.

The City may, by ordinance, provide for or authorize the payment of the cost (or any part thereof) of constructing subways, by special assessment upon private property specially benefited thereby, to the extent that this may lawfully be done.

Whenever any of the subways provided for in any of the separate items or paragraphs of Exhibit B or any of the subways or extensions of subways authorized by any future ordinance as hereinabove provided is completed and ready for occupancy (or whenever, in the judgment of the Trustees, a sufficient portion or section of any of said subways is completed and ready for occupancy, to make the operation of cars or trains of the Company therein practicable and desirable in connection with the local transportation system) the Company shall proceed to operate and continue to operate its cars and trains in and through the said subway or portion or section thereof in connection with the local transportation system and under the provisions of this ordinance. The Company shall pay to the City as rental for the use of such subway or por-

tion thereof a sum equal to six (6) per cent. per annum, from the date of commencement of the operation thereof, upon the cost of the said subway or portion or section thereof as certified by the Trustees to the City Comptroller of the City, including in such cost three (3) per cent. per annum on the payments for subway construction made by the City (otherwise than out of money advanced by the Company or secured by special assessments) from the dates of such payments respectively, until commencement of operation, but not including in such cost the amounts of money secured by special assessments or furnished to the City by the Company for subway construction, as provided in this section; and also not including any additions to the cost of constructing any such subway due to the construction in, or in connection with any such subway, of passageways, corridors, galleries or other facilities which may be constructed, as hereinabove in this section provided, or due to the adaptation or utilization of any such subway, or any part thereof, for other than local transportation purposes, which additions shall be ascertained and certified by the Trustees to the City Comptroller of the City. Said payments shall be deposited in and constitute a part of the City Traction Fund and shall be made quarterly on the first days of January, April, July and October in each year. The Company shall also, out of the receipts of the transportation system, maintain, repair and renew all such subways or portions or sections thereof, occupied and used by it, to the same extent and in the same manner as it is herein required to maintain, repair and renew its local transportation system. The Company shall not by anything in this ordinance contained, acquire any ownership of or any right, title or interest in the said subways or any portion or section thereof except the right to operate its cars or trains therein during the life of this grant and subject to the provisions of this ordinance.

MAINTENANCE, REPAIRS, RENEWALS AND DEPRECIATION.

SECTION 8. The Company by the acceptance of this ordinance expressly agrees to maintain and operate the local transportation system and its entire equipment, plant and appurtenances, including subways, so as to furnish to the public, over all parts of the local transportation system the best possible local transportation service, and for this purpose to make from time to time appropriate expenditures for construction, equipment, maintenance, repairs and renewals. To this end the Company shall make the following expenditures:

(1) The Company shall expend for maintenance and repairs during each and every fiscal year that the Company continues to operate the local transportation system at least a sum equal to six (6) per cent. of the gross receipts of the local transportation system for that year, and if the said amount is not so expended for the said purpose by the Company during any fiscal year, then at the end of such year the unexpended portion thereof shall be deposited in a fund appropriately designated with one or more of the banks or trust companies authorized to act as depositaries of such funds under the terms and subject to the conditions of this ordinance (herein referred to as the Depositary) for the purpose of being used whenever necessary for such maintenance and repairs.

(2) On or before the fifth day of each and every month of each and every year that the Company continues to operate the local transportation system, the Company shall deposit with one or more of the said depositaries in a separate fund designated as the Renewal and Depreciation Fund a sum equal to eight (8) per cent. of the gross receipts of the local transportation system for the preceding month, which shall constitute a reserve fund for taking care of renewals and depreciation of the local transportation system and property and subways and out of the said fund the Company shall from time to time pay such amounts as are necessary for renewals of the local transportation system and property and subways, the portion of said fund remaining unexpended to continue in said fund as a provision for the depreciation of the local transportation system and property and subways, and shall be disposed of as hereinafter provided; it being the purpose of this ordinance to provide a fund adequate to take care of the actual renewals that may be necessary or appropriate from time to time, and the Trustees are hereby given authority to increase the percentage of the gross receipts to be deposited in said fund above eight (8) per cent. if and as such increase may be found necessary by the Trustees to accomplish the purpose above stated. No payments shall be made by the Company out of said fund except for renewals, which are hereby defined to be the replacement of any principal part of the local transportation system or its equipment or appurtenances (including pavement) or subways; and the Trustees shall determine by classifications made from time to time what particular items of expenditure shall be considered as maintenance and repairs and what particular items of expenditure shall be considered as renewals under the provisions of this ordinance; provided, however, that in the replacement of any principal part of the property, either existing or hereafter acquired, there shall be charged to Capital Account, the excess amount that the new property costs over the original cost of the property displaced, excepting that the value of the property contained in the appraisal inventory of the property of the Elevated Companies, referred to in Section 2 hereof, and the value of the property contained in the respective appraisal inventories of the properties of the surface companies, filed pursuant to the provisions of the Traction Ordinances, shall be used instead of the first cost for all property listed in such appraisal inventories.

If and so long as the Company shall purchase from others electrical energy for the operation of all, or any part of its local transportation system, there shall be charged to renewals such part of the cost to the Company of such electrical energy as in said cost, represents the allowance, if any, for renewals and depreciation of the plant or plants producing such energy.

From time to time such part of the Renewal Fund as shall be directed by the Trustees, shall be invested by the Company in bonds or other interest-bearing securities (at the market price thereof) other than securities issued by the Company or the City; and from time to time, any bonds or other interest-bearing securities belonging to the fund may be sold by the Company (at the market price thereof) and the proceeds of such sale shall be deposited in the fund. The interest received on such investments of the fund shall accrue and be added to the fund.

The whole or any portion of such reserve fund for maintenance and repairs may be used for maintenance

and repairs in addition to the annual expenditure for maintenance and repairs. The fixing of the said amount herein as the minimum amount to be expended annually for maintenance and repairs and the fixing of the said amount herein as the minimum amount to be deposited for renewals and depreciation shall not be held or considered as lessening or limiting in any way the obligation of the Company to expend whatever sum or sums may be necessary to be expended for maintenance and repairs and to expend whatever sum or sums may be necessary to be expended for renewals to keep the local transportation system and subways, and equipment and appurtenances in first-class condition in every respect and at all times.

The amounts expended or deposited respectively as reserve funds under the foregoing provisions of this section shall be considered as a part of the operating expenses of the local transportation system hereby authorized, but in the event that the local transportation system shall be purchased by the City at any time under the provisions of this ordinance, the cash and securities then in each of said reserve funds or due to be deposited therein at the time of such purchase, shall be turned over to and become the property of the City.

CONTROL OF SERVICE.

SECTION 9. The Company by accepting this ordinance agrees to comply with all lawful regulations of the service of the said local transportation system which may be prescribed from time to time by the City.

The enumeration herein of special requirements and specific regulations shall not be taken or held to imply the relinquishment by the City of its police powers, over the comfort, health, safety and welfare of the public or the relinquishment of its power to make other requirements or regulations, and the City hereby expressly reserves the right to make and enforce all orders and regulations respecting said local transportation system which may be necessary or appropriate to secure in the most ample manner the comfort, health, safety, welfare and accommodation of the public, including among other things the right to make and enforce all orders and regulations to protect the public from danger or inconvenience in the management and operation of the local transportation system, its additions, extensions, appurtenances and equipment, and the right to make and enforce all such orders and regulations as shall be necessary or appropriate to secure adequate local transportation accommodations for the people and to insure their comfort and convenience.

CAPITAL INVESTMENT LIMITATION.

SECTION 10. The Company shall not at any time be required to furnish to the City any money for constructing additions to or extensions of the subways specifically provided for in Exhibit B, or to provide or furnish any betterments or extensions to its local transportation system other than those specified in Exhibit B to be provided and furnished during the six-year initial construction period, unless the gross receipts of the Company for the previous fiscal year shall have been sufficient to meet the payments mentioned in Items First, Second, Third, Fourth and Fifth of Section 16 of this ordinance.

SECURITIES.

SECTION 11. The Company shall place upon its properties and rights a First and Refunding Mortgage or Trust Deed to secure bonds or interest bearing obligations to be issued by it, for or on account of capital expenditures, which mortgage or trust deed may also secure bonds or interest-bearing obligations issued by the Company, (a) for refunding bonds or interest-bearing obligations issued by the Company after the effective date of this ordinance, and (b) for or on account of the refunding or retiring of bonds or interest-bearing obligations which constituted a lien upon some part or all of the Company's property at said effective date, and (c) for raising the Emergency Fund hereinafter provided for. The Company may also place upon its properties and rights a mortgage or trust deed subordinate in lien to the above mentioned First and Refunding Mortgage or trust deed to secure bonds or interest-bearing obligations to be issued by it only for the purpose of refunding or retiring (through payment or exchange) bonds or interest-bearing obligations which at the effective date of this ordinance constituted a lien upon some part or all of the Company's property. The Company shall not place upon its property or rights any lien other than said two mortgages or trust deeds.

Said First and Refunding Mortgage or trust deed shall provide that there shall be no fixed limit upon the amount of bonds or interest-bearing obligations to be issued thereunder, and that bonds or interest-bearing obligations may be issued thereunder with different due dates and different rates of interest.

No bonds, debentures or other obligations shall be issued by the Company, without providing therein that the same shall be callable on any annuity or interest-payment date before maturity at par.

Any mortgage made by the Company, and all securities issued thereunder and all obligations secured thereby, shall be subject to the terms and provisions of this ordinance, including the rights of the City to purchase or acquire the local transportation system.

Whenever the Company shall make an issue of bonds, debentures or other obligations, it may provide in its by-laws, or otherwise, for the order in which said bonds, debentures or other obligations shall be called for amortization or retirement, pursuant to the amortization provisions of this ordinance, and in default of such provision said bonds, debentures or other obligations shall be amortized or retired by lot, the manner of selection by lot to be determined by the Trustees.

CAPITAL ACCOUNT FUND.

SECTION 12. After the effective date of this ordinance, the proceeds of the sale of all bonds, debentures and other obligations (except such as are sold or disposed of for the Emergency Fund or for the purpose of refunding or exchanging the bonds, debentures or other obligations of the Company or the bonds or other obligations outstanding at the effective date of this ordinance and constituting a lien on any property of the Company under the provisions of this ordinance) shall be used exclusively for capital expenditures and shall be deposited in a fund to be known as the Capital Account Fund. All commissions, brokerage and other cash expenditures paid by the Company in connection with the issuance, sale, refunding or exchanging of any bonds, debentures or other obligations, shall be considered capital expenditures, and shall be paid out of the Capital Account Fund. The total amount

(par value) of all bonds, debentures, or other obligations issued or sold by the Company or outstanding and constituting a lien on the property of the Company under the provisions of this ordinance, shall never exceed the amount of the capital account of the Company, as said capital account is established under the provisions of this ordinance, with appropriate reductions therein on account of amortization.

All interest derived from the Capital Account Fund shall constitute a part of the gross revenue of the local transportation system and in the event of the purchase or taking over of the local transportation system by the City under the provisions of this ordinance, all unexpended moneys in the Capital Account Fund shall be turned over to the City, as a part of the local transportation system of the Company.

CITY TRACTION FUND.

SECTION 13. There is hereby established a special fund to be known as the City Traction Fund which shall consist (1) of all moneys in the possession of the City on the effective date of this ordinance and which have been paid to the City prior to said date out of the receipts of street railways in the City under the provisions of the Traction Ordinances, including securities in which any such moneys are then invested, and (2) of all moneys thereafter paid to the City under said ordinances and (3) subway rentals paid to the City under this ordinance.

The moneys in the City Traction Fund shall be used for the following purposes (and in the order of priority herein stated) or for expenditures incidental thereto and only for such purposes or expenditures:

(a) For the construction of the local transportation subways in this ordinance provided to be constructed by the City during the six-year initial construction period.

(b) For the construction in connection with said subways of passageways, corridors, galleries or other facilities for the accommodation and use of public utilities belonging to or authorized by the City as provided in Section 7 hereof.

(c) For the portion of the public benefits assessed against the City for the opening and extension of Robey street and Division street, as specifically provided for in Exhibit B.

(d) For the construction of additional subways, or for extensions and improvements of subways.

(e) For the construction in connection with said subways, mentioned in the preceding paragraph (d), of passageways, corridors, galleries or other facilities for the accommodation and use of public utilities belonging to or authorized by the City as provided in Section 7 hereof.

AMORTIZATION FUND.

SECTION 14. For the purpose of providing money to be used as a substitute for new and additional capital to be furnished by the Company in carrying out the provisions of this ordinance, or for the amortization and retirement of the capital account of said Company, there is hereby established out of the receipts of the local transportation system an Amortization Fund as follows:

(a) During each of the first five years from and after the effective date of this ordinance there shall be paid into the amortization fund an amount of money equal to the amount required to be paid during such year under the sinking fund provisions of the mortgages or trust deeds, subject to which the Company shall have acquired the properties of the Surface Companies and the Elevated Companies under the provisions of this ordinance.

(b) Commencing five years after the effective date of this ordinance there shall be paid into the Amortization Fund each year, at or before the time of the annual report and accounting, hereinafter provided for, one-quarter (¼) of one (1) per cent. of the amount of the then outstanding capital account of the Company, to be increased after five years to one-half (½) of one (1) per cent., after five more years to three-quarters (¾) of one (1) per cent., and after five more years and thereafter to one (1) per cent., but the amount thus paid in any year shall never be less than the amount paid in the previous year, even if the operations of the Amortization Fund should diminish the capital account of the Company as determined in this ordinance.

(c) There shall also be paid into the Amortization Fund annually, the "Surplus Receipts," provided to be so paid by Section 16 hereof.

Whenever money is needed under the provisions of this ordinance to pay for betterments and extensions, work or materials (not including subways) the cost of which would otherwise be added to the capital account of the Company under the provisions of this ordinance, and there are funds available in the Amortization Fund, such funds may be used for such betterments and extensions, work or materials; and no addition shall be made to the capital account of the Company on account of any such payments so made out of the Amortization Fund.

Whenever, in the opinion of the Trustees, there is in the Amortization Fund, money available for the retirement of any of the outstanding bonds, debentures or other obligations of the Company or for the payment of any of the liens upon its properties, or for the sinking fund payments mentioned in paragraph (a) of this Section, the Trustees may apply such money to said purpose, provided that the Amortization Fund shall not be applied to the payment or amortization of the debentures or other obligations issued for the acquisition of the properties of the Surface Companies and Elevated Companies, as provided in Section 2 of this ordinance, until all other debentures, bonds and other obligations of the Company or constituting a lien upon its property, have been paid, redeemed or retired. Whenever any such payments are made out of the Amortization Fund, the capital account of the Company shall be correspondingly reduced.

In case the said First and Refunding Mortgage to be made by the Company, pursuant to Section 11 of this ordinance, shall contain provisions (hereafter approved by the City by ordinance) for a sinking fund to be applied to the retirement of bonds secured by such mortgage, the Company may devote so much of said Amortization Fund as may be necessary to carry out such sinking fund obligations, and upon the application of such sinking fund to the retirement of any of such bonds, the capital account of the Company shall be correspondingly reduced.

DAMAGE CLAIM FUND.

SECTION 15. Out of the gross receipts derived from the operation of the local transportation system the

Company shall pay as a part of the operating expenses, all lawful claims against the Surface Companies, or any of them, for damages arising out of the operation of their or its properties subsequent to February 1, 1907; all lawful claims against the Elevated Companies, or any of them, for damages arising out of the operation of their or its properties prior to the effective date of this ordinance; and all damage claims arising or growing out of injuries to persons or to the property of others incident to the operation of the local transportation system, and the Company shall set aside as a separate fund such percentage of the gross receipts as the Trustees shall estimate to be sufficient to meet all such claims, to the end that if the City shall elect to purchase the property of the Company as provided by this ordinance, there shall be then available a fund sufficient to meet and discharge all legitimate claims for such damages. The percentage thus reserved may be changed from time to time by the Trustees if and whenever it shall consider that the percentage theretofore reserved is either inadequate or excessive.

From time to time such part of the Damage Claim Fund as shall be directed by the Trustees shall be invested by the Company in bonds or other interest bearing securities (at the market price thereof) other than securities issued by the Company or the City; and from time to time, any bonds or other interest bearing securities belonging to the fund may be sold by the Company at the market price thereof, and the proceeds of such sale shall be deposited in the fund, and the interest received on the fund and on such investment of the fund shall accrue and be added to the fund.

If the City shall purchase the property of the Company as in this ordinance provided, the fund then accumulated under the provisions of this Section, and the securities belonging to the fund, shall become the property of the City, and the City shall hold the Company harmless from all liability for all such damage claims.

ANNUAL REPORT AND ACCOUNTING.

SECTION 16. The fiscal year of the Company shall also be the accounting year for the annual accounting between the City and the Company. The Company, so long as it continues to operate the local transportation system under this ordinance, and on or before the 10th day of March in each year, shall prepare and file with the City Comptroller of the City an annual report for the preceding fiscal year, ending on the 31st day of December.

Such report shall be in writing, verified by the affidavit of the Auditor of the Company, setting forth in reasonable detail, the character and amount of business done by the Company during such fiscal year and the amount of receipts from and the expenses of conducting the said business; and the City Comptroller or accountants authorized by him, under the direction of the Mayor or City Council of the City, shall have the right at all reasonable times to examine all the books, vouchers and records of the receipts and expenditures of the Company for the purpose of ascertaining the accuracy of the reports herein required, and the rights of the City under this ordinance. There shall also be an annual audit of the accounts of the Company covering all receipts and expenditures for each fiscal year, and a formal written report by certified public accountants selected by the City Comptroller and the Company, the expenses of such audit and report to be paid out of the gross receipts of the Company as an operating expense.

In the event of any purchase of the local transportation system or property of the Company under the provisions of this ordinance on the first day of July of any year there shall be an accounting and report for the preceding six months similar in character to that hereinbefore provided.

On or before March 10th in each year an accounting shall be had and taken for the last preceding fiscal year on the following basis: From the gross receipts of the local transportation system from all sources and of every kind for such year there shall be deducted by and allowed to the Company the following items in the order of priority herein stated:

Item First. (a) All expenses of operation including maintenance, repairs and renewals (except payments made out of the maintenance and repair fund, and the renewal and depreciation fund and the damage claim fund under the provisions of this ordinance) including all payments required to be made by the Company under any lease or operating agreement.

(b) All amounts payable under the provisions of this ordinance during said year to the special funds for maintenance and repairs, renewals and depreciation, and for damage claims, under the provisions hereof relating to such funds, respectively.

(c) All amounts paid out by the Company in such fiscal year for taxes, assessments and other governmental charges or exactions, including franchise taxes, excise taxes and income taxes and city license fees, if any.

Item Second. The amounts payable during said year for interest on the outstanding bonds and other obligations secured by liens on the properties, franchises and rights of the Company or any of them, recognized or authorized by the provisions of this ordinance.

Item Third. The rentals paid during said year to the City for the use of subways or extensions thereof under the provisions of this ordinance.

Item Fourth. The payments required to be made into the Amortization Fund by Section 14 hereof.

Item Fifth. The amounts payable by the Company during said year by way of annuity or interest on the outstanding debentures and other obligations or agreements of the Company issued or made under the provisions of this ordinance and not secured by liens on the properties, franchises and rights of the Company or any of them.

In case in any fiscal year, the gross receipts shall not be sufficient to pay in full the foregoing Items First, Second, Third, Fourth and Fifth, then the deficit shall be cumulative and shall be paid out of the gross receipts of the subsequent fiscal year or years and in order of priority as the Items are hereinabove stated. After making the deductions from the gross receipts hereinbefore in this section provided, the amount remaining shall be deemed "Surplus Receipts" and shall be deposited as a part of the Amortization Fund.

RATES OF FARE AND TRANSFER CHARGES.

SECTION 17. The Company, except as to special cars or trains (for which reasonable rates shall be charged) and subject to the provisions of this ordinance, shall charge passengers, while it continues to operate the

local transportation system under this ordinance, the following rates of fare, to wit:

(a) For a continuous trip in one general direction within the present or future limits of the City over the local transportation system covered by this ordinance and all extensions thereof within said limits (whether owned, leased or operated by the Company) the sum of five (5) cents for each passenger twelve (12) years of age or over, and three (3) cents for each passenger under twelve (12) years of age, children under seven (7) years of age accompanied by a person paying fare to be permitted to ride free; provided that such other rates, if any for said trips as are lawfully in force on the effective date of this ordinance shall continue unless and until changed pursuant to the provisions of this ordinance; and provided further that from and after the taking effect of this ordinance and until changed as hereinafter authorized, the Company may charge passengers (if in the judgment of the Trustees such charge is necessary) the sum of not exceeding two (2) cents for each and every transfer between any of its rapid transit lines (including lines in rapid transit subways) and any of its surface lines (including lines in surface line subways) or the reverse; but in no event shall any charge be made for a transfer given under the provisions of this ordinance from a surface line to a surface line or from a rapid transit line to a rapid transit line.

(b) For trips over the lines of said local transportation system outside of the present or future limits of the City, and for trips over the lines of the said local transportation system between a point within the City and a point without the City, such reasonable rates of fare (including transfer charges) as may be authorized by law and subject to such regulation as may be provided by law; provided that such rates for said trips, as are lawfully in force on the effective date of this ordinance, shall continue until changed pursuant to the provisions of this ordinance and of the statutes applicable thereto.

In the event that upon any annual report and accounting it shall appear that the Surplus Receipts are sufficient in the judgment of the Trustees to justify the reduction or discontinuance of any transfer charge then in effect, such reduction or discontinuance shall be made upon the order of the Trustees. Whenever the Emergency Fund hereinafter provided for is reduced through the payment of any deficit or deficits under the provisions of the following Section 18 of this ordinance below the amount of One Million Dollars ($1,000,000), it shall be the duty of the Trustees immediately to put into effect such increase or increases in the transfer charge or rates of fare or both as shall be necessary to restore (not later than the end of the following fiscal year) the amounts withdrawn from said fund and to avoid a recurrence of any such deficit or deficits during the following fiscal year; provided, however, that whenever all such deficits have been made up then it shall be the duty of the Trustees, if in their judgment a new deficit will not thereby be created, to order such reduction of the rates of fare or such reduction (or abolition) of the charge for transfers or both as the said Trustees may deem proper, and such reduction (or abolition) shall thereupon be made; and provided further that any increase or decrease of fares for trips covered by paragraph (b) of this Section shall be subject to such control or regulation as shall be prescribed by law.

All rates of fare and transfer charges for trips within the present or future limits of the City shall be uniform. Subject to the provisions of this Section, every passenger may demand, and upon such demand shall receive from the conductor of the car upon which he first takes passage, or from some authorized agent of the Company, a transfer slip or ticket. Said transfer slip or ticket shall entitle such passenger to ride upon any other line of the local transportation system which connects with, crosses, intersects or comes within two hundred (200) feet of the line upon which the passenger first took passage and paid his fare; provided that a transfer slip or ticket for a transfer between a surface line and a rapid transit line (or the reverse) shall be given only when the surface line connects with or comes within two hundred (200) feet of the station of the rapid transit line to or from which the passenger desires to transfer; and provided further, that special transfer facilities for the comfortable and convenient physical transfer of passengers between the rapid transit lines and the surface lines shall be established, as provided in Exhibit "B." If necessary, to enable a passenger to reach his destination, the conductor or other authorized agent of the Company shall issue, without additional charge, except as herein otherwise provided, a transfer slip or ticket upon such transfer slip or ticket, the same as required upon payment of a cash fare; the intention being that for a single fare and such transfer charge, if any, as may be in effect under the provisions of this ordinance, the Company shall carry any passenger for a single, continuous ride over any of the lines of the local transportation system within the present or future limits of the City, by the most direct available route, so long as such ride is in the same general direction, although some of the lines necessary to be used by such passenger in arriving at his destination intersect or cross one another or do not conform to such direction.

In every instance the transfer slip or ticket given to a passenger may designate the point or place of transfer, and the same must be used at such point or place within a reasonable time, not exceeding fifteen (15) minutes after such point or place is reached by the car from which the passenger is transferred, provided that within said fifteen (15) minutes a car shall pass such point or place of transfer in the direction and upon the route indicated by said transfer slip or ticket; but if no such car shall pass such point within said time, the passenger shall have the right to take the first available car passing such point in the direction indicated upon the passenger's transfer slip or ticket. A passenger upon any car delayed through the fault, negligence or inability of the Company shall be entitled to receive a transfer slip or ticket entitling such passenger to transfer to a car upon the nearest line of the Company going in the same general direction as the delayed car.

The Trustees shall, from time to time, prescribe reasonable rules and regulations governing the issuance and use of transfer slips or tickets and providing for the prevention of the misuse or abuse of transfer privileges.

EMERGENCY FUND.

SECTION 18. The Company shall establish and maintain an Emergency Fund of two million dollars ($2,000,000) by the sale of bonds of the Company issued in

accordance with the provisions of Section 11 of this ordinance. The amount of the par value of said bonds shall be added to the Capital Account of the Company, and the proceeds of said bonds shall be deposited in said fund.

In case the receipts of the Company at any time shall be insufficient to meet any expenditures (other than capital expenditures) which the Company is required to pay under the provisions of this ordinance, the deficit thereby created, shall be paid out of said fund, and the amount withdrawn from said fund to pay any such deficit or deficits shall be restored to said fund out of the receipts of the Company as soon as practicable.

From time to time the Trustees may invest such part of the Emergency Fund as they may deem advisable in bonds or other interest-bearing securities (at the market price thereof) other than securities issued by the Company or the City; and from time to time any bonds or other interest-bearing securities belonging to the fund may be sold by the Trustees, at the market price thereof, and the proceeds of such sale shall be deposited in the fund. All interest received on the fund or on such investments of the fund shall be deemed part of the gross receipts of the Company.

No Passes: Employees, Policemen and Firemen Free.

Section 19. No passes of any kind or description shall be issued or given to any person, and no person except employees of the Company, and when in full uniform, health inspectors, policemen and firemen of the City respectively, shall be permitted to ride upon the local transportation system without the payment of fare; provided, that the Company may issue to its employees free tickets for use while engaged in the performance of their duties, and shall permit them to ride free when wearing an official badge of the Company conspicuously in view. The Company shall keep a record of the number of such free tickets and to whom issued.

Mail Carriers.

Mail carriers in the United States Postal Service, when in full uniform (with or without mail bags or satchels), shall be carried upon the cars of the Company without the payment of fare, when compensation in lieu thereof is provided by the United States Post Office Department on terms approved by the City.

Public Comfort Stations, Express Matter and Package Freight.

Section 20. The City may by ordinance provide (at its own expense but without payment to the Company of any compensation therefor) for the use for public comfort stations of any of the private right of way of the Company under the elevated railroad structure which in the judgment of the Trustees is available for such use.

The Company may carry and handle express matter, baggage, mail, milk, parcels and such other package freight as may be designated by the Trustees, and at rates to be fixed and regulated by the Trustees; and with the approval of the City (by ordinance) may enter into contracts with connecting urban, suburban and interurban electric railroad companies, for the operation by the Company of the cars of such electric railroad companies, by employees of the Company, or by the employees of such electric railroad companies, for the purpose of carrying such articles, or any of them, over the lines of the Company.

The articles mentioned in this section shall be transported only in cars of a design which shall have first been approved by the Trustees; only such cars shall be approved as can be operated safely over the lines of the Company, and which are properly equipped with brakes, headlights, fenders, wheel guards and safety appliances. Such express matter and package freight shall be transported at such times and in such manner as shall not interfere with the passenger service, and as shall be approved by the Trustees.

Insurance.

Section 21. The Company shall at all times keep insured in responsible insurance companies to its full insurable value against loss or damage by fire, all of its property of a kind usually insured by companies owning and operating similar properties, and the premiums for such insurance shall be charged to operating expenses.

In case of the destruction or damage by fire of any such insured property the Company shall, as the Trustees may direct, (a) apply the insurance moneys collected on account thereof, to the restoration of the property so destroyed or damaged; or (b) pay the same into the Renewal Fund.

In case of the restoration of any property so destroyed or damaged, if the insurance moneys shall not equal the cost of restoration, the difference between the insurance moneys and such cost shall be paid out of the Renewal Fund, provided, however, that if the cost of restoration shall exceed the amount at which such property so destroyed stands in the capital account of the Company, then such excess, if any, shall be paid out of the capital account fund. If the amount of insurance moneys shall be more than the cost of restoration, the overplus shall be paid into the Renewal Fund.

Street Paving, Sprinkling and Cleaning.

Section 22. The Company shall pave, repave, and keep in repair the pavement of that part of any street or portion thereof (including viaducts and bridges) occupied by its surface line tracks, and shall clean and sprinkle the same, all as specifically provided in Exhibit B attached thereto; but whenever it shall appear that a deficit has been created, to meet which an increase in the transfer charges or rates of fare would otherwise be required under the provisions of Section 17 hereof, then the Company shall be relieved and exempted from its obligations under this ordinance with respect to the said sprinkling and cleaning of streets, and such exemption shall continue unless and until the Trustees shall ascertain and determine that the gross receipts of the Company are sufficient to make good the said deficit and to warrant the resumption of said obligations by the Company; and thereafter such exemption and resumption, respectively, shall be made from time to time as the said conditions hereinabove mentioned arise.

Bridges and Viaducts.

Section 23. The City shall alter or reconstruct any of its viaducts or bridges (including piers and foundations), over which rapid transit lines are to be operated under the provisions of this ordinance, wherever and to such extent as may be necessary to fit the said viaducts and bridges for such construction and operation, and to carry the additional load and strain imposed upon such viaducts or bridges by the elevated structure or any additions thereto required or author-

ized by this ordinance and by the trains operated thereon; and the Company, on demand by the City shall pay to the City the cost of such alteration or reconstruction. All new viaducts or bridges (including piers and foundations) constructed by the City upon the routes of any elevated railroad line or extension specifically provided for in this ordinance, shall be constructed of such design, equipment and strength as to carry the additional load and strain imposed by the elevated railroad structure and by the trains operated thereon, and to fit the said viaducts and bridges for such structure and operation; and the Company, upon demand by the City shall pay to the City one-third of the cost of each and every such viaduct and bridge (including piers and foundations). The Company shall also pay to the City monthly one-third of the cost of maintaining, repairing or renewing each and every City-owned viaduct and bridge (including piers and foundations but not including pavement in the roadway outside the Company's right of way, or sidewalks, or any charge based on the operation of surface line cars thereover) over which the Company continues to operate its elevated railroad under this ordinance; and such payments by the Company shall be charged by it to operation, renewal or to capital account in accordance with the accounting provisions of this ordinance. The maintenance, repair and renewal of pavement of the right of way occupied by the Company on viaducts or bridges occupied by the surface-line tracks shall be done and paid for by the Company as provided in the foregoing section and in Exhibit "B" of this ordinance.

RIGHT OF THE CITY TO PURCHASE AT ANY TIME BY PAYING THE CAPITAL ACCOUNT.

SECTION 24. The Company, by the acceptance of this ordinance, shall and does grant to the City, and the City hereby reserves to itself the right upon the first day of January or upon the first day of July of each and any year after the effective date of this ordinance, upon giving at least six (6) months' previous notice in writing of the intention so to do, to purchase and take over all of the property, plant and equipment of every sort and nature then constituting the local transportation system of the Company, including all property then existing which constituted the local transportation system and property of the Company on the effective date of this ordinance, and all betterments and extensions made under the provisions of this ordinance, and all moneys and securities, then in or belonging to any of the Special Funds in this ordinance provided for, and all receipts of the local transportation system (including all funds reserved for taxes or other operating expenses of the Company) and not provided to be deducted by and allowed to the Company under the provisions of Section 16 hereof, upon the accounting therein provided for, and all rights of every kind under this ordinance in or to any subways or extensions thereof constructed under the provisions of this ordinance.

In case the City shall purchase and take over the local transportation system of the Company as in this ordinance provided, then it shall pay for the same a sum equal to the capital account of the Company upon the date of such purchase as determined under the provisions of this ordinance; less, however, the amount of any then outstanding and unpaid liens (not including liens then callable by the Company for payment at par on any interest date, which liens shall be called by the Company and shall be paid out of the purchase price), subject to which the Company acquired any of the properties, franchises and rights of any of the Surface Companies or any of the Elevated Companies, as in this ordinance provided; and the City shall purchase and take over the said local transportation system subject to any such outstanding liens.

CAPITAL ACCOUNT.

The capital account of the Company shall be constituted and determined as follows:

1. Upon the effective date of this ordinance the capital account of the Company shall consist of the sum of Two Hundred and Twenty Million One Hundred and Fourteen Thousand Four Hundred and Twenty-Eight Dollars and Forty-Six Cents ($220,114,428.46), to which sum shall be added or from which sum shall be subtracted (as the case may be) any additions to or deductions from the capital account of any of the Surface Companies between June 30, 1916, and the effective date of this ordinance as determined by the Board of Supervising Engineers having jurisdiction over such matters under the Traction Ordinances applicable thereto.

2. After the effective date of this ordinance the Trustees shall ascertain and determine the value of any property then existing which has been purchased or acquired by the Elevated Companies, for use as a part of or in connection with the lines of elevated railroad now belonging to said Elevated Companies, between June 30, 1916, and the effective date of this ordinance; and the amount of such value, so ascertained and determined by the Trustees shall be added to the capital account of the Company as hereinabove determined. The Trustees shall also, at the same time, ascertain and determine the value of any property described in the aforesaid appraisal inventory of the properties of the Elevated Companies which shall have been lost, destroyed, sold or disposed of and the amount of impairment, if any, in the value of said properties (ordinary wear and depreciation excepted), between the 30th day of June, 1916, and the effective date of this ordinance; and all such value and impairment shall be subtracted from the amount hereinabove fixed as the capital account of the Company. If on the effective date of this ordinance there shall be on deposit with the trustee of any mortgage of any of the Elevated Companies, any moneys or securities representing the proceeds of sale of any property included in said appraisal inventory, which moneys or securities, by the terms of such mortgage, are required to be thereafter applied to the reduction of any debt, subject to which the Company shall have acquired the property covered by such mortgage, under the provisions of this ordinance, then the total amount of such moneys and securities (at the then market value thereof) shall also be added to the capital account of the Company. All damages paid by the Company after the effective date of this ordinance which arose in connection with and on account of construction of betterments and extensions (including City tunnels) by the Surface Companies and the Elevated Companies, or any of them, prior to said date, shall be added to capital account.

3. There shall be added to the capital account as hereinabove fixed, from time to time, the par value of the bonds, debentures, or other obligations issued for new capital funds or other capital expenditures authorized by this ordinance, and at the times, respectively, when said bonds, debentures or other obligations are

sold, and the proceeds thereof deposited in the Capital Account Fund.

4. Whenever the Company shall, under the provisions of this ordinance, issue bonds, debentures, or other obligations to refund or pay outstanding bonds, debentures or other obligations recognized or authorized by this ordinance, there shall also be added to the capital account any excess in the par value of the securities so issued over the par value of the securities refunded and there shall be deducted from the capital account the amount, if any, by which the par value of the securities refunded exceeds the par value of the securities so issued.

5. The capital account of the Company shall from time to time be reduced as and when and to the extent that payments are made out of the Amortization Fund to the holders of its bonds, debentures or other obligations or of the liens or claims (or the obligations secured thereby) upon or against its properties.

PAYMENT OR DEPOSIT OF PURCHASE PRICE.

Upon the payment in cash to the Company of the purchase price above specified in this section, or the deposit of the same to the order of the Company with one or more of the depositaries authorized to act as such by this ordinance, the City shall have full right and lawful authority, after the notice and upon the date therein fixed, to take over and possess, as its own property, all the property, which the City is given the right to purchase by this section of this ordinance.

In the event that it shall be determined that the City is, at the time this ordinance is passed or at the time this ordinance takes effect, without lawful power or authority to acquire or own the local transportation system or any part thereof under the provisions of this ordinance or otherwise, and the City shall thereafter acquire such power or authority, thereupon and after such acquirement the City shall have the right to purchase and acquire the local transportation system, rights and property under the provisions of this ordinance to the same extent and in the same measure as if said City had full right and lawful authority so to purchase or acquire said local transportation system, rights and property at the date of the passage of this ordinance and at the date when this ordinance takes effect.

No mortgage, trust deed or other instrument given by the Company shall impose any lien upon or create any rights in the local transportation system, property and rights or any part thereof, without the same being made specifically subject to all the limitations, conditions and provisions of this ordinance, including the right of the City to purchase the said property and rights upon the terms and in the manner in this ordinance provided, and in the event of such purchase the lien of such mortgage, trust deed or other instrument upon the local transportation system, property and rights, or any part thereof, shall be discharged from the local transportation system, property and rights and shall attach to and be payable out of the proceeds of the sale thereof; and in the event of any such purchase, the rights of the holders of any debentures or other obligations issued under the provisions of this ordinance for the purchase of the properties of any of the Surface Companies or any of the Elevated Companies or issued by the Company for capital expenditures, shall attach to, and said debentures or other obligations shall be paid out of the proceeds of the sale of the said local transportation system, property and rights, subject to all liens payable out of the said proceeds.

DEPOSITARIES.

SECTION 25. Any state or national bank or trust company in the City of Chicago or in the City of New York which has a capital stock and surplus amounting to at least one million dollars ($1,000,000) may be selected and can act as a depositary under the provisions of this ordinance, provided, that no moneys shall be deposited with any such depositary under the provisions of this ordinance to an amount exceeding the total capital stock and one-half of the surplus of such depositary; and provided further that all deposits authorized or required by this ordinance (except deposits of purchase money in the event of purchase of said local transportation system by the City) shall be made with depositaries in the City of Chicago.

DEPOSITS.

SECTION 26. The Company shall have the right to select the particular depositary or depositaries with which it shall deposit any of the funds required to be deposited by the Company under the provisions of this ordinance, and the City shall have the right to select the particular depositary or depositaries with which shall be deposited the funds required to be deposited by the City, in the event of purchase of the local transportation system by the City under the provisions of this ordinance.

LABOR.

SECTION 27. Hours of work and working conditions shall conform to just and reasonable standards of safety, health, comfort and efficiency, due regard being had to the character of the work, the economical operation of the local transportation system and the rendering of the best practicable service to the public. All wage earners employed by the Company shall receive wages which shall be just and reasonable and not less than shall be customarily paid for services of like character under substantially similar conditions.

COMPANY TO MAINTAIN OFFICE IN CITY.

SECTION 28. The Company shall not remove its principal office or any of its books, records, accounts, contracts, or original vouchers of receipts and expenditures beyond the limits of the City, and shall maintain an office within the City so long as the Company continues to operate any part of the local transportation system provided for in this ordinance.

CITY'S RIGHT TO INTERVENE.

SECTION 29. The Company by the acceptance of this ordinance shall and does grant to the City, and the City hereby reserves to itself the right to intervene in any suit or proceeding brought by any person, firm or corporation seeking to enjoin, restrain or in any manner interfere with the Company in the doing of any work called for by this ordinance, or involving the observance or performance of any of the agreements or conditions herein provided to be kept or performed by the Company; or in any suit to foreclose or enforce any lien, mortgage or trust deed against it, and to move for a dissolution of such injunction or restraining order in such suit, and take any other appropriate steps to protect the rights of the City in case it shall deem such action necessary and appropriate to protect the interests of the City.

The City shall have the right to proceed by injunc-

tion, mandamus or other appropriate legal proceeding to compel the performance by the Company and by the Trustees of their respective duties and obligations under this ordinance, and the Company shall have the right to proceed, by injunction, mandamus or other appropriate legal proceeding to compel the performance by the City of its duties and obligations under this ordinance.

ORDINANCE BINDING UPON SUCCESSORS AND ASSIGNS.

SECTION 30. This ordinance shall inure to the benefit of and be binding upon the lessees, successors and assigns of the Company and they and each of them shall be bound by each and all of its provisions by the Company to be kept and performed, precisely as if in every case they had respectively been named herein with the Company.

LEASE OR ASSIGNMENT.

SECTION 31. No lease, or operating agreement, and no assignment (except by way of mortgage or trust deed, under the foregoing provisions and limitations of this ordinance), shall be made by the Company without the consent of the City Council; provided, however, at any time any of the property of the Company which shall not be necessary, desirable or adaptable to or for the operation or maintenance of the local transportation system (except scrap, the proceeds of the sale of which shall be applied to the cost of operation, renewal or construction, as may be appropriate under the accounting provisions of this ordinance) may be sold (the proceeds to be deposited in the Amortization Fund, subject to the provisions of any mortgage or trust deed on the property sold) or leased by the Company (the rental to constitute a part of the gross receipts.)

WARRANTY OF TITLE.

SECTION 32. Upon the purchase by the City of the local transportation system of the Company, as in this ordinance provided, and upon the compliance by the City with the provisions of this ordinance with respect to the making of such purchase and the payment therefor, the City shall have full right and lawful authority to take over and possess said local transportation system as its own property. Upon such purchase the City shall take over and the Company shall, by good and sufficient written instrument, transfer to the City said local transportation system and property, subject to: (a) liens for taxes and assessments; (b) judgments for damages to persons and property; (c) all then outstanding and unpaid liens, if any (not including liens then callable for payment at par on any interest date) subject to which the Company shall have acquired, under the provisions of this ordinance, the properties, franchises and rights of any of the Surface Companies or Elevated Companies; and (d) all contracts and liabilities of the Company made or incurred after the effective date hereof, in the proper carrying out of the provisions of this ordinance, other than the debentures or other obligations issued by the Company for the properties of the Surface Companies and Elevated Companies under the provisions of this ordinance or issued by the Company after the effective date hereof, for capital expenditures. The Company shall warrant the title to all of the property so purchased by the City to be free from all other liens and claims whatsoever, and if at the date of said purchase there shall exist any substantial defect in the Company's title to any of the real estate acquired by it from any of the Surface Companies or Elevated Companies, an amount of the purchase price equal to the reduction in the value of such real estate, by reason of such defect, shall remain in one or more of the depositaries with which the City shall deposit the purchase money for said properties as security to the purchaser against loss by reason of such defect, until such defect shall be cured or removed.

REFERENDUM.

SECTION 33. At the election to be held in the City of Chicago on November 5, 1918, there shall be submitted to the voters of the said City, the following question (the blank spaces in said question shall be filled by inserting therein the day and month of the passage of this ordinance):

> Shall the ordinance passed by the City Council of the City of Chicago on the ..... day of ....., 1918, entitled "An ordinance authorizing the Chicago Local Transportation Company to construct, maintain and operate a system of local transportation, including street railways and elevated railroads in streets, alleys and public ways of the City of Chicago, and providing for the construction of subways by the City of Chicago and the operation therein of local transportation facilities, by the Chicago Local Transportation Company" be approved.

The City Clerk of the City of Chicago is hereby directed, within ten (10) days after the passage of this ordinance to certify the passage thereof to the Board of Election Commissioners of Chicago and file with said Board within said period a certified copy of said ordinance; and the said Board of Election Commissioners of Chicago are hereby requested to take all necessary and proper steps to place the question of the approval of this ordinance upon the ballot to be voted at the said election to be held on November 5, 1918.

ACCEPTANCE.

SECTION 34. This ordinance shall not take effect or be in force unless or until:

1. The ordinance shall have been approved by a majority of the votes cast at said election of November 5, 1918, upon the question submitted as provided in Section 33 hereof; and
2. The Legislature of Illinois shall have passed, and there shall be in effect, such statute or statutes of the State of Illinois as may be necessary or appropriate to authorize or validate an ordinance containing such provisions as are incorporated in this ordinance, and to enable the same to be carried into effect, including the organization of a corporation of the character and having the authority and powers in this ordinance provided to be exercised by the Company; and
3. The Company shall have been organized in conformity with the provisions of this ordinance, and the entire control and management of the Company and of its affairs, property and funds shall have been vested in a Board of Trustees or Directors of the character described in this ordinance and subject to the provisions hereof; and
4. The City Council, not later than sixty (60) days after the effective date of said legislation, shall have passed an appropriate resolution or ordinance declaring that in the judgment of the City Council, the said statute or statutes have been enacted, are then in effect and are appropriate for the purposes aforesaid; and,
5. Within six (6) months after the City Council shall have passed the resolution or ordinance mentioned in paragraph four (4) of this section, or

within such time thereafter as the City shall grant, by ordinance (passed within said six (6) months), the Company shall have acquired all of the properties, franchises and rights which, by this ordinance, it is obligated to have acquired on or before the effective date hereof, and shall have filed with the City Clerk of the City its written acceptance hereof, and at the time of the filing of said acceptance, shall hold and own the properties so acquired.

The effective date of this ordinance shall be the date on which said acceptance by the Company is filed, as aforesaid.

(g) Power House Switch Track. A single elevated switch track from the tracks of the Chicago Junction Railroad in 40th street, between South State street and South Wabash avenue, northwesterly across 40th street and northerly on railroad right of way in the rear of the power house at the northeast corner of 40th street and South State street, to a point south of and near East 39th street.

(h) Fortieth Street Switch Track. A single elevated switch track from said main line of the South Side Elevated, and located between 39th street and 40th street.

(i) Fifty-seventh Street Switch Track. A single elevated switch track from a point on the main line of the South Side Elevated at the north line of 57th street southerly over and across 57th street and railroad right of way to a point between 57th street and 58th street.

(j) Sixty-third Street Surface Yard. Railroad yards between Prairie avenue and Calumet avenue and between the south line of 63rd street and the Lake Shore and Michigan Southern Railroad right of way, near 65th street; a two-track inclined railroad from the main line of the South Side Elevated, at a point about 150 feet north of 63rd street, southwesterly and southerly along railroad right of way across 63rd street to the 63rd street surface yard, to connect the elevated structure of the South Side Elevated with the 63rd street surface yard.

(k) Sixty-third Street Elevated Yards. Railroad yards on elevated structure on railroad right of way lying east of and adjoining the main line of the South Side Elevated from 61st street to 63rd street, and west of the west line of Calumet avenue, together with a connection with the three-track elevated railroad in 63rd street at Calumet avenue.

(l) Lake Avenue Yard. A storage yard on elevated structure on block between 42nd street and 42nd place, and between the first alley west of the Illinois Central right of way and the second alley west of the Illinois Central right of way, with two or more tracks over 42nd street connecting with said storage yard.

(m) Union Avenue Yard. An elevated structure on railroad right of way between the two-track railroad described as the Stock Yards Branch and Union avenue and between the right of way of the Union Stock Yards and Transit Company and the Chicago Junction Railroad just south of 40th street, and the east and west alley north of Root street, crossing 41st street with six tracks.

(n) Englewood Yard. An elevated structure on railroad right of way south of the main line of the Englewood Branch, from the west line of South Racine avenue with five tracks over and across Elizabeth, Throop and Ada streets, and across all intersecting alleys to the east line of Loomis boulevard.

(4) Oak Park Elevated Lines.

An elevated railroad and branches, with their yards and appurtenances hereinafter described, in, along, over and upon the following routes and locations, and over and across all intersecting streets, avenues, alleys and public places, in the City of Chicago, County of Cook and State of Illinois, viz:

(a) Main Line. A two-track elevated railroad in Lake street and over bridges and viaducts from and connecting with the loop at Wells street to Rockwell street; a three-track elevated railroad in Lake street from Rockwell street to a point west of Crawford avenue; thence westerly a two-track elevated railroad in Lake street to a point near 50th avenue; thence westerly a three-track elevated railroad in said Lake street to Laramie avenue; thence westerly a two-track inclined railroad, partly on railroad right of way and partly in Lake street, to Long avenue; thence westerly a two-track surface railroad in the north side of Lake street to Pine avenue; thence westerly in the north part of South boulevard to the city limits, at the center line of Austin avenue; thence westerly in the north side of South boulevard, through the Village of Oak Park, to Harlem avenue; thence westerly upon and over railroad right of way to Marengo street, in the Village of Forest Park.

(b) Market Street Stub. A two-track elevated railroad in Market street from the point of connection with main line of the Oak Park Elevated in Lake street southerly to Madison street, with an additional track between Randolph street and Madison street.

(c) Lake Street Transfer Station. An elevated railroad station in Lake street, near Paulina street, where the Logan Square branch of the Metropolitan Elevated passes above the elevated structure of the Oak Park Elevated in Lake street. The station is so constructed that it is used as a transfer station between the two lines on different levels.

(d) Hamlin Avenue Yard. A surface yard on railroad right of way lying north of Lake street and south of the Chicago and North Western Railroad, between North Avers avenue and North Harding avenue, and connected with the main line of said Oak Park Elevated in Lake street by a single track inclined railroad structure.

And the following appurtenances to each and all of the above described elevated lines:

Sidetracks, switches, storage-tracks, yard-tracks, turnouts, crossovers, connecting tracks, signal towers, signal devices, safety devices, telephone lines, telegraph lines, transmission lines, underground conduits, water tunnels, conductor rails, stations, station platforms and stairways, terminals, car shops, repair shops, power houses and substations, and all other structures, fixtures, appliances and devices necessary or useful for the operation of said main and branch lines.

EXHIBIT "B"

Immediately after the effective date of this ordinance the Company shall proceed with all due diligence and as promptly as practicable to improve, extend, equip and develop its entire local transportation system and to operate the same so as to furnish to the public quick, convenient and comfortable service and in accordance with the provisions of this ordinance, including the following specifications and provisions. The general principles to be observed by the Company and the objects to be accomplished shall be:

1. To provide main rapid transit lines (particularly by means of elevated and subway development) that will serve all sections of the city, distribute traffic, relieve congestion and carry people to and from all the business districts of the city, whether central or outlying.

2. To provide rapid transit routes outside of the loop district (by which term is meant the area south and east of the Chicago River and north of Polk street) enabling through passengers to travel direct without being unnecessarily diverted into or through this district, and to give direct facilities to outlying centers.

3. To provide additional and better means of travel through the central business district of the city (meaning the central and relatively congested area at present extending from Division Street to Twelfth Street and from Lake Michigan to Racine Avenue, and the future enlargement of such congested area with the growth and development of the city) with a view to broadening its area and avoiding the undue congestion of business and traffic therein.

4. To relieve the congestion of the surface or street railway lines wherever necessary or desirable and to carry as many west side street railway cars to the Lake Front as practicable by means of subways through the loop district.

5. To provide express service by the addition of third or fourth tracks on lines of the rapid transit (elevated and subway) system, as herein provided.

6. To co-ordinate and unify the operation of the entire system, and to this end to provide for the comfortable and convenient physical transfer of passengers between the rapid transit and surface lines and the utilization of the surface lines so far as desirable and practicable as feeders to and from the rapid transit lines. To this end, among other things, main transfer stations shall be established (on property acquired by the Company wherever necessary) as follows:

(a) At 63rd Street and Stony Island Avenue for the purpose of transferring and receiving passengers between surface lines to and from the south and southeast and the elevated lines at the existing Jackson Park Terminal.

(b) Between Prairie Avenue and Calumet Avenue south of 63rd Street or (as the Trustees may determine) at the intersection of South Park Avenue and 63rd Street or within 300 feet therefrom, for passengers to and from the lines from the south converging to the present Cottage Grove Avenue system, diverting these lines toward a special terminal where the passengers can transfer to elevated trains originating at this point, the transfer to be effected directly across a platform at the same level, surface cars and elevated trains stopping at opposite sides of the same platform.

(c) At Halsted Street and the Englewood branch of the South Side Elevated lines whenever in the judgment of the Trustees the traffic to and from the district south of this point is sufficiently heavy to warrant the establishment and operation of special transfer facilities.

(d) At the Clark Street and at the Wilson Avenue Stations of the Northwestern Elevated lines for the transference of passengers between these lines and the surface lines at Clark Street, Broadway and Lawrence Avenue.

(e) At Logan Square whenever the traffic over the surface lines to and from this point is sufficiently heavy to warrant the establishment and operation of special transfer facilities.

(f) At the extension of the Humboldt Park branch of the Metropolitan Elevated line to Grand Avenue whenever, the traffic over the street railway lines to and from this extension is sufficiently heavy to justify the establishment and operation of such special facilities.

(g) At all other points on the Elevated or Subway lines at which a sufficient traffic develops to justify the establishment of special transfer facilities.

For the further carrying out of the general principles and the accomplishment of the objects hereinabove specified, the local transportation system shall be improved, extended, developed and equipped by the Company in the manner following (all subways to be constructed and owned by the City and operated by the Company, subject to the limitations and provisions of this ordinance):

North and South Rapid Transit Lines.

First. A through line shall be developed by four-tracking completely the Northwestern Elevated and South Side Elevated lines from 63rd street on the south to Wilson avenue on the north. The central portion of this four-track through line shall consist of a two-track subway extending from a junction with the South Side Elevated at or near 22nd street, running north under State street to Chicago avenue; thence west to a junction with the Northwestern Elevated, together with approaches thereto. The other two tracks of the central section of this through four-track line shall be secured by the utilization of the existing elevated railroad structure in Wells street extended south over Wells street to Polk street with grade separation at Van Buren street; thence east over Polk street to a connection with the South Side Elevated.

There shall be established and operated on these lines through routes giving two-way service on opposite sides of the loop.

Second. In addition to these through lines, the existing elevated tracks over Wabash avenue at Congress street shall be utilized for south side stub service. A corresponding north side stub service shall be provided by the extension of the North Water street tracks of the Northwestern Elevated east and south to a new elevated stub terminal at State and Lake streets. Both these terminals shall be used to afford special rush-hour service north and south from the loop district, as well as transfer facilities from west side lines in both directions.

Third. A through north and south line shall be established by constructing a two-track elevated railroad north from a terminal at 71st street and Ashland avenue over or parallel to Ashland avenue (or within 600 feet therefrom) to 22nd street with connections to the Englewood and Stock Yards branches of the South Side Elevated; and at 22nd street said line shall be continued to a connection at or within 200 feet from 20th street with the existing tracks of the Metropolitan Elevated;

thence over said tracks to the Robey street junction, with grade separation at Marshfield avenue; provided that said line shall not be located in Ashland avenue south of 47th street under the authority granted in this ordinance.

There shall be constructed from the northwest branch of the Metropolitan Elevated a two-track elevated railroad north over or parallel to Robey street (and within 200 feet therefrom) to a junction with the existing Ravenswood branch of the Northwestern Elevated at Cornelia street (or within 500 feet therefrom); thence north by additional tracks over the existing right of way of said Ravenswood branch. This through line shall be so operated as to give direct transfer to and from the five (5) existing elevated branch lines from the west, and to the seven (7) branch and main lines to the east, existing or provided in this ordinance.

The elevated lines hereinabove provided to be constructed on Robey street across the north branch of the Chicago River shall not be constructed until the City shall by ordinance provide for the opening and extension of Robey street across the said north branch of the Chicago River by means of a viaduct and bridge, adapted for general street traffic, including surface street car lines, and also the said elevated lines; and the Company shall pay one-third (1/3) of the cost of said viaduct and bridge, excepting therefrom the cost of paving the roadway and sidewalk (unless surface line tracks shall be located in the roadway, in which case the Company shall pave its right of way as herein provided), on account of providing additional strength in the said structure for carrying the said elevated lines. And in the event that said ordinance shall provide for the payment of the remaining cost of the opening and extension of said street, and the erection of said viaduct thereon, by special assessment upon the property specially benefited thereby, one-third (1/3) of so much of said cost as shall be assessed against the City for public benefits, may by ordinance be paid out of the City Traction Fund, as provided in the ordinance to which this exhibit is attached.

Fourth. A two-track subway shall be constructed extending from a transfer terminal at the intersection of 63rd street and Cottage Grove avenue, northward under Cottage Grove avenue or some adjacent north and south street (to be determined by the City Council) to about 22d street, thence to Michigan avenue, thence in Michigan avenue to 9th street, thence west, passing under the State street subway to Clark street, thence north under Clark street, passing under the two-track subway under Chicago avenue previously constructed. From Chicago avenue this two-track Cottage Grove avenue-Michigan avenue-Clark street subway shall form part of a four-track subway, extending north under Clark street to a junction with the Northwestern Elevated in the Belmont avenue-Wilson avenue (Lakeview) section. The other two tracks of this four-track subway shall be connected with the two tracks in Chicago avenue, thereby extending the State street-Chicago avenue subway north in Clark street. Two tracks shall be constructed northwesterly beyond this district to accommodate the outlying territory when and as the traffic requires such tracks. At the termini of this subway, suitable and convenient transfer facilities shall be provided for passengers from radiating surface lines, as well as facilities for through running of trains from rapid transit lines reaching out into the outlying districts.

Fifth. A two-track elevated extension of the Northwestern Elevated shall be constructed south in Halsted street (or within 200 feet therefrom) from North avenue to 89th street, with grade separations and transfer stations at intersections with the Oak Park Elevated, Metropolitan Elevated and Stock Yards and Englewood branches of the South Side Elevated; provided that said line shall not be located in Halsted street under the authority granted in this ordinance. Whether this elevated line shall be constructed before or after the subway hereinafter proposed under Halsted street shall be determined later by the City depending upon the requirements of the traffic as they may develop.

Sixth. A two-track elevated extension from the present elevated railroad terminus near the intersection of 63rd street and Stony Island avenue, south in Stony Island avenue (or within 300 feet therefrom) to 73rd street or 79th street, and thence in a southeasterly direction to and into South Chicago, in the vicinity of 95th street and Commercial avenue, the precise location of said line to be determined by the City by ordinance.

Seventh. A two-track elevated line extension from a connection with the 63rd street branch of the South Side Elevated, at a point between Indiana avenue and South Park avenue, thence south to 87th street, at a point between Indiana avenue and South Park avenue, the exact location of the line to be determined hereafter by the City by ordinance; thence south to 111th street, at a point between Cottage Grove avenue and Michigan avenue, the exact location to be determined hereafter by the City by ordinance.

Eighth. An extension of the Ashland avenue elevated line from 71st street south in Ashland avenue (or within 200 feet therefrom) to 87th street, and thence southwesterly to the intersection of Longwood boulevard and 111th street, the precise location to be determined by the City.

Ninth. A two-track elevated structure from the intersection of Kedzie and Lawrence avenues south in Kedzie avenue (or within 200 feet therefrom) to 79th street.

EAST AND WEST RAPID TRANSIT LINES.

First. An additional track shall be constructed over or along the existing Metropolitan Elevated right of way from Robey street junction to Logan Square and a two-track extension of the Logan Square branch in Milwaukee avenue (or within 500 feet therefrom) from Logan Square to Irving Park boulevard, with yards and terminals at the last named point.

Second. An extension of the Humboldt Park branch of the Metropolitan Elevated shall be constructed in North avenue (or within 500 feet therefrom) from the present terminal of said branch to Grand avenue, with yards and terminal at the last named point; provided that said line shall not be located in North avenue under the authority granted by this ordinance.

Third. A third track shall be added to the Chicago & Oak Park Elevated structure, reconstructed for that purpose, from the Lake street junction with the Union Loop at Wells street, west to Talman avenue, including grade separation of the elevated structures at Lake and Wells streets and the necessary changes for three

tracks on the Lake street bridge over the Chicago River, and on the viaduct west of the river.

Fourth. An additional track shall be constructed on the Garfield Park branch of the Metropolitan Elevated from Marshfield avenue station west giving a complete third track to Crawford avenue station.

Fifth. A third track shall be added to the Douglas Park branch of the Metropolitan Elevated from 20th street to the vicinity of Central Park avenue, giving a complete third track between 20th street and Crawford avenue.

Sixth. A three-track elevated trunk line shall be constructed from the northwest junction of the Metropolitan Elevated at Robey street and Milwaukee avenue in Milwaukee avenue (or within 500 feet therefrom) to a connection with the Oak Park Elevated at Lake street; the structure to be so designed as to carry a fourth track to be added when required by the traffic.

Seventh. A two-track elevated line, forming a junction with the three-track elevated line in Milwaukee avenue, hereinabove provided, near Lake street shall be constructed on Clinton street from said junction to a connection with the Metropolitan Elevated near Van Buren street, and shall pass under the Oak Park Elevated structure at Lake street, so as to provide a separation of grades at that point.

Eighth. A two-track connection shall be constructed from the terminal of the existing Garfield Park branch of the Metropolitan elevated, west through Forest Park and River Forest, joining an extension of the Oak Park Elevated, with terminal yards in River Forest.

Ninth. A two-track subway with a portal in Curtis street, at or near its intersection with May street shall be constructed under Milwaukee avenue to Halsted street, south under Halsted street to Madison street and east under Madison street, crossing under the Clark and State street rapid transit subways with stations for transfer thereto, thence east to Michigan avenue, with stations for transfer to surface car subway under Grant Park or Michigan avenue, thence north across the river and west under Grand avenue, again passing under the State and Clark street rapid transit subways, with stations for transfer thereto, thence west to Milwaukee avenue near Halsted street, thus completing a down town route passing through the north half of the central business district. Two of the elevated tracks, hereinabove provided for, on Milwaukee avenue shall be diverted into this subway at the Curtis street portal, whenever so determined by the Trustees.

Tenth. A three-track elevated line shall be constructed from a connection with the Metropolitan Elevated at Van Buren street between Desplaines and Halsted streets; thence south and west to Blue Island avenue, Harrison and Halsted streets; thence southwesterly within 300 feet from Blue Island avenue to a connection with the proposed Ashland avenue line at 22nd street and Ashland avenue; also a connection from the said Blue Island avenue line with the existing Douglas Park branch of the Metropolitan Elevated between 20th and 21st streets. This structure shall be so designed as to carry a fourth track when so required by the traffic.

Eleventh. A two-track subway with a portal at (or within 300 feet from) the intersection of Blue Island avenue and Taylor street shall be constructed under Blue Island avenue and Harrison street to Michigan avenue or Grant Park, passing under the Clark and State street rapid transit subways, with stations for transfer thereto; thence north under Michigan avenue or Grant Park to Madison street with stations for transfer to surface car subways under Grant Park or Michigan avenue; thence west under Madison street to Halsted street, and south under Halsted street to a connection with said subway, thus completing a down town loop passing through the south half of the central business district.

Two tracks of the elevated line on or near Blue Island avenue, hereinabove provided for, shall be diverted into said subway at the Taylor street portal when so determined by the Trustees. This line shall connect with the Douglas Park branch of the Metropolitan Elevated between 20th and 21st streets and with the Ashland avenue branch at 22nd street and Ashland avenue.

The subways hereinabove provided for under Halsted street between Milwaukee avenue and Blue Island avenue shall be so constructed as to permit the operation of same as a route connecting the lines of the north, west and southwest on Blue Island avenue and Milwaukee avenue without passing through the down town district, and shall be thus operated when so determined by the Trustees.

Twelfth. A two-track elevated line shall be constructed from a point at or within 500 feet from the intersection of 41st place and the Ashland avenue elevated line, hereinabove provided, southwesterly to 43rd and Robey streets; thence west in 43rd street or within 300 feet therefrom to Archer avenue; and thence on Archer avenue, or within 300 feet therefrom, to Cicero avenue.

Thirteenth. The Englewood branch of the South Side Elevated shall be extended in 63rd street (or within 300 feet therefrom) from Loomis street to Cicero avenue, and the two-track elevated structure on 63rd street shall be extended from a point at or near the intersection of 63rd street and Calumet avenue west in 63rd street (or within 300 feet therefrom) to a point at or near the intersection of 63rd street and Harvard avenue, so as to make a continuous east and west line on or near 63rd street from Stony Island avenue to Cicero avenue.

Fourteenth. The Logan Square branch of the Metropolitan Elevated shall be extended from Irving Park Boulevard to and into Norwood Park (the location of the line to be determined by the City Council) and the Humboldt Park branch shall be extended in North avenue (or within 500 feet therefrom) to present City limits, both said extensions may with the approval of the City, be built on the surface of the ground instead of on an elevated structure, and the Ravenswood branch of the Northwestern Elevated shall be extended from the Kimball avenue yards west to a point at or near the intersection of Lawrence and Elston avenues.

All new elevated structures to be built within the limits of the down town district, or in public streets elsewhere throughout the City shall be constructed with solid floors of steel or concrete, and with the ties imbedded in broken stone or other suitable ballast material so as to reduce the noise of trains operating over such structures as much as practicable, provided, how-

ever, that if a form of structure is designed which, in the judgment of the Trustees is equally effective in reducing noise, and not otherwise objectionable, such form of structure may be specified by the Trustees instead of the above specified solid floor ballasted track structure.

SURFACE LINE IMPROVEMENTS.

Surface line subways shall be constructed through the congested central business district to form the nucleus of a downtown terminal system of subways into which as many surface line cars as possible shall be diverted. These surface line subways shall be constructed in the following order:

1. A two-track subway shall be built east under Washington street, from and connecting with the Washington street tunnel, which shall be reconstructed for that purpose, at low level to Michigan avenue or Grant Park, passing beneath the north and south rapid transit subways, with stations for transfer thereto; thence at high level south under Michigan avenue or Grant Park to Jackson street, with loop or stub facilities under Grant Park or Michigan avenue. This subway with its present west portal under the Northwestern Station shall accommodate as many as practicable of the important lines from the west and northwest territory which now are forced to use the congested surface terminal loops along State and Dearborn streets.

2. Another east-west two-track subway shall be built under Jackson street from and connecting with the Van Buren street tunnel, which shall be reconstructed for this purpose, east under Jackson street at low level to a connection at Michigan avenue with the previously mentioned Washington street subway, passing under the north and south rapid transit subways and with stations for transfer thereto.

To relieve surface car congestion in the Loop district, as many west side surface cars as possible shall be run through these subways under Washington street and Jackson street to the Lake front, with stub or loop terminals and a short subway connecting them under Michigan avenue or Grant Park, so that either through or turn-back service may be operated as may seem proper. Such of the remaining west side cars as continue to operate on the surface shall be turned back west of the center of the Loop on Clinton, Franklin, La Salle or such other streets as the traffic may warrant.

3. A two-track north-south surface car subway shall be built under Indiana avenue from 18th street, connecting with the proposed Illinois Central station at 12th street; thence under Michigan avenue or Grant Park to a connection with the above mentioned west side surface car subways. This subway shall accommodate the majority of the surface cars now entering the business district in Wabash avenue.

A station service directly connecting the Northwestern, Pennsylvania-Burlington-Saint Paul, Lake Shore, and Illinois Central-Michigan Central steam railroad terminals shall be established. By the time the west side surface subways are completed, the majority of this railroad station service shall be put into operation from Michigan avenue to Clinton street, on which street the station route cars will operate between the portals of the Washington and Van Buren street tunnels. This west side station route shall serve the Illinois Central Railroad through its Van Buren street station and its proposed Monroe street suburban station if constructed. Later with the Indiana avenue connection the complete station service shall be established, except for the Grand Central and Dearborn steam railroad terminals, which shall be served so far as practicable by the south extension of the Wells street elevated tracks.

This complete subway route shall further provide for a direct passenger movement and direct transfer facilities between the south lake shore district and the west and northwest districts.

4. An extension of the existing Division street surface line from Mozart street west through Humboldt Park to connect with the existing Division street surface line at Grand avenue, said extension to be constructed when a right of way shall have been provided therefor. In the event that the cost of said right of way, or any part thereof, is paid by special assessment upon the property specially benefited thereby, one-third (1/3) of so much of said cost as shall be assessed against the City for public benefits may, by ordinance, be paid out of the City Traction Fund, as provided in the ordinance to which this exhibit is attached.

Additional surface line development throughout the remaining districts of the City shall be provided for by the Company coincidently with the improvement of the rapid transit lines as City growth proceeds.

City-wide development of the surface lines in conjunction with the rapid transit lines shall be carried out efficiently as the growth of the city proceeds. This development shall provide for the further establishment of:

1. Logical through routes on the zone system with sufficiently short headway to render them efficient and attractive to patrons;

2. Further development of the zone system of car operation by means of which service on these long lines may be tapered off according to the traffic demands by establishing short line terminal routes;

3. Skip-stops wherever practicable. The entire system of surface line stops shall be revised so as to eliminate needless stops, especially on diagonal streets or where transverse streets are offset.

4. Finally, outlying lines intersecting rapid transit lines shall be arranged so that transfer of long haul passengers may be facilitated without disturbing or disconnecting the through surface line service along important thoroughfares reasonably required by the traffic thereon.

The foregoing improvements, extensions and additions to the local transportation facilities in the City of Chicago shall be made under the provisions of this ordinance as and when so directed by the Trustees, except that the following shall be done within the initial construction periods hereinafter provided for:

FIRST THREE-YEAR PERIOD.

All the items under this heading shall be commenced promptly upon the effective date of this ordinance and shall be completed within three years thereafter.

1. Construct a two-track subway in State street, from a junction with the South Side Elevated at 22nd street running north to Chicago avenue and thence west in Chicago avenue to a junction with the Northwestern Elevated structure.

2. Construct a two-track surface car subway from

the east end of the Washington street tunnel, reconstructed for that purpose, in Washington street to Michigan avenue, south in Michigan avenue to Jackson street, west in Jackson street to Franklin street, south to the east entrance of the Van Buren street tunnel, reconstructed for that purpose, with suitable terminals under Grant Park for returning cars on each route.

3. Lengthen platforms on elevated stations, beginning with the lines having the present heaviest traffic so as to obtain additional capacity at the earliest possible date.

4. Extend the existing elevated railroad structure in Wells street, south from Van Buren street in Wells street to Polk street with grade separation at Van Buren street; thence east in Polk street to a connection with the South Side Elevated.

5. Add a fourth track to South Side Elevated from the 22nd street junction with the new subway to 43rd street and a third track extending from 43rd street to 63rd street.

6. A three-track elevated trunk line to be constructed, from the northwest junction of the Metropolitan West Side Elevated Railway at Robey street and Milwaukee avenue, in Milwaukee avenue (or within 500 feet therefrom) to a connection with the Oak Park Elevated Railroad at Lake street.

7. Add a third track to the Douglas Park branch of the Metropolitan Elevated from 20th street to the vicinity of Central Park avenue, giving a complete third track between 20th street and Crawford avenue.

8. Add a third track connection on Northwestern Elevated from Wilson avenue to existing third track north of Argyle station.

9. Add a third track to the Oak Park Elevated Railroad structure, reconstructed for that purpose, from the Lake street junction with the Union Loop at Wells street, west to Talman avenue, including grade separation of the elevated structures at Lake and Wells streets, and the necessary changes for three tracks on the Lake street bridge over the Chicago River, and on the viaduct west of the river.

10. Add a third track, and the additional structure needed therefor to the Garfield Park branch of the Metropolitan Elevated from Marshfield avenue to Crawford avenue.

11. Construct a new two-track elevated line in Milwaukee avenue (or within 500 feet therefrom) from Logan Square to Irving Park boulevard, including terminal and yards at the latter point.

12. Construct a new two-track elevated line within 500 feet from North avenue as an extension of the Humboldt Park branch of the Metropolitan Elevated to Grand avenue with terminal yards at the last named point.

13. Construct a two-track elevated line in Ashland avenue (or within 600 feet therefrom) north from a terminal at 71st street to 20th street wih connections to the Englewood and Stock Yards branches of the South Side Elevated; and at 20th street said line shall be continued to a connection with the existing tracks of the Metropolitan Elevated within 200 feet from 20th street. Also with a connection at 22nd street with the Blue Island avenue elevated line when built, with such grade separation as may be found necessary and desirable. The said line, from 47th street to 22nd street, to be designed to carry a third track to be added later.

14. Construct a new two-track elevated connection between said Ashland avenue elevated line provided for in the foregoing paragraph and the Englewood and the Stock Yards branches of the South Side Elevated. Location to be determined by the City Council.

15. Elevate the tracks of Oak Park Elevated from Laramie avenue to Forest Park station.

16. For development of the maximum use of all the tracks of the four-track north and south rapid transit line, between 63rd street on the south and Wilson avenue on the north, passing points shall be provided, which will permit the operation of express service on local service tracks; to this end, passing points, involving the building of two additional tracks and structures at each point, shall be constructed at not to exceed two locations on the South Side Elevated, and not to exceed two locations on the Northwestern Elevated as may be determined by the Trustees. The tracks and structures of each passing point to extend a distance which will include not to exceed two stations.

17. Extend the existing Division street surface line from Mozart street west through Humboldt Park to connect with the existing Division street surface line at Grand avenue. Said extension to be constructed when a right of way shall have been provided therefor in any manner approved by the City by ordinance.

18. Extend the existing Ashland avenue surface line from Cortland street north to connect with the existing Ashland avenue line at Clybourn avenue. Said extension to be constructed when Ashland avenue shall have been extended by viaduct or otherwise between said points.

19. Construct the following double track surface line extensions: in 31st street from Crawford avenue to Kedzie avenue, when the City shall have constructed a bridge across the South Branch of the Chicago River at Thirty-first street, designed to carry street railway tracks, in said Thirty-first street from Kedzie avenue to Western avenue; in 18th street from Leavitt street to Western avenue, and in 47th street from Kedzie avenue to Archer avenue.

20. Construct a single track surface line extension (with proper turnouts) in Burley avenue from 123rd street to 126th street, and Brandon avenue; thence in Brandon avenue from 126th street to Brainard avenue, in Hegewisch.

21. Construct the following two-track surface line extensions: in Devon avenue from Western avenue to Kedzie avenue; in Belmont avenue from Cicero avenue to Central avenue; in Diversey avenue from Crawford avenue to Cicero avenue; in Fullerton avenue from Long avenue to Central avenue; in 87th street from State street to Ashland avenue; and in 87th street from Cottage Grove avenue to State street.

22. Connect the double-track surface line on Harrison street from its present terminus west of State street, across State street with the existing surface tracks on Harrison street between State street and Wabash avenue; connect the 18th street double-track surface line from its present terminus west of State street, across State street with the existing surface tracks on 18th street east of State street, and extend the same on 18th street from Indiana avenue east to

the Illinois Central right of way; and extend the existing double-track surface line on 22nd street from Indiana avenue east on 22nd street to the Illinois Central right of way.

23. Provide for terminal transfer facilities from surface to elevated lines in this period.

24. Provide ample rolling stock as required for rapid transit lines.

25. Provide additional tracks, ample rolling stock, power, substations and equipment required for surface lines.

SECOND THREE-YEAR PERIOD.

The following items shall be commenced before or promptly upon the expiration of the first three-year period hereinabove referred to, and shall be completed within three years thereafter.

1. Construct a surface car subway from 18th street and Indiana avenue connected with the proposed Illinois Central station at 12th street, to and under Grant Park or Michigan avenue to connect with the other surface car subways, hereinbefore described in item 3 under the heading "Surface Line Improvements."

2. Construct a two-track extension of the present North Water street terminal tracks east to State street and south over State street to the present Loop station over Lake street, including a new river bridge on State street, one-third of the cost of such bridge to be paid by the Company and the remainder by the City.

3. Construct a two-track elevated line, forming a junction with the three-track elevated structure in Milwaukee avenue in the vicinity of Lake street, to be built over Clinton street to a connection with the Metropolitan Elevated, passing under the Oak Park Elevated at Lake street, thus providing a separation of grades at that point. The Wells Street Terminal of the Metropolitan Elevated to be rearranged and enlarged.

4. Complete the realignment of the Northwestern Elevated tracks at Halsted street and North avenue to reduce the delays on account of heavy curvature.

5. Elevate the present surface tracks of the Northwestern Elevated from Western avenue to Kimball avenue yards.

6. Reconstruct the structure, tracks and station at the Belmont avenue junction of the Northwestern Elevated and extend the station to provide additional facilities and separate track grades.

7. Add a fourth track to the South Side Elevated from 43rd street to 63rd street.

8. Construct a three-track elevated line from a connection with the Metropolitan Elevated at Van Buren between Desplaines and Halsted streets; thence south and west to Blue Island avenue, Harrison and Halsted streets; thence southwestwardly within 300 feet from Blue Island avenue to a connection with the proposed Ashland avenue line at 22nd street and Ashland avenue. Also a connection from the said Blue Island avenue line to the existing Douglas Park branch of the Metropolitan Elevated between 20th street and 21st street. This structure to be designed to carry a fourth track when required by the traffic.

9. Add a third track to the Logan Square branch of the Metropolitan Elevated from Robey street to Logan Square.

10. Construct a two-track elevated line in Robey street (or within 200 feet therefrom) from the Northwest branch of the Metropolitan Elevated to a junction with the existing Ravenswood branch of the Northwestern Elevated at Cornelia street (or within 500 feet therefrom) with grade separation at Robey street when required by the traffic.

11. Construct a new two-track surface line connecting the Oak Park Elevated and the Garfield Park branch of the Metropolitan Elevated beyond their present western terminals, including storage yards in Forest Park.

12. Reconstruct tracks and station at or near Marshfield avenue junction of the Metropolitan Elevated and extend the station to provide additional facilities and separate track grades when and as directed by the Trustees.

13. Construct an additional two-track elevated structure in Van Buren street, from a junction with the existing Metropolitan Elevated where it crosses Van Buren street just east of Halsted street, east to a connection with the existing elevated railroad structure in Van Buren street at Market street. The Company to join with the City for the construction of a new bridge over the river at Van Buren street, which will be constructed to carry the additional load superimposed by the elevated railroad structure and trains, one-third (1/3) of the cost of such bridge to be paid by the Company and the remainder by the City.

14. Reconstruct the tracks and station of the Northwestern Elevated just south of Division street, so as to reduce delays to traffic, due to heavy reverse curvature in the tracks of the Northwestern Elevated just south of Division street, the structure, tracks and station at or near that point to be relocated, realigned and straightened.

15. Construct a two-track elevated line in Halsted street (or within 200 feet therefrom) from a connection with the South Side Elevated at the junction of Sixty-third street and Halsted street (or within 200 feet therefrom) to Eighty-ninth street, said extension to become a part of the Halsted street rapid transit through line, when said line is constructed later, as provided in this ordinance.

16. Construct a two-track elevated line extension from the present elevated railroad terminus at the intersection of Sixty-third street and Stony Island avenue, south in Stony Island avenue (or within three hundred (300) feet therefrom) to Seventy-third street or Seventy-ninth street, and thence in a southeasterly direction to and into South Chicago, in the vicinity of Ninety-fifth street and Commercial avenue, the precise location of said line to be determined hereafter by the City by ordinance.

17. Construct a two-track elevated line extension from a connection with the Sixty-third street branch of the South Side Elevated at a point between Indiana avenue and South Park avenue, thence south to Eighty-seventh street, at a point between Indiana avenue and South Park avenue, the exact location of the line to be determined hereafter by the City by ordinance.

18. Provide ample rolling stock as required for rapid transit lines.

19. Provide additional tracks, ample rolling stock and power equipment required for surface lines.

SUBSEQUENT PERIOD.

After the expiration of the Second Three-Year Period hereinabove referred to, the remaining improvements, extensions and additions hereinabove specified shall be

made as directed by the Trustees, and there shall be provided such other equipment for, additions to and extensions of both the rapid transit and surface lines as may be required for furnishing adequate local transportation service under the principles and provisions hereinabove in this ordinance set forth.

GENERAL SPECIFICATIONS.

In addition to the work hereinabove specifically required the Company shall, as promptly as possible, do the necessary work and purchase the necessary materials and equipment to put its entire local transportation system and equipment in the best practicable condition to enable it to furnish to the citizens of Chicago the quality and kind of service contemplated and required by this ordinance, and shall at all times maintain the same at the highest practicable efficiency.

PERMITS.

The Company, before it makes any excavation in or in any way interferes with the surface of, any street or public way for the purpose of doing any work shall obtain from the Commissioner of Public Works of the City a permit so to do, which permit shall contain a condition requiring the Company to restore that part of said street or way excavated or interfered with by the Company, and maintain it for one year thereafter; and in every case the Company shall promptly make such restoration and after it has restored such street or way shall maintain it for one year after such restoration.

Whenever the City shall issue to others than the Company a permit to make any excavations in or in any way interfere with the surface of a street or way which is now occupied by the tracks, structures or other property of the Company, when the work to be done under such permit will in any manner disturb or endanger any property of the Company, the City shall require the party to whom the permit is issued to give to the Company adequate protection either by the deposit of cash to an amount satisfactory to the Trustees or by bond satisfactory to the Company in an amount fixed by the Commissioner of Public Works of the City, against any and all damages that may be done to its property, arising from or growing out of the work done under the said permit, and when such property of the Company is so disturbed or damaged, it shall be restored by the Company at the expense of those who are responsible under the said permit for such disturbance or damage and be maintained by the Company, at the expense of those responsible under the said permit, for one year after such restoration.

In case any firm, company or corporation shall be given the authority to change existing structures or to erect new structures in, over, under or across streets or ways on which the Company has tracks or other property, in such manner as to interfere with said tracks and property, the Commissioner of Public Works of the City of Chicago shall submit the plans for said work to the Trustees for suggestions and criticisms before approving the said plans.

PERMITS FOR BUILDINGS.

All permits issued for the removal of buildings on or across any track of the Company, shall provide that the Company be notified at least two days in advance of such removal, and the permit shall require that the party to whom it is issued shall give to the Company adequate bond or cash deposit the amount of said bond or deposit, to cover any cost to the Company that it may legitimately incur on account of the removal of such building or buildings along or across its tracks and that such removal shall only take place, unless with the consent of the Company, between the hours of twelve o'clock midnight and five o'clock A. M.

GRADE AND LINE OF TRACKS.

The tracks to be maintained by the Company on the surface of streets shall not be elevated above the surface of the street or public way in which they are placed. They shall be laid and maintained by the Company so as to conform to the grade of such street or public way as the same is, or from time to time hereafter shall be, established by the City Council.

TRACK CONSTRUCTION.

All new track shall be laid with the best materials and in the most approved modern manner, in accordance with detail plans and specifications approved by the Trustees.

SPACING TRACKS.

In laying or relaying rails in any of the streets or ways included in the accompanying ordinance, upon which more than one surface track is located, the distance between the centers of tracks may remain as at present, but in order to accommodate large modern cars, and provide for their safe passage, this distance may be at least nine (9) feet eight and one-half (8½) inches between center lines of tracks, except in respect to rapid transit tracks when laid on the surface of the ground, streets or ways—the distance between the centers of existing tracks may remain as at present, and the distance between the centers of tracks to be reconstructed or new additional tracks shall be not less than twelve (12) feet.

The tracks at curves, wherever practicable, shall be laid to such centers as to enable cars to pass with suitable clearance. The exact location of tracks in the streets shall be subject to the approval of, and the line and grade defining such location shall be given by the Commissioner of Public Works.

RAILS.

All new track construction hereafter laid in streets or public ways, shall be laid with modern improved rails of such pattern or cross section as may be determined by the Trustees but of the grooved type, weighing approximately one hundred and twenty-nine (129) pounds per yard; provided, however, that upon such streets and parts of streets in the City of Chicago not occupied at the date of the passage of this ordinance by tracks constructed with the grooved rail, the Company where expressly approved by the Commissioner of Public Works of the City, may use modern high "T" rails of a design satisfactory to the Commissioner, but said "T" rails shall not extend beyond the top level of the street pavement.

The Company shall not hereafter, in any event, in building extensions to its existing street railway system, be required to put in grooved rail, except where the streets shall be paved, and sewer and water supply pipes laid. On unpaved streets or where the sewer and water supply pipes have not been constructed, the tracks may be temporarily laid and constructed with rails and other material which have been previously used on other parts of the local transportation system of the Company.

The rails on the elevated structure, in existing tun-

nels, and in the City owned subways herein provided for, shall be of the "T" rail type.

JOINTS.

All rail joints of tracks laid in the surface of streets or public ways shall be either cast-welded, electrically welded, or of a type which will give an equally smooth and even joint, except that the joint used must be one which will provide a carrying capacity for the electric current equivalent to the carrying capacity of the rail.

SURFACE TRACK SUBSTRUCTURE.

The surface track rails shall be laid upon concrete beams, wooden ties, steel ties or in some other form of first-class modern approved street railway track construction. The foundation shall be either of concrete, crushed stone or other ballast material which in the judgment of the Trustees shall best suit the conditions of soil and drainage; said foundation to be brought to the proper height to serve as a suitable foundation for the pavement.

BONDING.

In case the rails of the surface lines are joined by any other form of joint than a cast-welded or electrically-welded joint, there shall be some form of bond used which will connect the ends of the rails in such manner that the conductivity of the joints shall be equivalent to the carrying capacity of the rail. The rails of each single track and the inside rails of the double track of all such tracks shall be connected by cross-bonds of No. 2/0 (B. & S. Gauge) copper wire spaced not more than one thousand (1000) feet apart, and properly secured to the rails in such manner that the full conducting effect of the wire may be utilized. The rails shall be so bonded or joined and such return circuits and other necessary devices installed as to prevent damage from electrolysis as effectually as possible.

SPECIAL WORK.

At all points of intersection of the tracks of the Company with its own tracks there shall be provided suitable steel special work of ample strength and weight to correspond with the structure to which it connects. The frogs, switches and mates shall be provided with wearing plates of hardened steel or other equivalent material. All special work and curves shall be laid in the same general manner required for straight-line track.

POLES AND WIRES.

All new overhead construction for surface lines shall consist of one (1) trolley wire, suspended over each track by span wires attached to poles, set with the face of the pole six (6) inches back of the curb line, or suspended from brackets attached to poles. Existing poles may remain as at present.

The poles hereafter erected shall be of iron, steel or reinforced concrete, weighing approximately nine hundred (900) pounds each (for iron or steel poles), set in concrete and kept thoroughly painted if of metal. They shall be spaced on an average of not less than one hundred (100) feet apart for straight track, except at street intersections, and so as not to obstruct cross streets, alleys, or existing private driveways. The location of the poles shall be subject to the approval of the Commissioner of Public Works. Provided, that in outlying districts, in alleys and unimproved streets, the Company shall have the right with the approval of the Commissioner of Public Works to use wooden poles.

All materials used in the overhead construction shall be of the most modern type, and shall be capable of sustaining all the weights and strains that come upon it under normal conditions of operation, and from wind, sleet and ordinary accidents.

The trolley wire shall be not less than 2/0 (B. & S. Gauge) hard drawn copper, unless the Trustees shall approve other sizes for specific cases. Phosphor bronze, silicon bronze or other material equal in strength may also be used. Trolley wires shall be suspended not less than eighteen (18) feet and six (6) inches above the rails, except when such wires are under viaducts, bridges and other structures the Company shall have the right to suspend them from such structures at lower heights above the rail. No such structure shall be built with a headroom less than thirteen (13) feet six (6) inches above the rails. There shall be at least two (2) insulations between the trolley wire and the supporting pole. Span wires shall be galvanized iron or steel or silicon bronze.

FEEDERS AND TRANSMISSION WIRES.

All feeder and transmission wires of the surface lines within that portion of the City bounded as follows: beginning on Halsted street at the south line of Thirty-ninth street, thence north on the west line of Halsted street to 22nd street; west on the north line of 22nd street to Western avenue; north on the west line of Western avenue to Belmont avenue; east on the north line of Belmont avenue to Southport avenue; north on the west line of Southport avenue to Clark street; north on the west line of Clark street to Lawrence avenue; east on the north line of Lawrence avenue to Lake Michigan; south along the shore of Lake Michigan to the south limits of the City; thence west to the right of way of the Lake Shore and Michigan Southern Railroad; thence north along said right of way to the south line of Thirty-ninth street; thence west on said south line of Thirty-ninth street to the place of beginning, shall be laid underground; excepting 22nd street from Wabash avenue to Western avenue, and that part of the so-called Calumet territory lying between the south line of 63rd street, the Lake Shore and Michigan Southern Railroad right of way and Lake Michigan. To this end, authority is hereby conferred upon the Company to enter upon, excavate for, and construct a system of conduits in the streets, alleys, and other public ways of the City of sufficient capacity to carry its said wires. All transmission wires used by the Company within the City limits, carrying a pressure of 1,000 volts or more shall be placed underground; except that in outlying districts, subject to the approval of the Commissioner of Public Works of the City, such wires may be placed overhead.

Feeders and transmission wires, not required to be placed underground, shall be suspended by insulators upon said poles supporting said trolley wires or upon poles placed at the side of streets, alleys or other public ways in locations to be approved by the Commissioner of Public Works. These wires and poles shall be so situated that the Company may conveniently make all the connections authorized by said ordinance and the exhibits thereto. The said trolley wires, feeder wires and all other wires authorized by said ordinance to be installed by the Company where located in streets, alleys, or other public or private ways, in, along or across which are located railroads elevated above the surface of the streets, may be strung upon or from the struc-

tures of such railroads, provided that the railroad owning such structure built in the future shall provide suitable blocks or other fastening in such structure, to which such trolley or feeder supports may be attached.

CONDUITS.

Underground conduits to carry any of the wires authorized by said ordinance, except in subways, to be installed by the Company, shall not exceed four (4) feet in width and three (3) feet in depth, and shall be of tile, cement, iron, or other material impervious to moisture and not subject to decay. All transmission and feeder wires and cables laid underground shall be covered with lead or other impervious material. Before any cable containing such wires shall be put in use it shall be tested by an alternating current of twice the working voltage of the cable. All forms of cable used by the Company containing more than one conductor shall be tested in like manner.

CITY CONDUITS.

If at any time the City shall desire to place conduits and manholes in streets or public ways, except in subways, wherein the Company is then about to place conduits and manholes, a single trench may be used for both conduits, but the manholes of the Company shall be kept separate and distinct from those of the City. The expense of constructing the conduits in such case shall be divided between the Company and the City according to the space assigned to each therein. The cost of constructing manholes to be paid by the corporation owning the same.

CONDUCTORS.

All wires and conductors for the transmission of electricity in and along any street, alley or public way (whether under or above ground), shall be installed in a substantial and workmanlike manner, so as to interfere as little as possible with the other uses of said public places; and all electric work of every kind and character shall comply strictly with the ordinances of the City applicable thereto.

ELECTROLYSIS.

The Company agrees to comply with the following terms, provisions and conditions with reference to electrolysis:

(a) For the purpose of preventing damage by electrolysis the City of Chicago shall be divided into three (3) zones, as follows: The first, or inner zone, shall comprise that district of the City bounded by Lake Michigan on the east, 12th street on the south, Halsted street on the west and Chicago avenue on the north. The second, or middle zone, shall comprise that district of the City lying outside of the inner zone, bounded as follows: Lake Michigan on the east, 79th street on the south to Western avenue; thence north along Western avenue to 31st street; thence west along 31st street to Crawford avenue; thence north along Crawford avenue to Belmont avenue; thence east along Belmont avenue to Kedzie avenue; thence north on Kedzie avenue to Lawrence avenue; thence east on Lawrence avenue to Clark street; thence north along Clark street to city limits; thence east along the city limits to Lake Michigan; thence south along the shore of Lake Michigan to Chicago avenue. The third, or outer zone, shall include all of the territory within the present or future limits of the City of Chicago not included in the inner and middle zones.

(b) All uninsulated electrical return circuits shall be of such current carrying capacity and so arranged that the sustained maximum difference of potential between any two points on any uninsulated portion of such circuit will not exceed the limit of ten (10) volts in the inner zone, fifteen (15) volts in the middle zone and twenty (20) volts in the outer zone; provided, however, that such sustained maximum difference of potential between any two such points in the grounded portion of the negative return shall not exceed a limit to be, from time to time, prescribed by the Board of Electrolysis Claims hereinafter constituted; and provided, further, that the said Board shall have the power to increase the maximum drop in the outer zone to 25 volts at such points as may be deemed advisable by the said Board for the extension of track into outlying districts of the City where the underground utilities are not fully developed. The term "sustained maximum difference of potential" is hereby defined as the highest average difference of potential for any 30-minute period during normal conditions of operation. Wherever pipes or other underground metallic work are found to be electrically positive to the rails or to the railway return circuit, they may, upon the direction of the said Board, be connected by conductors so arranged as to prevent the flow of current from the pipes into the ground, and any damage caused by such connections shall be borne by the Company.

(c) The Trustees shall, as often as said Board deems necessary, make such tests to determine whether or not the Company is complying with the provisions of this ordinance, and, to enable such tests to be made the Company shall install, from time to time, the necessary electrical apparatus and devices.

(d) The Company shall, from time to time, expend such amounts upon return circuits and other electrical apparatus as shall be necessary to prevent damage from electrolysis.

(e) For the purpose of ascertaining any damage by stray electrical currents caused by: First, connections with pipes or other underground metallic work of the City of Chicago or the Sanitary District of Chicago as authorized by clause (b) of this section and, second, the operation of the Local Transportation System to any property of the City of Chicago or the Sanitary District of Chicago after the effective date of this ordinance, and for the purpose of determining the amount of any damage, and if the Company is responsible therefor, there is hereby created a board, which shall be known as the "Board of Electrolysis Claims," and shall consist of three members, one of whom shall be the Commissioner of Gas and Electricity and the second an engineer appointed by the Company and the third an engineer appointed by these two; and in event they are unable to agree upon the third member, then such third member shall be appointed by the Western Society of Engineers. The compensation of such third member shall be determined by the City Council, one-half of which shall be paid by the Company and one-half by the City.

Said board shall hear and determine all electrolysis claims presented to it by the City of Chicago and the Sanitary District of Chicago. The decision of a majority of the members of said board shall be final and binding on the Company and on the City of Chicago and on the Sanitary District of Chicago, on any claims presented by them or either of them.

Within thirty (30) days after said board has rendered its decision on any such claim the Company shall pay to the party entitled thereto the amount determined by said board, which amount so paid shall be a charge against the renewal fund of the Company.

MAINTENANCE OF STREETS.

The Company, as respects filling, grading, paving, cleaning, sprinkling and keeping in repair, the streets or parts of streets occupied by its surface railway, shall

fill, grade, pave, clean, sprinkle and keep in repair, eight (8) feet in width of all streets and public ways, or portions thereof, occupied by it with a single track surface railway, and sixteen (16) feet in width of all streets and public ways, or portions thereof, occupied by it with a double track surface railway. The City shall not be liable to the Company for any loss, expense or damage to its tracks, roadbed or property due to excavations or other work done in the streets by the City in connection with the installation or repair of the sewer or water system of the City.

In case the Company, upon the order or with the consent of the City (expressed by ordinance) shall hereafter construct or heretofore shall have constructed any portion of its tracks, roadbed or equipment in any street before any sewer and any water supply pipes shall have been constructed and laid therein, or any such part thereof as is or shall be occupied by the tracks of the Company, or before the street grade in any such street or streets shall have been established, or before the paving thereof, where now unpaved, shall have been provided for, and the Company shall hereafter be required to take up, move or reconstruct its tracks and equipment in any such street or streets by reason of the construction of such sewer or water mains or the fixing of the street grade or the paving of such street or streets, then and in any such event the cost and expense thereby caused and incurred by the Company shall be charged to operating expense, maintenance, repairs or renewals or to capital account, in accordance with the accounting principles established in this ordinance, and under classifications established from time to time by the Trustees.

PAVEMENT.

The Company, upon the order of the Commissioner of Public Works, shall pave, repave, or repair the portions of the streets and public ways, including viaducts and bridges, which by this grant it is required to keep paved and in repair, whenever and as often as the same shall reasonably require paving, repaving or repairing, and shall at all times keep the surface of all of its paving at least up to the top of the rail.

The pavement which the Company shall be required to lay down and keep in repair in the portion of any street or way which it is required herein to pave and keep in repair shall be of the following kinds, to wit:

First. In all streets or ways in which the Company has in place, at the date of the passage of this ordinance, a good serviceable pavement, it shall repair and maintain the same while serviceable under the direction of the Commissioner of Public Works, as aforesaid.

Second. Whenever any existing pavement of the Company, in any paved street or way, can no longer be made serviceable by repair; and whenever the portions of any street or public way outside of the strip herein required to be paved by the Company are newly paved or repaved, and the pavement of the Company therein does not comply with the following specifications; and whenever the Company relays its rails in any such paved street or public way in which its pavement does not comply with the following specifications, then, and in any such events, the Company shall pave or repave with granite blocks the portion of any such street or public way, which it is herein required to keep paved as follows:

All new granite paving blocks shall conform to the following specifications:

The granite paving blocks shall have a uniform grain and texture, without lamination or stratification, and shall be free from an excess of mica or feldspar, Soft or weatherworn blocks, or those obtained from the surface of the quarry, shall not be used.

The blocks shall be so dressed as to have substantially rectangular plane surfaces. "Substantially rectangular" is interpreted that should a block be chamfered or "undercut" on the side or end, the same shall be not greater than one-half (½) inch. Upon the application of a straight edge to the surface of the block, the variation therefrom shall be not greater than three-eighths (⅜) inch. Upon the application of a straight edge to the sides or ends of a block, the variation therefrom shall be not greater than one-half (½) inch.

When the blocks are in place, the surface joints shall be not less than one-eighth (⅛) inch nor more than one-half (½) inch in width. All blocks shall be laid in uniform courses. Each course shall consist of blocks of the same width, and shall be so laid that all longitudinal joints will be broken by a lap of approximately three (3) inches. No cracked or chipped blocks shall remain in the pavement. The blocks shall be rammed to a true surface and a firm bed.

The blocks shall measure from three and three-quarters (3¾) to four and one-quarter (4¼) inches in width, six (6) to ten (10) inches in length, and three and three-quarters (3¾) to four and one-quarter (4¼) inches in depth; or, from four (4) to five (5) inches in width, eight (8) to twelve (12) inches in length, and four and three-quarters (4¾) to five and one-quarter (5¼) inches in depth, provided that shorter blocks may be used to break joints.

The detail specifications for the manufacture of and for the laying of granite paving blocks shall be approved by the Commissioner of Public Works of the City. Provided, that, in any ordinance providing for the paving of such streets the Company may be required to pave in like manner and with like material (except wooden blocks) as therein specified for other contiguous portions of said streets, except that when asphalt is used a layer of granite blocks shall be put in next to and on both sides of each rail.

Paving on viaducts and bridges owned or maintained by the City, shall include all material between the top of the wearing surface of the roadway and the bottom of the cushion for spans built with reinforced concrete and all material between the top of the wearing surface of the roadway and the top of structural steel supporting the roadway for spans built of structural steel.

Third. Whenever any existing pavement of the Company, in any unpaved street, or public way, can no longer be made serviceable by repairs; and whenever the Company lays down any track or tracks in any unpaved street or public way, then, and in either of such events, the Company shall pave or repave the portions of any such street or public way, which it is required to keep paved or repaved, as aforesaid, with good serviceable granite blocks.

Fourth. In each case where by this ordinance the Company is authorized and required, to change a surface line from a single track to a double track, in any

street or part of a street, if the roadway therein be not at least thirty-eight (38) feet in width, the Company shall, at its own cost (such cost to be charged to capital account) widen said roadway to said width, and shall rebuild the catchbasins and their connections and curb and pave said street, as may be required by the City Council; provided, that the Company shall not hereby be required to pave, in addition to the part of the street occupied by its double-track street railway, as provided for in this ordinance, more than eight (8) feet in width of such roadway nor to acquire private property in order to secure the necessary width for such roadway.

POWER HOUSES, BUILDINGS.

The Company shall build such power houses and auxiliary buildings, together with the necessary machinery and appurtenances as may be determined upon by the Trustees to supply whatever electric power may be required (in addition to such power as the Company may acquire by lease or contract from sources other than its own plants) to enable the Company to operate at all times its local transportation system efficiently and continuously.

In the construction and operation of power plants, sub-stations and other buildings, the Company shall comply with all general ordinances of the City in regard to buildings and to the installation and operation of machinery, electrical equipment, boilers and smoke-consuming appliances. The buildings of said power plants shall be substantially fireproof and supplied with smoke-stacks sufficient to carry off all gases emitted, and the foundations for the machinery therein shall be constructed in a solid and substantial manner.

The machinery and apparatus employed shall be selected and installed with a view of affording uninterrupted operation of the cars upon said local transportation system, and to attain this end the machinery shall be so arranged that a stoppage of one machine shall not prevent the operation of the remaining machines, and reserve machinery shall always be ready to be thrown into service. All boilers, piping, valves, fittings, steam engines, turbines, generators, switchboard apparatus, and other appliances used, shall be of the latest and most approved design and constructed and installed in accordance with the best engineering practice.

In all dynamos and connections where a high voltage current is produced or used approved methods for the protection of human life shall be employed.

The high tension switches shall be entirely enclosed in fireproof material, and shall be operated by levers, compressed air, auxiliary currents, or by such other means as will, as far as practicable, prevent personal contact with high tension current.

All feeders leading out of power plants and sub-stations shall be provided with some form of safety switches or automatic circuit-breakers designed to instantaneously open the circuit in case of a short circuit occurring on the feeder or on the trolley which it feeds.

All the foregoing specifications regarding modern and approved apparatus, protection from fire, and provisions for the protection of human life, shall apply with equal force to the sub-stations in case a system of transmission involving the use of sub-stations is adopted.

The power contracts under which the Surface Companies and the Elevated Companies have been securing power for the operation of their respective properties since 1913, shall be transferred to, inure to the benefit of, and be carried out by the Company, but said contracts shall not be modified, extended or renewed without the consent of the City, hereafter given by ordinance, and no new contracts for supplying power shall be entered into by the Company without the consent of the City hereafter given by ordinance.

CAR SHOPS AND MACHINERY.

The present car shops and machinery contained therein may be relocated, altered or enlarged, as may be deemed advisable and efficient.

CARS.

All cars carrying passengers shall be of the type known as double truck cars, seating forty (40) or more passengers.

All such surface cars and all rapid transit trains shall be equipped with sufficient motor capacity to properly operate such cars and trains at the schedule speed required by the service over the particular lines that they may be operated upon.

The Company shall equip all cars carrying passengers with electric or other heating apparatus of modern and approved type (except that rapid transit cars now equipped with hot water heaters may continue to be so equipped until reconstructed) and of sufficient capacity to keep such cars heated, as follows:

First. A minimum temperature of 50 degrees Fahrenheit above zero shall be maintained in all cars in service carrying passengers when the outside temperature is at 10 degrees Fahrenheit above zero or higher.

Second. A minimum temperature of 45 degrees Fahrenheit above zero shall be maintained in all cars in service carrying passengers when the outside temperature is below 10 degrees, but not below 5 degrees Fahrenheit above zero.

Third. When the outside temperature is below 5 degrees Fahrenheit above zero the temperature in all cars in service carrying passengers shall be maintained at 45 degrees Fahrenheit above zero, or as near this point as the continuous operation of all the heaters in said cars to their full capacity will allow.

Each and every car carrying passengers shall be equipped with a thermostat or other automatic regulating device that will maintain the temperature of the car within the limits prescribed by this ordinance, and shall contain a standard Fahrenheit thermometer appropriately placed to furnish a fair criterion of the temperature of the car and to enable passengers to see whether the provisions of this ordinance with respect to temperature are complied with. All said cars (including vestibules) shall be kept clean and in good repair and shall be thoroughly ventilated and air shall be supplied in each and every such car in such quantity that the amount of carbon dioxide present in the air of said car shall not exceed twelve parts in each ten thousand parts of air.

Passenger cars used by said Company shall be equipped with efficient and adequate power and hand brakes of modern and approved type.

All surface cars operated by the Company shall be supplied with a sufficient number of electric bells, connections and push-buttons, to enable passengers without inconvenience to notify the conductor of their desire to leave the car.

All surface cars shall be equipped with efficient and serviceable fender devices, headlights and sand boxes, of modern and approved type.

All such cars shall be kept well and sufficiently illuminated by electric light or other illuminants of modern and approved type.

Each surface car shall bear appropriate and conspicuous signs upon both its sides and ends so placed as to indicate, both day and night, the route and destination of such car. At night such signs shall be illuminated. Each rapid transit train shall bear appropriate and conspicuous signs, so placed and illuminated as to indicate clearly, both day and night, the route and destination of such train.

All rapid transit cars shall be equipped with suitable devices to intercept and hold oil or any other substance that may drop from moving trains.

The Company may permit advertisements in its cars, but no advertisement shall be placed upon the outside of any car, and only the space between the top of the windows and the transom of the car and the space on bulkheads shall be used for advertisements on the inside of cars.

The Company is hereby authorized and permitted to operate hospital and funeral cars.

OTHER ROLLING STOCK.

The Company shall provide all necessary snowplows, sweepers, repair cars, work cars, etc., to properly take care of its system and maintain it in first-class working condition.

Rolling stock to be provided to adequately serve the rapid transit lines and the surface lines, as rapidly as the additional track facilities herein specified are completed and ready for service.

STREET SPRINKLING AND CLEANING.

During the period of five (5) years from and after this ordinance shall become effective, subject however to the provisions of Section 22 of this ordinance, the Company shall pay to the City of Chicago for cleaning the right of way of the Company, in lieu of any other obligations on the part of the Company to clean such right of way, including the removal of snow, the sum of Fifty-one Dollars and Fifty Cents ($51.50) per month for each mile of double track operated by the Company on the surface of the ground in a public street or way, during said five (5) years period, such payments to be made monthly on or before the 5th day of each month, for the preceding month. Where the Company has single track instead of double track, two miles of single track shall be considered the equivalent of one mile of double track, and fractional miles of single track or double track shall be computed on the same basis. It is agreed that the mileage upon which the Company shall make monthly payments to the City is 479.54 miles of double track as of the date of January 31, 1918, to which shall be added the additional mileage built subsequent to said date. All extensions built or acquired by the Company during said five (5) year period shall be paid for at the foregoing rate.

If in the judgment of the Commissioner of Public Works, it shall be found practicable to have the streets or any part thereof occupied by its surface line tracks swept and sprinkled or flushed their entire width by the Company, or to have street sweepings, garbage or other refuse removed by means of cars at night, the Company shall perform said service when so ordered by the Commissioner of Public Works, and it shall receive for such service the actual cost thereof. In case the Company is called upon to remove street sweepings or other refuse, the City shall furnish suitable cars and convenient dumping grounds and permit the connection of the Company's tracks therewith. The Company shall have the right to carry on suitable cars, materials for its own use or for the use of the said City, and to connect its tracks and wires with property necessary to be used for such purposes.

USE OF POLES, CONDUITS, ETC.

The Company may use its trolley poles, feeder poles, trolley wires, feeder wires and the conduits authorized and provided for herein, for all purposes solely connected with the operation of its street and elevated railways, such as power, light, heat and telephonic and other signals. For such purposes the Company may connect such conduits, poles and wires with its transmission and feeder wires, power plants, substations, car houses, repair shops or other property of the Company, and with any transmission, feeder or other wires of any other individual or corporation.

JOINT USE WITH THE CITY.

The said City shall have the right, without the payment of any compensation therefor, during the life of this grant, to use the poles of the Company to carry the signal, telephone, telegraph and electric light wires and lamps of the said City. The transmission wires of the said City for such purposes shall be placed on poles of the Company, on that side of each street or way (where poles are located on both sides thereof) designated by the Commissioner of Public Works of the City without cost or expense to the Company, but the Company shall repair and maintain its poles as one of the operating expenses of the local transportation system under this ordinance; provided that the said City shall indemnify and save harmless the Company against and from all damages, judgments, costs or expenses which the Company may suffer by reason of any negligence of the said City in installing, maintaining or using its said wires and lamps upon said poles. When required by the City new trolley poles shall be designed to carry street lamps.

GENERAL PROVISIONS RELATING TO SUBWAYS.

No subways shall be constructed except as expressly authorized in this ordinance or in subsequent ordinances of the City of Chicago.

Said subways shall include suitable stations (including public comfort stations), entrances to and exits from stations, stairs, and station platforms, tracks, roadbed and fixed electrical equipment, including the transmission system and all necessary approaches, inclines, sidings, spurs, switches, turnouts, crossovers, loops, drainage, ventilation, electric and other conduits, sub-surface storage yards for cars and connections with existing or future subway, surface or elevated railroads.

The north and south subways shall be high level

subways viz: subway with only such cover as is necessary to provide a foundation for the street surface and accommodate such public utilities as must (in the judgment of the Trustees) cross over the roof of the subway. The base of the rail shall be about 18 feet below street surface. The east and west subways shall be low level subways which shall be constructed so as to cross immediately under the high level subways. The base of the rail shall be about 30 feet below street surface except where said subways rise to the level of the high level subways and this level may be lowered whenever the Trustees may find it necessary in order to obtain proper clearance.

The Illinois Tunnel may be altered where necessary in the judgment of the Trustees and subject to the ordinances of the City of Chicago relating to said Illinois Tunnel. The arch of said tunnel may project into and become incorporated with the floor system of the subway at all points where necessary in the judgment of the Trustees.

Where, in the judgment of the Trustees, traffic conditions require it, subway construction shall be carried on under a decking of heavy planking which shall remain until the subway is constructed. The construction shall be done in short lengths of excavation.

The high level subway section shall be designed with a roof of ample strength to carry the live and dead loads superimposed thereon. The roof shall be supported on columns between the tracks and columns in the side walls fully braced. The side walls shall be continuous and of sufficient strength to resist the lateral thrust and other loads. Partition walls shall be constructed in the column rows between the tracks, except at stations and at other points where openings are necessary or desirable. The floors shall be made of concrete reinforced with rods or beams. At station platforms the columns shall be spaced a proper distance apart, and sufficiently back from the edge of the platform so as to reduce interference with passengers loading and unloading from trains.

The structural features of the low level subway shall be similar to those of the high level subway except that heavier sections are to be employed and the floor construction may include I-beam reinforcements.

Reinforced concrete may be used where necessary or appropriate, in the judgment of the Trustees for the construction of any portion of the subways herein provided for.

At stations and between stations the roof walls and floor of the subway shall be enveloped with a membrane of woven fabric laid in pitch or asphaltmastic or such other construction shall be made as may be necessary in the judgment of the Trustees to produce a water-proof structure. All seepage and other water which may enter the subway shall be drained along the track to sumps where automatic pumps (operated by electricity or compressed air) shall discharge the water into sewers.

The stations shall have platforms not less than 500 feet long. The minimum width shall be 12 feet.

Power, lighting and signal cables shall be placed in ducts located in concrete along the side walls with duct manholes at proper intervals and manhole exits to the street.

Tracks between stations shall be upon ties laid in rock ballast placed in troughs of the subway floor with every fourth tie extended to receive the support for the third rail and protection board. The track at stations shall be unballasted; the rails being laid on short tie pieces bolted to the concrete bed, the concrete being carried up slightly on the sides of the tie pieces to prevent lateral and longitudinal movement.

All modern devices for the safety, protection and convenience of the traveling public, including block signals, electric or electric pneumatic switching systems and telephone systems, shall be installed.

The general plan and design of subways and subway stations shall be in substantial accordance with the plats attached to the report of the said Chicago Traction and Subway Commission and numbered 26, 27, 28, 29, 30 and 31, a copy of which report was filed with the Comptroller of the City on the 30th day of July, 1918.

Said subways shall be constructed in accordance with detailed plans and specifications prepared under the supervision of and approved by the Trustees. The Trustees shall at all times during the progress of the work have the right to make such modifications, alterations or revisions of and changes in said detailed plans, specifications and drawings as the Trustees may deem advisable, within, however, the purview of the general plans, drawings and specifications herein provided for.

Said plans, specifications and drawings shall provide for the necessary readjustment of sewers, water and gas mains and other public utilities affected by the construction of subways. Said plans may provide for chambers or galleries to take care of these utilities.

The Company may place and maintain in stations and upon station platforms suitable booths for the sale of newspapers, magazines, periodicals, fruits and confections, not impairing the use of said subways and approaches for the transportation of passengers. The Company shall discontinue at any time or from time to time any of the uses herein referred to or approved which in any way diminish or impair the safety, accommodation, convenience or comfort or conflict in any way with the best interests of the public.

The City reserves the right without charge or the payment of any compensation to place and maintain in the subways such wires and apparatus as may be necessary for its police and fire alarm service, and also such other wires, conduits, tubes, pipes or other similar structures as may be necessary or convenient for any use by the City, the same to be so located, maintained and repaired as not to interfere with the safe and convenient operation of said subways and railways therein; provided, however, that no sewer, water or gas pipes shall be placed in the main bore of such subway.

The railways operated by the Company within subways during the grant shall be operated carefully and skillfully according to the highest standards of operation for such character of railways and with due regard to the safety and convenience of the passengers and employees and of all other persons. The City by its representatives and any person or persons authorized by the City Council, shall at all times have access to any and all parts of said subways and the equipment thereof and to any materials being used or designed to be used by the Company in connection with

the subways or equipment thereof or which may be in process of manufacture or assembling.

General Provisions Relating to Elevated Roads.

Plans and specifications of all new work and of all reconstruction upon or additions to elevated roads, including tracks, curves, sidewalks, switches, connections, poles, supports, columns, girders, telegraph, telephone, signal and other devices and appurtenances, shall comply with all general ordinances of the City of Chicago applicable thereto and shall be submitted to and approved by the Commissioner of Public Works and the Company shall not commence to build, erect, add to or reconstruct any elevated structure until said plans and specifications are so approved in writing. All such construction and reconstruction shall be under the supervision of the Trustees.

The Company shall furnish, maintain and operate adequate lights underneath any elevated structure or station constructed in or across any public street, and shall furnish and maintain a light or lights, the aggregate power of which shall be of not less than 400 watts at any street where the said elevated railroad crosses said streets, the said lighting to be done upon order issued by the Commissioner of Gas and Electricity. The Company shall have the option of installing or maintaining said light or having it done by the City. If the installation or maintenance of such electric lights is done by the City, the Company shall pay the City the cost and expense of such installation, or the reasonable cost of maintenance and furnishing electricity for the same, or both, as the case may be.

Wherever said line of road is over, across or along any street, the Company shall provide in or upon the elevated structures, or by means of drip pans upon the order of the Commissioner of Public Works of said City, adequate provision against the dropping of water or other materials from said structure.

The general plan of said new structure of said elevated railroad shall be that of an elevated railroad with the tracks, ties and guard rails supported or upheld by longitudinal and cross girders, which, in turn, shall be supported or upheld by a row or rows of iron, steel or concrete posts or columns set upon foundations of iron, masonry, cement, or a combination of the same, or such other foundation as may be approved by the Commissioner of Public Works of the City, but no part of such foundation shall be above the established grade of the street or alley in which the same is located, except the post connections. All material used for that part of the structure above the ground shall be of wrought iron, steel or concrete, except that the post connections may be of cast iron and the ties or longitudinal stringers supporting the rails and the safety guards may be of the best quality and kind of selected timber. The track walks may be of wood. The stairs and all parts of stations where erected in or across any street, avenue, boulevard, alley or other public place, except the platforms, doors and windows and inside sheeting and the treads of the stairs, shall be of iron or masonry, or other incombustible material. All station platforms and stairs shall be protected by a substantial iron railing.

Wherever new elevated structure is to be constructed, or the present structure reconstructed in such manner as to call for new posts or columns, except where the width of the roadway of any street, avenue, boulevard or any alley between the curb lines thereof, over, along or across which said elevated structure shall pass, is fifty (50) feet or more, the roadway of every such street, avenue, boulevard or alley shall be spanned by a single span.

All columns placed in public streets shall be located inside of and at the curb line of said street, except as above stated.

The transverse diameter of any post or column of new structure, or of any post or column which may be renewed or reconstructed, which shall be placed in the roadway of any street, shall not exceed twenty-two (22) inches at the base and thence for at least ten (10) feet above the surface of the roadway. The transverse diameter of any such column when placed inside of and at the line of the curb shall not exceed twenty-six (26) inches at the base and thence for at least ten (10) feet above the surface of the roadway.

The transverse diameter of the column above indicated does not include fenders, and adequate fenders shall be fitted around the base of each such column placed in the roadway of any street, avenue, boulevard or alley to prevent the hubs of the wheels of passing vehicles from striking the columns.

The longitudinal distance between columns of structures new or reconstructed aforesaid, when the rows of columns are in the roadway of a street, shall not be less than thirty-five (35) feet except on curves and across railroad rights of way.

No part of the girders of the superstructure of structures new or reconstructed as aforesaid shall be less than thirteen (13) feet, six (6) inches above the present established grades of boulevards, streets and alleys, and wherever such elevated structure crosses or passes over the right of way and tracks of existing steam railroads, the clear head room between the lower chord of all of said girders and the surface of the rails on all of said railroads, on their present grades, and from out to out of their right of way, shall not be less than twenty (20) feet.

The design of all new or reconstructed elevated structures shall be in accord with the best modern engineering practice, having special regard to the appearance of such structures when located at or across streets or public grounds.

All of the material used in the construction of the work shall be of the best quality for the purpose to which it is to be applied, and the work shall be executed in the best style of the art and in a workmanlike manner, and said structure shall be kept painted and in a sightly condition.

The Company shall do no permanent harm by the construction, reconstruction or maintenance of elevated structures to the pavement, gutters, sidewalks, water pipes, sewer or gas pipes, telegraph or electric wires and cables or pipes, but in the event of any construction or reconstruction under this ordinance the Company shall restore the same to a condition equally as good as before said construction or reconstruction, so far as consistent with the occupancy by said Company of the streets or alleys authorized by this ordinance, and shall maintain and keep the same in good repair and condition for the period of one year from the date of said restoration, and if the Company shall fail or

refuse to do so the same may be done by the City and the Company shall be liable to the City for the cost thereof.

The Company may place and maintain in stations and upon station platforms suitable booths for the sale of newspapers, magazines, periodicals, fruits and confections, not impairing the use of said stations and station platforms and approaches for the transportation of passengers. The public comfort stations now existing or which shall hereafter be constructed in or connected with the stations on elevated structures shall be kept in a clean and sanitary condition, and wherever practicable in the judgment of the trustees shall be made available (by appropriate alterations wherever necessary) for free use by the public under suitable regulations established by the trustees. In all stations on elevated structures hereafter erected the Company shall provide and keep in a clean and sanitary condition suitable free public comfort stations. The Company shall discontinue at any time or from time to time any of the uses herein referred to or approved which in any way diminish or impair the safety, accommodation, convenience or comfort or conflict in any way with the best interests of the public.

Britton I. Budd.

Now, Therefore, be it Resolved, That the persons so selected and hereinabove named, are, in the judgment of said City Council, men of business ability and public spirit and qualified to direct and manage the local transportation system authorized by said ordinance, so as to furnish by means of said system and its betterments and extensions, the best possible local transportation service to the public at the cost of such service, and to protect the investment therein, as provided in said ordinance.

Street Railways: Petition for an Increase in the Rate of Fare.

Ald. Capitain, by unanimous consent, presented the following petition, which was referred to the Committee on Local Transportaton:

CHICAGO, August 14, 1918.

To the Honorable, the Mayor, and Members of the City Council of the City of Chicago:

At a session of the City Council held on May 20, 1918, the officers of Division Nos. 241 and 308 of the Amalgamated Association of Street and Electric Railway Employes of America, representing more than 14,000 employes of the surface companies and elevated companies of Chicago, requested your Honorable Body to endorse their petition to the Companies for an increase in wages.

This request was in response to resolutions passed at a special meeting of the members of said Division 241, May 16, 1918, instructing the officers of the Division to request the Surface Lines to grant a wage increase of 15 cents an hour, equal to an increase of forty (40) per cent, and in case of refusal to present the question to the Mayor and City Council, and in event of failing to obtain the desired relief through the City Council, to seek the intervention of the United States War Labor Board and request that Board to grant a wage increase to the members of Division 241.

The petition presented to your Honorable Body outlined the following course of procedure:

"First: To request the companies for a wage increase;

"Second: To ask the City Council to endorse our movement to secure a wage sufficient to meet living cost; and

"Third: In the event that this procedure fails to bring the necessary relief, to seek the intervention of the National War Labor Board to readjust the wage rates of the members of Divisions 241 and 308, surface and elevated railway employes, and to establish such wage rates as will meet the extraordinary conditions of the times."

The petition also requested your Honorable Body, "to recommend that the transportation companies of Chicago grant a wage increase to their employes,

members of Divisions 241 and 308 of our Association sufficient to meet the increased cost of living, and to recommend further that in the event this wage relief is denied, that the National War Labor Board take up the matter and establish an adequate wage rate for the Chicago surface and elevated railway employes."

Thereupon your Honorable Body at once and unanimously moved to concur in the request contained in the petition of the employes.

At the time this petition was presented there was in force and effect between the Surface Lines and Division 241 of the Amalgamated Association, a contract covering wages and working conditions. This contract is dated June 1, 1917, and runs for a period of three years until June 1, 1920.

This contract was entered into as a result of friendly negotiations between the officers of Division 241 and the management of the Surface Lines. The representatives of the employes and the representatives of the Companies agreed upon a new wage scale giving an increase of three cents per hour to all such employes. The new contract was thereupon submitted to a referendum vote of the members of Division 241 and was approved by a majority of more than two to one.

We mention this to show that until the extraordinary conditions arising from the war began to have their effect, no differences existed between the management and the employes as to the adequacy of wages paid, and no question had been raised by the Company as to its ability to meet such wages out of a five-cent fare.

When the request for a wage increase of approximately forty (40) per cent was made, the management, after explaining fully the financial situation which the Companies were facing, told the men promptly that no such wage increase could be paid out of a five-cent fare and that to attempt to meet any such wage increase, without a corresponding increase in fares, would bring about within a few months the financial ruin of the Companies.

The representatives of Division 241 thereupon filed their petition with the National War Labor Board asking that Board to take jurisdiction and grant a wage increase commensurate with the increased cost of living.

The National War Labor Board was created by a proclamation of the President of the United States issued April 8, 1918. The Board was composed of Hon. William Howard Taft and Hon. Frank P. Walsh, representing the general public of the United States, and five representatives of employers and five representatives of employes.

The jurisdiction of the War Board is stated in the President's proclamation as follows:

"The powers, functions, and duties of the National War Labor Board shall be to settle by mediation and conciliation controversies arising between employers and workers in fields of production necessary for the effective conduct of the war, or in other fields of national activity, delays and obstructions in which might in the opinion of the National Board, affect detrimentally such production."

The President in his proclamation further says:

"I do hereby urge upon all employers and employes within the United States the necessity of utilizing the means and methods thus provided for the adjustment of all industrial disputes, * * *".

The management deemed it to be its duty, in view of the express terms of the proclamation of the President of the United States, and in view of the action taken by the City Council on May 20, 1918, to submit to the jurisdiction of the War Board. This was done and a hearing was had upon the petition of the employes for a wage increase. Testimony was taken both in Chicago and Washington; oral arguments were heard, briefs were submitted by both sides, setting up the material facts bearing on the issues. Thereafter the National War Labor Board handed down its decision granting to the members of Division 241 the wage increases hereinafter set forth.

This award became effective as of the first day of August 1918, and is to continue during the war.

The following is a comparative statement of the wage scale fixed by contract and paid trainmen and other employes of the Company who are members of Division 241, prior to August 1, 1918, and the new wage scale effective on and after August 1, 1918, established by the National War Labor Board.

Employes	Contract Rate Prior to Aug. 1st.	Rate Fixed By War Board	Increase
Conductors and Motormen	1st 3 months—30 cents per hour	43 cents per hour	13 cents per hour
	2nd 3 months—32 cents per hour	46 cents per hour	14 cents per hour
	2nd 6 months—33 cents per hour	46 cents per hour	13 cents per hour
	2nd year —35 cents per hour	48 cents per hour	13 cents per hour
	3rd year —36 cents per hour	48 cents per hour	12 cents per hour
	4th year —37 cents per hour	48 cents per hour	11 cents per hour
	5th year —39 cents per hour	48 cents per hour	9 cents per hour
Car Placers	1st year—$2.70 per day	$4.20 per day	$1.50 per day
	2nd year— 3.05 per day	4.20 per day	1.15 per day
Car Cleaners, Switchmen and Others	1st year—$2.40 per day	$4.20 per day	$1.80 per day
	2nd year— 2.70 per day	4.20 per day	$1.50 per day
Car Repairmen	1st year—$2.70 per day	$4.20 per day	$1.50 per day
	2nd year— 3.00 per day	4.20 per day	1.20 per day
	3rd year— 3.30 per day	4.20 per day	.90 per day

The War Board also awarded an increase of nine (9) cents per hour for all other employes, members of Division 241, but with this provision that no such adult male employee should receive less than forty-two (42) cents per hour.

There are more than ten thousand five hundred (10,500) employes of the Surface Lines engaged in the lines of work specifically covered by the award. In addition to these employes there are more than three thousand (3,000) other employers who work in the shops, in the track department, in the engineering, auditing, clerical and other departments who are entitled to and must in fairness at this time receive a substantial wage increase. The aggregate amount per annum of the wage increase involved in the award of the National War Labor Board is in excess of $4,200,000.

But in addition to this wage increase the Companies are facing still other financial difficulties due to war conditions.

Owing to the large number of men entering the military service of the United States and the still larger number of men who have sought employment elsewhere on account of war industries, and owing to the general tendency of the public to economize, the gross receipts of the Company during the first six months of the present fiscal year decreased more than $550,000, indicating a decrease in gross receipts for the current year of more than $1,000,000. This decrease in riding occurs mostly during the non-rush and evening hours.

On the other hand, the cost of operating material and supplies has increased enormously during the last year, in many instances more than 100 per cent. The increased cost for this item alone, for the current fiscal year, will be in excess of $500,000.

This means that without any wage increase whatever, the net receipts of the Company will be about $1,500,000 less than last year. Last year the divisible net receipts amounted to $3,703,189, of which the city received 55 per cent, or $2,036,754, and the Companies 45 per cent, or $1,666,435. Had there been no wage increase, the divisible net receipts this year would have been about $2,200,000, of which the city would have received 55 per cent, or $1,200,000, and the Companies 45 per cent, or about $1,000,000. In other words, without a wage increase this year, the Companies would have earned 5 per cent interest upon their purchase price and about $1,000,000 in addition. This in itself would have created a serious situation involving as it does the credit of the Company upon which its ability to render its essential public service so vitally depends. As an extraordinary emergency and temporary condition due to the war, the Company and its security holders might have been expected to adjust themselves temporarily to these conditions, as their share of the burdens of the war, and to rely upon the reasonable expectation that the gross receipts of the Company within the next few months would begin to show a substantial increase, and that after the war a reasonable rate of return of approximately seven per cent upon the purchase price would again be earned during the remainder of the ordinance period as has been the case during the first eleven years of operation under these ordinances.

Now, however, we are called upon to meet during the next twelve months, as a result of the award made by the War Labor Board, an additional burden of not less than $4,200,000 per annum, involving a total decrease in our net receipts during the next twelve months of not less than $5,700,000, due entirely to war conditions. Assuming the gross receipts of Company for the next twelve months will be $34,000,000, that the increased cost of operating material and supplies for the same period will be not less than $500,000, and that the wage increase for the same period will be not less than $4,200,000, the net receipts will fall below the five per cent interest charge on the purchase price of the Companies by the sum of $2,286,000. This means that since August 1st, the net receipts of the Companies fall short of meeting the five per cent interest charge on the purchase price by the amount of $6,250 a day.

The War Board clearly recognized the peril of the situation created by this award and urgently recommended to the local authorities the present need for an increase in fares adequate to meet the increased cost of operation.

The War Board said:

"The award in this case is an increase in maximum wages from 39 cents to 48 cents an hour. It was required by an increase in the cost of living of the street car employes and is not more than fair. It does entail on the Company, however, a heavy increase in its operating expenses. The Chicago Surface Companies are being operated under a partnership arrangement with the city so that the city shares in the net income, after fixed charges and operating expenses are paid, in the ratio of 55% for the city and 45% for the stockholders. The showing made by the Company to us clearly discloses that in order to enable it to render adequate service, the fares which it is permitted to charge should be substantially increased.

We have recommended to the President that special Congressional legislation be enacted to enable some executive agency of the Federal Government to consider the very perilous financial condition of this and other electric street railways of the country, and raise fares in each case in which the circumstances require it. We believe it to be a war necessity justifying federal interference. Should this be deemed unwise, however, we urge upon the local authorities and the people of the locality the pressing need for such an increase adequate to meet the added cost of operation.

This is not a question turning on the history of the relations between the local street railways and the municipalities in which they operate. The just claim for an increase in fares does not rest upon any right to a dividend upon capital long invested in the enterprise. The increase in fare must be given because of the immediate pressure for money receipts now to keep the street railways running so that they may meet the local and national demand for their service. Over capitalization, corrupt methods, exorbitant dividends in the past are not relevant to the question of policy in the present exigency. In justice, the public should pay an adequate war compensation for a service which cannot be rendered except for war prices. The credit of these com-

panies in floating bonds is gone. The ability to borrow on short notes is most limited. In the face of added expenses which this and other awards of needed and fair compensation to their employees will involve, such credit will completely disappear. Bankruptcy, receiverships and demoralization, with failure of service, must be the result. Hence our urgent recommendation on this head."

It is not sufficient, however, to provide merely an interest rate of return on the properties. In order to preserve the credit of the Companies they must have a substantial margin of net earnings over and above a mere interest rate.

In his annual report to Congress, the Hon. John Skelton Williams, Comptroller of Currency, said:

"National and State Banks, and many thousands of small and large investors, have suffered seriously from the decline of the earning capacity of public utility corporations and the consequent shrinkage in the value of their securities, representing investments of many hundred millions of dollars. These losses naturally diminish the power and disposition of the public to respond to the calls of the Government for money for war. This danger should arouse, I venture to suggest, the anxiety and stimulate the efforts of the Congress and of every patriotic citizen. A more urgent and pressing peril is forced upon our attention by the obvious fact that we are dependent so largely on the efficiency and strength of these corporations and on our railroads for speed and success in preparing for and prosecuting the war.

The corporations referred to supply light, heat power, and electric railway transportation for passengers and freight. They touch intimately the daily life of the people. In normal times they have been favorite targets for sneers and savage criticisms from large parts of the public and the press. In some instances, doubtless, they have deserved and invited hostility. In others, the attacks upon them probably have been unjust and unreasonable. Frequently they have been the victims or beneficiaries of local politics, suffering injury in the end in either case. Yet, generally, they were able to serve the needs of their communities with reasonable efficiency and to earn fair returns on the money invested in them. Now they are threatened with ruin. If they are allowed to sink into inefficiency, much of the most important war work of the Government will be crippled or paralyzed."

On February 15, 1918, the Hon. William G. McAdoo, Secretary of the Treasury, addressed the following letter on the situation of public utilities to the President of the United States:

"February 15, 1918.

DEAR MR. PRESIDENT—I beg to hand you herewith several memoranda and letters relating to street railway and other local public utilities furnishing light, heat, and power, which I have been asked to bring to your attention by a committee representing public utility interests.

These papers indicate the existence of genuine apprehension regarding the adequacy, under present conditions, of the services and rates of local public utilities. The view is expressed that increased wages and the high cost of essential materials and supplies have affected them as they have affected everybody else, and that united effort will be necessary in order to meet alike the public requirements for service and the corporate financial needs upon which that service depends.

As Secretary of the Treasury, I must take official notice of these matters. It is obvious that every part of our industrial and economic life should be maintained at its maximum strength in order that each may contribute in the fullest measure to the vigorous prosecution of the war. Our local public utilities must not be permitted to become weakened. Transportation of workers to and from our vital industries and the health and comfort of our citizens in their homes are dependent upon them, and the necessary power to drive many of our war industries and many other industries essential to the war is produced by them. It may be that here and there, because of the prominence given to less important interests immediately at hand, State and local authorities do not always appreciate the close connection between the soundness and efficiency of the local utilities and the national strength and vigor and do not resort with sufficient promptness to the call for remedial measures. In such cases, I am confident that all such State and local authorities will respond promptly to the national needs when the matter is fairly and properly brought before them.

Our public service utilities are closely connected with and are an essential part of our preparations for and successful prosecution of the war, and the unfavorable tendencies which the accompanying papers reveal may most effectively be checked, wherever they may be found to exist, and the needed relief obtained, only by prompt action on the part of the respective local authorities.

I earnestly hope that you may feel justified in expressing the conviction that the vital part which the public utilities companies represent in the life and war-making energy of the nation ought to receive fair and just recognition by State and local authorities.

Cordially yours,

(Signed) W. G. McADOO,

The President, the White House."

In response to this letter from the Secretary of the Treasury, the President sent the following reply:

"THE WHITE HOUSE,
WASHINGTON, Feb. 19, 1918.

MY DEAR MR. SECRETARY—I have examined with care the memoranda and letters which you transmitted to me with your letter of the fifteenth. I fully share the views you express regarding the importance of the public service utilities as a part of our national equipment, especially in wartime. It is essential that these utilities should be maintained at their maximum efficiency and that everything reasonably possible should be done with that end in view. I hope that State and local authorities, where they have not already done so, will, when the facts are properly laid before them, respond promptly to the necessities of the situation.

I shall be glad to have you communicate with the local authorities whenever the information in your possession suggests that such a course is desirable and in the national interests.

Cordially yours,

(Signed) WOODROW WILSON.

Hon. William G. McAdoo,
Secretary of the Treasury."

The appeal of the President to the State and local authorities to meet promptly "the necessities of the situation" has already been heeded.

We submit herewith the following list of cities in which during the last few months, as a war measure, street railway fares have been raised in order to enable the Companies to meet war conditions:

Name of City.	Rate.	Date of Increase.
Boston, Mass.	7 cents	Aug. 1, 1918
Pittsburgh, Pa.	5 to 7 cents	June 20, 1918
St. Louis, Mo.	6 cents	May 11, 1918
Kansas City	6 cents	July 15, 1918
Portland, Ore.	6 cents	Jan. 1, 1918
New Haven, Conn.	6 cents	March 23, 1918
New Bedford, Mass.	7 cents	June 30, 1918
Newark, N. J., 1 cents transfer charge		July 10, 1918
Tacoma, Wash.	7 cents	July 6, 1918
Scranton, Pa.	6 cents	March 21, 1918
Cleveland, Ohio	New sliding scale starting now with 5 cents and 1 cent for each transfer	Aug. 3, 1918
Wilmington, Del.	7 cents	June 10, 1918
Cambridge, Mass.	7 cents	
Jacksonville, Ill.	6 cents	May 1, 1918

We also submit herewith a list of cities in which an increase in fare has been applied for:

Name of City.	Rate Asked For.
Philadelphia, Pa.	6 cents
Brooklyn, N. Y.	7 cents
New York Rys. Co.	6 cents
Buffalo	6 cents
Minneapolis	7 cents
Denver	6 cents
Baltimore	6 cents
Memphis	6 cents
East St. Louis	7 cents

There are today more than five billion dollars ($5,000,000,000) of street railway securities held by private investors, banks, and trust companies in the United States, and unless speedy relief is afforded, as a war measure to meet conditions brought about by the war, and which will continue to exist during the war, the value of a great part of these securities will either be seriously impaired or entirely destroyed. The effect of such a situation upon the investors with reference to their ability to support the Government in carrying on the war, and the effect upon the Government in prosecuting the war, would be disastrous beyond measure.

The result of all this is that since August 1st, 1918, street railway service in the City of Chicago has been furnished to the public at far less than actual cost. The five-cent fare is no longer adequate to meet the cost of service. Since we entered the war, the Government has increased postal rates from two cents to three cents, an increase of fifty per cent; the Director General of railroads since the Government has taken over their operation, has increased passenger rates from two cents to three cents, an increase of fifty per cent, and has increased freight rates more than twenty-five per cent. A corresponding increase in street railway fares is necessary and inevitable if the companies are to maintain an adequate service and keep up their properties during the war.

We are advised by our Counsel that until the Supreme Court of the United States decides otherwise, the exclusive jurisdiction over the question of rates of fare is now vested in the Public Utilities Commission of the State of Illinois, and that such Commission has the jurisdiction and authority, upon a proper showing, to increase the present rate of fare in order to meet these extraordinary conditions, and give to the Companies a fair rate of return upon their capital investment, and that it will be necessary in any event to secure approval of the Public Utilities Commission before an increase in fare can be legally made, unless such increase is ordered by the Federal Government as a war measure.

On the other hand, the ordinances under which these Companies are operating were granted by the City of Chicago, and the City is directly interested in this question from a financial standpoint, being entitled to receive 55 per cent of the divisible net receipts; moreover, the Companies are now negotiating with the representatives of the City for a new ordinance designed to afford the City adequate transportation service at cost, and for this reason we consider it to be our duty to submit the entire matter to your Honorable Body for your consideration.

We ask that you immediately refer this petition to the proper Committee with instructions to investigate the situation and determine what increase in the existing rates of fare will be necessary to meet the cost of street railway service in Chicago during the period of the war, including as a part of the cost of such service a fair and reasonable rate of return upon the Companies' investment.

We have already called your attention to the fact that street railway service in this City is now being furnished at less than cost and to the heavy daily loss which the Companies are sustaining under the existing rates of fare. The exigency, as you are aware, is great and prompt action on your part as a matter of public interest is necessary.

Under the law we are obliged to present our petition for an increase in fare to the State Public Utilities Commission of Illinois, but before the matter comes on to be heard before that Commission, we wish if possible to have your recommendation for such increase in fares as will be necessary to meet existing conditions.

Respectfully submitted,

(Signed) L. A. BUSBY,
President.

Time Fixed for Next Succeeding Regular Meeting.

Ald. Richert, by unanimous consent, presented an or-

dinance fixing the time for the next succeeding regular meeting of the Council.

Unanimous consent was given for consideration of said ordinance.

Ald. Richert moved to pass said ordinance.

The motion prevailed, by yeas and nays as follows:

Yeas—Coughlin, L. B. Anderson, Iliff, Schwartz, Richert, Mulcahy, Fetzer, Guernsey, Woodhull, Furman, Johnson, Klaus, McNichols, Cullerton, Krumdick, Ahern, Maypole, Smith, Olsen, Kunz, Piotrowski, Adamkiewicz, Walkowiak, Touhy, Powers, Bowler, Fick, Franz, Walker, Ellison, Bauler, Wallace, Steffen, Roeder, Haderlein, Capitain, Link, Pretzel, Kennedy, Littler, Adamowski, Hrubec, Byrne, Wm. J. Lynch, O'Toole, Long, Moran, Fisher, Hazen, A. O. Anderson, Kostner, Toman, Clark, Thos. J. Lynch—54.

Nays—None.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That the next succeeding regular meeting of the City Council to be held after the regular meeting held Wednesday, August 14, 1918, be and the same is hereby fixed to be held on Thursday, August 22, 1918, at 2:00 o'clock P. M.

SECTION 2. This ordinance shall take effect and be in force from and after its passage.

Adjournment.

Ald. Capitain moved that the Council do now adjourn.

The motion prevailed and the Council stood adjourned to meet on Thursday, August 22, 1918, at 2:00 o'clock P. M.

Veto.

Chicago Local Transportation Company: Construction, Maintenance and Operation of a Local Transportation System (Including Street Railways and Elevated Railroads);

And

Construction of Subways by the City of Chicago, and Operation Therein of Local Transportation Facilities by the Chicago Local Transportation Company.

The Mayor submitted the following veto message:

MAYOR'S OFFICE,
CHICAGO, August 22, 1918.

To the Honorable the City Council of Chicago:

GENTLEMEN—On August 14, 1918, your Honorable Body passed the most odorous, objectionable and reprehensible piece of legislation ever heretofore enacted by a municipality. I refer to the ordinance appearing on pages 963 to 1008 inclusive of the Journal of the Proceedings of the City Council of the City of Chicago of August 14, 1918, and known as The Traction Unification or Local Transportation Ordinance, which I return herewith without my approval.

This ordinance proposes a perpetual grant of all local transportation privileges within the gift of the people, including everything overhead, on the surface and underground, to a mysterious company hereafter to be formed of whom or what nobody knows, except the sinister and sordid interests including certain newspaper owners, Municipal Voters' League and Public Efficiency Bureau backers, treacherously conspiring to ambush and rob the people of Chicago at a time when their attention is absorbed in the pangs and oppressions of human sacrifice marking the daily toll of war.

This bald attempt to plunder and then shackle and enslave the people of Chicago, through a newspaper and traction oligarchy is only the culmination of what I have been warning your Honorable Body and the people of Chicago of for months past. I have warned you of the crookedness of certain newspaper owners and editors in Chicago and of what newspaper government means. I have warned you of the corrupt purposes of the Municipal Voters' League—a mere exploit of the press—a blind to ensnare voters—which directs the eyes of citizens to a display of imaginary virtue while picking their pockets of their most precious privilege—the ballot,—with newspaper interests applauding the trickery which does the work.

I have warned you of the hypocrisy and iniquity of the Public Efficiency Bureau—a retreat for tax-evaders and money-mad millionaires who reckon the last penny on the poor man's tax bill with one hand, and justify the hiding from the assessors of millions of the rich man's dollars with the other, with the aid and consent of that section of the public press which thrives on duplicity and prospers on intrigue.

It is not surprising that aldermen whose council chamber is infested by these interests, and who work under the guidance of committees framed in the seclusion of Florida and who cringe and crawl under the most unscrupulous editorial lash ever wielded in a community, should, in meek subservance, hand the streets and transportation privileges of this great metropolis over to private exploitation for untold years to come.

A study of this ordinance inclines one to the opinion that it was written by the attorneys for the traction companies, as it reserves to the people so little of what is their own. The same character of an operation, as is embodied in this ordinance performed upon a citizen on the public highway would, upon conviction, call for years of penal servitude, but performed upon the public, with public property, by public servants, earns ease and prosperity for a few perpetrators but inflicts hardship and taxation upon the countless many. I shall set forth numerous specific reasons for vetoing this measure, any one of which is sufficient grounds for its rejection. My objections are many but the main reason is that it is downright, vicious legislation in its entirety and an absolute fraud upon the people of Chicago.

It seeks to crystallize a public policy long contemplated by the newspapers and their tools and underlings, whether parading as individuals or masked as "Leagues" or "Bureaus." It seeks to put power that belongs to the people in hands that the people cannot control or demand an accounting from. If the authority of the people and their city government over their transportation is to be delegated to a Board of Trustees, then let us have trustees in whose selection the people have full voice without any intercession whatsoever. Then we will have municipal ownership and operation in fact. The proposed ordinance kills all hope of either municipal ownership or operation for all time to come except through revolution. It is the old theory of the invisible government-putting power in unseen hands. It is the theory of newspaper government, which seeks to make the voice of public opinion arise from an unseen source.

I am vetoing this ordinance because of its suspicious backing, because of the ease and facility with which an agreement upon its terms was reached, because it has all the earmarks of a frameup and because I believe that an influential portion of the public press has been subsidized and corrupted to conceal the viciousness of this ordinance and suppress the truth as to its real provisions and thus pave the way for its approval by the people at the polls in November. It smacks of treachery to the people and the deliberate selling out of a public trust.

I would much prefer to submit this ordinance to a vote of the people than not to do so, but I intend that the people shall know the truth when they are voting on it. The subterfuge is plain. The people are to be told that it is a good measure and protects their rights and that the City Council in its wisdom, after the most careful study of the situation has endorsed and recommended the ordinance by a large majority and that it would be folly for the people to presume to know better than the aldermen what they wanted.

Then it will be put on the ballot under a caption so worded that it will serve as a bait to catch votes and not in any way disclose the real issues involved in the proposition that the people are asked to vote upon. This ordinance means, if it means anything, a sacrifice of the last vestige of control which the people now possess over their transportation systems and a complete surrender to the interests that have betrayed them in the past.

I want to serve notice here and now upon the members of your Honorable Body, upon the traction interests and upon the newspapers concerned, that if this ordinance is adopted over my veto, I shall go before the people in every ward in Chicago, discuss its provisions in detail and tell the people the truth about this ordinance, what it seeks to accomplish and the interests it serves.

I am convinced that this ordinance has not received at the hands of a majority of the aldermen that careful consideration which a measure fraught with such momentous consequences, and containing so many perilous possibilities should have had. It is a measure which, if adopted, will place beyond the reach of this or any subsequently elected City Council for at least ten years and possibly for all time, any power to control the conduct of the local transportation system of the City of Chicago.

That there was unseemly haste in bringing this measure to a vote in your Honorable Body, no one can deny and in my opinion you were forced into precipitate action through a clamor raised by interested parties and their subsidized agents in a strained attempt to manufacture and culminate a sentiment which does not exist.

There has been no loud and insistent demand on the part of the people for traction legislation. They realize the futility of projecting great enterprises when the present urgent needs of the country prevent the completion of improvements long ago begun. They know that the present traction grants have still a number of years to run and that they can better afford to submit a while longer to the well-nigh insufferable service which they have endured under ordinances that held out as brilliant a promise as the present one than to undertake to strive for things which are unattainable while labor, capital and material are beyond reach.

To take the place of the spontaneous demand of the people for traction legislation and to inspire in your minds the belief that the psychological moment for a settlement of the traction problem had arrived and that delay would be fatal, it was found necessary to voice a supposititious demand, so a performance was staged as replete with thrills as the product of a dramatic genius. There was an offer, a dispute, a counter-offer, an alternative, an ultimatum, a refusal, a withdrawal, a remonstrance, a reluctant acquiescence and than a final triumphant agreement, accompanied by the unstinted praise of the press in which the people are expected to join with shouts of joy and assent if only given a chance by the passage of this ordinance and an opportunity to go to the polls in November.

I am for action, and it would be a great satisfaction to me to be able to approve some measure which would in fact have in it the elements of an ultimate solution of the traction problem that has plagued the people for so many years, but in my opinion this ordinance would be a distinct step backward instead of an advance.

The action that I would favor would be such as would take advantage of our present opportunities and not such as would dissipate them. For the first time in many years, the traction situation is well within our grasp. With a fund nearing $25,000,000.00 actually in hand and with the possibility of securing much more before construction work required it, the obstacles that were in the way of securing complete control of the situation are melting away. The City is now in a position to construct a supplemental system of transportation that would afford real relief to the people and that would be such a menace to the interests that control our present surface and elevated lines that these would be forced to give the best service within their power. We are, therefore, measurably within reach of the fulfillment of our hope of better traction service. To adopt this ordinance would be to fritter away our chances of reaching the desired end. The opportunity once gone will never return.

Under the ordinance passed by your Honorable Body it is proposed to merge all the so-called local transportation lines of the city under one company, to fix the present capital account of said company at about $220,000,000.00, to pay interest on 60% of this at the rate of 5% per annum for the present, and on the other 40% at the rate of 8% per annum, to attract new capital at the rate of 8% per annum to the extent of $200,000,000.00 or $300,000,000.00, to use to the City's traction fund at the rate of 6% per annum, to turn over entire control of the City's traction matters from the City Council to a new body of nine men for all time, to give these men unlimited authority to increase the capital account on which the higher rate of interest must be paid, to put it within the power of this body of trustees, to charge for transfers of passengers, and to raise and lower rates of fare in their discretion, to give these trustees the right to veto any improvement or extension which the City Council might authorize, and to permit them to draw on and use up the fund set apart for purposes of amortization so that the City may never accumulate a substantial fund with which to reduce the capital account.

The above are in a general way the broad grants of power awarded under this ordinance. Not one of them, with the possible exception of the abstract proposition of merger, can be regarded as conferring a benefit of any kind on the people, and most of them will result in serious loss. I cannot give my assent to any of these salient features of the ordinance.

Roughly speaking, the initial capital account on which the people will have to make payment at the rates mentioned above is set down at $220,000,000.00 and consists of two items presumed to represent the value of the surface lines and the elevated lines respectively. In using the term "roughly speaking", I apply it in two ways, first to the fact that there are other items which are not included in the generalization, and second to the fact that the ordinance is so drawn that the exact figures given are susceptible of change. In fact it is stated that this capital account

has already, over night as it were, been swelled to at least $227,000,000.00. The value of the properties of the elevated companies is placed at approximately $71,000,000.00 and of the surface lines at approximately $150,000,000.00. To agree to pay the fixed return on this capitilization provided for in the ordinance practically amounts to the purchase of the lines for these prices by the people, for they will bind themselves absolutely to meet the payments, and, if necessary, to tax themselves by an increase of fares to an unlimited extent. It therefore becomes important to ascertain what the people are buying for these prices.

The traction ordinances of 1907, under which the principal surface lines are now operating, were drawn so that they preserved for the owners the capital invested in the two companies. They took care of both the capital stock and the bonds in such a way that it stood on the basis of actual money put into the property. The initial capital of the two companies was fixed at $50,000,000.00. Later on by other ordinances similar in their nature the property of two smaller companies was valued in the same way at $5,775,000.00, so that by the present ordinances the initial capital of all the surface lines was fixed at $55,775,000.00.

This $55,775,000.00 represented property which at that time was practically obsolete and which has since become junk. This property has disappeared. It is no longer in existence. When the representatives of these companies appeared before the Board of Review in 1917 on a complaint concerning their assessment, the spokesman for the companies made the following statement:

> "You must deduct the very first item of $55,775,000.00, because there is no property to represent it practically today. You remember what the old system was, cable and cable tracks and old power houses. Under this ordinance they were required to scrap all that, and it was the cost of rehabilitation that was to go into this capital account, so that we must deduct, as I say, on the start practically $55,775,000.00 from your capital account, because there is nothing to represent it to-day at all."

Under the ordinances mentioned the cost of rehabilitation, improvements and extensions was charged to the capital account. The companies received five per cent commission for obtaining the necessary money and a construction profit of ten per cent, so that for every dollar invested in rehabilitation the capital account was charged $1.15. The property represented by this initial investment of $55,775,000.00 has disappeared, but the initial investment is still in existence and represented in this capital account, which has now grown to $150,000,000.00, a sum that was produced by adding $1.15 for every dollar's worth of work done on the property which was discarded to the initial investment.

Even that which was done to rehabilitate and extend these systems does not represent actual property at the present time. The same spokesman for the companies to whom I have referred, stated that of the present capital account $11,000,000.00, has been put in pavements which belong to the City of Chicago, that nearly $2,000,000.00 has gone into sewers which belong to the City, and that of the balance there has been depreciation so that one-half of the value of the new property is gone. Is there any legal or moral obligation on the part of the city to shoulder this accumulation of debts representing property that has been thrown away, property that has depreciated, property that does not belong to the companies, and accretions in the shape of commissions and construction profits, and to regalvanize them into a new form of security presumed to be a part of a new initial investment? If so, then the city has made a bad bargain from which it should get out as best it can. It should not now, with this experience as a warning, enter upon a new agreement wherein the new initial capital account will be $220,000,000.00, which in turn will serve as a nucleus for piling up a capital account of $500,000,000.00 to $600,000,000.00, on all of which the public will have to pay interest ranging from 5 per cent to 8 per cent. If this is done it is quite certain that the day will come when the people will have to pay increased fares sufficient to pay a return on a capital account approaching a billion dollars.

I will not take the time to go into the details of the $71,000,000.00 capitalization which forms the portion of the elevated companies in this $220,000,000.00. But that amount, it can be shown, includes a large proportion of securities which are at the present time paying much less than five per cent to their owners. As to these there certainly does not exist any obligation to convert them into high-class investments guaranteed by a provision which will compel the people to pay a handsome return for all time to come.

It is said that the real pressure to rush through an ordinance at this time comes from the elevated companies. The properties of these companies were valued by the Harbor and Subway Commission of Chicago in 1912 at $53,000,000.00, which was less than the bonded debt. There have been no extensive improvements since then. According to the report of the Chicago Traction and Subway Commission the value of these lines is $70,000,000.00, although this commission says "this value is not now justified by the earnings." (Page 51 of Report.) Under a purported consolidation bearing the name of "Chicago Elevated Railways," which is neither a corporation nor a co-partnership but some such trust arrangement as is contemplated by this ordinance, there were issued something like $30,000,000.00 in securities which have at present little to back them. If the ordinance before me became effective this $30,000,000.00 would represent value that is real, because the people of Chicago would pledge themselves to pay a handsome return on it.

If the best that can be done with the owners of these properties is to burden the people with an initial capital account so much out of proportion to the real value of the properties, then it would be far better for the city to start with an entirely new proposition that is not loaded down in this way. Or, if the city wants to acquire the surface lines under the ordinances of 1907, though the capital account of the companies is gigantic, a way can be found by which the city will be able to float the bonds necessary to accomplish this.

In any event, even if there were no initial capital account that would prove burdensome, there is no excuse for financing an enterprise of the magnitude of the proposed extensions at a time when money cannot be obtained at the usual rates of interest. Since the city or its people must under all circumstances

pay the cost of improvements and extensions these should be projected at a time and under conditions which would place the burden at as low a point as possible.

Before leaving this branch of the subject I want to call attention to something which has been studiously concealed. That is the fact that whenever the trustees see fit to refund the existing securities representing liens on the property in question the people can be made to pay eight per cent on the whole of the capital account. It has been insisted that as to the sixty per cent of the property there was a fixed rate of five per cent. But that is shown to be illusory by a mere glance at the refunding provisions in the ordinance. By Section 11 the Board of Trustees may, at any time that they see fit, refund the bonds and interest bearing obligations which are now in effect. No rate is fixed for these refunded securities, and it is stated that they may be issued with different due dates and different rates of interest. In Paragraph 4 under the heading "Capital Account," in Section 24 of the Ordinance, it is stated that any excess in the par value of new securities thus issued in place of old over the par value of the securities thus refunded shall be deducted from the capital account, thus clearly indicating that there is no check on either the amount to be issued for purposes of refunding or the rate of interest which may be paid on them except that the ordinance prevents the payment of more than eight per cent per annum. In other words, if the market value of a million dollars worth of these securities would be one and one-quarter million dollars there is nothing to prevent the board of trustees from refunding the same either by issuing one and one-quarter million dollars' worth (par value) of same or by changing the rate of interest to eight per cent. Perhaps they could even do both if they felt so disposed. This is a joker of the worst kind. It may be so handled that the company will get an additional $3,960,000.00 yearly from the people beyond what appears on the face of the ordinance. No wonder that it was said that if this ordinance passes these five per cent securities will at once go to $1.05.

Objectionable as the financial features of the proposed ordinance are, there are other features of it which are at least as objectionable. Among these is the plan of organization and the delegation of all authority of the City Council to a body of nine men who will have complete control of a perpetual grant and who can not be removed by a vote of the people.

The ordinance contemplates the creation of a company which could not be formed under our present laws. It does not even indicate how this company is to be made up. The Board of Trustees are in fact the company, because there does not seem to be anything that the company is created for that is not done by the Board of Trustees. Yet it seems that back of the Board of Trustees there is to be a company, of whom or what as before stated I cannot say. This company is to be a corporation not for pecuniary profit which is to handle an investment of hundreds of millions of dollars but to do nothing except exist—the Board of Trustees are to do the rest.

This arrangement would be inexplicable if it were not for the fact that the Chicago Railways Company is now formed on precisely the same plan, with trustees who hold all the stock for the benefit of the participating certificates. In other words, the law did not permit the Chicago Railways Company to be formed without at least the formula of the statutes being complied with. Hence, a company was formed with a capitalization of $100,000.00, but there is no direct ownership of the shares, the capital stock being purely nominal and being in the hands of trustees for the benefit of the holders of 261,000 participating certificates. These participating certificates do not represent express values but parts of the whole capital stock, there being a division into classes which makes some of them dividend earners and others not. I have already shown that the elevated lines have put a somewhat similar plan into operation in order to float a large amount of securities.

It is now proposed to extend this trustee plan so that all the local transportation companies shall be included, and by the hocus-pocus of a law to be passed that will permit a corporation to be formed out of nobody, the trustees will be transformed into trustees for the city of a corporation not for pecuniary profit, who will operate the properties for the benefit of the owners of the securities extant or hereafter to be floated by the trustees. This is heralded as an approach to city ownership and operation. Just where the change comes in no one has had the hardihood to explain. Surely not in the name trustee, because that is not new in traction ordinances which were supposed to be drawn for the purpose of securing city ownership.

It might be said that the Board of Trustees represented the city, because it is provided that the City Council shall name the members, but upon further examination it appears that the members for the first ten years must be named in advance. Translated into plain English, this means that the ordinance will not be accepted by the companies if nine persons are not selected who will be agreeable to them. All the securities floated by the surface companies will mature within these nine years, and the first directorate is to be elected for a long enough period to take care of the refunding of these. After ten years the term of three of these trustees will end, but the majority will say which three shall step out, so that the control will still be independent of the City Council for another year. After that it may be that the City Council will have something to say about the naming of members if in the meanwhile some plan for preventing it has not been interposed and the provision for electing the trustees selected by the City Council has not been held illegal. I do not overstate the fact when I say that under these conditions the Board of Directors will not be the trustees of the city but rather the agents of the companies.

Thus, under the guise of placing the management of the transportation systems of the city under the control of a Board of Directors named by the City Council, the hand-picked Board of Directors who include the magnates of the present companies will obtain a perpetual grant of all the rights and privileges which still remain in the hands of the City Council. The men who control the stock in the present companies will suddenly cease to have any financial interest in the property or revenues of the elevated or surface lines, and will thus be able to qualify for the new board, with excellent prospects for being elected officers or members of the executive committee with

salaries only limited by the blue sky. Then there will by nothing left of the Trustee Management plan except the name.

There is no sincerity about the plan. It does not show on its face what its objects are or how it was inspired. It masquerades as one thing and is in fact quite another. But the disguise in every instance is transparent. It is probably the plan to name the three traction magnates on the Board of Trustees as the executive committee. Only two additional votes are necessary to accomplish this.

The delegation of power to the trustees is as complete as it can be made—in fact it is doubtful whether our present laws will permit it, so that there will probably have to be a special provision in the new laws to be passed by the General Assembly to make such a complete transfer of power from the City Council to the Board of Trustees lawful. When that is accomplished it will be found—if this ordinance goes into effect—that the City Council has divested itself absolutely of control of the traction situation, that it has exacted nothing in return, and that it is extremely doubtful whether it will be permitted to name the trustees as their terms begin to expire at the end of ten years.

I am unqualifiedly against such a complete surrender of public power to private interests. These interests have not inspired confidence by the manner in which they kept their promises of 1907, and I am not going to permit the whole city to be turned over to them, bound hand and foot, with a perpetual franchise under which unlimited rates of fare may be exacted.

This brings me to another objectionable feature of the ordinance that is perhaps the most startling thing in it. That is the power given to the Board of Trustees as to rates of fare. This power is practically unlimited. It will be impossible to check it without protracted and expensive legal proceedings if it is abused.

Ordinarily when capital is solicited for an enterprise it is understood that the investor takes some risk. That risk is always present, and the rate of interest that the capital earns is usually graded according to the risk that is taken. Gauged by this rule, capital ought to be forthcoming for the purposes of this enterprise at about the rate for which it can be attracted for government bonds, because all risk is eliminated when three million people pledge themselves to pay as high a rate of fare as is necessary to meet the payments of interest as well as the salaries of directors, officers, members of executive committee, attorneys and all others selected by a set of trustees who are committed to paying excessive salaries.

These salaries along with all other salaries at whatever figures they may be fixed, will be paid as a part of the operating expenses. Then there will be added all other operating expenses, rentals, interest charges, etc., which must be paid. After that the people will get the service at cost, whether the cost is higher or lower than at present. In other words the people take all the risk and get not even a promise of any kind as to the rate of fare.

To meet these charges it is proposed at once to exact a transfer fee of two cents. Those who desire to shorten the time of their trip by riding part of the distance on an elevated train will be able to do so by paying two cents more. This applies to children as well as adults.

But this transfer charge is only the initial step. It may be increased, and if there is not then sufficient revenue produced the initial fare may be increased. There is no limit to the increase except that there will be no excess over the cost—whatever that means. When the capital account has been piled up so that it will take a ten-cent fare to pay the interest charges that amount will be exacted. There is no need of attempting to conceal the fact that the people will face an immediate increase in fares. It is as plain as if it were written into the ordinance in so many words. I know the people are not willing to vote for an increase of fares at this time even though the service is bad. They would prefer to endure bad service for a while longer before assuming the yoke of increased fares.

The ordinance contemplates an amortization fund which theoretically will operate to wipe out a part of the capital account and thereby reduce the expense of operation. But the provision for this fund is so made that such a result is practically impossible. There is in fact no check on this fund. It may be used up as fast as it accumulates. There is nothing to prevent the whole of it from being swallowed up without any reduction of the capital account being made. In fact it is more than likely that it will be used as fast as it comes in and more capital will be called for. Hence, there will never be any relief from the situation.

As an offset to all these objections and many more which could be urged against this ordinance, there is set forth in one of the exhibits an elaborate plan of extensions and betterments. These may be all that is claimed for them. They may result in a great improvement of the service. I will not take up in detail the plan of improvements which is thus outlined. But it is plain that these improvements cannot be made inside of at least twenty years.

A definite plan for the future is much to be desired. But such a plan must have in it enough flexibility to take care of the development of the city both as to the trend of population and the centralization of industry. The growth may be in unexpected quarters. It may be that some of the improvements that are deemed necessary now will be of no practical value twenty years from now. Above all, this development should be within the control of the City Council. If the City Council is shorn of its power, the inevitable result will be that the improvements most needed will not be made, and those that will be made will afford little relief.

This attractive program, therefore, is nothing but a bait designed to make the public grasp at something that will be found more elusive than anything along this line that has gone before. The people may be persuaded that it means better service and then may be willing to vote for the ordinance even with the certainty of higher fares staring them in the face, only to discover later on that the plan is a paper plan never to be carried into execution. Nowhere in the ordinance can be found any provision which will make it imperative to carry out the plan in its entirety, and it is doubtful whether that would be desirable if there

was such a provision. About the only things that are certain about it, are that fares will be increased, that the present traction fund will be consumed, that the city will thereafter be without the means of making improvements, that then the capital account will be enormously increased, and that Council control will be forever gone.

Do you remember when the Traction Ordinances of 1907 were before the people for adoption the campaign slogan was "One City—One Fare" for twenty years to come? That was the bait that carried those measures to a successful vote of the people. Now with the lapse of only ten years what do you propose to do? Repudiate that guarantee to the people. Cast that solemn pledge aside. Take the lid off the five-cent fare and universal transfer privilege and permit the grasping traction interests, without check, to charge the people of Chicago whatever their fancy dictates as carfare for an initial ride and to add whatever fee they please for a transfer.

This ordinance absolutely fails to protect the health and comfort of the traveling public by not providing for public comfort stations, nor in any of its provisions requiring the adequate lighting of cars or compelling their sanitation and cleanliness.

A study of the proposed ordinance must convince any one who is not committed in advance to its favor that it contains so much that is objectionable, so much that is elusive, so much that is misrepresented, so much that smells of corruption and is susceptible of corruption and so much for vested interests and so little for the general public that it should not be adopted.

For the foregoing reasons and for many others which I might discuss in endless detail and which I will discuss publicly whenever afforded the opportunity to do so, I avail myself of the power that is vested in me and return said ordinance without my approval.

Respectfully submitted,

(Signed) WM. HALE THOMPSON,
Mayor.

Ald. Capitain moved to reconsider the vote by which said vetoed ordinance was passed.

The motion prevailed.

Ald. Capitain moved to pass said ordinance, the veto of the Mayor to the contrary notwithstanding.

At the direction of the Chair, the Clerk began the reading of a communication from Local No. 504, United Brotherhood of Carpenters and Joiners of America, addressed to Hon. Wm. Hale Thompson, Mayor, urging the defeat of the ordinance under consideration.

On an objection raised by Ald. Cullerton, the Mayor ruled said communication out of order.

Ald. Capitain moved that Mr. Walter L. Fisher, special counsel to the Committee on Local Transportation, be given the floor for the purpose of addressing the Council in reference to the ordinance under consideration.

The Chair ruled the motion out of order.

Ald. Capitain appealed from the decision of the Chair.

Ald. Kunz raised the point of order that the only question before the Council was the motion to pass the ordinance, the veto of the Mayor to the contrary notwithstanding.

The Chair sustained the point of order.

Ald. Cullerton moved that the Council do now resolve itself into Committee of the Whole for the purpose of giving consideration to said ordinance.

On a point of order raised by Ald. Coughlin, the Chair ruled the motion out of order.

The question being put on the motion to pass said ordinance, the veto of the Mayor to the contrary notwithstanding, the motion prevailed, by yeas and nays as follows:

Yeas—L. B. Anderson, Jackson, Hickey, Richert, Mulcahy, A. A. The following is said ordinance as passed:

AN ORDINANCE

AUTHORIZING THE CHICAGO LOCAL TRANSPORTATION COMPANY TO CONSTRUCT, MAINTAIN AND OPERATE A SYSTEM OF LOCAL TRANSPORTATION, INCLUDING STREET RAILWAYS AND ELEVATED RAILROADS, IN STREETS, ALLEYS AND PUBLIC WAYS OF THE CITY OF CHICAGO, AND PROVIDING FOR THE CONSTRUCTION OF SUBWAYS BY THE CITY OF CHICAGO, AND THE OPERATION THEREIN OF LOCAL TRANSPORTATION FACILITIES BY THE CHICAGO LOCAL TRANSPORTATION COMPANY.

PREAMBLE.

WHEREAS, the Street Railways and Elevated Railroads used for local transportation in the City of Chicago are owned by several distinct and separate corporations; and

WHEREAS, the said Street Railways and said Elevated Railroads are operated separately without reference to the convenient use thereof as a combined system by the public; and

WHEREAS, the City of Chicago desires for the proper accommodation of the public, that said existing street railways and elevated railroads be combined and coordinated as a comprehensive unified local transportation system under the ownership and management of a single corporation, and so improved and extended and operated in conjunction with a system of subways to be constructed and owned by the City, as to provide rapid, convenient and economical local transportation facilities and to give the maximum of service of which the physical properties of such system are capable at the cost of such service with full protection of the capital investment therein; and also that definite terms and conditions be fixed and determined, upon which the City

shall have the right to acquire and take over such transportation system; THEREFORE,

Be it ordained by the City Council of the City of Chicago:

AUTHORITY.

SECTION 1. Subject to all of the provisions, conditions, requirements and limitations of this ordinance and in consideration of the acceptance thereof by the grantee herein, consent, permission and authority to acquire, construct, reconstruct, maintain and operate a local transportation system (hereinafter described) in the City of Chicago and the suburban territory in the State of Illinois, extending not more than twenty (20) miles distant from the nearest point in the line marking the corporate limits of said city are hereby granted to a corporation formed under statutory authority enacted by the General Assembly of the State of Illinois, hereinafter called "the Company" and named the Chicago Local Transportation Company or such other name as the City shall by ordinance approve. The Company shall be a corporation not for pecuniary profit, and the entire control and management of the Company and of its affairs, property and funds shall be vested in a Board of Trustees or Directors. The said trustees or directors shall be nine (9) in number and shall be selected and hold office in the following manner and subject to the following limitations and conditions:

No trustee or director shall be the owner of any bonds, debentures or other obligations or securities of the Company or be financially interested in the property or revenues of the Company except in his fiduciary capacity as trustee or director, or shall receive any compensation for his services except the salary or other compensation herein expressly authorized to be paid to such trustee or director. The trustees or directors shall be residents of the City of Chicago or the said suburban territory. The persons constituting the first Board of Trustees or Directors shall be selected on or before the date of the passage of this ordinance and on or before said date a resolution shall be passed by the City Council to the effect that the persons therein named have been so selected and are, in the judgment of said City Council, men of business ability and public spirit and qualified to direct and manage the Local Transportation System authorized by this ordinance so as to furnish by means of said system and its betterments and extensions the best possible local transportation service to the public at the cost of such service and to protect the investment therein as provided in this ordinance. Said first Board of Trustees or Directors shall hold office without classification until the 31st day of December, nineteen hundred and twenty-seven (1927), but prior to the expiration of said period the said Board shall, by such method as it may provide (and in default of agreement by lot), be divided into three classes of three each, the term of office of one of which classes shall expire on the 31st day of December, nineteen hundred and twenty-eight (1928), the term of office of another of said classes shall expire on the 31st day of December, nineteen hundred and twenty-nine (1929), and the term of office of the remaining class shall expire on the 31st day of December, nineteen hundred and thirty (1930). As the term of office of each of said classes expires, their successors shall be elected for a term of three (3) years following such expiration and within not less than sixty (60) days nor more than ninety (90) days prior to each annual election of trustees or directors, the City may in such manner as it may provide by ordinance designate persons who, in its judgment, are persons of business ability and public spirit and suitable to be elected as the successors respectively of the trustees or directors whose terms of office are about to expire, and by its acceptance of this ordinance the Company agrees that, at the ensuing election, the persons so designated shall be elected as trustees or directors. Any vacancy occurring in said board by death, resignation, removal or otherwise than by expiration of the term of office shall be filled by said board. In case of the death, resignation or inability to serve of any of the persons selected as aforesaid to constitute the first Board of Trustees, the remaining Trustees shall select the Trustee or Trustees to fill any such vacancy or vacancies. By its acceptance of this ordinance, the Company agrees that after the effective date hereof, the Company shall not, without the consent (by ordinance) of the City change its charter or method of selecting its Trustees or Directors. The compensation of each of such trustees or directors shall be the sum of Five Thousand Dollars ($5,000) per year, to be paid as one of the operating expenses of the Company, but the Board of Trustees or Directors shall have the power to elect officers of the Company, who may or may not be trustees, and to select an Executive Committee of three of its members to have direct and immediate charge of the operation and management (subject to the authority and direction of said board) of the business of the Company and of the said Local Transportation System and the members of said Executive Committee may receive additional compensation as hereinafter provided. The said Board of Trustees or Directors shall have the power and it shall be its duty to employ suitable agents and attorneys and to pay to the same and to the officers and the members of the Executive Committee hereinabove provided, as a part of the operating expenses, compensation for their services commensurate with the service actually rendered by them respectively, taking into consideration the compensation paid to members of Executive Committees, officers, agents and attorneys of other corporations or enterprises of similar magnitude and general character for like services; provided, however, that no contract with respect to such compensation shall be made for a longer period than one (1) year.

Said local transportation system shall include the lines of street railways and elevated railroads in the City of Chicago, set out in Exhibit A hereto attached and made a part hereof, and all equipment thereof and appurtenances thereto, and also the lines herein provided for of street railways and elevated railroads outside the City, set out in Exhibit A, including all equipment thereof and appurtenances thereto, and all additions to and extensions of said lines which the Company shall acquire authority to construct, maintain and operate with the consent and permission of the City and of the local authorities having jurisdiction thereof, provided, however, that no part of such lines lying outside the City of Chicago shall be more than twenty miles distant from the nearest point in the line marking the corporate limits of said City, or outside the State of Illinois. The Company shall acquire no right and incur no obligation under this ordinance to construct any new line or extension without compliance with the frontage consent laws of Illinois applicable

thereto, and the passage of such ordinances as may be necessary to confer lawful authority upon the Company for such purpose and the Company shall not use or acquire by purchase, condemnation or otherwise, a right of way exceeding in width fifty-five (55) feet, except at curves and at or approaching termini, stations or platforms, or except for the location, construction and maintenance of termini, stations or platforms.

No part of the local transportation system shall be used for any purpose but the transportation of passengers except as herein expressly provided.

Subject to all the provisions of this ordinance, there are hereby granted to the Company, its lessees, successors and assigns, the right, permission and authority during the life of this grant to occupy and use for the purpose of the local transportation system, upon payment of the rental therefor herein provided for, the subways constructed and owned by said City under the provisions of Section 7 of this ordinance.

Acquisition of Existing Traction Properties.

Section 2. On or before the effective date of this ordinance the Company shall acquire and on said date shall own, free and clear of all liens and claims except those herein expressly authorized, the street railway and elevated railroad systems and all equipment thereof and appurtenances thereto of the Surface Companies and the Elevated Companies, respectively, including (a) all the then existing property, franchises and rights of the Surface Companies acquired, held or operated by them or any of them under the provisions of the Traction Ordinances and the moneys and securities then constituting or belonging to the special funds created under the provisions of the traction ordinances, and (b) all the property, franchises and rights of the Elevated Companies on the date of the passage of this ordinance, including, the elevated railroads, properties and rights described in the appraisal inventory of the elevated railroads and property as of June 30, 1916, made by William Barclay Parsons, Bion J. Arnold and Robert Ridgway, as members of the Chicago Traction and Subway Commission, a copy of which inventory was filed with the City Comptroller of the City on the 30th day of July, A. D. 1918, and including all land and buildings owned by the Elevated Companies or any of them on the date of the passage of this ordinance (except any properties of the Elevated Companies included in said inventory which shall have been lost, destroyed, sold or disposed of, between the 30th day of June, 1916, and the effective date of this ordinance), and (c) all property existing on said effective date which shall have been purchased or acquired by the Elevated Companies between June 30, 1916, and said effective date, for use as a part of or in connection with the lines of elevated railroad now owned by said Elevated Companies. The title of the Company on said effective date to the said properties, franchises and rights may be subject only to such liens or claims under the mortgages, trust deeds or equipment trusts now existing thereon as may be then outstanding and unpaid; provided that the aggregate amount of all liens and claims shall in no event then exceed the original capital account of the Company herein authorized, and that the amount by which the said original capital account exceeds the said aggregate amount of said liens and claims (which excess amount shall not be more than forty (40) per cent. of said original capital account) shall be represented by debentures or other obligations of the Company; but neither said debentures nor other obligations shall have any right of foreclosure or bear any due date or time of redemption but they shall be subject to be called for payment under the provisions of this ordinance and shall be entitled to payment (subject to the rights of lienors) upon the distribution of the property of the Company out of the proceeds of sale to the City of the local transportation system of the Company and subject to the provisions of the statutes applicable thereto. The owners or holders of said debentures or other obligations shall be entitled to receive an annuity or interest thereon at the rate of eight (8) per cent. per annum (payable quarterly) from and after the effective date of this ordinance, until July 1, nineteen hundred and thirty-two (1932), and thereafter at the rate of seven (7) per cent. per annum (payable quarterly).

The Company may enter into an agreement providing for the issuance thereunder of the said debentures or other obligations and containing appropriate covenants and provisions for the protection of the rights of the holders of said debentures or other obligations, under and subject to the provisions of this ordinance.

The Company may acquire the properties, franchises, and rights (which it is hereinbefore in this section obligated to acquire prior to and to own on the effective date of this ordinance) subject to the leases and operating agreements set out in Exhibit C attached hereto, and to such other leases or operating agreements as shall have been made with the consent and approval of the City, and subject to any other leases or operating agreements made between the date of the passage of this ordinance and the effective date hereof, with the approval of the Public Utilities Commission of the State of Illinois, provided the City shall have been given notice, in writing, of the application for such approval, and an opportunity to appear and be heard upon said application; and provided further that the Company may acquire any lands and buildings included in said properties and not used for transportation purposes, subject to such leases as exist thereon at the time of the passage of this ordinance, and expiring not later than February 1, nineteen hundred and twenty-seven (1927).

The Company may at its option acquire all the said properties, franchises and rights subject to the foregoing provisions of this section in the following manner and subject to the following terms and conditions:

1. The Company may acquire the properties, franchises and rights of the Chicago City Railway Company, Calumet and South Chicago Railway Company and The Southern Street Railway Company (including all moneys and securities in or belonging to the special funds created under the provisions of the traction ordinances applicable to said Companies, respectively), and may pay for the same a purchase price equal to but not exceeding the aggregate amount of the capital account of the said Companies as said capital account is fixed and determined as of the effective date of this ordinance by the Board of Supervising Engineers under said traction ordinances respectively, and under and subject to which ordinances the said Companies are operating on the date of the passage of this ordinance. The said purchase price shall be paid (a) by the taking over by the Company of the said properties, franchises and rights subject only to such liens or

claims under the mortgages or trust deeds now existing thereon under the provisions of the traction ordinances as shall then be outstanding and unpaid, provided that the interest payable on said liens or claims shall not exceed five (5) per cent. per annum and that the aggregate amount of all liens and claims shall in no event exceed sixty-five (65) per cent. of the said capital account on said effective date; and (b) by the issuance and delivery to the said companies of the debentures or other obligations of the Company of the character hereinabove described to an aggregate amount (par value) equal to the remainder of said purchase price, which remainder, however, shall in no event exceed forty (40) per cent. of said purchase price. In case the total amount of said liens, subject to which the Company shall take over said properties, rights and franchises, shall exceed sixty (60) per cent. (but in no case to exceed sixty-five (65) per cent.) of said purchase price, the Company, as a further consideration for such acquisition, may agree to pay annually, in equal quarterly installments, to such corporation, corporations, person or persons as may be designated by the Chicago Title and Trust Company, Trustee, from said effective date until July 1, nineteen hundred and thirty-two (1932), a sum equal to three (3) per cent. on such excess, and from July 1, nineteen hundred and thirty-two (1932), during the remainder of the life of this ordinance a sum equal to two (2) per cent. on such excess.

2. The Company may acquire the properties, franchises and rights of the Elevated Companies (including all land and buildings owned by the Elevated Companies or any of them on the date of the passage of this ordinance) at the purchase price of Seventy Million Nine Hundred and Forty-three Thousand and Twenty Dollars ($70,943,020) (to which shall be added or from which shall be subtracted, as the case may be, the amounts which are to be added or subtracted under the provisions of paragraph 2, under the heading "Capital Account" in Section 24 of this ordinance). The said purchase price shall be paid (a) by the taking over by the Company of the said properties, franchises and rights, subject only to such liens and claims under the mortgages, trust deeds and equipment trusts now existing thereon, as shall be then outstanding and unpaid, provided that the aggregate amount of all liens and claims shall in no event exceed the sum of Forty-six Million Five Hundred Thousand Dollars ($46,500,000), and (b) by the issuance and delivery to the Trustees under the agreement and declaration of trust, dated June 30, 1911, establishing the trust therein called Chicago Elevated Railways Collateral Trust, of debentures or other obligations of the Company of the character hereinabove described, to an aggregate amount (par value) equal to the excess of said purchase price over and above said liens.

In case there shall be included within said liens any bonds of any issue bearing a rate of interest less than five per cent. per annum, the Company, as a further consideration for said acquisition, may agree to pay in equal quarterly installments (to such corporation, corporations, person or persons, as may be designated by said Trustees of said Chicago Elevated Railways Collateral Trust) from said effective date and until the specified date of maturity of such issue, an additional annual sum equal to the difference between the total annual interest on all such bonds at the time of said purchase and an amount equal to five (5) per cent. of the principal amount of all such bonds; and in case the total amount of said liens, subject to which the Company shall take over said properties, rights and franchises, shall exceed sixty (60) per cent. of said purchase price, the Company, as a further consideration for such acquisition, may agree to pay annually from said effective date until July 1, nineteen hundred and thirty-two (1932), a sum equal to three (3) per cent. of such excess, and annually from July 1, nineteen hundred and thirty-two (1932), during the remainder of the life of this ordinance a sum equal to two (2) per cent. of such excess, such payments to be made in equal quarterly installments, to such corporation, corporations, person or persons as may be designated by said Trustees of said Chicago Elevated Railways Collateral Trust.

Provided, however, that if there shall be included within said liens any bonds of any issue bearing a rate of interest more than five (5) per cent. per annum, there shall be deducted from the interest payments to be made by the Company, as aforesaid, during the period between the effective date of this ordinance and the specified date for the maturity of such bonds, an annual amount (deductible quarterly) equal to the difference between the annual interest paid by the Company on such bonds and an amount equal to five (5) per cent. of the principal amount of such bonds; and, provided further, that in case the City at any time purchases the local transportation system of the Company, under the provisions of this ordinance, the agreements of the Company to make the payments hereinabove in this subdivision numbered 2 of this section mentioned, shall wholly cease and determine, and the Company shall be under no further obligation to make any payment or to do or refrain from doing any other act thereunder.

3. The Company may acquire the properties, franchises and rights of the Chicago Railways Company (including all moneys and securities in or belonging to the special funds created under the provisions of the traction ordinances applicable to said Company), and may pay for the same a purchase price equal to (but not exceeding) the amount of the capital account of the said Chicago Railways Company as said capital account is fixed and determined as of the effective date of this ordinance by the Board of Supervising Engineers under the traction ordinances applicable to said Company and under and subject to which the Chicago Railways Company is operating on the date of the passage of this ordinance and shall acquire said properties, franchises and rights subject to the following terms and conditions:

(a) The Company shall take over the said properties, franchises and rights, subject only to such liens or claims under the mortgages or trust deeds now existing thereon under the provisions of the said traction ordinances as shall then be outstanding and unpaid, provided that the aggregate amounts of such liens and claims shall not exceed the amount of the said capital account on said effective date; and provided further that on said effective date the Chicago Railways Company shall have caused the total amount of all liens and claims against its said properties, franchises and rights to be reduced to an amount which does not exceed the capital account on said effective date.

(b) The Company shall, after the taking over by it of the said properties, franchises and rights, as aforesaid, pay to the Trustee in the mortgage deed of trust from the Chicago Railways Company to the Merchants Loan and Trust Company, Trustee,

dated February 1, 1907, the moneys therein provided to be paid to said Trustee as a sinking fund under the provisions of said mortgage deed of trust for the retirement of certain "C" Bonds and "A" Bonds, specified in said mortgage deed of trust, which payments are at the rate of Two Hundred and Fifty Thousand Dollars ($250,000) per annum.

(c) The Company shall enter into an agreement with the said Chicago Railways Company providing that from the effective date of this ordinance and until July 1, nineteen hundred and thirty-two (1932), the Company shall pay annually (in equal quarterly installments) to the Chicago Title and Trust Company, as Trustee, a sum equal to three (3) per cent. upon an amount equal to forty (40) per cent. of the said purchase price, which moneys so paid to the Chicago Title and Trust Company, Trustee, shall be paid out by the said Trustee as the Board of Directors of the Chicago Railways Company shall specify and direct.

(d) The Company shall enter into a further agreement with the Chicago Railways Company that from July 1, nineteen hundred and thirty-two (1932), and until said agreement ceases and determines, as hereinafter provided, the Company shall pay annually (in equal quarterly installments) to the Chicago Title and Trust Company, as Trustee, a sum equal to two (2) per cent. upon an amount equal to forty (40) per cent. of the said purchase price, which money, so paid to the said Trustee shall be paid by the said Trustee, first, as interest (at the rate not to exceed five (5) per cent. per annum) upon such obligations as may be given by the Chicago Railways Company in exchange for bonds or other liens or claims retired by the Chicago Railways Company on or before the effective date of this ordinance, in pursuance to the requirement in the foregoing paragraph (a) for the reduction of the liens and claims against the franchises, properties and rights of the said Chicago Railways Company, provided that the aggregate amount of said obligations shall not exceed the total amount (par value) of the bonds, liens or claims so retired, and shall in no event exceed the sum of Six Million Five Hundred Thousand Dollars ($6,500,000); and second, any residue of said money remaining in the hands of said Trustee after the payment of said interest shall be applied by the said Trustee to the amortization or payment of the principal amount of said obligations. Upon the amortization or retirement of all said obligations, the agreement mentioned in this paragraph (d) shall cease and determine, and the Company shall be under no further obligation to make any payments or to do or to refrain from doing any other thing thereunder. All said obligations given by the Chicago Railways Company shall be subject to the provision which shall be expressed on their face that the interest thereon and the principal thereof shall be payable only out of funds received by the Chicago Title and Trust Company, Trustee, from the Company under the provisions of this subdivision 3 of this Section.

(e) It shall be an express condition of the making by the Company of any of the said agreements with the said Chicago Railways Company specified in the foregoing paragraphs (c) and (d) that in case the City at any time purchases the local transportation system of the Company under the provisions of this ordinance, said agreements, and each of them, shall wholly cease and determine, and the Company shall be under no further obligation to make any payments or to do or to refrain from doing any other thing thereunder.

All new and additional capital needed for carrying out the provisions of this ordinance (including the refunding or payment of the liens or claims herein authorized) and not paid out of the Amortization Fund, provided for in Section 14 of this ordinance, shall be secured by the sale of bonds, debentures or other obligations of the Company after public advertisement, on the most advantageous terms available to the Company and in accordance with the provisions of this ordinance.

From and after the effective date of this ordinance the local transportation system of the Company shall be maintained and operated under the provisions of this ordinance, subject to the right of the City to purchase and take over, upon the notice and terms herein provided, the entire local transportation system and all special funds provided for in connection therewith.

DESIGNATING TERMS.

SECTION 3. The following designating terms are used in this ordinance including the foregoing sections thereof:

"City," to designate the municipal corporation known as the City of Chicago in the County of Cook and State of Illinois.

"City Council," to designate the City Council of the City.

"Company," to designate the Chicago Local Transportation Company, or such other corporation which shall become the successor or assignee of said Company, subject to the provisions of this ordinance.

"Surface Companies," to designate the four (4) corporations owning or operating the existing Surface Lines, viz: Chicago Railways Company, Chicago City Railway Company, Calumet and South Chicago Railway Company, and The Southern Street Railway Company.

"Elevated Companies," to designate the five (5) corporations owning or operating the existing rapid transit lines, viz: South Side Elevated Railroad Company, The Metropolitan West Side Elevated Railway Company, Northwestern Elevated Railroad Company, Chicago and Oak Park Elevated Railroad Company and Union Consolidated Elevated Railway Company.

"Elevated railroad," to designate a railroad the greater portion of which is located upon an elevated structure, of the general character described in Exhibit B (hereto attached and made a part hereof), provided, however, that said railroad shall be used chiefly for the transportation of passengers conducted by cars or trains operated by electricity, stopping at stations, and shall not be used for the transportation of freight within the City except mail, package freight and express matter of such character and to such extent as said City by this or subsequent ordinances permits to be transported.

"Surface Lines," to designate that part of the local transportation system hereby authorized, consisting of the street railway lines now owned or operated by the Surface Companies, described in Part 1 of Exhibit A hereto, together with all equipment thereof and appurtenances thereto, and all extensions thereof and additions thereto hereafter made.

"Rapid Transit Lines," to designate that part of the local transportation system hereby authorized consisting of the railroad lines now owned or operated by the Elevated Companies described in Part II of Exhibit A hereto, together with all equipment thereof and appurtenances thereto, and all extensions thereof and additions thereto hereafter made.

"Metropolitan Elevated," to designate the existing tracks and structure of The Metropolitan West Side Elevated Railway Company, and loop connection of the Union Consolidated Elevated Railway Company, located and described in Part II of Exhibit A.

"South Side Elevated," to designate the existing tracks and structure of the South Side Elevated Rail-

road Company, located and described in Part II of Exhibit A.

"Northwestern Elevated," to designate the existing tracks and structure of the Northwestern Elevated Railroad Company, located and described in Part II of Exhibit A.

"Oak Park Elevated," to designate the existing tracks and structure of the Chicago and Oak Park Elevated Railroad Company, located and described in Part II of Exhibit A.

"Union Loop," to designate the existing elevated railroad tracks and structure in Wells street from Lake street to Van Buren street; in Van Buren street from Wells street to Wabash avenue; in Wabash avenue from Van Buren street to Lake street; and in Lake street from Wabash avenue to Wells street.

"Settlement Ordinances," to designate the two ordinances passed by the City Council on February 11, 1907, granting street railway rights to the said Chicago Railways Company and Chicago City Railway Company, respectively.

"Unification Ordinance," to designate the ordinance passed by the City Council on November 13, 1913, entitled: "An ordinance authorizing unified operation of the surface street railways in the City of Chicago."

"Traction Ordinances," to designate collectively the settlement ordinances; the ordinance passed by the City Council on March 30, 1908, granting street railway rights to the said Calumet and South Chicago Railway Company; the ordinance passed by the City Council on March 15, 1909, granting street railway rights to the said The Southern Street Railway Company; the Unification Ordinance; and all other ordinances passed by the City Council subsequent to February 11, 1907, and before the passage of this ordinance, relating to the Surface Companies or any of them.

"Local Transportation System," to designate the unified system of railways consisting of the surface lines, the rapid transit lines, and the lease or right to operate the lines of railway and the appurtenances thereto located in the subways to be constructed and owned by the City and rented to the Company, as provided in Section 7 of this ordinance, including the properties, franchises and rights which the Company is by this ordinance required to own on the effective date hereof and all betterments and extensions thereof.

"City Traction Fund," to designate the fund to be established under the provisions of Section 13 of this ordinance.

"Amortization Fund," to designate the fund to be established under the provisions of Section 14 of this ordinance.

"Initial Construction Period," to designate the period of six years next following the effective date of this ordinance, and consisting of the "First Three-Year Period" and the "Second Three-Year Period," described in Exhibit B.

"Betterments and Extensions," to designate and include all betterments, extensions, additions, equipment and other property (including original pavement of the right of way) acquired by the Company after the effective date of this ordinance, through construction, reconstruction, alteration, purchase or otherwise, as a part of or for use in connection with its local transportation system,

"Fiscal Year," to designate the twelve months' period beginning January 1st and ending December 31st in each calendar year.

"Initial Fiscal Year," to designate the period beginning with the effective date of this ordinance and ending on December 31st following.

"Effective date of this ordinance," to designate the date on which this ordinance goes into effect, as provided in Section 34 of this ordinance.

"Original Capital Account," to designate the total purchase price or value of the properties, franchises and rights of the Surface Companies and the Elevated Companies which the Company is required by Section 2 hereof to have acquired by and to hold on the effective date of this ordinance, and which total purchase price or value shall constitute the capital account of the Company on the said effective date as determined under the provisions of paragraphs 1 and 2 under the heading "Capital Account" in Section 24 hereof.

"Capital Account," to designate, from time to time, the price at which the City may purchase the entire local transportation system of the Company, as provided in Section 24 of this ordinance.

"Depositaries," to designate the banks or trust companies selected in the manner and subject to the conditions stated in Section 25 of this ordinance.

"Trustees," to designate the board of trustees or directors of the Company, constituted as provided in Section 1 hereof.

The term "street" or "avenue" as used in this ordinance shall be deemed to include street connections by means of bridges over, or tunnels under, rivers or canals, or by means of viaducts over, or subways under, steam railroads, railroad yards, or other like obstructions; and in all cases where a specific street or avenue is named, it shall be deemed to include such street or avenue, within the limits mentioned in such cases respectively, irrespective of whether part of said street or avenue shall be known as "north," "south," "east" or "west," street or avenue.

MOTIVE POWER.

SECTION 4. The motive power to be used in the operation of the local transportation system and of transportation facilities within the subways hereinafter provided, shall be electricity applied by overhead trolley system, underground conduit, third rail, or otherwise, as more particularly set forth in Exhibit B.

IMPROVED LOCAL TRANSPORTATION.

SECTION 5. The Company shall proceed at once to furnish and provide the betterments and extensions as described in this ordinance and in full compliance with the specifications and provisions for such work in this ordinance and in the exhibit hereto attached, marked Exhibit B, and made a part of this ordinance with the same force and effect as though herein fully set forth, and to operate and maintain said system in accordance with the provisions of this ordinance and of said Exhibit B.

The Company shall at all times construct such additions to and extensions of both the rapid transit and surface lines as may be required for furnishing adequate local transportation facilities and service under the principles and provisions in this ordinance and in Exhibit B set forth.

Such provisions of this ordinance as are in the nature of specifications shall be given at all times full force and effect, except in cases, if any, in which they conflict with express provisions of Exhibit B, in which cases the latter shall prevail. The provisions of this ordinance and those of Exhibit B, however, shall be construed together, and both, so far as practicable, shall be given full effect.

The Company shall proceed with all due diligence, subject to the provisions of this ordinance, to acquire by purchase, condemnation or otherwise such private rights of way and lands as may be necessary for the construction of the extensions of elevated and rapid transit lines required by this ordinance; and consent, permission and authority is hereby given to the Company to proceed by condemnation or otherwise to acquire such rights of way, and to construct its elevated railroad structure thereon and across the streets, alleys and public ways of the City which intersect such private rights of way; but no elevated railroad extension shall be located in or along any of said streets, alleys or public ways under the authority granted in this ordinance (or without specific authority hereafter granted by the City by ordinance), except at and across such intersections; and the permission and authority hereby granted are upon the express condition that whenever any streets or alleys shall be laid out or opened by dedication or condemnation or otherwise, across the line of any elevated structure herein authorized, the Company shall construct and maintain its elevated structure over any such street or alley intersection in the same manner as herein generally provided for other street crossings or intersections.

CONTROL OF WORK AND EXPENDITURES.

SECTION 6. All betterments and extensions provided for or required by this ordinance, or the exhibits thereto shall be furnished and provided by the Company (but not including subways or extensions thereof to be constructed and owned by the City), and the cost and expense thereof shall be borne and paid by the Company out of new and additional moneys provided by it by the sale of bonds, debentures or other obligations as herein provided or out of the Amortization Fund as herein provided.

The Company shall purchase materials and equipment, and employ engineers, superintendents, clerks, foremen and workmen, and shall pay all expenses of every nature, including legal expenses, necessary to the proper, complete and prompt performance of the above-mentioned work, upon the lowest advantageous terms.

In case the Company shall let a contract for the construction or equipment of any power house, substation, car house or other building, passenger cars, elevated or surface line tracks or structure or any part of any of the foregoing, the cost of which is in excess of the sum of Five Thousand Dollars ($5,000), such contract shall be based on plans and specifications prepared by the Trustees and shall be let to the lowest responsible bidder after public advertisement for sealed bids in a daily newspaper of general circulation in the City of Chicago for a period of not less than thirty (30) days prior to the date fixed for opening such bids. The bids shall be publicly opened on the day and hour and at the place mentioned in the advertisement, and shall remain on file in the office of the Company and shall be open to public inspection for at least forty-eight (48) hours after such opening before any contract is let thereon. Any and all bids may be rejected, and if rejected a readvertisement shall be made and bids shall be let in the manner above provided for the original advertisement and bidding.

The cost of any betterments or extensions (but not including renewals) shall be deemed to include expenditures on account of injuries to persons or property occurring in connection with and on account of the construction thereof, and expenses or amounts properly chargeable for the use of equipment of the Company employed in such construction.

SUBWAYS.

SECTION 7. The City shall proceed promptly, after the effective date of this ordinance, to construct the subways described in Exhibit B and required by Exhibit B to be constructed and completed during the Six-Year Initial Construction Period, to the extent that the said subways can be constructed and paid for out of the City Traction Fund, or out of other moneys which the City may in its discretion provide for this purpose. Subject to the provisions of this ordinance, including Exhibit B, the plans, specifications and estimates of cost for such subways shall be prepared by the Trustees and the construction thereof shall be under the supervision of the Trustees, but the contracts for all work done or to be done and the payment of all moneys shall be made by the City as may be provided by ordinance under and in accordance with the laws of the State of Illinois applicable thereto.

Whenever, in the judgment of the Trustees, the traffic requires or justifies the construction of additional subways or the extension of the subways provided for in Exhibit B, the Trustees shall prepare plans, specifications and estimates of cost for such additions or extensions under and subject to the provisions of this ordinance, and shall submit the same to the City Council and upon the authorization thereof by the City by ordinance the City shall proceed to construct the same in the same manner as herein provided for the construction of the subways specified in Exhibit B; provided, however, that if at any time the City Traction Fund is not sufficient to pay for any of such additional subways or such extensions herein provided for, the Company, after the City shall have expended its Traction Fund in the construction of such additional subways or extensions, or for other purposes authorized by this ordinance, shall furnish to the City during or after construction in such installments and at such times as the City may provide, the money necessary to enable the City to pay for such construction. Any moneys so provided by the Company shall be taken out of its Capital Account Fund, and shall be regarded as capital expenditures and shall be treated in all respects under the provisions of this ordinance as is herein provided for other capital expenditures. Without the consent of the City by ordinance hereafter passed for that purpose, no subways or additions or extensions of subways shall be constructed in any street or public way or portion thereof in the City, except the subways expressly provided for in Exhibit B, to be constructed during the Six-Year Initial Construction Period.

If the City by ordinance shall so authorize, the plans and specifications for any of said subways shall provide

for passageways, corridors, galleries or other facilities for the accommodation and use of public utilities belonging to the City or authorized by the City, but in no event shall the Company be required to advance to the City any money to be used for the construction, maintenance, repair or renewal of any such passageways, corridors, galleries or other facilities, and no public utility or other corporation or party shall have the right to use any portion of said subways or their appurtenances without express authority from the City and upon such terms as the City by ordinance shall prescribe.

The City may, by ordinance, provide for or authorize the payment of the cost (or any part thereof) of constructing subways, by special assessment upon private property specially benefited thereby, to the extent that this may lawfully be done.

Whenever any of the subways provided for in any of the separate items or paragraphs of Exhibit B or any of the subways or extensions of subways authorized by any future ordinance as hereinabove provided is completed and ready for occupancy (or whenever, in the judgment of the Trustees, a sufficient portion or section of any of said subways is completed and ready for occupancy, to make the operation of cars or trains of the Company therein practicable and desirable in connection with the local transportation system) the Company shall proceed to operate and continue to operate its cars and trains in and through the said subway or portion or section thereof in connection with the local transportation system and under the provisions of this ordinance. The Company shall pay to the City as rental for the use of such subway or portion thereof a sum equal to six (6) per cent. per annum, from the date of commencement of the operation thereof, upon the cost of the said subway or portion or section thereof as certified by the Trustees to the City Comptroller of the City, including in such cost three (3) per cent. per annum on the payments for subway construction made by the City (otherwise than out of money advanced by the Company or secured by special assessments) from the dates of such payments respectively, until commencement of operation, but not including in such cost the amounts of money secured by special assessments or furnished to the City by the Company for subway construction, as provided in this section; and also not including any additions to the cost of constructing any such subway due to the construction in, or in connection with any such subway, of passageways, corridors, galleries or other facilities which may be constructed, as hereinabove in this section provided, or due to the adaptation or utilization of any such subway, or any part thereof, for other than local transportation purposes, which additions shall be ascertained and certified by the Trustees to the City Comptroller of the City. Said payments shall be deposited in and constitute a part of the City Traction Fund and shall be made quarterly on the first days of January, April, July and October in each year. The Company shall also, out of the receipts of the transportation system, maintain, repair and renew all such subways or portions or sections thereof, occupied and used by it, to the same extent and in the same manner as it is herein required to maintain, repair and renew its local transportation system. The Company shall not by anything in this ordinance contained, acquire any ownership of or any right, title or interest in the said subways or any portion or section thereof except the right to operate its cars or trains therein during the life of this grant and subject to the provisions of this ordinance.

MAINTENANCE, REPAIRS, RENEWALS AND DEPRECIATION.

SECTION 8. The Company by the acceptance of this ordinance expressly agrees to maintain and operate the local transportation system and its entire equipment, plant and appurtenances, including subways, so as to furnish to the public, over all parts of the local transportation system the best possible local transportation service, and for this purpose to make from time to time appropriate expenditures for construction, equipment, maintenance, repairs and renewals. To this end the Company shall make the following expenditures:

(1) The Company shall expend for maintenance and repairs during each and every fiscal year that the Company continues to operate the local transportation system at least a sum equal to six (6) per cent. of the gross receipts of the local transportation system for that year, and if the said amount is not so expended for the said purpose by the Company during any fiscal year, then at the end of such year the unexpended portion thereof shall be deposited in a fund appropriately designated with one or more of the banks or trust companies authorized to act as depositaries of such funds under the terms and subject to the conditions of this ordinance (herein referred to as the Depositary) for the purpose of being used whenever necessary for such maintenance and repairs.

(2) On or before the fifth day of each and every month of each and every year that the Company continues to operate the local transportation system, the Company shall deposit with one or more of the said depositaries in a separate fund designated as the Renewal and Depreciation Fund a sum equal to eight (8) per cent. of the gross receipts of the local transportation system for the preceding month, which shall constitute a reserve fund for taking care of renewals and depreciation of the local transportation system and property and subways and out of the said fund the Company shall from time to time pay such amounts as are necessary for renewals of the local transportation system and property and subways, the portion of said fund remaining unexpended to continue in said fund as a provision for the depreciation of the local transportation system and property and subways, and shall be disposed of as hereinafter provided; it being the purpose of this ordinance to provide a fund adequate to take care of the actual renewals that may be necessary or appropriate from time to time, and the Trustees are hereby given authority to increase the percentage of the gross receipts to be deposited in said fund above eight (8) per cent. if and as such increase may be found necessary by the Trustees to accomplish the purpose above stated. No payments shall be made by the Company out of said fund except for renewals, which are hereby defined to be the replacement of any principal part of the local transportation system or its equipment or appurtenances (including pavement) or subways; and the Trustees shall determine by classifications made from time to time what particular items of expenditure shall be considered as maintenance and repairs and what particular items of expenditure shall be considered as renewals under the provisions of this

ordinance; provided, however, that in the replacement of any principal part of the property, either existing or hereafter acquired, there shall be charged to Capital Account, the excess amount that the new property costs over the original cost of the property displaced, excepting that the value of the property contained in the appraisal inventory of the property of the Elevated Companies, referred to in Section 2 hereof, and the value of the property contained in the respective appraisal inventories of the properties of the surface companies, filed pursuant to the provisions of the Traction Ordinances, shall be used instead of the first cost for all property listed in such appraisal inventories.

If and so long as the Company shall purchase from others electrical energy for the operation of all, or any part of its local transportation system, there shall be charged to renewals such part of the cost to the Company of such electrical energy as in said cost, represents the allowance, if any, for renewals and depreciation of the plant or plants producing such energy.

From time to time such part of the Renewal Fund as shall be directed by the Trustees, shall be invested by the Company in bonds or other interest-bearing securities (at the market price thereof) other than securities issued by the Company or the City; and from time to time, any bonds or other interest-bearing securities belonging to the fund may be sold by the Company (at the market price thereof) and the proceeds of such sale shall be deposited in the fund. The interest received on such investments of the fund shall accrue and be added to the fund.

The whole or any portion of such reserve fund for maintenance and repairs may be used for maintenance and repairs in addition to the annual expenditure for maintenance and repairs. The fixing of the said amount herein as the minimum amount to be expended annually for maintenance and repairs and the fixing of the said amount herein as the minimum amount to be deposited for renewals and depreciation shall not be held or considered as lessening or limiting in any way the obligation of the Company to expend whatever sum or sums may be necessary to be expended for maintenance and repairs and to expend whatever sum or sums may be necessary to be expended for renewals to keep the local transportation system and subways, and equipment and appurtenances in first-class condition in every respect and at all times.

The amounts expended or deposited respectively as reserve funds under the foregoing provisions of this section shall be considered as a part of the operating expenses of the local transportation system hereby authorized, but in the event that the local transportation system shall be purchased by the City at any time under the provisions of this ordinanee, the cash and securities then in each of said reserve funds or due to be deposited therein at the time of such purchase, shall be turned over to and become the property of the City.

CONTROL OF SERVICE.

SECTION 9. The Company by accepting this ordinance agrees to comply with all lawful regulations of the service of the said local transportation system which may be prescribed from time to time by the City.

The enumeration herein of special requirements and specific regulations shall not be taken or held to imply the relinquishment by the City of its police powers, over the comfort, health, safety and welfare of the public or the relinquishment of its power to make other requirements or regulations, and the City hereby expressly reserves the right to make and enforce all orders and regulations respecting said local transportation system which may be necessary or appropriate to secure in the most ample manner the comfort, health, safety, welfare and accommodation of the public, including among other things the right to make and enforce all orders and regulations to protect the public from danger or inconvenience in the management and operation of the local transportation system, its additions, extensions, appurtenances and equipment, and the right to make and enforce all such orders and regulations as shall be necessary or appropriate to secure adequate local transportation accommodations for the people and to insure their comfort and convenience.

CAPITAL INVESTMENT LIMITATION.

SECTION 10. The Company shall not at any time be required to furnish to the City any money for constructing additions to or extensions of the subways specifically provided for in Exhibit B, or to provide or furnish any betterments or extensions to its local transportation system other than those specified in Exhibit B to be provided and furnished during the six-year initial construction period, unless the gross receipts of the Company for the previous fiscal year shall have been sufficient to meet the payments mentioned in Items First, Second, Third, Fourth and Fifth of Section 16 of this ordinance.

SECURITIES.

SECTION 11. The Company shall place upon its properties and rights a First and Refunding Mortgage or Trust Deed to secure bonds or interest bearing obligations to be issued by it, for or on account of capital expenditures, which mortgage or trust deed may also secure bonds or interest-bearing obligations issued by the Company, (a) for refunding bonds or interest-bearing obligations issued by the Company after the effective date of this ordinance, and (b) for or on account of the refunding or retiring of bonds or interest-bearing obligations which constituted a lien upon some part or all of the Company's property at said effective date, and (c) for raising the Emergency Fund hereinafter provided for. The Company may also place upon its properties and rights a mortgage or trust deed subordinate in lien to the above mentioned First and Refunding Mortgage or trust deed to secure bonds or interest-bearing obligations to be issued by it only for the purpose of refunding or retiring (through payment or exchange) bonds or interest-bearing obligations which at the effective date of this ordinance constituted a lien upon some part or all of the Company's property. The Company shall not place upon its property or rights any lien other than said two mortgages or trust deeds.

Said First and Refunding Mortgage or trust deed shall provide that there shall be no fixed limit upon the amount of bonds or interest-bearing obligations to be issued thereunder, and that bonds or interest-bearing obligations may be issued thereunder with different due dates and different rates of interest.

No bonds, debentures or other obligations shall be issued by the Company, without providing therein

that the same shall be callable on any annuity or interest-payment date before maturity at par.

Any mortgage made by the Company, and all securities issued thereunder and all obligations secured thereby, shall be subject to the terms and provisions of this ordinance, including the rights of the City to purchase or acquire the local transportation system.

Whenever the Company shall make an issue of bonds, debentures or other obligations, it may provide in its by-laws, or otherwise, for the order in which said bonds, debentures or other obligations shall be called for amortization or retirement, pursuant to the amortization provisions of this ordinance, and in default of such provision said bonds, debentures or other obligations shall be amortized or retired by lot, the manner of selection by lot to be determined by the Trustees.

CAPITAL ACCOUNT FUND.

SECTION 12. After the effective date of this ordinance, the proceeds of the sale of all bonds, debentures and other obligations (except such as are sold or disposed of for the Emergency Fund or for the purpose of refunding or exchanging the bonds, debentures or other obligations of the Company or the bonds or other obligations outstanding at the effective date of this ordinance and constituting a lien on any property of the Company under the provisions of this ordinance) shall be used exclusively for capital expenditures and shall be deposited in a fund to be known as the Capital Account Fund. All commissions, brokerage and other cash expenditures paid by the Company in connection with the issuance, sale, refunding or exchanging of any bonds, debentures or other obligations, shall be considered capital expenditures, and shall be paid out of the Capital Account Fund. The total amount (par value) of all bonds, debentures, or other obligations issued or sold by the Company or outstanding and constituting a lien on the property of the Company under the provisions of this ordinance, shall never exceed the amount of the capital account of the Company, as said capital account is established under the provisions of this ordinance, with appropriate reductions therein on account of amortization.

All interest derived from the Capital Account Fund shall constitute a part of the gross revenue of the local transportation system and in the event of the purchase or taking over of the local transportation system by the City under the provisions of this ordinance, all unexpended moneys in the Capital Account Fund shall be turned over to the City, as a part of the local transportation system of the Company.

CITY TRACTION FUND.

SECTION 13. There is hereby established a special fund to be known as the City Traction Fund which shall consist (1) of all moneys in the possession of the City on the effective date of this ordinance and which have been paid to the City prior to said date out of the receipts of street railways in the City under the provisions of the Traction Ordinances, including securities in which any such moneys are then invested, and (2) of all moneys thereafter paid to the City under said ordinances and (3) subway rentals paid to the City under this ordinance.

The moneys in the City Traction Fund shall be used for the following purposes (and in the order of priority herein stated) or for expenditures incidental thereto and only for such purposes or expenditures:

(a) For the construction of the local transportation subways in this ordinance provided to be constructed by the City during the six-year initial construction period.

(b) For the construction in connection with said subways of passageways, corridors, galleries or other facilities for the accommodation and use of public utilities belonging to or authorized by the City as provided in Section 7 hereof.

(c) For the portion of the public benefits assessed against the City for the opening and extension of Robey street and Division street, as specifically provided for in Exhibit B.

(d) For the construction of additional subways, or for extensions and improvements of subways.

(e) For the construction in connection with said subways, mentioned in the preceding paragraph (d), of passageways, corridors, galleries or other facilities for the accommodation and use of public utilities belonging to or authorized by the City as provided in Section 7 hereof.

AMORTIZATION FUND.

SECTION 14. For the purpose of providing money to be used as a substitute for new and additional capital to be furnished by the Company in carrying out the provisions of this ordinance, or for the amortization and retirement of the capital account of said Company, there is hereby established out of the receipts of the local transportation system an Amortization Fund as follows:

(a) During each of the first five years from and after the effective date of this ordinance there shall be paid into the amortization fund an amount of money equal to the amount required to be paid during such year under the sinking fund provisions of the mortgages or trust deeds, subject to which the Company shall have acquired the properties of the Surface Companies and the Elevated Companies under the provisions of this ordinance.

(b) Commencing five years after the effective date of this ordinance there shall be paid into the Amortization Fund each year, at or before the time of the annual report and accounting, hereinafter provided for, one-quarter (¼) of one (1) per cent. of the amount of the then outstanding capital account of the Company, to be increased after five years to one-half (½) of one (1) per cent., after five more years to three-quarters (¾) of one (1) per cent., and after five more years and thereafter to one (1) per cent., but the amount thus paid in any year shall never be less than the amount paid in the previous year, even if the operations of the Amortization Fund should diminish the capital account of the Company as determined in this ordinance.

(c) There shall also be paid into the Amortization Fund annually, the "Surplus Receipts," provided to be so paid by Section 16 hereof.

Whenever money is needed under the provisions of this ordinance to pay for betterments and extensions, work or materials (not including subways) the cost of which would otherwise be added to the capital account of the Company under the provisions of this ordinance, and there are funds available in the Amor-

tization Fund, such funds may be used for such betterments and extensions, work or materials; and no addition shall be made to the capital account of the Company on account of any such payments so made out of the Amortization Fund.

Whenever, in the opinion of the Trustees, there is in the Amortization Fund, money available for the retirement of any of the outstanding bonds, debentures or other obligations of the Company or for the payment of any of the liens upon its properties, or for the sinking fund payments mentioned in paragraph (a) of this Section, the Trustees may apply such money to said purpose, provided that the Amortization Fund shall not be applied to the payment or amortization of the debentures or other obligations issued for the acquisition of the properties of the Surface Companies and Elevated Companies, as provided in Section 2 of this ordinance, until all other debentures, bonds and other obligations of the Company or constituting a lien upon its property, have been paid, redeemed or retired. Whenever any such payments are made out of the Amortization Fund, the capital account of the Company shall be correspondingly reduced.

In case the said First and Refunding Mortgage to be made by the Company, pursuant to Section 11 of this ordinance, shall contain provisions (hereafter approved by the City by ordinance) for a sinking fund to be applied to the retirement of bonds secured by such mortgage, the Company may devote so much of said Amortization Fund as may be necessary to carry out such sinking fund obligations, and upon the application of such sinking fund to the retirement of any of such bonds, the capital account of the Company shall be correspondingly reduced.

DAMAGE CLAIM FUND.

SECTION 15. Out of the gross receipts derived from the operation of the local transportation system the Company shall pay as a part of the operating expenses, all lawful claims against the Surface Companies, or any of them, for damages arising out of the operation of their or its properties subsequent to February 1, 1907; all lawful claims against the Elevated Companies, or any of them, for damages arising out of the operation of their or its properties prior to the effective date of this ordinance; and all damage claims arising or growing out of injuries to persons or to the property of others incident to the operation of the local transportation system, and the Company shall set aside as a separate fund such percentage of the gross receipts as the Trustees shall estimate to be sufficient to meet all such claims, to the end that if the City shall elect to purchase the property of the Company as provided by this ordinance, there shall be then available a fund sufficient to meet and discharge all legitimate claims for such damages. The percentage thus reserved may be changed from time to time by the Trustees if and whenever it shall consider that the percentage theretofore reserved is either inadequate or excessive.

From time to time such part of the Damage Claim Fund as shall be directed by the Trustees shall be invested by the Company in bonds or other interest bearing securities (at the market price thereof) other than securities issued by the Company or the City; and from time to time, any bonds or other interest bearing securities belonging to the fund may be sold by the Company at the market price thereof, and the proceeds of such sale shall be deposited in the fund, and the interest received on the fund and on such investment of the fund shall accrue and be added to the fund.

If the City shall purchase the property of the Company as in this ordinance provided, the fund then accumulated under the provisions of this Section, and the securities belonging to the fund, shall become the property of the City, and the City shall hold the Company harmless from all liability for all such damage claims.

ANNUAL REPORT AND ACCOUNTING.

SECTION 16. The fiscal year of the Company shall also be the accounting year for the annual accounting between the City and the Company. The Company, so long as it continues to operate the local transportation system under this ordinance, and on or before the 10th day of March in each year, shall prepare and file with the City Comptroller of the City an annual report for the preceding fiscal year, ending on the 31st day of December.

Such report shall be in writing, verified by the affidavit of the Auditor of the Company, setting forth in reasonable detail, the character and amount of business done by the Company during such fiscal year and the amount of receipts from and the expenses of conducting the said business; and the City Comptroller or accountants authorized by him, under the direction of the Mayor or City Council of the City, shall have the right at all reasonable times to examine all the books, vouchers and records of the receipts and expenditures of the Company for the purpose of ascertaining the accuracy of the reports herein required, and the rights of the City under this ordinance. There shall also be an annual audit of the accounts of the Company covering all receipts and expenditures for each fiscal year, and a formal written report by certified public accountants selected by the City Comptroller and the Company, the expenses of such audit and report to be paid out of the gross receipts of the Company as an operating expense.

In the event of any purchase of the local transportation system or property of the Company under the provisions of this ordinance on the first day of July of any year there shall be an accounting and report for the preceding six months similar in character to that hereinbefore provided.

On or before March 10th in each year an accounting shall be had and taken for the last preceding fiscal year on the following basis: From the gross receipts of the local transportation system from all sources and of every kind for such year there shall be deducted by and allowed to the Company the following items in the order of priority herein stated:

Item First. (a) All expenses of operation including maintenance, repairs and renewals (except payments made out of the maintenance and repair fund, and the renewal and depreciation fund and the damage claim fund under the provisions of this ordinance) including all payments required to be made by the Company under any lease or operating agreement.

(b) All amounts payable under the provisions of this ordinance during said year to the special funds for maintenance and repairs, renewals and depreciation, and for damage claims, under the provisions hereof relating to such funds, respectively.

(c) All amounts paid out by the Company in such

fiscal year for taxes, assessments and other governmental charges or exactions, including franchise taxes, excise taxes and income taxes and city license fees, if any.

Item Second. The amounts payable during said year for interest on the outstanding bonds and other obligations secured by liens on the properties, franchises and rights of the Company or any of them, recognized or authorized by the provisions of this ordinance.

Item Third. The rentals paid during said year to the City for the use of subways or extensions thereof under the provisions of this ordinance.

Item Fourth. The payments required to be made into the Amortization Fund by Section 14 hereof.

Item Fifth. The amounts payable by the Company during said year by way of annuity or interest on the outstanding debentures and other obligations or agreements of the Company issued or made under the provisions of this ordinance and not secured by liens on the properties, franchises and rights of the Company or any of them.

In case in any fiscal year, the gross receipts shall not be sufficient to pay in full the foregoing Items First, Second, Third, Fourth and Fifth, then the deficit shall be cumulative and shall be paid out of the gross receipts of the subsequent fiscal year or years and in order of priority as the Items are hereinabove stated. After making the deductions from the gross receipts hereinbefore in this section provided, the amount remaining shall be deemed "Surplus Receipts" and shall be deposited as a part of the Amortization Fund.

RATES OF FARE AND TRANSFER CHARGES.

SECTION 17. The Company, except as to special cars or trains (for which reasonable rates shall be charged) and subject to the provisions of this ordinance, shall charge passengers, while it continues to operate the local transportation system under this ordinance, the following rates of fare, to wit:

(a) For a continuous trip in one general direction within the present or future limits of the City over the local transportation system covered by this ordinance and all extensions thereof within said limits (whether owned, leased or operated by the Company) the sum of five (5) cents for each passenger twelve (12) years of age or over, and three (3) cents for each passenger under twelve (12) years of age, children under seven (7) years of age accompanied by a person paying fare to be permitted to ride free; provided that such other rates, if any for said trips as are lawfully in force on the effective date of this ordinance shall continue unless and until changed pursuant to the provisions of this ordinance; and provided further that from and after the taking effect of this ordinance and until changed as hereinafter authorized, the Company may charge passengers (if in the judgment of the Trustees such charge is necessary) the sum of not exceeding two (2) cents for each and every transfer between any of its rapid transit lines (including lines in rapid transit subways) and any of its surface lines (including lines in surface line subways) or the reverse; but in no event shall any charge be made for a transfer given under the provisions of this ordinance from a surface line to a surface line or from a rapid transit line to a rapid transit line.

(b) For trips over the lines of said local transportation system outside of the present or future limits of the City, and for trips over the lines of the said local transportation system between a point within the City and a point without the City, such reasonable rates of fare (including transfer charges) as may be authorized by law and subject to such regulation as may be provided by law; provided that such rates for said trips, as are lawfully in force on the effective date of this ordinance, shall continue until changed pursuant to the provisions of this ordinance and of the statutes applicable thereto.

In the event that upon any annual report and accounting it shall appear that the Surplus Receipts are sufficient in the judgment of the Trustees to justify the reduction or discontinuance of any transfer charge then in effect, such reduction or discontinuance shall be made upon the order of the Trustees. Whenever the Emergency Fund hereinafter provided for is reduced through the payment of any deficit or deficits under the provisions of the following Section 18 of this ordinance below the amount of One Million Dollars ($1,000,000), it shall be the duty of the Trustees immediately to put into effect such increase or increases in the transfer charge or rates of fare or both as shall be necessary to restore (not later than the end of the following fiscal year) the amounts withdrawn from said fund and to avoid a recurrence of any such deficit or deficits during the following fiscal year; provided, however, that whenever all such deficits have been made up then it shall be the duty of the Trustees, if in their judgment a new deficit will not thereby be created, to order such reduction of the rates of fare or such reduction (or abolition) of the charge for transfers or both as the said Trustees may deem proper, and such reduction (or abolition) shall thereupon be made; and provided further that any increase or decrease of fares for trips covered by paragraph (b) of this Section shall be subject to such control or regulation as shall be prescribed by law.

All rates of fare and transfer charges for trips within the present or future limits of the City shall be uniform. Subject to the provisions of this Section, every passenger may demand, and upon such demand shall receive from the conductor of the car upon which he first takes passage, or from some authorized agent of the Company, a transfer slip or ticket. Said transfer slip or ticket shall entitle such passenger to ride upon any other line of the local transportation system which connects with, crosses, intersects or comes within two hundred (200) feet of the line upon which the passenger first took passage and paid his fare; provided that a transfer slip or ticket for a transfer between a surface line and a rapid transit line (or the reverse) shall be given only when the surface line connects with or comes within two hundred (200) feet of the station of the rapid transit line to or from which the passenger desires to transfer; and provided further, that special transfer facilities for the comfortable and convenient physical transfer of passengers between the rapid transit lines and the surface lines shall be established, as provided in Exhibit "B." If necessary to enable a passenger to reach his destination, the conductor or other authorized agent of the Company shall issue, without additional charge, except as herein otherwise provided, a transfer slip or ticket upon such transfer slip or ticket, the same as required upon payment of a cash

fare; the intention being that for a single fare and such transfer charge, if any, as may be in effect under the provisions of this ordinance, the Company shall carry any passenger for a single, continuous ride over any of the lines of the local transportation system within the present or future limits of the City, by the most direct available route, so long as such ride is in the same general direction, although some of the lines necessary to be used by such passenger in arriving at his destination intersect or cross one another or do not conform to such direction.

In every instance the transfer slip or ticket given to a passenger may designate the point or place of transfer, and the same must be used at such point or place within a reasonable time, not exceeding fifteen (15) minutes after such point or place is reached by the car from which the passenger is transferred, provided that within said fifteen (15) minutes a car shall pass such point or place of transfer in the direction and upon the route indicated by said transfer slip or ticket; but if no such car shall pass such point within said time, the passenger shall have the right to take the first available car passing such point in the direction indicated upon the passenger's transfer slip or ticket. A passenger upon any car delayed through the fault, negligence or inability of the Company shall be entitled to receive a transfer slip or ticket entitling such passenger to transfer to a car upon the nearest line of the Company going in the same general direction as the delayed car.

The Trustees shall, from time to time, prescribe reasonable rules and regulations governing the issuance and use of transfer slips or tickets and providing for the prevention of the misuse or abuse of transfer privileges.

EMERGENCY FUND.

SECTION 18. The Company shall establish and maintain an Emergency Fund of two million dollars ($2,000,000) by the sale of bonds of the Company issued in accordance with the provisions of Section 11 of this ordinance. The amount of the par value of said bonds shall be added to the Capital Account of the Company, and the proceeds of said bonds shall be deposited in said fund.

In case the receipts of the Company at any time shall be insufficient to meet any expenditures (other than capital expenditures) which the Company is required to pay under the provisions of this ordinance, the deficit thereby created, shall be paid out of said fund, and the amount withdrawn from said fund to pay any such deficit or deficits shall be restored to said fund out of the receipts of the Company as soon as practicable.

From time to time the Trustees may invest such part of the Emergency Fund as they may deem advisable in bonds or other interest-bearing securities (at the market price thereof) other than securities issued by the Company or the City; and from time to time any bonds or other interest-bearing securities belonging to the fund may be sold by the Trustees, at the market price thereof, and the proceeds of such sale shall be deposited in the fund. All interest received on the fund or on such investments of the fund shall be deemed part of the gross receipts of the Company.

NO PASSES: EMPLOYEES, POLICEMEN AND FIREMEN FREE.

SECTION 19. No passes of any kind or description shall be issued or given to any person, and no person except employees of the Company, and when in full uniform, health inspectors, policemen and firemen of the City respectively, shall be permitted to ride upon the local transportation system without the payment of fare; provided, that the Company may issue to its employees free tickets for use while engaged in the performance of their duties, and shall permit them to ride free when wearing an official badge of the Company conspicuously in view. The Company shall keep a record of the number of such free tickets and to whom issued.

MAIL CARRIERS.

Mail carriers in the United States Postal Service, when in full uniform (with or without mail bags or satchels), shall be carried upon the cars of the Company without the payment of fare, when compensation in lieu thereof is provided by the United States Post Office Department on terms approved by the City.

PUBLIC COMFORT STATIONS, EXPRESS MATTER AND PACKAGE FREIGHT.

SECTION 20. The City may by ordinance provide (at its own expense but without payment to the Company of any compensation therefor) for the use for public comfort stations of any of the private right of way of the Company under the elevated railroad structure which in the judgment of the Trustees is available for such use.

The Company may carry and handle express matter, baggage, mail, milk, parcels and such other package freight as may be designated by the Trustees, and at rates to be fixed and regulated by the Trustees; and with the approval of the City (by ordinance) may enter into contracts with connecting urban, suburban and interurban electric railroad companies, for the operation by the Company of the cars of such electric railroad companies, by employees of the Company, or by the employees of such electric railroad companies, for the purpose of carrying such articles, or any of them, over the lines of the Company.

The articles mentioned in this section shall be transported only in cars of a design which shall have first been approved by the Trustees; only such cars shall be approved as can be operated safely over the lines of the Company, and which are properly equipped with brakes, headlights, fenders, wheel guards and safety appliances. Such express matter and package freight shall be transported at such times and in such manner as shall not interfere with the passenger service, and as shall be approved by the Trustees.

INSURANCE.

SECTION 21. The Company shall at all times keep insured in responsible insurance companies to its full insurable value against loss or damage by fire, all of its property of a kind usually insured by companies owning and operating similar properties, and the premiums for such insurance shall be charged to operating expenses.

In case of the destruction or damage by fire of any such insured property the Company shall, as the Trustees may direct, (a) apply the insurance moneys collected on account thereof, to the restoration of the property so destroyed or damaged; or (b) pay the same into the Renewal Fund.

In case of the restoration of any property so destroyed or damaged, if the insurance moneys shall not equal

the cost of restoration, the difference between the insurance moneys and such cost shall be paid out of the Renewal Fund, provided, however, that if the cost of restoration shall exceed the amount at which such property so destroyed stands in the capital account of the Company, then such excess, if any, shall be paid out of the capital account fund. If the amount of insurance moneys shall be more than the cost of restoration, the overplus shall be paid into the Renewal Fund.

STREET PAVING, SPRINKLING AND CLEANING.

SECTION 22. The Company shall pave, repave, and keep in repair the pavement of that part of any street or portion thereof (including viaducts and bridges) occupied by its surface line tracks, and shall clean and sprinkle the same, all as specifically provided in Exhibit B attached thereto; but whenever it shall appear that a deficit has been created, to meet which an increase in the transfer charges or rates of fare would otherwise be required under the provisions of Section 17 hereof, then the Company shall be relieved and exempted from its obligations under this ordinance with respect to the said sprinkling and cleaning of streets, and such exemption shall continue unless and until the Trustees shall ascertain and determine that the gross receipts of the Company are sufficient to make good the said deficit and to warrant the resumption of said obligations by the Company; and thereafter such exemption and resumption, respectively, shall be made from time to time as the said conditions hereinabove mentioned arise.

BRIDGES AND VIADUCTS.

SECTION 23. The City shall alter or reconstruct any of its viaducts or bridges (including piers and foundations), over which rapid transit lines are to be operated under the provisions of this ordinance, wherever and to such extent as may be necessary to fit the said viaducts and bridges for such construction and operation, and to carry the additional load and strain imposed upon such viaducts or bridges by the elevated structure or any additions thereto required or authorized by this ordinance and by the trains operated thereon; and the Company, on demand by the City shall pay to the City the cost of such alteration or reconstruction. All new viaducts or bridges (including piers and foundations) constructed by the City upon the routes of any elevated railroad line or extension specifically provided for in this ordinance, shall be constructed of such design, equipment and strength as to carry the additional load and strain imposed by the elevated railroad structure and by the trains operated thereon, and to fit the said viaducts and bridges for such structure and operation; and the Company, upon demand by the City shall pay to the City one-third of the cost of each and every such viaduct and bridge (including piers and foundations). The Company shall also pay to the City monthly one-third of the cost of maintaining, repairing or renewing each and every City-owned viaduct and bridge (including piers and foundations but not including pavement in the roadway outside the Company's right of way, or sidewalks, or any charge based on the operation of surface line cars thereover) over which the Company continues to operate its elevated railroad under this ordinance; and such payments by the Company shall be charged by it to operation, renewal or to capital account in accordance with the accounting provisions of this ordinance. The maintenance, repair and renewal of pavement of the right of way occupied by the Company on viaducts or bridges occupied by the surface-line tracks shall be done and paid for by the Company as provided in the foregoing section and in Exhibit "B" of this ordinance.

RIGHT OF THE CITY TO PURCHASE AT ANY TIME BY PAYING THE CAPITAL ACCOUNT.

SECTION 24. The Company, by the acceptance of this ordinance, shall and does grant to the City, and the City hereby reserves to itself the right upon the first day of January or upon the first day of July of each and any year after the effective date of this ordinance, upon giving at least six (6) months' previous notice in writing of the intention so to do, to purchase and take over all of the property, plant and equipment of every sort and nature then constituting the local transportation system of the Company, including all property then existing which constituted the local transportation system and property of the Company on the effective date of this ordinance, and all betterments and extensions made under the provisions of this ordinance, and all moneys and securities then in or belonging to any of the Special Funds in this ordinance provided for, and all receipts of the local transportation system (including all funds reserved for taxes or other operating expenses of the Company) and not provided to be deducted by and allowed to the Company under the provisions of Section 16 hereof, upon the accounting therein provided for, and all rights of every kind under this ordinance in or to any subways or extensions thereof constructed under the provisions of this ordinance.

In case the City shall purchase and take over the local transportation system of the Company as in this ordinance provided, then it shall pay for the same a sum equal to the capital account of the Company upon the date of such purchase as determined under the provisions of this ordinance; less, however, the amount of any then outstanding and unpaid liens (not including liens then callable by the Company for payment at par on any interest date, which liens shall be called by the Company and shall be paid out of the purchase price), subject to which the Company acquired any of the properties, franchises and rights of any of the Surface Companies or any of the Elevated Companies, as in this ordinance provided; and the City shall purchase and take over the said local transportation system subject to any such outstanding liens.

CAPITAL ACCOUNT.

The capital account of the Company shall be constituted and determined as follows:

1. Upon the effective date of this ordinance the capital account of the Company shall consist of the sum of Two Hundred and Twenty Million One Hundred and Fourteen Thousand Four Hundred and Twenty-Eight Dollars and Forty-Six Cents ($220,114,428.46), to which sum shall be added or from which sum shall be subtracted (as the case may be) any additions to or deductions from the capital account of any of the Surface Companies between June 30, 1916, and the effective date of this ordinance as determined by the Board of Supervising Engineers having jurisdiction over such matters under the Traction Ordinances applicable thereto.

2. After the effective date of this ordinance the Trustees shall ascertain and determine the value of any property then existing which has been purchased or acquired by the Elevated Companies, for use as a part

of or in connection with the lines of elevated railroad now belonging to said Elevated Companies, between June 30, 1916, and the effective date of this ordinance; and the amount of such value, so ascertained and determined by the Trustees shall be added to the capital account of the Company as hereinabove determined. The Trustees shall also, at the same time, ascertain and determine the value of any property described in the aforesaid appraisal inventory of the properties of the Elevated Companies which shall have been lost, destroyed, sold or disposed of and the amount of impairment, if any, in the value of said properties (ordinary wear and depreciation excepted), between the 30th day of June, 1916, and the effective date of this ordinance; and all such value and impairment shall be subtracted from the amount hereinabove fixed as the capital account of the Company. If on the effective date of this ordinance there shall be on deposit with the trustee of any mortgage of any of the Elevated Companies, any moneys or securities representing the proceeds of sale of any property included in said appraisal inventory, which moneys or securities, by the terms of such mortgage, are required to be thereafter applied to the reduction of any debt, subject to which the Company shall have acquired the property covered by such mortgage, under the provisions of this ordinance, then the total amount of such moneys and securities (at the then market value thereof) shall also be added to the capital account of the Company. All damages paid by the Company after the effective date of this ordinance which arose in connection with and on account of construction of betterments and extensions (including City tunnels) by the Surface Companies and the Elevated Companies, or any of them, prior to said date, shall be added to capital account.

3. There shall be added to the capital account as hereinabove fixed, from time to time, the par value of the bonds, debentures, or other obligations issued for new capital funds or other capital expenditures authorized by this ordinance, and at the times, respectively, when said bonds, debentures or other obligations are sold, and the proceeds thereof deposited in the Capital Account Fund.

4. Whenever the Company shall, under the provisions of this ordinance, issue bonds, debentures, or other obligations to refund or pay outstanding bonds, debentures or other obligations recognized or authorized by this ordinance, there shall also be added to the capital account any excess in the par value of the securities so issued over the par value of the securities refunded and there shall be deducted from the capital account the amount, if any, by which the par value of the securities refunded exceeds the par value of the securities so issued.

5. The capital account of the Company shall from time to time be reduced as and when and to the extent that payments are made out of the Amortization Fund to the holders of its bonds, debentures or other obligations or of the liens or claims (or the obligations secured thereby) upon or against its properties.

PAYMENT OR DEPOSIT OF PURCHASE PRICE.

Upon the payment in cash to the Company of the purchase price above specified in this section, or the deposit of the same to the order of the Company with one or more of the depositaries authorized to act as such by this ordinance, the City shall have full right and lawful authority, after the notice and upon the date therein fixed, to take over and possess, as its own property, all the property, which the City is given the right to purchase by this section of this ordinance.

In the event that it shall be determined that the City is, at the time this ordinance is passed or at the time this ordinance takes effect, without lawful power or authority to acquire or own the local transportation system or any part thereof under the provisions of this ordinance or otherwise, and the City shall thereafter acquire such power or authority, thereupon and after such acquirement the City shall have the right to purchase and acquire the local transportation system, rights and property under the provisions of this ordinance to the same extent and in the same measure as if said City had full right and lawful authority so to purchase or acquire said local transportation system, rights and property at the date of the passage of this ordinance and at the date when this ordinance takes effect.

No mortgage, trust deed or other instrument given by the Company shall impose any lien upon or create any rights in the local transportation system, property and rights or any part thereof, without the same being made specifically subject to all the limitations, conditions and provisions of this ordinance, including the right of the City to purchase the said property and rights upon the terms and in the manner in this ordinance provided, and in the event of such purchase the lien of such mortgage, trust deed or other instrument upon the local transportation system, property and rights, or any part thereof, shall be discharged from the local transportation system, property and rights and shall attach to and be payable out of the proceeds of the sale thereof; and in the event of any such purchase, the rights of the holders of any debentures or other obligations issued under the provisions of this ordinance for the purchase of the properties of any of the Surface Companies or any of the Elevated Companies or issued by the Company for capital expenditures, shall attach to, and said debentures or other obligations shall be paid out of the proceeds of the sale of the said local transportation system, property and rights, subject to all liens payable out of the said proceeds.

DEPOSITARIES.

SECTION 25. Any state or national bank or trust company in the City of Chicago or in the City of New York which has a capital stock and surplus amounting to at least one million dollars ($1,000,000) may be selected and can act as a depositary under the provisions of this ordinance, provided, that no moneys shall be deposited with any such depositary under the provisions of this ordinance to an amount exceeding the total capital stock and one-half of the surplus of such depositary; and provided further that all deposits authorized or required by this ordinance (except deposits of purchase money in the event of purchase of said local transportation system by the City) shall be made with depositaries in the City of Chicago.

DEPOSITS.

SECTION 26. The Company shall have the right to select the particular depositary or depositaries with which it shall deposit any of the funds required to be deposited by the Company under the provisions of this ordinance, and the City shall have the right to select the particular depositary or depositaries with which shall be deposited the funds required to be deposited

by the City, in the event of purchase of the local transportation system by the City under the provisions of this ordinance.

LABOR.

SECTION 27. Hours of work and working conditions shall conform to just and reasonable standards of safety, health, comfort and efficiency, due regard being had to the character of the work, the economical operation of the local transportation system and the rendering of the best practicable service to the public. All wage earners employed by the Company shall receive wages which shall be just and reasonable and not less than shall be customarily paid for services of like character under substantially similar conditions.

COMPANY TO MAINTAIN OFFICE IN CITY.

SECTION 28. The Company shall not remove its principal office or any of its books, records, accounts, contracts, or original vouchers of receipts and expenditures beyond the limits of the City, and shall maintain an office within the City so long as the Company continues to operate any part of the local transportation system provided for in this ordinance.

CITY'S RIGHT TO INTERVENE.

SECTION 29. The Company by the acceptance of this ordinance shall and does grant to the City, and the City hereby reserves to itself the right to intervene in any suit or proceeding brought by any person, firm or corporation seeking to enjoin, restrain or in any manner interfere with the Company in the doing of any work called for by this ordinance, or involving the observance or performance of any of the agreements or conditions herein provided to be kept or performed by the Company; or in any suit to foreclose or enforce any lien, mortgage or trust deed against it, and to move for a dissolution of such injunction or restraining order in such suit, and take any other appropriate steps to protect the rights of the City in case it shall deem such action necessary and appropriate to protect the interests of the City.

The City shall have the right to proceed by injunction, mandamus or other appropriate legal proceeding to compel the performance by the Company and by the Trustees of their respective duties and obligations under this ordinance, and the Company shall have the right to proceed, by injunction, mandamus or other appropriate legal proceeding to compel the performance by the City of its duties and obligations under this ordinance.

ORDINANCE BINDING UPON SUCCESSORS AND ASSIGNS.

SECTION 30. This ordinance shall inure to the benefit of and be binding upon the lessees, successors and assigns of the Company and they and each of them shall be bound by each and all of its provisions by the Company to be kept and performed, precisely as if in every case they had respectively been named herein with the Company.

LEASE OR ASSIGNMENT.

SECTION 31. No lease, or operating agreement, and no assignment (except by way of mortgage or trust deed, under the foregoing provisions and limitations of this ordinance), shall be made by the Company without the consent of the City Council; provided, however, at any time any of the property of the Company which shall not be necessary, desirable or adaptable to or for the operation or maintenance of the local transportation system (except scrap, the proceeds of the sale of which shall be applied to the cost of operation, renewal or construction, as may be appropriate under the accounting provisions of this ordinance) may be sold (the proceeds to be deposited in the Amortization Fund, subject to the provisions of any mortgage or trust deed on the property sold) or leased by the Company (the rental to constitute a part of the gross receipts.)

WARRANTY OF TITLE.

SECTION 32. Upon the purchase by the City of the local transportation system of the Company, as in this ordinance provided, and upon the compliance by the City with the provisions of this ordinance with respect to the making of such purchase and the payment therefor, the City shall have full right and lawful authority to take over and possess said local transportation system as its own property. Upon such purchase the City shall take over and the Company shall, by good and sufficient written instrument, transfer to the City said local transportation system and property, subject to: (a) liens for taxes and assessments; (b) judgments for damages to persons and property; (c) all then outstanding and unpaid liens, if any (not including liens then callable for payment at par on any interest date) subject to which the Company shall have acquired, under the provisions of this ordinance, the properties, franchises and rights of any of the Surface Companies or Elevated Companies; and (d) all contracts and liabilities of the Company made or incurred after the effective date hereof, in the proper carrying out of the provisions of this ordinance, other than the debentures or other obligations issued by the Company for the properties of the Surface Companies and Elevated Companies under the provisions of this ordinance or issued by the Company after the effective date hereof, for capital expenditures. The Company shall warrant the title to all of the property so purchased by the City to be free from all other liens and claims whatsoever, and if at the date of said purchase there shall exist any substantial defect in the Company's title to any of the real estate acquired by it from any of the Surface Companies or Elevated Companies, an amount of the purchase price equal to the reduction in the value of such real estate, by reason of such defect, shall remain in one or more of the depositaries with which the City shall deposit the purchase money for said properties as security to the purchaser against loss by reason of such defect, until such defect shall be cured or removed.

REFERENDUM.

SECTION 33. At the election to be held in the City of Chicago on November 5, 1918, there shall be submitted to the voters of the said City, the following question (the blank spaces in said question shall be filled by inserting therein the day and month of the passage of this ordinance):

> Shall the ordinance passed by the City Council of the City of Chicago on the ..... day of ....., 1918, entitled "An ordinance authorizing the Chicago Local Transportation Company to construct, maintain and operate a system of local transportation, including street railways and elevated railroads in streets, alleys and public ways of the City of Chicago, and providing for the construction of subways by the City of Chicago and the operation

therein of local transportation facilities, by the Chicago Local Transportation Company" be approved.

The City Clerk of the City of Chicago is hereby directed, within ten (10) days after the passage of this ordinance to certify the passage thereof to the Board of Election Commissioners of Chicago and file with said Board within said period a certified copy of said ordinance; and the said Board of Election Commissioners of Chicago are hereby requested to take all necessary and proper steps to place the question of the approval of this ordinance upon the ballot to be voted at the said election to be held on November 5, 1918.

ACCEPTANCE.

SECTION 34. This ordinance shall not take effect or be in force unless or until:

1. The ordinance shall have been approved by a majority of the votes cast at said election of November 5, 1918, upon the question submitted as provided in Section 33 hereof; and

2. The Legislature of Illinois shall have passed, and there shall be in effect, such statute or statutes of the State of Illinois as may be necessary or appropriate to authorize or validate an ordinance containing such provisions as are incorporated in this ordinance, and to enable the same to be carried into effect, including the organization of a corporation of the character and having the authority and powers in this ordinance provided to be exercised by the Company; and

3. The Company shall have been organized in conformity with the provisions of this ordinance, and the entire control and management of the Company and of its affairs, property and funds shall have been vested in a Board of Trustees or Directors of the character described in this ordinance and subject to the provisions hereof; and

4. The City Council, not later than sixty (60) days after the effective date of said legislation, shall have passed an appropriate resolution or ordinance declaring that in the judgment of the City Council, the said statute or statutes have been enacted, are then in effect and are appropriate for the purposes aforesaid; and,

5. Within six (6) months after the City Council shall have passed the resolution or ordinance mentioned in paragraph four (4) of this section, or within such time thereafter as the City shall grant, by ordinance (passed within said six (6) months), the Company shall have acquired all of the properties, franchises and rights which, by this ordinance, it is obligated to have acquired on or before the effective date hereof, and shall have filed with the City Clerk of the City its written acceptance hereof, and at the time of the filing of said acceptance, shall hold and own the properties so acquired.

The effective date of this ordinance shall be the date on which said acceptance by the Company is filed, as aforesaid.

The Company is permitted to construct, maintain and operate all curves, crossings, crossovers, turnouts, branch-offs, switches and connections within the streets, alleys and public places above specifically described, connecting and necessary and convenient to connect tracks authorized by this ordinance, or to connect said tracks, or any of them, or its tracks on private property with the tracks of other corporations or with power houses, substations, carhouses, shops, yards and other property now used or hereafter required to be used in the operation of its street railways under the powers given by this ordinance; and to erect and maintain all poles and wires necessary to be used in connecting its said property, power houses and street railways, and also to construct, maintain and operate a double track on, along and across all bridges and viaducts in or crossed by any of the streets or parts of streets included in this Exhibit A.

—

PART II.

SCHEDULE OF ELEVATED RAILROAD LINES OWNED BY THE ELEVATED COMPANIES, ON THE DATE OF THE PASSAGE OF THE ORDINANCE TO WHICH THIS "EXHIBIT A" IS ATTACHED AND MADE A PART.

(1) Metropolitan Elevated Lines.

An elevated railroad and branches, with their connections, yards and appurtenances hereinafter described, in, along, over and upon the following routes and locations, and over and across all intersecting streets, avenues, alleys and public places, in the City of Chicago, County of Cook and State of Illinois, viz:

(a) Main Line. A four-track elevated railroad from Market street, between Van Buren street and Jackson boulevard; thence westerly upon and over railroad right of way to a point between Halsted street and Desplaines street; thence southerly between Halsted street and Desplaines street to a point between Van Buren street and Congress street; thence westerly between Van Buren street and Congress street to Paulina street, together with single track connection over Loomis street to power house, and over Racine avenue to car shops.

(b) South Wells Street Terminal. A three and four-track elevated railroad upon and over railroad right of way from the main line of the Metropolitan Elevated at Market street, easterly between Jackson boulevard and Van Buren street to the west line of South Wells street.

(c) Loop Connection. A two-track elevated railroad from the main line of the Metropolitan Elevated at Market street, between Jackson boulevard and Van Buren street, thence south in Market street to Van Buren street, and thence east in Van Buren street to the Loop at South Wells street and Van Buren street.

(d) Logan Square Branch. A two-track elevated railroad upon and over railroad right of way from the main line of the Metropolitan Elevated at Paulina street, between Van Buren street and Congress street; thence northerly between Paulina street and Wood street to a point between Milwaukee avenue and Division street; thence northwesterly south of and near Milwaukee avenue to Kedzie boulevard.

(e) Humboldt Park Branch. A two-track elevated railroad upon and over railroad right of way from the Logan Square Branch at a point between North avenue and Alice place; thence west between North avenue and Wabansia avenue to Central Park avenue; thence a three-track elevated railroad from Central Park avenue to the Chicago, Milwaukee & St. Paul Railway west of Lawndale avenue.

(f) Garfield Park Branch. A two-track elevated railroad upon and over railroad right of way from the main line of the Metropolitan Elevated at Paulina street; thence westerly between Van Buren street and Congress street to a point between Sacramento boulevard and Albany avenue; thence southerly to a point

between Harrison street and Flournoy street; thence westerly between said Harrison street and Flournoy street to the foot of the incline west of Lavergne avenue; thence westerly a four-track surface railroad to a point west of South Laramie avenue; thence westerly a two-track surface railroad upon and over railroad right of way of the Aurora, Elgin and Chicago Railroad to the city limits in Austin avenue; thence westerly over, along and upon right of way of the said Aurora, Elgin and Chicago Railroad from the city limits in Austin avenue, through Oak Park and Forest Park, to a point west of Desplaines avenue, in the Village of Forest Park.

(g) Douglas Park Branch. A two-track elevated railroad upon and over railroad right of way from the main line of the Metropolitan Elevated at Paulina street; thence southerly between Paulina street and Hermitage avenue to a point between 20th street and 21st street; thence westerly between 20th street and 21st street to a point between Clifton Park avenue and Central Park avenue; thence westerly a three-track elevated railroad to Crawford avenue; thence westerly a two-track elevated incline to Kildare avenue; thence westerly a two-track surface railroad to the city limits at South Kenton avenue, near West 22nd street; thence westerly between 21st street and 22nd street, through the Town of Cicero, to 62nd avenue.

(h) Lake Street Transfer Station. An elevated railroad station in Lake street, near Paulina street where the Logan Square branch of the Metropolitan Elevated passes above the elevated structure of the Chicago and Oak Park Elevated Railroad in Lake street. The station is so constructed that it is used as a transfer station between the two lines on different levels.

(i) Logan Square Yard. An elevated railroad yard, with seven tracks, on railroad right of way adjoining the Logan Square Branch, and between Kedzie boulevard and Linden place, and alley between Linden place and Milwaukee avenue.

(j) Garfield Park Branch Yard. A surface yard on railroad right of way adjoining the railroad of the Garfield Park Branch, between Lavergne avenue and Laramie avenue, and between Harrison street and Flournoy street extended.

(k) Douglas Park Branch Yards. An elevated railroad yard on railroad right of way adjoining the railroad structure of the Douglas Park Branch, between South Harding avenue and South Crawford avenue, with four tracks crossing Harding avenue connecting said yard with the Douglas Park Branch.

(1) Surface switch track between Cicero avenue and Laramie avenue, on private right of way on the Douglas Park Branch.

(2) A surface yard upon railroad right of way north of and adjoining the railroad of the Douglas Park Line between the right of way of the Chicago and Western Indiana Railroad and Kostner avenue, and between 19th street and 22nd street.

(3) A surface railroad yard upon railroad right of way adjoining the railroad of the Douglas Park Branch between 54th avenue and 56th avenue, and between 19th street and 22nd street, in the Town of Cicero.

(2) Northwestern Elevated Lines.

An elevated loop terminal line and connections and an elevated main line railroad and branches, with their yards and appurtenances hereinafter described, in, along, over and upon the following routes and locations, and over and across all intersecting streets, avenues, alleys and public places, in the City of Chicago, County of Cook and State of Illinois, viz:

(a) The Loop Terminal Line. A two-track elevated railroad in Wabash avenue from a point in Van Buren street to Lake street; thence in Lake street from Wabash avenue to Wells street; thence south in Wells street to Van Buren street; thence east in Van Buren street to Wabash avenue.

(b) Loop Connection with South Side Elevated Railroad. A two-track elevated railroad extending from the point of connection with the main line of the South Side Elevated at Harrison street northerly in Wabash avenue to the elevated railroad Loop at Van Buren street and Wabash avenue.

(c) Main Line. A two-track elevated railroad in Wells street from the Loop in Lake street and Wells street north to West Austin avenue; thence west in West Austin avenue to North Franklin street; and thence north in North Franklin street to and across Chicago avenue; thence northerly a four-track elevated railroad over and upon railroad right of way between Franklin street and Orleans street to a point near North avenue; thence west between North avenue and Blackhawk street to a point between Halsted street and Burling street extended; thence north to a point between North avenue and Shades place; thence west between North avenue and Shades place extended, to Dayton street; thence northwesterly between Clybourn avenue and Bissell street to Willow street; thence north between Sheffield avenue and Bissell street extended, to a point between Irving Park boulevard and Dakin street; thence west between Irving Park boulevard and Dakin street to a point between the Chicago, Milwaukee & St. Paul Railway and Kenmore avenue extended; thence northerly between Kenmore avenue and said last mentioned railroad to Montrose avenue; thence northwesterly between Broadway and said Chicago, Milwaukee & St. Paul Railway to Broadway.

(d) Evanston Branch. A two-track elevated railroad on steel structure and on concrete and earth embankment from a point on the main line of the Northwestern Elevated at Broadway northerly over and upon the right of way of the Chicago, Milwaukee & St. Paul Railway to the city limits of the City of Chicago at Howard street; thence continuing northerly along and upon the right of way of the Chicago, Milwaukee & St. Paul Railway, through Evanston and in Wilmette, to the south line of Linden avenue in Wilmette.

(e) Ravenswood Branch. A two-track elevated railroad over and upon railroad right of way from a point on the main line of the Northwestern Elevated, between Sheffield avenue and Clark street and just south of Roscoe street; thence northwesterly to and across Roscoe street and Sheffield avenue; thence westerly between Roscoe street and Newport avenue and Newport avenue extended to a point between West Ravenswood avenue and North Lincoln street; thence northerly between West Ravenswood avenue and North Lincoln street to a point between Wilson avenue and Leland avenue; thence westerly between Wilson avenue and Leland avenue to North Leavitt street; thence westerly a three-track elevated railroad between said Leland avenue and Wilson avenue to a point west of Western avenue; thence westerly a two-track inclined railroad to a point between Campbell avenue and Rockwell street; thence westerly a two-track surface railroad between Leland avenue and Eastwood avenue to a point between North Spaulding avenue and North Kimball avenue; thence north to Lawrence avenue.

(f) North Water Street Branch or Stub. A three-track structure from a point on the main line of the Northwestern Elevated at North Water street; thence east in, over and upon North Water street to Clark street.

(g) Incline to Lower Wilson Station. An inclined two-track railroad connecting the main line of the Northwestern Elevated at a point on and over Montrose avenue with lower station and yard at or near Wilson avenue, between Broadway and the Chicago, Milwaukee & St. Paul Railway.

(h) Switch to Wilson Avenue Surface Yard. A switch track connecting with the tracks of the Chicago, Milwaukee & St. Paul Railway south of Montrose boulevard; thence running northerly across Montrose boulevard to a connection with the Wilson avenue surface yard.

(i) Wilson Avenue Yards. Elevated yards, and surface yards underneath, on railroad right of way adjoining the main line of the Northwestern Elevated, between Montrose avenue and Wilson avenue, and between Broadway and Chicago, Milwaukee & St. Paul Railway right of way.

(j) Ravenswood Yards. Surface railroad yard on

railroad right of way adjoining the Ravenswood Branch, between Kimball avenue and Spaulding avenue, and Lawrence avenue and Eastwood avenue.

(k) Howard Street Yard. A railroad yard on railroad right of way east of and adjoining the Evanston Branch and between Howard street and Juneway terrace in the City of Chicago.

(l) Linden Avenue Yard. A railroad yard on railroad right of way adjoining said Evanston Branch, between Hill street and Linden avenue, and between 3rd street and 4th street, in the Village of Wilmette.

(3) South Side Elevated Lines.

An elevated railroad and branches, with their yards and appurtenances hereinafter described, in, along, over and upon the following routes and locations, and over and across all intersecting streets, avenues, alleys and public places, in the City of Chicago, County of Cook and State of Illinois, viz:

(a) Main Line. A two-track elevated railroad commencing at the intersection of said railroad with the Northwestern Elevated in Wabash avenue at Harrison street; thence westerly in Harrison street and over railroad right of way to the north-and-south alley between South Wabash avenue and South State street; thence in, over, along and upon said alley to a point north of and near the north line of 12th street; thence southerly a three-track elevated railroad mainly upon and over railroad right of way, but partly upon and over the north-and-south alley between said South Wabash avenue and South State street to a point just south of East 40th street; thence between East 40th street and East 41st street over and upon railroad right of way easterly to a point between Prairie avenue and Calumet avenue; thence southerly mainly upon and over railroad right of way, but partly upon and over the north-and-south alley between Prairie avenue and Calumet avenue to a point about 250 feet north of the north line of 43rd street; a two-track elevated railroad from said last mentioned point southerly along and over railroad right of way between said Prairie avenue and Calumet avenue to East 63rd street; thence a three-track elevated railroad easterly in, over, along and upon East 63rd street to Jackson Park.

(b) Congress Street Spur. A single-track elevated railroad, beginning at a point on the main line of the South Side Elevated south of and near Harrison street, between Wabash avenue and State street; thence north in, over, along and upon the north-and-south alley between South Wabash avenue and South State street to and across Congress street.

(c) Kenwood Branch. A two-track elevated railroad, beginning at a point on the main line of the South Side Elevated over Prairie avenue just south of 40th street; thence east over steel structure on railroad right of way to the east line of the alley between Calumet avenue and Prairie avenue; thence easterly on earth and concrete embankment upon, along and over the tracks and right of way of the Chicago Junction Railroad to the west line of Lake Park avenue; thence easterly and southerly upon steel structure over the right of way of the Chicago Junction Railroad to the north line of 42nd street between Lake Park avenue and the Illinois Central right of way; thence southerly and easterly upon elevated structure upon railroad right of way to 42nd place.

(d) Stock Yards Branch. Beginning at a point in Prairie avenue just south of the main line of the South Side Elevated; thence west with a single-track elevated railroad over railroad right of way to Indiana avenue; thence with a two-track elevated railroad westerly over railroad right of way to a point between South Wabash avenue and South State street; thence westerly along and over railroad right of way between the north line of 40th street and 41st street, to a point between Union avenue and Emerald avenue; thence southwesterly from said last mentioned point, crossing Halsted street at a point between 41st and Root streets; thence running westerly to the intersection of the private streets known as Exchange avenue and Center avenue; thence with a single-track elevated railroad westerly on Exchange avenue to the private street known as Packers avenue; thence south on Packers avenue to the private street known as 44th street; thence east at 44th street to Center avenue; thence north on Center avenue to the main line at said point of intersection.

(e) Englewood Branch. A two-track elevated railroad beginning on the main line of the South Side Elevated at 59th street between Prairie avenue and Calumet avenue; thence over and upon railroad right of way westerly, between 59th street and 60th street, to a point between Wentworth avenue and Princeton avenue; thence southerly to a point between 63rd street and 64th street; thence westerly between 63rd street and 64th street to Loomis boulevard.

(f) Normal Park Branch. A two-track elevated railroad over and upon railroad right of way beginning at Stewart avenue on the Englewood Branch of the South Side Elevated; thence southerly between Stewart avenue and Eggleston avenue to a point between Marquette road and Normal parkway; thence westerly to a point between Normal avenue and Parnell avenue; thence southerly to and over 69th street.

(g) Power House Switch Track. A single elevated switch track from the tracks of the Chicago Junction Railroad in 40th street, between South State street and South Wabash avenue, northwesterly across 40th street and northerly on railroad right of way in the rear of the power house at the northeast corner of 40th street and South State street, to a point south of and near East 39th street.

(h) Fortieth Street Switch Track. A single elevated switch track from said main line of the South Side Elevated, and located between 39th street and 40th street.

(i) Fifty-seventh Street Switch Track. A single elevated switch track from a point on the main line of the South Side Elevated at the north line of 57th street southerly over and across 57th street and railroad right of way to a point between 57th street and 58th street.

(j) Sixty-third Street Surface Yard. Railroad yards between Prairie avenue and Calumet avenue and between the south line of 63rd street and the Lake Shore and Michigan Southern Railroad right of way, near 65th street; a two-track inclined railroad from the main line of the South Side Elevated, at a point about 150 feet north of 63rd street, southwesterly and southerly along railroad right of way across 63rd street to the 63rd street surface yard, to connect the elevated structure of the South Side Elevated with the 63rd street surface yard.

(k) Sixty-third Street Elevated Yards. Railroad yards on elevated structure on railroad right of way lying east of and adjoining the main line of the South Side Elevated from 61st street to 63rd street, and west of the west line of Calumet avenue, together with a connection with the three-track elevated railroad in 63rd street at Calumet avenue.

(l) Lake Avenue Yard. A storage yard on elevated structure on block between 42nd street and 42nd place, and between the first alley west of the Illinois Central right of way and the second alley west of the Illinois Central right of way, with two or more tracks over 42nd street connecting with said storage yard.

(m) Union Avenue Yard. An elevated structure on railroad right of way between the two-track railroad described as the Stock Yards Branch and Union avenue and between the right of way of the Union Stock Yards and Transit Company and the Chicago Junction Railroad just south of 40th street, and the east and west alley north of Root street, crossing 41st street with six tracks.

(n) Englewood Yard. An elevated structure on railroad right of way south of the main line of the Englewood Branch, from the west line of South Racine avenue with five tracks over and across Elizabeth, Throop and Ada streets, and across all intersecting alleys to the east line of Loomis boulevard.

(4) Oak Park Elevated Lines.

An elevated railroad and branches, with their yards and appurtenances hereinafter described, in, along,

over and upon the following routes and locations, and over and across all intersecting streets, avenues, alleys and public places, in the City of Chicago, County of Cook and State of Illinois, viz:

(a) Main Line. A two-track elevated railroad in Lake street and over bridges and viaducts from and connecting with the loop at Wells street to Rockwell street; a three-track elevated railroad in Lake street from Rockwell street to a point west of Crawford avenue; thence westerly a two-track elevated railroad in Lake street to a point near 50th avenue; thence westerly a three-track elevated railroad in said Lake street to Laramie avenue; thence westerly a two-track inclined railroad, partly on railroad right of way and partly in Lake street, to Long avenue; thence westerly a two-track surface railroad in the north side of Lake street to Pine avenue; thence westerly in the north part of South boulevard to the city limits, at the center line of Austin avenue; thence westerly in the north side of South boulevard, through the Village of Oak Park, to Harlem avenue; thence westerly upon and over railroad right of way to Marengo street, in the Village of Forest Park.

(b) Market Street Stub. A two-track elevated railroad in Market street from the point of connection with main line of the Oak Park Elevated in Lake street southerly to Madison street, with an additional track between Randolph street and Madison street.

(c) Lake Street Transfer Station. An elevated railroad station in Lake street, near Paulina street, where the Logan Square branch of the Metropolitan Elevated passes above the elevated structure of the Oak Park Elevated in Lake street. The station is so constructed that it is used as a transfer station between the two lines on different levels.

(d) Hamlin Avenue Yard. A surface yard on railroad right of way lying north of Lake street and south of the Chicago and North Western Railroad, between North Avers avenue and North Harding avenue, and connected with the main line of said Oak Park Elevated in Lake street by a single track inclined railroad structure.

And the following appurtenances to each and all of the above described elevated lines:

Sidetracks, switches, storage-tracks, yard-tracks, turnouts, crossovers, connecting tracks, signal towers, signal devices, safety devices, telephone lines, telegraph lines, transmission lines, underground conduits, water tunnels, conductor rails, stations, station platforms and stairways, terminals, car shops, repair shops, power houses and substations, and all other structures, fix-95th street, from Ewing avenue to Commercial avetures, appliances and devices necessary or useful for the operation of said main and branch lines.

EXHIBIT "B"

Immediately after the effective date of this ordinance the Company shall proceed with all due diligence and as promptly as practicable to improve, extend, equip and develop its entire local transportation system and to operate the same so as to furnish to the public quick, convenient and comfortable service and in accordance with the provisions of this ordinance, including the following specifications and provisions. The general principles to be observed by the Company and the objects to be accomplished shall be:

1. To provide main rapid transit lines (particularly by means of elevated and subway development) that will serve all sections of the city, distribute traffic, relieve congestion and carry people to and from all the business districts of the city, whether central or outlying.

2. To provide rapid transit routes outside of the loop district (by which term is meant the area south and east of the Chicago River and north of Polk street) enabling through passengers to travel direct without being unnecessarily diverted into or through this district, and to give direct facilities to outlying centers.

3. To provide additional and better means of travel through the central business district of the city (meaning the central and relatively congested area at present extending from Division Street to Twelfth Street and from Lake Michigan to Racine Avenue, and the future enlargement of such congested area with the growth and development of the city) with a view to broadening its area and avoiding the undue congestion of business and traffic therein.

4. To relieve the congestion of the surface or street railway lines wherever necessary or desirable and to carry as many west side street railway cars to the Lake Front as practicable by means of subways through the loop district.

5. To provide express service by the addition of third or fourth tracks on lines of the rapid transit (elevated and subway) system, as herein provided.

6. To co-ordinate and unify the operation of the entire system, and to this end to provide for the comfortable and convenient physical transfer of passengers between the rapid transit and surface lines and the utilization of the surface lines so far as desirable and practicable as feeders to and from the rapid transit lines. To this end, among other things, main transfer stations shall be established (on property acquired by the Company wherever necessary) as follows:

(a) At 63rd Street and Stony Island Avenue for the purpose of transferring and receiving passengers between surface lines to and from the south and southeast and the elevated lines at the existing Jackson Park Terminal.

(b) Between Prairie Avenue and Calumet Avenue south of 63rd Street or (as the Trustees may determine) at the intersection of South Park Avenue and 63rd Street or within 300 feet therefrom, for passengers to and from the lines from the south converging to the present Cottage Grove Avenue system, diverting these lines toward a special terminal where the passengers can transfer to elevated trains originating at this point, the transfer to be effected directly across a platform at the same level, surface cars and elevated trains stopping at opposite sides of the same platform.

(c) At Halsted Street and the Englewood branch of the South Side Elevated lines whenever in the judgment of the Trustees the traffic to and from the district south of this point is sufficiently heavy to warrant the establishment and operation of special transfer facilities.

(d) At the Clark Street and at the Wilson Avenue Stations of the Northwestern Elevated lines for the transference of passengers between these lines and the surface lines at Clark Street, Broadway and Lawrence Avenue.

(e) At Logan Square whenever the traffic over the surface lines to and from this point is sufficiently heavy to warrant the establishment and operation of special transfer facilities.

(f) At the extension of the Humboldt Park branch of the Metropolitan Elevated line to Grand Avenue whenever, the traffic over the street railway lines to and from this extension is sufficiently heavy to justify the establishment and operation of such special facilities.

(g) At all other points on the Elevated or Subway lines at which a sufficient traffic develops to justify the establishment of special transfer facilities.

For the further carrying out of the general principles and the accomplishment of the objects hereinabove specified, the local transportation system shall

be improved, extended, developed and equipped by the Company in the manner following (all subways to be constructed and owned by the City and operated by the Company, subject to the limitations and provisions of this ordinance):

NORTH AND SOUTH RAPID TRANSIT LINES.

First. A through line shall be developed by four-tracking completely the Northwestern Elevated and South Side Elevated lines from 63rd street on the south to Wilson avenue on the north. The central portion of this four-track through line shall consist of a two-track subway extending from a junction with the South Side Elevated at or near 22nd street, running north under State street to Chicago avenue; thence west to a junction with the Northwestern Elevated, together with approaches thereto. The other two tracks of the central section of this through four-track line shall be secured by the utilization of the existing elevated railroad structure in Wells street extended south over Wells street to Polk street with grade separation at Van Buren street; thence east over Polk street to a connection with the South Side Elevated.

There shall be established and operated on these lines through routes giving two-way service on opposite sides of the loop.

Second. In addition to these through lines, the existing elevated tracks over Wabash avenue at Congress street shall be utilized for south side stub service. A corresponding north side stub service shall be provided by the extension of the North Water street tracks of the Northwestern Elevated east and south to a new elevated stub terminal at State and Lake streets. Both these terminals shall be used to afford special rush-hour service north and south from the loop district, as well as transfer facilities from west side lines in both directions.

Third. A through north and south line shall be established by constructing a two-track elevated railroad north from a terminal at 71st street and Ashland avenue over or parallel to Ashland avenue (or within 600 feet therefrom) to 22nd street with connections to the Englewood and Stock Yards branches of the South Side Elevated; and at 22nd street said line shall be continued to a connection at or within 200 feet from 20th street with the existing tracks of the Metropolitan Elevated; thence over said tracks to the Robey street junction, with grade separation at Marshfield avenue; provided that said line shall not be located in Ashland avenue south of 47th street under the authority granted in this ordinance.

There shall be constructed from the northwest branch of the Metropolitan Elevated a two-track elevated railroad north over or parallel to Robey street (and within 200 feet therefrom) to a junction with the existing Ravenswood branch of the Northwestern Elevated at Cornelia street (or within 500 feet therefrom); thence north by additional tracks over the existing right of way of said Ravenswood branch. This through line shall be so operated as to give direct transfer to and from the five (5) existing elevated branch lines from the west, and to the seven (7) branch and main lines to the east, existing or provided in this ordinance.

The elevated lines hereinabove provided to be constructed on Robey street across the north branch of the Chicago River shall not be constructed until the City shall by ordinance provide for the opening and extension of Robey street across the said north branch of the Chicago River by means of a viaduct and bridge, adapted for general street traffic, including surface street car lines, and also the said elevated lines; and the Company shall pay one-third (1/3) of the cost of said viaduct and bridge, excepting therefrom the cost of paving the roadway and sidewalk (unless surface line tracks shall be located in the roadway, in which case the Company shall pave its right of way as herein provided), on account of providing additional strength in the said structure for carrying the said elevated lines. And in the event that said ordinance shall provide for the payment of the remaining cost of the opening and extension of said street, and the erection of said viaduct thereon, by special assessment upon the property specially benefited thereby, one-third (1/3) of so much of said cost as shall be assessed against the City for public benefits, may by ordinance be paid out of the City Traction Fund, as provided in the ordinance to which this exhibit is attached.

Fourth. A two-track subway shall be constructed extending from a transfer terminal at the intersection of 63rd street and Cottage Grove avenue, northward under Cottage Grove avenue or some adjacent north and south street (to be determined by the City Council) to about 22d street, thence to Michigan avenue, thence in Michigan avenue to 9th street, thence west, passing under the State street subway to Clark street, thence north under Clark street, passing under the two-track subway under Chicago avenue previously constructed. From Chicago avenue this two-track Cottage Grove avenue-Michigan avenue-Clark street subway shall form part of a four-track subway, extending north under Clark street to a junction with the Northwestern Elevated in the Belmont avenue-Wilson avenue (Lakeview) section. The other two tracks of this four-track subway shall be connected with the two tracks in Chicago avenue, thereby extending the State street-Chicago avenue subway north in Clark street. Two tracks shall be constructed northwesterly beyond this district to accommodate the outlying territory when and as the traffic requires such tracks. At the termini of this subway, suitable and convenient transfer facilities shall be provided for passengers from radiating surface lines, as well as facilities for through running of trains from rapid transit lines reaching out into the outlying districts.

Fifth. A two-track elevated extension of the Northwestern Elevated shall be constructed south in Halsted street (or within 200 feet therefrom) from North avenue to 89th street, with grade separations and transfer stations at intersections with the Oak Park Elevated, Metropolitan Elevated and Stock Yards and Englewood branches of the South Side Elevated; provided that said line shall not be located in Halsted street under the authority granted in this ordinance. Whether this elevated line shall be constructed before or after the subway hereinafter proposed under Halsted street shall be determined later by the City depending upon the requirements of the traffic as they may develop.

Sixth. A two-track elevated extension from the present elevated railroad terminus near the intersection of 63rd street and Stony Island avenue, south in Stony Island avenue (or within 300 feet therefrom) to 73rd street or 79th street, and thence in a south-

easterly direction to and into South Chicago, in the vicinity of 95th street and Commercial avenue, the precise location of said line to be determined by the City by ordinance.

Seventh. A two-track elevated line extension from a connection with the 63rd street branch of the South Side Elevated, at a point between Indiana avenue and South Park avenue, thence south to 87th street, at a point between Indiana avenue and South Park avenue, the exact location of the line to be determined hereafter by the City by ordinance; thence south to 111th street, at a point between Cottage Grove avenue and Michigan avenue, the exact location to be determined hereafter by the City by ordinance.

Eighth. An extension of the Ashland avenue elevated line from 71st street south in Ashland avenue (or within 200 feet therefrom) to 87th street, and thence southwesterly to the intersection of Longwood boulevard and 111th street, the precise location to be determined by the City.

Ninth. A two-track elevated structure from the intersection of Kedzie and Lawrence avenues south in Kedzie avenue (or within 200 feet therefrom) to 79th street.

East and West Rapid Transit Lines.

First. An additional track shall be constructed over or along the existing Metropolitan Elevated right of way from Robey street junction to Logan Square and a two-track extension of the Logan Square branch in Milwaukee avenue (or within 500 feet therefrom) from Logan Square to Irving Park boulevard, with yards and terminals at the last named point.

Second. An extension of the Humboldt Park branch of the Metropolitan Elevated shall be constructed in North avenue (or within 500 feet therefrom) from the present terminal of said branch to Grand avenue, with yards and terminal at the last named point; provided that said line shall not be located in North avenue under the authority granted by this ordinance.

Third. A third track shall be added to the Chicago & Oak Park Elevated structure, reconstructed for that purpose, from the Lake street junction with the Union Loop at Wells street, west to Talman avenue, including grade separation of the elevated structures at Lake and Wells streets and the necessary changes for three tracks on the Lake street bridge over the Chicago River, and on the viaduct west of the river.

Fourth. An additional track shall be constructed on the Garfield Park branch of the Metropolitan Elevated from Marshfield avenue station west giving a complete third track to Crawford avenue station.

Fifth. A third track shall be added to the Douglas Park branch of the Metropolitan Elevated from 20th street to the vicinity of Central Park avenue, giving a complete third track between 20th street and Crawford avenue.

Sixth. A three-track elevated trunk line shall be constructed from the northwest junction of the Metropolitan Elevated at Robey street and Milwaukee avenue in Milwaukee avenue (or within 500 feet therefrom) to a connection with the Oak Park Elevated at Lake street; the structure to be so designed as to carry a fourth track to be added when required by the traffic.

Seventh. A two-track elevated line, forming a junction with the three-track elevated line in Milwaukee avenue, hereinabove provided, near Lake street shall be constructed on Clinton street from said junction to a connection with the Metropolitan Elevated near Van Buren street, and shall pass under the Oak Park Elevated structure at Lake street, so as to provide a separation of grades at that point.

Eighth. A two-track connection shall be constructed from the terminal of the existing Garfield Park branch of the Metropolitan elevated, west through Forest Park and River Forest, joining an extension of the Oak Park Elevated, with terminal yards in River Forest.

Ninth. A two-track subway with a portal in Curtis street, at or near its intersection with May street shall be constructed under Milwaukee avenue to Halsted street, south under Halsted street to Madison street and east under Madison street, crossing under the Clark and State street rapid transit subways with stations for transfer thereto, thence east to Michigan avenue, with stations for transfer to surface car subway under Grant Park or Michigan avenue, thence north across the river and west under Grand avenue, again passing under the State and Clark street rapid transit subways, with stations for transfer thereto, thence west to Milwaukee avenue near Halsted street, thus completing a down town route passing through the north half of the central business district. Two of the elevated tracks, hereinabove provided for, on Milwaukee avenue shall be diverted into this subway at the Curtis street portal, whenever so determined by the Trustees.

Tenth. A three-track elevated line shall be constructed from a connection with the Metropolitan Elevated at Van Buren street between Desplaines and Halsted streets; thence south and west to Blue Island avenue, Harrison and Halsted streets; thence southwesterly within 300 feet from Blue Island avenue to a connection with the proposed Ashland avenue line at 22nd street and Ashland avenue; also a connection from the said Blue Island avenue line with the existing Douglas Park branch of the Metropolitan Elevated between 20th and 21st streets. This structure shall be so designed as to carry a fourth track when so required by the traffic.

Eleventh. A two-track subway with a portal at (or within 300 feet from) the intersection of Blue Island avenue and Taylor street shall be constructed under Blue Island avenue and Harrison street to Michigan avenue or Grant Park, passing under the Clark and State street rapid transit subways, with stations for transfer thereto; thence north under Michigan avenue or Grant Park to Madison street with stations for transfer to surface car subways under Grant Park or Michigan avenue; thence west under Madison street to Halsted street, and south under Halsted street to a connection with said subway, thus completing a down town loop passing through the south half of the central business district.

Two tracks of the elevated line on or near Blue Island avenue, hereinabove provided for, shall be diverted into said subway at the Taylor street portal when so determined by the Trustees. This line shall connect with the Douglas Park branch of the Metropolitan Elevated between 20th and 21st streets and with the Ashland avenue branch at 22nd street and Ashland avenue.

The subways hereinabove provided for under Hal-

sted street between Milwaukee avenue and Blue Island avenue shall be so constructed as to permit the operation of same as a route connecting the lines of the north, west and southwest on Blue Island avenue and Milwaukee avenue without passing through the down town district, and shall be thus operated when so determined by the Trustees.

Twelfth. A two-track elevated line shall be constructed from a point at or within 500 feet from the intersection of 41st place and the Ashland avenue elevated line, hereinabove provided, southwesterly to 43rd and Robey streets; thence west in 43rd street or within 300 feet therefrom to Archer avenue; and thence on Archer avenue, or within 300 feet therefrom, to Cicero avenue.

Thirteenth. The Englewood branch of the South Side Elevated shall be extended in 63rd street (or within 300 feet therefrom) from Loomis street to Cicero avenue, and the two-track elevated structure on 63rd street shall be extended from a point at or near the intersection of 63rd street and Calumet avenue west in 63rd street (or within 300 feet therefrom) to a point at or near the intersection of 63rd street and Harvard avenue, so as to make a continuous east and west line on or near 63rd street from Stony Island avenue to Cicero avenue.

Fourteenth. The Logan Square branch of the Metropolitan Elevated shall be extended from Irving Park Boulevard to and into Norwood Park (the location of the line to be determined by the City Council) and the Humboldt Park branch shall be extended in North avenue (or within 500 feet therefrom) to present City limits, both said extensions may with the approval of the City, be built on the surface of the ground instead of on an elevated structure, and the Ravenswood branch of the Northwestern Elevated shall be extended from the Kimball avenue yards west to a point at or near the intersection of Lawrence and Elston avenues.

All new elevated structures to be built within the limits of the down town district, or in public streets elsewhere throughout the City shall be constructed with solid floors of steel or concrete, and with the ties imbedded in broken stone or other suitable ballast material so as to reduce the noise of trains operating over such structures as much as practicable, provided, however, that if a form of structure is designed which, in the judgment of the Trustees is equally effective in reducing noise, and not otherwise objectionable, such form of structure may be specified by the Trustees instead of the above specified solid floor ballasted track structure.

Surface Line Improvements.

Surface line subways shall be constructed through the congested central business district to form the nucleus of a downtown terminal system of subways into which as many surface line cars as possible shall be diverted. These surface line subways shall be constructed in the following order:

1. A two-track subway shall be built east under Washington street, from and connecting with the Washington street tunnel, which shall be reconstructed for that purpose, at low level to Michigan avenue or Grant Park, passing beneath the north and south rapid transit subways, with stations for transfer thereto; thence at high level south under Michigan avenue or Grant Park to Jackson street, with loop or stub facilities under Grant Park or Michigan avenue. This subway with its present west portal under the Northwestern Station shall accommodate as many as practicable of the important lines from the west and northwest territory which now are forced to use the congested surface terminal loops along State and Dearborn streets.

2. Another east-west two-track subway shall be built under Jackson street from and connecting with the Van Buren street tunnel, which shall be reconstructed for this purpose, east under Jackson street at low level to a connection at Michigan avenue with the previously mentioned Washington street subway, passing under the north and south rapid transit subways and with stations for transfer thereto.

To relieve surface car congestion in the Loop district, as many west side surface cars as possible shall be run through these subways under Washington street and Jackson street to the Lake front, with stub or loop terminals and a short subway connecting them under Michigan avenue or Grant Park, so that either through or turn-back service may be operated as may seem proper. Such of the remaining west side cars as continue to operate on the surface shall be turned back west of the center of the Loop on Clinton, Franklin, La Salle or such other streets as the traffic may warrant.

3. A two-track north-south surface car subway shall be built under Indiana avenue from 18th street, connecting with the proposed Illinois Central station at 12th street; thence under Michigan avenue or Grant Park to a connection with the above mentioned west side surface car subways. This subway shall accommodate the majority of the surface cars now entering the business district in Wabash avenue.

A station service directly connecting the Northwestern, Pennsylvania-Burlington-Saint Paul, Lake Shore, and Illinois Central-Michigan Central steam railroad terminals shall be established. By the time the west side surface subways are completed, the majority of this railroad station service shall be put into operation from Michigan avenue to Clinton street, on which street the station route cars will operate between the portals of the Washington and Van Buren street tunnels. This west side station route shall serve the Illinois Central Railroad through its Van Buren street station and its proposed Monroe street suburban station if constructed. Later with the Indiana avenue connection the complete station service shall be established, except for the Grand Central and Dearborn steam railroad terminals, which shall be served so far as practicable by the south extension of the Wells street elevated tracks.

This complete subway route shall further provide for a direct passenger movement and direct transfer facilities between the south lake shore district and the west and northwest districts.

4. An extension of the existing Division street surface line from Mozart street west through Humboldt Park to connect with the existing Division street surface line at Grand avenue, said extension to be constructed when a right of way shall have been provided therefor. In the event that the cost of said right of way, or any part thereof, is paid by special assessment upon the property specially benefited

thereby, one-third (1/3) of so much of said cost as shall be assessed against the City for public benefits may, by ordinance, be paid out of the City Traction Fund, as provided in the ordinance to which this exhibit is attached.

Additional surface line development throughout the remaining districts of the City shall be provided for by the Company coincidently with the improvement of the rapid transit lines as City growth proceeds.

City-wide development of the surface lines in conjunction with the rapid transit lines shall be carried out efficiently as the growth of the city proceeds. This development shall provide for the further establishment of:

1. Logical through routes on the zone system with sufficiently short headway to render them efficient and attractive to patrons;

2. Further development of the zone system of car operation by means of which service on these long lines may be tapered off according to the traffic demands by establishing short line terminal routes;

3. Skip-stops wherever practicable. The entire system of surface line stops shall be revised so as to eliminate needless stops, especially on diagonal streets or where transverse streets are offset.

4. Finally, outlying lines intersecting rapid transit lines shall be arranged so that transfer of long haul passengers may be facilitated without disturbing or disconnecting the through surface line service along important thoroughfares reasonably required by the traffic thereon.

The foregoing improvements, extensions and additions to the local transportation facilities in the City of Chicago shall be made under the provisions of this ordinance as and when so directed by the Trustees, except that the following shall be done within the initial construction periods hereinafter provided for:

FIRST THREE-YEAR PERIOD.

All the items under this heading shall be commenced promptly upon the effective date of this ordinance and shall be completed within three years thereafter.

1. Construct a two-track subway in State street, from a junction with the South Side Elevated at 22nd street running north to Chicago avenue and thence west in Chicago avenue to a junction with the Northwestern Elevated structure.

2. Construct a two-track surface car subway from the east end of the Washington street tunnel, reconstructed for that purpose, in Washington street to Michigan avenue, south in Michigan avenue to Jackson street, west in Jackson street to Franklin street, south to the east entrance of the Van Buren street tunnel, reconstructed for that purpose, with suitable terminals under Grant Park for returning cars on each route.

3. Lengthen platforms on elevated stations, beginning with the lines having the present heaviest traffic so as to obtain additional capacity at the earliest possible date.

4. Extend the existing elevated railroad structure in Wells street, south from Van Buren street in Wells street to Polk street with grade separation at Van Buren street; thence east in Polk street to a connection with the South Side Elevated.

5. Add a fourth track to South Side Elevated from the 22nd street junction with the new subway to 43rd street and a third track extending from 43rd street to 63rd street.

6. A three-track elevated trunk line to be constructed, from the northwest junction of the Metropolitan West Side Elevated Railway at Robey street and Milwaukee avenue, in Milwaukee avenue (or within 500 feet therefrom) to a connection with the Oak Park Elevated Railroad at Lake street.

7. Add a third track to the Douglas Park branch of the Metropolitan Elevated from 20th street to the vicinity of Central Park avenue, giving a complete third track between 20th street and Crawford avenue.

8. Add a third track connection on Northwestern Elevated from Wilson avenue to existing third track north of Argyle station.

9. Add a third track to the Oak Park Elevated Railroad structure, reconstructed for that purpose, from the Lake street junction with the Union Loop at Wells street, west to Talman avenue, including grade separation of the elevated structures at Lake and Wells streets, and the necessary changes for three tracks on the Lake street bridge over the Chicago River, and on the viaduct west of the river.

10. Add a third track, and the additional structure needed therefor to the Garfield Park branch of the Metropolitan Elevated from Marshfield avenue to Crawford avenue.

11. Construct a new two-track elevated line in Milwaukee avenue (or within 500 feet therefrom) from Logan Square to Irving Park boulevard, including terminal and yards at the latter point.

12. Construct a new two-track elevated line within 500 feet from North avenue as an extension of the Humboldt Park branch of the Metropolitan Elevated to Grand avenue with terminal yards at the last named point.

13. Construct a two-track elevated line in Ashland avenue (or within 600 feet therefrom) north from a terminal at 71st street to 20th street wih connections to the Englewood and Stock Yards branches of the South Side Elevated; and at 20th street said line shall be continued to a connection with the existing tracks of the Metropolitan Elevated within 200 feet from 20th street. Also with a connection at 22nd street with the Blue Island avenue elevated line when built, with such grade separation as may be found necessary and desirable. The said line, from 47th street to 22nd street, to be designed to carry a third track to be added later.

14. Construct a new two-track elevated connection between said Ashland avenue elevated line provided for in the foregoing paragraph and the Englewood and the Stock Yards branches of the South Side Elevated. Location to be determined by the City Council.

15. Elevate the tracks of Oak Park Elevated from Laramie avenue to Forest Park station.

16. For development of the maximum use of all the tracks of the four-track north and south rapid transit line, between 63rd street on the south and Wilson avenue on the north, passing points shall be provided, which will permit the operation of express service on local service tracks; to this end, passing points, involving the building of two additional tracks and structures at each point, shall be constructed at not to exceed two locations on the South Side Elevated, and not to exceed two locations on the North-

western Elevated as may be determined by the Trustees. The tracks and structures of each passing point to extend a distance which will include not to exceed two stations.

17. Extend the existing Division street surface line from Mozart street west through Humboldt Park to connect with the existing Division street surface line at Grand avenue. Said extension to be constructed when a right of way shall have been provided therefor in any manner approved by the City by ordinance.

18. Extend the existing Ashland avenue surface line from Cortland street north to connect with the existing Ashland avenue line at Clybourn avenue. Said extension to be constructed when Ashland avenue shall have been extended by viaduct or otherwise between said points.

19. Construct the following double track surface line extensions: in 31st street from Crawford avenue to Kedzie avenue, when the City shall have constructed a bridge across the South Branch of the Chicago River at Thirty-first street, designed to carry street railway tracks, in said Thirty-first street from Kedzie avenue to Western avenue; in 18th street from Leavitt street to Western avenue, and in 47th street from Kedzie avenue to Archer avenue.

20. Construct a single track surface line extension (with proper turnouts) in Burley avenue from 123rd street to 126th street, and Brandon avenue; thence in Brandon avenue from 126th street to Brainard avenue, in Hegewisch.

21. Construct the following two-track surface line extensions: in Devon avenue from Western avenue to Kedzie avenue; in Belmont avenue from Cicero avenue to Central avenue; in Diversey avenue from Crawford avenue to Cicero avenue; in Fullerton avenue from Long avenue to Central avenue; in 87th street from State street to Ashland avenue; and in 87th street from Cottage Grove avenue to State street.

22. Connect the double-track surface line on Harrison street from its present terminus west of State street, across State street with the existing surface tracks on Harrison street between State street and Wabash avenue; connect the 18th street double-track surface line from its present terminus west of State street, across State street with the existing surface tracks on 18th street east of State street, and extend the same on 18th street from Indiana avenue east to the Illinois Central right of way; and extend the existing double-track surface line on 22nd street from Indiana avenue east on 22nd street to the Illinois Central right of way.

23. Provide for terminal transfer facilities from surface to elevated lines in this period.

24. Provide ample rolling stock as required for rapid transit lines.

25. Provide additional tracks, ample rolling stock, power, substations and equipment required for surface lines.

SECOND THREE-YEAR PERIOD.

The following items shall be commenced before or promptly upon the expiration of the first three-year period hereinabove referred to, and shall be completed within three years thereafter.

1. Construct a surface car subway from 18th street and Indiana avenue connected with the proposed Illinois Central station at 12th street, to and under Grant Park or Michigan avenue to connect with the other surface car subways, hereinbefore described in item 3 under the heading "Surface Line Improvements."

2. Construct a two-track extension of the present North Water street terminal tracks east to State street and south over State street to the present Loop station over Lake street, including a new river bridge on State street, one-third of the cost of such bridge to be paid by the Company and the remainder by the City.

3. Construct a two-track elevated line, forming a junction with the three-track elevated structure in Milwaukee avenue in the vicinity of Lake street, to be built over Clinton street to a connection with the Metropolitan Elevated, passing under the Oak Park Elevated at Lake street, thus providing a separation of grades at that point. The Wells Street Terminal of the Metropolitan Elevated to be rearranged and enlarged.

4. Complete the realignment of the Northwestern Elevated tracks at Halsted street and North avenue to reduce the delays on account of heavy curvature.

5. Elevate the present surface tracks of the Northwestern Elevated from Western avenue to Kimball avenue yards.

6. Reconstruct the structure, tracks and station at the Belmont avenue junction of the Northwestern Elevated and extend the station to provide additional facilities and separate track grades.

7. Add a fourth track to the South Side Elevated from 43rd street to 63rd street.

8. Construct a three-track elevated line from a connection with the Metropolitan Elevated at Van Buren between Desplaines and Halsted streets; thence south and west to Blue Island avenue, Harrison and Halsted streets; thence southwestwardly within 300 feet from Blue Island avenue to a connection with the proposed Ashland avenue line at 22nd street and Ashland avenue. Also a connection from the said Blue Island avenue line to the existing Douglas Park branch of the Metropolitan Elevated between 20th street and 21st street. This structure to be designed to carry a fourth track when required by the traffic.

9. Add a third track to the Logan Square branch of the Metropolitan Elevated from Robey street to Logan Square.

10. Construct a two-track elevated line in Robey street (or within 200 feet therefrom) from the Northwest branch of the Metropolitan Elevated to a junction with the existing Ravenswood branch of the Northwestern Elevated at Cornelia street (or within 500 feet therefrom) with grade separation at Robey street when required by the traffic.

11. Construct a new two-track surface line connecting the Oak Park Elevated and the Garfield Park branch of the Metropolitan Elevated beyond their present western terminals, including storage yards in Forest Park.

12. Reconstruct tracks and station at or near Marshfield avenue junction of the Metropolitan Elevated and extend the station to provide additional facilities and separate track grades when and as directed by the Trustees.

13. Construct an additional two-track elevated structure in Van Buren street, from a junction with the existing Metropolitan Elevated where it crosses Van Buren street just east of Halsted street, east to a connection with the existing elevated railroad structure

in Van Buren street at Market street. The Company to join with the City for the construction of a new bridge over the river at Van Buren street, which will be constructed to carry the additional load superimposed by the elevated railroad structure and trains, one-third (1/3) of the cost of such bridge to be paid by the Company and the remainder by the City.

14. Reconstruct the tracks and station of the Northwestern Elevated just south of Division street, so as to reduce delays to traffic, due to heavy reverse curvature in the tracks of the Northwestern Elevated just south of Division street, the structure, tracks and station at or near that point to be relocated, realigned and straightened.

15. Construct a two-track elevated line in Halsted street (or within 200 feet therefrom) from a connection with the South Side Elevated at the junction of Sixty-third street and Halsted street (or within 200 feet therefrom) to. Eighty-ninth street, said extension to become a part of the Halsted street rapid transit through line when said line is constructed later, as provided in this ordinance.

16. Construct a two-track elevated line extension from the present elevated railroad terminus at the intersection of Sixty-third street and Stony Island avenue, south in Stony Island avenue (or within three hundred (300) feet therefrom) to Seventy-third street or Seventy-ninth street, and thence in a southeasterly direction to and into South Chicago, in the vicinity of Ninety-fifth street and Commercial avenue, the precise location of said line to be determined hereafter by the City by ordinance.

17. Construct a two-track elevated line extension from a connection with the Sixty-third street branch of the South Side Elevated at a point between Indiana avenue and South Park avenue, thence south to Eighty-seventh street, at a point between Indiana avenue and South Park avenue, the exact location of the line to be determined hereafter by the City by ordinance.

18. Provide ample rolling stock as required for rapid transit lines.

19. Provide additional tracks, ample rolling stock and power equipment required for surface lines.

Subsequent Period.

After the expiration of the Second Three-Year Period hereinabove referred to, the remaining improvements, extensions and additions hereinabove specified shall be made as directed by the Trustees, and there shall be provided such other equipment for, additions to and extensions of both the rapid transit and surface lines as may be required for furnishing adequate local transportation service under the principles and provisions hereinabove in this ordinance set forth.

General Specifications.

In addition to the work hereinabove specifically required the Company shall, as promptly as possible, do the necessary work and purchase the necessary materials and equipment to put its entire local transportation system and equipment in the best practicable condition to enable it to furnish to the citizens of Chicago the quality and kind of service contemplated and required by this ordinance, and shall at all times maintain the same at the highest practicable efficiency.

Permits.

The Company, before it makes any excavation in or in any way interferes with the surface of, any street or public way for the purpose of doing any work shall obtain from the Commissioner of Public Works of the City a permit so to do, which permit shall contain a condition requiring the Company to restore that part of said street or way excavated or interfered with by the Company, and maintain it for one year thereafter; and in every case the Company shall promptly make such restoration and after it has restored such street or way shall maintain it for one year after such restoration.

Whenever the City shall issue to others than the Company a permit to make any excavations in or in any way interfere with the surface of a street or way which is now occupied by the tracks, structures or other property of the Company, when the work to be done under such permit will in any manner disturb or endanger any property of the Company, the City shall require the party to whom the permit is issued to give to the Company adequate protection either by the deposit of cash to an amount satisfactory to the Trustees or by bond satisfactory to the Company in an amount fixed by the Commissioner of Public Works of the City, against any and all damages that may be done to its property, arising from or growing out of the work done under the said permit, and when such property of the Company is so disturbed or damaged, it shall be restored by the Company at the expense of those who are responsible under the said permit for such disturbance or damage and be maintained by the Company, at the expense of those responsible under the said permit, for one year after such restoration.

In case any firm, company or corporation shall be given the authority to change existing structures or to erect new structures in, over, under or across streets or ways on which the Company has tracks or other property, in such manner as to interfere with said tracks and property, the Commissioner of Public Works of the City of Chicago shall submit the plans for said work to the Trustees for suggestions and criticisms before approving the said plans.

Permits for Buildings.

All permits issued for the removal of buildings on or across any track of the Company, shall provide that the Company be notified at least two days in advance of such removal, and the permit shall require that the party to whom it is issued shall give to the Company adequate bond or cash deposit the amount of said bond or deposit to cover any cost to the Company that it may legitimately incur on account of the removal of such building or buildings along or across its tracks and that such removal shall only take place, unless with the consent of the Company, between the hours of twelve o'clock midnight and five o'clock A. M.

Grade and Line of Tracks.

The tracks to be maintained by the Company on the surface of streets shall not be elevated above the surface of the street or public way in which they are placed. They shall be laid and maintained by the Company so as to conform to the grade of such street or public way as the same is, or from time to time hereafter shall be, established by the City Council.

Track Construction.

All new track shall be laid with the best materials and in the most approved modern manner, in accordance with detail plans and specifications approved by the Trustees.

Spacing Tracks.

In laying or relaying rails in any of the streets or ways included in the accompanying ordinance, upon which more than one surface track is located, the distance between the centers of tracks may remain as at present, but in order to accommodate large modern cars, and provide for their safe passage, this distance may be at least nine (9) feet eight and one-half (8½) inches between center lines of tracks, except in respect to rapid transit tracks when laid on the surface of the ground, streets or ways—the distance between the centers of existing tracks may remain as at present, and the distance between the centers of tracks to be reconstructed or new additional tracks shall be not less than twelve (12) feet.

The tracks at curves, wherever practicable, shall be laid to such centers as to enable cars to pass with suitable clearance. The exact location of tracks in the streets shall be subject to the approval of, and the line and grade defining such location shall be given by the Commissioner of Public Works.

Rails.

All new track construction hereafter laid in streets or public ways, shall be laid with modern improved rails of such pattern or cross section as may be determined by the Trustees but of the grooved type, weighing approximately one hundred and twenty-nine (129) pounds per yard; provided, however, that upon such streets and parts of streets in the City of Chicago not occupied at the date of the passage of this ordinance by tracks constructed with the grooved rail, the Company where expressly approved by the Commissioner of Public Works of the City, may use modern high "T" rails of a design satisfactory to the Commissioner, but said "T" rails shall not extend beyond the top level of the street pavement.

The Company shall not hereafter, in any event, in building extensions to its existing street railway system, be required to put in grooved rail, except where the streets shall be paved, and sewer and water supply pipes laid. On unpaved streets or where the sewer and water supply pipes have not been constructed, the tracks may be temporarily laid and constructed with rails and other material which have been previously used on other parts of the local transportation system of the Company.

The rails on the elevated structure, in existing tunnels, and in the City owned subways herein provided for, shall be of the "T" rail type.

Joints.

All rail joints of tracks laid in the surface of streets or public ways shall be either cast-welded, electrically welded, or of a type which will give an equally smooth and even joint, except that the joint used must be one which will provide a carrying capacity for the electric current equivalent to the carrying capacity of the rail.

Surface Track Substructure.

The surface track rails shall be laid upon concrete beams, wooden ties, steel ties or in some other form of first-class modern approved street railway track construction. The foundation shall be either of concrete, crushed stone or other ballast material which in the judgment of the Trustees shall best suit the conditions of soil and drainage; said foundation to be brought to the proper height to serve as a suitable foundation for the pavement.

Bonding.

In case the rails of the surface lines are joined by any other form of joint than a cast-welded or electrically-welded joint, there shall be some form of bond used which will connect the ends of the rails in such manner that the conductivity of the joints shall be equivalent to the carrying capacity of the rail. The rails of each single track and the inside rails of the double track of all such tracks shall be connected by cross-bonds of No. 2/0 (B. & S. Gauge) copper wire spaced not more than one thousand (1000) feet apart, and properly secured to the rails in such manner that the full conducting effect of the wire may be utilized. The rails shall be so bonded or joined and such return circuits and other necessary devices installed as to prevent damage from electrolysis as effectually as possible.

Special Work.

At all points of intersection of the tracks of the Company with its own tracks there shall be provided suitable steel special work of ample strength and weight to correspond with the structure to which it connects. The frogs, switches and mates shall be provided with wearing plates of hardened steel or other equivalent material. All special work and curves shall be laid in the same general manner required for straight-line track.

Poles and Wires.

All new overhead construction for surface lines shall consist of one (1) trolley wire, suspended over each track by span wires attached to poles, set with the face of the pole six (6) inches back of the curb line, or suspended from brackets attached to poles. Existing poles may remain as at present.

The poles hereafter erected shall be of iron, steel or reinforced concrete, weighing approximately nine hundred (900) pounds each (for iron or steel poles), set in concrete and kept thoroughly painted if of metal. They shall be spaced on an average of not less than one hundred (100) feet apart for straight track, except at street intersections, and so as not to obstruct cross streets, alleys, or existing private driveways. The location of the poles shall be subject to the approval of the Commissioner of Public Works. Provided, that in outlying districts, in alleys and unimproved streets, the Company shall have the right with the approval of the Commissioner of Public Works to use wooden poles.

All materials used in the overhead construction shall be of the most modern type, and shall be capable of sustaining all the weights and strains that come upon it under normal conditions of operation, and from wind, sleet and ordinary accidents.

The trolley wire shall be not less than 2/0 (B. & S. Gauge) hard drawn copper, unless the Trustees shall approve other sizes for specific cases. Phosphor bronze, silicon bronze or other material equal in strength may also be used. Trolley wires shall be suspended not less than eighteen (18) feet and six (6) inches above the rails, except when such wires are under viaducts, bridges and other structures the Company shall have the right to suspend them from such structures at lower heights above the rail. No such structure shall be built with a headroom less than thirteen (13) feet six (6) inches above the rails. There shall be at least two (2) insulations between the trolley wire and the

supporting pole. Span wires shall be galvanized iron or steel or silicon bronze.

FEEDERS AND TRANSMISSION WIRES.

All feeder and transmission wires of the surface lines within that portion of the City bounded as follows: beginning on Halsted street at the south line of Thirty-ninth street, thence north on the west line of Halsted street to 22nd street; west on the north line of 22nd street to Western avenue; north on the west line of Western avenue to Belmont avenue; east on the north line of Belmont avenue to Southport avenue; north on the west line of Southport avenue to Clark street; north on the west line of Clark street to Lawrence avenue; east on the north line of Lawrence avenue to Lake Michigan; south along the shore of Lake Michigan to the south limits of the City; thence west to the right of way of the Lake Shore and Michigan Southern Railroad; thence north along said right of way to the south line of Thirty-ninth street; thence west on said south line of Thirty-ninth street to the place of beginning, shall be laid underground; excepting 22nd street from Wabash avenue to Western avenue, and that part of the so-called Calumet territory lying between the south line of 63rd street, the Lake Shore and Michigan Southern Railroad right of way and Lake Michigan. To this end, authority is hereby conferred upon the Company to enter upon, excavate for, and construct a system of conduits in the streets, alleys, and other public ways of the City of sufficient capacity to carry its said wires. All transmission wires used by the Company within the City limits, carrying a pressure of 1,000 volts or more shall be placed underground; except that in outlying districts, subject to the approval of the Commissioner of Public Works of the City, such wires may be placed overhead.

Feeders and transmission wires, not required to be placed underground, shall be suspended by insulators upon said poles supporting said trolley wires or upon poles placed at the side of streets, alleys or other public ways in locations to be approved by the Commissioner of Public Works. These wires and poles shall be so situated that the Company may conveniently make all the connections authorized by said ordinance and the exhibits thereto. The said trolley wires, feeder wires and all other wires authorized by said ordinance to be installed by the Company where located in streets, alleys, or other public or private ways, in, along or across which are located railroads elevated above the surface of the streets, may be strung upon or from the structures of such railroads, provided that the railroad owning such structure built in the future shall provide suitable blocks or other fastening in such structure, to which such trolley or feeder supports may be attached.

CONDUITS.

Underground conduits to carry any of the wires authorized by said ordinance, except in subways, to be installed by the Company, shall not exceed four (4) feet in width and three (3) feet in depth, and shall be of tile, cement, iron, or other material impervious to moisture and not subject to decay. All transmission and feeder wires and cables laid underground shall be covered with lead or other impervious material. Before any cable containing such wires shall be put in use it shall be tested by an alternating current of twice the working voltage of the cable. All forms of cable used by the Company containing more than one conductor shall be tested in like manner.

CITY CONDUITS.

If at any time the City shall desire to place conduits and manholes in streets or public ways, except in subways, wherein the Company is then about to place conduits and manholes, a single trench may be used for both conduits, but the manholes of the Company shall be kept separate and distinct from those of the City. The expense of constructing the conduits in such case shall be divided between the Company and the City according to the space assigned to each therein. The cost of constructing manholes to be paid by the corporation owning the same.

CONDUCTORS.

All wires and conductors for the transmission of electricity in and along any street, alley or public way (whether under or above ground), shall be installed in a substantial and workmanlike manner, so as to interfere as little as possible with the other uses of said public places; and all electric work of every kind and character shall comply strictly with the ordinances of the City applicable thereto.

ELECTROLYSIS.

The Company agrees to comply with the following terms, provisions and conditions with reference to electrolysis:

(a) For the purpose of preventing damage by electrolysis the City of Chicago shall be divided into three (3) zones, as follows: The first, or inner zone, shall comprise that district of the City bounded by Lake Michigan on the east, 12th street on the south, Halsted street on the west and Chicago avenue on the north. The second, or middle zone, shall comprise that district of the City lying outside of the inner zone, bounded as follows: Lake Michigan on the east, 79th street on the south to Western avenue; thence north along Western avenue to 31st street; thence west along 31st street to Crawford avenue; thence north along Crawford avenue to Belmont avenue; thence east along Belmont avenue to Kedzie avenue; thence north on Kedzie avenue to Lawrence avenue; thence east on Lawrence avenue to Clark street; thence north along Clark street to city limits; thence east along the city limits to Lake Michigan; thence south along the shore of Lake Michigan to Chicago avenue. The third, or outer zone, shall include all of the territory within the present or future limits of the City of Chicago not included in the inner and middle zones.

(b) All uninsulated electrical return circuits shall be of such current carrying capacity and so arranged that the sustained maximum difference of potential between any two points on any uninsulated portion of such circuit will not exceed the limit of ten (10) volts in the inner zone, fifteen (15) volts in the middle zone and twenty (20) volts in the outer zone; provided, however, that such sustained maximum difference of potential between any two such points in the grounded portion of the negative return shall not exceed a limit to be, from time to time, prescribed by the Board of Electrolysis Claims hereinafter constituted; and provided, further, that the said Board shall have the power to increase the maximum drop in the outer zone to 25 volts at such points as may be deemed advisable by the said Board for the extension of track into outlying districts of the City where the underground utilities are not fully developed. The term "sustained maximum difference of potential" is hereby defined as the highest average difference of potential for any 30-minute period during normal conditions of operation. Wherever pipes or other underground metallic work are

found to be electrically positive to the rails or to the railway return circuit, they may, upon the direction of the said Board, be connected by conductors so arranged as to prevent the flow of current from the pipes into the ground, and any damage caused by such connections shall be borne by the Company.

(c) The Trustees shall, as often as said Board deems necessary, make such tests to determine whether or not the Company is complying with the provisions of this ordinance, and, to enable such tests to be made the Company shall install, from time to time, the necessary electrical apparatus and devices.

(d) The Company shall, from time to time, expend such amounts upon return circuits and other electrical apparatus as shall be necessary to prevent damage from electrolysis.

(e) For the purpose of ascertaining any damage by stray electrical currents caused by: First, connections with pipes or other underground metallic work of the City of Chicago or the Sanitary District of Chicago as authorized by clause (b) of this section and, second, the operation of the Local Transportation System to any property of the City of Chicago or the Sanitary District of Chicago after the effective date of this ordinance, and for the purpose of determining the amount of any damage, and if the Company is responsible therefor, there is hereby created a board, which shall be known as the "Board of Electrolysis Claims," and shall consist of three members, one of whom shall be the Commissioner of Gas and Electricity and the second an engineer appointed by the Company and the third an engineer appointed by these two; and in event they are unable to agree upon the third member, then such third member shall be appointed by the Western Society of Engineers, The compensation of such third member shall be determined by the City Council, one-half of which shall be paid by the Company and one-half by the City.

Said board shall hear and determine all electrolysis claims presented to it by the City of Chicago and the Sanitary District of Chicago. The decision of a majority of the members of said board shall be final and binding on the Company and on the City of Chicago and on the Sanitary District of Chicago, on any claims presented by them or either of them.

Within thirty (30) days after said board has rendered its decision on any such claim the Company shall pay to the party entitled thereto the amount determined by said board, which amount so paid shall be a charge against the renewal fund of the Company.

MAINTENANCE OF STREETS.

The Company, as respects filling, grading, paving, cleaning, sprinkling and keeping in repair, the streets or parts of streets occupied by its surface railway, shall fill, grade, pave, clean, sprinkle and keep in repair, eight (8) feet in width of all streets and public ways, or portions thereof, occupied by it with a single track surface railway, and sixteen (16) feet in width of all streets and public ways, or portions thereof, occupied by it with a double track surface railway. The City shall not be liable to the Company for any loss, expense or damage to its tracks, roadbed or property due to excavations or other work done in the streets by the City in connection with the installation or repair of the sewer or water system of the City.

In case the Company, upon the order or with the consent of the City (expressed by ordinance) shall hereafter construct or heretofore shall have constructed any portion of its tracks, roadbed or equipment in any street before any sewer and any water supply pipes shall have been constructed and laid therein, or any such part thereof as is or shall be occupied by the tracks of the Company, or before the street grade in any such street or streets shall have been established, or before the paving thereof, where now unpaved, shall have been provided for, and the Company shall hereafter be required to take up, move or reconstruct its tracks and equipment in any such street or streets by reason of the construction of such sewer or water mains or the fixing of the street grade or the paving of such street or streets, then and in any such event the cost and expense thereby caused and incurred by the Company shall be charged to operating expense, maintenance, repairs or renewals or to capital account, in accordance with the accounting principles established in this ordinance, and under classifications established from time to time by the Trustees.

PAVEMENT.

The Company, upon the order of the Commissioner of Public Works, shall pave, repave, or repair the portions of the streets and public ways, including viaducts and bridges, which by this grant it is required to keep paved and in repair, whenever and as often as the same shall reasonably require paving, repaving or repairing, and shall at all times keep the surface of all of its paving at least up to the top of the rail.

The pavement which the Company shall be required to lay down and keep in repair in the portion of any street or way which it is required herein to pave and keep in repair shall be of the following kinds, to wit:

First. In all streets or ways in which the Company has in place, at the date of the passage of this ordinance, a good serviceable pavement, it shall repair and maintain the same while serviceable under the direction of the Commissioner of Public Works, as aforesaid.

Second. Whenever any existing pavement of the Company, in any paved street or way, can no longer be made serviceable by repair; and whenever the portions of any street or public way outside of the strip herein required to be paved by the Company are newly paved or repaved, and the pavement of the Company therein does not comply with the following specifications; and whenever the Company relays its rails in any such paved street or public way in which its pavement does not comply with the following specifications, then, and in any such events, the Company shall pave or repave with granite blocks the portion of any such street or public way, which it is herein required to keep paved as follows:

All new granite paving blocks shall conform to the following specifications:

The granite paving blocks shall have a uniform grain and texture, without lamination or stratification, and shall be free from an excess of mica or feldspar, Soft or weatherworn blocks, or those obtained from the surface of the quarry, shall not be used.

The blocks shall be so dressed as to have substantially rectangular plane surfaces. "Substantially rectangular" is interpreted that should a block be chamfered or "undercut" on the side or end, the same shall be not greater than one-half (½) inch. Upon the application of a straight edge to the surface of the block, the variation therefrom shall be not greater than three-eighths (⅜) inch. Upon the application of a straight edge to the sides or ends of a block, the

variation therefrom shall be not greater than one-half (½) inch.

When the blocks are in place, the surface joints shall be not less than one-eighth (⅛) inch nor more than one-half (½) inch in width. All blocks shall be laid in uniform courses. Each course shall consist of blocks of the same width, and shall be so laid that all longitudinal joints will be broken by a lap of approximately three (3) inches. No cracked or chipped blocks shall remain in the pavement. The blocks shall be rammed to a true surface and a firm bed.

The blocks shall measure from three and three-quarters (3¾) to four and one-quarter (4¼) inches in width, six (6) to ten (10) inches in length, and three and three-quarters (3¾) to four and one-quarter (4¼) inches in depth; or, from four (4) to five (5) inches in width, eight (8) to twelve (12) inches in length, and four and three-quarters (4¾) to five and one-quarter (5¼) inches in depth, provided that shorter blocks may be used to break joints.

The detail specifications for the manufacture of and for the laying of granite paving blocks shall be approved by the Commissioner of Public Works of the City. Provided, that, in any ordinance providing for the paving of such streets the Company may be required to pave in like manner and with like material (except wooden blocks) as therein specified for other contiguous portions of said streets, except that when asphalt is used a layer of granite blocks shall be put in next to and on both sides of each rail.

Paving on viaducts and bridges owned or maintained by the City, shall include all material between the top of the wearing surface of the roadway and the bottom of the cushion for spans built with reinforced concrete and all material between the top of the wearing surface of the roadway and the top of structural steel supporting the roadway for spans built of structural steel.

Third. Whenever any existing pavement of the Company, in any unpaved street, or public way, can no longer be made serviceable by repairs; and whenever the Company lays down any track or tracks in any unpaved street or public way, then, and in either of such events, the Company shall pave or repave the portions of any such street or public way, which it is required to keep paved or repaved, as aforesaid, with good serviceable granite blocks.

Fourth. In each case where by this ordinance the Company is authorized and required, to change a surface line from a single track to a double track, in any street or part of a street, if the roadway therein be not at least thirty-eight (38) feet in width, the Company shall, at its own cost (such cost to be charged to capital account) widen said roadway to said width, and shall rebuild the catchbasins and their connections and curb and pave said street, as may be required by the City Council; provided, that the Company shall not hereby be required to pave, in addition to the part of the street occupied by its double-track street railway, as provided for in this ordinance, more than eight (8) feet in width of such roadway nor to acquire private property in order to secure the necessary width for such roadway.

POWER HOUSES, BUILDINGS.

The Company shall build such power houses and auxiliary buildings, together with the necessary machinery and appurtenances as may be determined upon by the Trustees to supply whatever electric power may be required (in addition to such power as the Company may acquire by lease or contract from sources other than its own plants) to enable the Company to operate at all times its local transportation system efficiently and continuously.

In the construction and operation of power plants, sub-stations and other buildings, the Company shall comply with all general ordinances of the City in regard to buildings and to the installation and operation of machinery, electrical equipment, boilers and smoke-consuming appliances. The buildings of said power plants shall be substantially fireproof and supplied with smoke-stacks sufficient to carry off all gases emitted, and the foundations for the machinery therein shall be constructed in a solid and substantial manner.

The machinery and apparatus employed shall be selected and installed with a view of affording uninterrupted operation of the cars upon said local transportation system, and to attain this end the machinery shall be so arranged that a stoppage of one machine shall not prevent the operation of the remaining machines, and reserve machinery shall always be ready to be thrown into service. All boilers, piping, valves, fittings, steam engines, turbines, generators, switchboard apparatus, and other appliances used, shall be of the latest and most approved design and constructed and installed in accordance with the best engineering practice.

In all dynamos and connections where a high voltage current is produced or used approved methods for the protection of human life shall be employed.

The high tension switches shall be entirely enclosed in fireproof material, and shall be operated by levers, compressed air, auxiliary currents, or by such other means as will, as far as practicable, prevent personal contact with high tension current.

All feeders leading out of power plants and sub-stations shall be provided with some form of safety switches or automatic circuit-breakers designed to instantaneously open the circuit in case of a short circuit occurring on the feeder or on the trolley which it feeds.

All the foregoing specifications regarding modern and approved apparatus, protection from fire, and provisions for the protection of human life, shall apply with equal force to the sub-stations in case a system of transmission involving the use of sub-stations is adopted.

The power contracts under which the Surface Companies and the Elevated Companies have been securing power for the operation of their respective properties since 1913, shall be transferred to, inure to the benefit of, and be carried out by the Company, but said contracts shall not be modified, extended or renewed without the consent of the City, hereafter given by ordinance, and no new contracts for supplying power shall be entered into by the Company without the consent of the City hereafter given by ordinance.

CAR SHOPS AND MACHINERY.

The present car shops and machinery contained

therein may be relocated, altered or enlarged, as may be deemed advisable and efficient.

CARS.

All cars carrying passengers shall be of the type known as double truck cars, seating forty (40) or more passengers.

All such surface cars and all rapid transit trains shall be equipped with sufficient motor capacity to properly operate such cars and trains at the schedule speed required by the service over the particular lines that they may be operated upon.

The Company shall equip all cars carrying passengers with electric or other heating apparatus of modern and approved type (except that rapid transit cars now equipped with hot water heaters may continue to be so equipped until reconstructed) and of sufficient capacity to keep such cars heated, as follows:

First. A minimum temperature of 50 degrees Fahrenheit above zero shall be maintained in all cars in service carrying passengers when the outside temperature is at 10 degrees Fahrenheit above zero or higher.

Second. A minimum temperature of 45 degrees Fahrenheit above zero shall be maintained in all cars in service carrying passengers when the outside temperature is below 10 degrees, but not below 5 degrees Fahrenheit above zero.

Third. When the outside temperature is below 5 degrees Fahrenheit above zero the temperature in all cars in service carrying passengers shall be maintained at 45 degrees Fahrenheit above zero, or as near this point as the continuous operation of all the heaters in said cars to their full capacity will allow.

Each and every car carrying passengers shall be equipped with a thermostat or other automatic regulating device that will maintain the temperature of the car within the limits prescribed by this ordinance, and shall contain a standard Fahrenheit thermometer appropriately placed to furnish a fair criterion of the temperature of the car and to enable passengers to see whether the provisions of this ordinance with respect to temperature are complied with. All said cars (including vestibules) shall be kept clean and in good repair and shall be thoroughly ventilated and air shall be supplied in each and every such car in such quantity that the amount of carbon dioxide present in the air of said car shall not exceed twelve parts in each ten thousand parts of air.

Passenger cars used by said Company shall be equipped with efficient and adequate power and hand brakes of modern and approved type.

All surface cars operated by the Company shall be supplied with a sufficient number of electric bells, connections and push-buttons, to enable passengers without inconvenience to notify the conductor of their desire to leave the car.

All surface cars shall be equipped with efficient and serviceable fender devices, headlights and sand boxes, of modern and approved type.

All such cars shall be kept well and sufficiently illuminated by electric light or other illuminants of modern and approved type.

Each surface car shall bear appropriate and conspicuous signs upon both its sides and ends so placed as to indicate, both day and night, the route and destination of such car. At night such signs shall be illuminated. Each rapid transit train shall bear appropriate and conspicuous signs, so placed and illuminated as to indicate clearly, both day and night, the route and destination of such train.

All rapid transit cars shall be equipped with suitable devices to intercept and hold oil or any other substance that may drop from moving trains.

The Company may permit advertisements in its cars, but no advertisement shall be placed upon the outside of any car, and only the space between the top of the windows and the transom of the car and the space on bulkheads shall be used for advertisements on the inside of cars.

The Company is hereby authorized and permitted to operate hospital and funeral cars.

OTHER ROLLING STOCK.

The Company shall provide all necessary snowplows, sweepers, repair cars, work cars, etc., to properly take care of its system and maintain it in first-class working condition.

Rolling stock to be provided to adequately serve the rapid transit lines and the surface lines, as rapidly as the additional track facilities herein specified are completed and ready for service.

STREET SPRINKLING AND CLEANING.

During the period of five (5) years from and after this ordinance shall become effective, subject however to the provisions of Section 22 of this ordinance, the Company shall pay to the City of Chicago for cleaning the right of way of the Company, in lieu of any other obligations on the part of the Company to clean such right of way, including the removal of snow, the sum of Fifty-one Dollars and Fifty Cents ($51.50) per month for each mile of double track operated by the Company on the surface of the ground in a public street or way, during said five (5) years period, such payments to be made monthly on or before the 5th day of each month, for the preceding month. Where the Company has single track instead of double track, two miles of single track shall be considered the equivalent of one mile of double track, and fractional miles of single track or double track shall be computed on the same basis. It is agreed that the mileage upon which the Company shall make monthly payments to the City is 479.54 miles of double track as of the date of January 31, 1918, to which shall be added the additional mileage built subsequent to said date. All extensions built or acquired by the Company during said five (5) year period shall be paid for at the foregoing rate.

If in the judgment of the Commissioner of Public Works, it shall be found practicable to have the streets or any part thereof occupied by its surface line tracks swept and sprinkled or flushed their entire width by the Company, or to have street sweepings, garbage or other refuse removed by means of cars at night, the Company shall perform said service when so ordered by the Commissioner of Public Works, and it shall receive for such service the actual cost thereof. In case the Company is called upon to remove street sweepings or other refuse, the City shall furnish suitable cars and convenient dumping grounds and permit the connection of the Company's tracks therewith.

The Company shall have the right to carry on suitable cars, materials for its own use or for the use of the said City, and to connect its tracks and wires with property necessary to be used for such purposes.

USE OF POLES, CONDUITS, ETC.

The Company may use its trolley poles, feeder poles, trolley wires, feeder wires and the conduits authorized and provided for herein, for all purposes solely connected with the operation of its street and elevated railways, such as power, light, heat and telephonic and other signals. For such purposes the Company may connect such conduits, poles and wires with its transmission and feeder wires, power plants, substations, car houses, repair shops or other property of the Company, and with any transmission, feeder or other wires of any other individual or corporation.

JOINT USE WITH THE CITY.

The said City shall have the right, without the payment of any compensation therefor, during the life of this grant, to use the poles of the Company to carry the signal, telephone, telegraph and electric light wires and lamps of the said City. The transmission wires of the said City for such purposes shall be placed on poles of the Company, on that side of each street or way (where poles are located on both sides thereof) designated by the Commissioner of Public Works of the City without cost or expense to the Company, but the Company shall repair and maintain its poles as one of the operating expenses of the local transportation system under this ordinance; provided that the said City shall indemnify and save harmless the Company against and from all damages, judgments, costs or expenses which the Company may suffer by reason of any negligence of the said City in installing, maintaining or using its said wires and lamps upon said poles. When required by the City new trolley poles shall be designed to carry street lamps.

GENERAL PROVISIONS RELATING TO SUBWAYS.

No subways shall be constructed except as expressly authorized in this ordinance or in subsequent ordinances of the City of Chicago.

Said subways shall include suitable stations (including public comfort stations), entrances to and exits from stations, stairs, and station platforms, tracks, roadbed and fixed electrical equipment, including the transmission system and all necessary approaches, inclines, sidings, spurs, switches, turnouts, crossovers, loops, drainage, ventilation, electric and other conduits, sub-surface storage yards for cars and connections with existing or future subway, surface or elevated railroads.

The north and south subways shall be high level subways viz: subway with only such cover as is necessary to provide a foundation for the street surface and accommodate such public utilities as must (in the judgment of the Trustees) cross over the roof of the subway. The base of the rail shall be about 18 feet below street surface. The east and west subways shall be low level subways which shall be constructed so as to cross immediately under the high level subways. The base of the rail shall be about 30 feet below street surface except where said subways rise to the level of the high level subways and this level may be lowered whenever the Trustees may find it necessary in order to obtain proper clearance.

The Illinois Tunnel may be altered where necessary in the judgment of the Trustees and subject to the ordinances of the City of Chicago relating to said Illinois Tunnel. The arch of said tunnel may project into and become incorporated with the floor system of the subway at all points where necessary in the judgment of the Trustees.

Where, in the judgment of the Trustees, traffic conditions require it, subway construction shall be carried on under a decking of heavy planking which shall remain until the subway is constructed. The construction shall be done in short lengths of excavation.

The high level subway section shall be designed with a roof of ample strength to carry the live and dead loads superimposed thereon. The roof shall be supported on columns between the tracks and columns in the side walls fully braced. The side walls shall be continuous and of sufficient strength to resist the lateral thrust and other loads. Partition walls shall be constructed in the column rows between the tracks, except at stations and at other points where openings are necessary or desirable. The floors shall be made of concrete reinforced with rods or beams. At station platforms the columns shall be spaced a proper distance apart, and sufficiently back from the edge of the platform so as to reduce interference with passengers loading and unloading from trains.

The structural features of the low level subway shall be similar to those of the high level subway except that heavier sections are to be employed and the floor construction may include I-beam reinforcements.

Reinforced concrete may be used where necessary or appropriate, in the judgment of the Trustees for the construction of any portion of the subways herein provided for.

At stations and between stations the roof walls and floor of the subway shall be enveloped with a membrane of woven fabric laid in pitch or asphalt mastic or such other construction shall be made as may be necessary in the judgment of the Trustees to produce a water-proof structure. All seepage and other water which may enter the subway shall be drained along the track to sumps where automatic pumps (operated by electricity or compressed air) shall discharge the water into sewers.

The stations shall have platforms not less than 500 feet long. The minimum width shall be 12 feet.

Power, lighting and signal cables shall be placed in ducts located in concrete along the side walls with duct manholes at proper intervals and manhole exits to the street.

Tracks between stations shall be upon ties laid in rock ballast placed in troughs of the subway floor with every fourth tie extended to receive the support for the third rail and protection board. The track at stations shall be unballasted, the rails being laid on short tie pieces bolted to the concrete bed, the concrete being carried up slightly on the sides of the tie pieces to prevent lateral and longitudinal movement.

All modern devices for the safety, protection and convenience of the traveling public, including block signals, electric or electric pneumatic switching systems and telephone systems, shall be installed.

The general plan and design of subways and subway stations shall be in substantial accordance with the

plats attached to the report of the said Chicago Traction and Subway Commission and numbered 26, 27, 28, 29, 30 and 31, a copy of which report was filed with the Comptroller of the City on the 30th day of July, 1918.

Said subways shall be constructed in accordance with detailed plans and specifications prepared under the supervision of and approved by the Trustees. The Trustees shall at all times during the progress of the work have the right to make such modifications, alterations or revisions of and changes in said detailed plans, specifications and drawings as the Trustees may deem advisable, within, however, the purview of the general plans, drawings and specifications herein provided for.

Said plans, specifications and drawings shall provide for the necessary readjustment of sewers, water and gas mains and other public utilities affected by the construction of subways. Said plans may provide for chambers or galleries to take care of these utilities.

The Company may place and maintain in stations and upon station platforms suitable booths for the sale of newspapers, magazines, periodicals, fruits and confections, not impairing the use of said subways and approaches for the transportation of passengers. The Company shall discontinue at any time or from time to time any of the uses herein referred to or approved which in any way diminish or impair the safety, accommodation, convenience or comfort or conflict in any way with the best interests of the public.

The City reserves the right without charge or the payment of any compensation to place and maintain in the subways such wires and apparatus as may be necessary for its police and fire alarm service, and also such other wires, conduits, tubes, pipes or other similar structures as may be necessary or convenient for any use by the City, the same to be so located, maintained and repaired as not to interfere with the safe and convenient operation of said subways and railways therein; provided, however, that no sewer, water or gas pipes shall be placed in the main bore of such subway.

The railways operated by the Company within subways during the grant shall be operated carefully and skillfully according to the highest standards of operation for such character of railways and with due regard to the safety and convenience of the passengers and employees and of all other persons. The City by its representatives and any person or persons authorized by the City Council, shall at all times have access to any and all parts of said subways and the equipment thereof and to any materials being used or designed to be used by the Company in connection with the subways or equipment thereof or which may be in process of manufacture or assembling.

General Provisions Relating to Elevated Roads.

Plans and specifications of all new work and of all reconstruction upon or additions to elevated roads, including tracks, curves, sidewalks, switches, connections, poles, supports, columns, girders, telegraph, telephone, signal and other devices and appurtenances, shall comply with all general ordinances of the City of Chicago applicable thereto and shall be submitted to and approved by the Commissioner of Public Works and the Company shall not commence to build, erect, add to or reconstruct any elevated structure until said plans and specifications are so approved in writing. All such construction and reconstruction shall be under the supervision of the Trustees.

The Company shall furnish, maintain and operate adequate lights underneath any elevated structure or station constructed in or across any public street, and shall furnish and maintain a light or lights, the aggregate power of which shall be of not less than 400 watts at any street where the said elevated railroad crosses said streets, the said lighting to be done upon order issued by the Commissioner of Gas and Electricity. The Company shall have the option of installing or maintaining said light or having it done by the City. If the installation or maintenance of such electric lights is done by the City, the Company shall pay the City the cost and expense of such installation, or the reasonable cost of maintenance and furnishing electricity for the same, or both, as the case may be.

Wherever said line of road is over, across or along any street, the Company shall provide in or upon the elevated structures, or by means of drip pans upon the order of the Commissioner of Public Works of said City, adequate provision against the dropping of water or other materials from said structure.

The general plan of said new structure of said elevated railroad shall be that of an elevated railroad with the tracks, ties and guard rails supported or upheld by longitudinal and cross girders, which, in turn, shall be supported or upheld by a row or rows of iron, steel or concrete posts or columns set upon foundations of iron, masonry, cement, or a combination of the same, or such other foundation as may be approved by the Commissioner of Public Works of the City, but no part of such foundation shall be above the established grade of the street or alley in which the same is located, except the post connections. All material used for that part of the structure above the ground shall be of wrought iron, steel or concrete, except that the post connections may be of cast iron and the ties or longitudinal stringers supporting the rails and the safety guards may be of the best quality and kind of selected timber. The track walks may be of wood. The stairs and all parts of stations where erected in or across any street, avenue, boulevard, alley or other public place, except the platforms, doors and windows and inside sheeting and the treads of the stairs, shall be of iron or masonry, or other incombustible material. All station platforms and stairs shall be protected by a substantial iron railing.

Wherever new elevated structure is to be constructed, or the present structure reconstructed in such manner as to call for new posts or columns, except where the width of the roadway of any street, avenue, boulevard or any alley between the curb lines thereof, over, along or across which said elevated structure shall pass, is fifty (50) feet or more, the roadway of every such street, avenue, boulevard or alley shall be spanned by a single span.

All columns placed in public streets shall be located inside of and at the curb line of said street, except as above stated.

The transverse diameter of any post or column of new structure, or of any post or column which may be renewed or reconstructed, which shall be placed in the roadway of any street, shall not exceed twenty-two (22) inches at the base and thence for at least ten

(10) feet above the surface of the roadway. The transverse diameter of any such column when placed inside of and at the line of the curb shall not exceed twenty-six (26) inches at the base and thence for at least ten (10) feet above the surface of the roadway.

The transverse diameter of the column above indicated does not include fenders, and adequate fenders shall be fitted around the base of each such column placed in the roadway of any street, avenue, boulevard or alley to prevent the hubs of the wheels of passing vehicles from striking the columns.

The longitudinal distance between columns of structures new or reconstructed aforesaid, when the rows of columns are in the roadway of a street, shall not be less than thirty-five (35) feet except on curves and across railroad rights of way.

No part of the girders of the superstructure of structures new or reconstructed as aforesaid shall be less than thirteen (13) feet, six (6) inches above the present established grades of boulevards, streets and alleys, and wherever such elevated structure crosses or passes over the right of way and tracks of existing steam railroads, the clear head room between the lower chord of all of said girders and the surface of the rails on all of said railroads, on their present grades, and from out to out of their right of way, shall not be less than twenty (20) feet.

The design of all new or reconstructed elevated structures shall be in accord with the best modern engineering practice, having special regard to the appearance of such structures when located at or across streets or public grounds.

All of the material used in the construction of the work shall be of the best quality for the purpose to which it is to be applied, and the work shall be executed in the best style of the art and in a workmanlike manner, and said structure shall be kept painted and in a sightly condition.

The Company shall do no permanent harm by the construction, reconstruction or maintenance of elevated structures to the pavement, gutters, sidewalks, water pipes, sewer or gas pipes, telegraph or electric wires and cables or pipes, but in the event of any construction or reconstruction under this ordinance the Company shall restore the same to a condition equally as good as before said construction or reconstruction, so far as consistent with the occupancy by said Company of the streets or alleys authorized by this ordinance, and shall maintain and keep the same in good repair and condition for the period of one year from the date of said restoration, and if the Company shall fail or refuse to do so the same may be done by the City and the Company shall be liable to the City for the cost thereof.

The Company may place and maintain in stations and upon station platforms suitable booths for the sale of newspapers, magazines, periodicals, fruits and confections, not impairing the use of said stations and station platforms and approaches for the transportation of passengers. The public comfort stations now existing or which shall hereafter be constructed in or connected with the stations on elevated structures shall be kept in a clean and sanitary condition, and wherever practicable in the judgment of the trustees shall be made available (by appropriate alterations wherever necessary) for free use by the public under suitable regulations established by the trustees. In all stations on elevated structures hereafter erected the Company shall provide and keep in a clean and sanitary condition suitable free public comfort stations. The Company shall discontinue at any time or from time to time any of the uses herein referred to or approved which in any way diminish or impair the safety, accommodation, convenience or comfort or conflict in any way with the best interests of the public.

Recess.

Thereupon, at 6:50 o'clock P. M., Ald. Richert moved that the Council do now take a recess until 7:30 o'clock P. M.

The motion prevailed.

At 7:30 o clock P. M. the Council reassembled, with Hon. Wm. Hale Thompson, Mayor, in the Chair.

At the direction of the Chair the Clerk called the roll of members, and there was found to be a

Quorum present.

The Mayor thereupon announced that unavoidable business made it necessary for him to leave the meeting.

Ald. Link moved that Ald. Richert act as temporary chairman.

The motion prevailed, and Ald. Richert took the Chair.

Veto.

Vacation: W. 17th St., W. 19th St., Purple St., W. 20th St. and W. 20th Pl., and Adjacent Alleys (The Atchison, Topeka and Santa Fe Ry. Co., Beneficiary).

The Mayor submitted the following veto message:

Office of the Mayor,
Chicago, August 22, 1918.

To the Honorable, the City Council of the City of Chicago:

Gentlemen—I return herewith without my approval an ordinance passed by your Honorable Body at your meeting held on August 14, 1918, and appearing on pages 940 and 941 of the Journal of the Proceedings of the City Council of said date, vacating parts of certain streets and alleys for the use of the Atchison, Topeka & Santa Fe Railway Company.

I withhold my approval of said ordinance because I have been advised that the engineer of the Terminal Commission claims the said Commission has never been consulted in regard to the advisability of passing the ordinance in question. I am also advised that an ordinance was introduced some months ago at the request of the Atchison, Topeka & Santa Fe Railway Company containing identical provisions to vacate the same territory vacated by the ordinance passed by you on August 14th and that at the suggestion of the Terminal Commission the ordinance in question was amended requiring, among other things, the Atchison, Topeka & Santa Fe Railway Company to open at their own expense a new street, 120 feet wide, and also to build, at their own expense, a viaduct extending from 18th to 20th street, and after taking into consideration the cost of said improvements to be made by the Atchison, Topeka & Santa Fe Railway Company the compensation for the vacations con-

tained in said ordinance was fixed at the sum of over $511,000.

The ordinance passed by your Honorable Body on August 14, 1918, fixes the compensation at $249,089.38. The Corporation Counsel has gone over this ordinance very carefully with the engineer of the Terminal Commission and he advises me that the engineer of the Terminal Commission claims that there is no substantial difference in the amount of area of streets and alleys vacated by this ordinance from the area vacated in a previous ordinance, for which a compensation of over $511,000 was fixed. He also advises me that the said amount of $511,000 was arrived at after deducting from the value of the land vacated a very reasonable amount to compensate the Atchison, Topeka & Santa Fe Railway Company for the labor and material in the opening of a new street, 120 feet wide, and the building of a viaduct extending from 18th to 20th street.

In view of the importance of this matter it is my opinion that it is unwise to permit an ordinance of this kind to become a law without permitting the Terminal Commission to have an opportunity to pass on the merits of the same and to give to your Honorable Body such information as they may feel it their duty to do, in order that the interests of the City may be properly safeguarded.

I, therefore, recommend that the vote by which the said ordinance was passed be reconsidered and that the said ordinance together with this message be referred to the appropriate committee for such further action as they may determine.

Yours very truly,

(Signed) WM. HALE THOMPSON,
Mayor.

Ald. Powers moved to reconsider the vote by which said vetoed ordinance was passed.

The motion prevailed.

Ald. Fisher moved to defer temporarily further consideration of said ordinance.

The motion prevailed.

Subsequently Ald. Fisher moved to proceed to consideration of said ordinance.

The motion prevailed.

Ald. Fisher moved to pass said ordinance, the veto of the Mayor to the contrary notwithstanding.

The question being put, the vote thereon was as follows:

OFFICE OF THE MAYOR,
CHICAGO, August 22, 1918.

To the Honorable, the City Council of the City of Chicago:

GENTLEMEN—I transmit herewith for the consideration of Your Honorable Body a communication that I have received from the United Brotherhood of Carpenters and Joiners of America in which they protest against the passage of the Traction Ordinance by the City Council.

Yours very truly,

(Signed) WM. HALE THOMPSON,
Mayor.

CITY CLERK.

Labor Day: Closing of Streets in the "Loop" District.

The Clerk presented the following communication:

CHICAGO BUILDING TRADES COUNCIL,
CHICAGO, August 21, 1918.

To the Honorable, the Mayor and the City Council of the City of Chicago:

GENTLEMEN—Organized labor in conjunction with representatives of the business interests of Chicago has made preparations for a monster parade and labor demonstration Monday, September 2nd, at which it is expected that at least one hundred and fifty thousand labor unionists will march with floats and emblems as a definite indication of organized labors' patriotism and its interest and activity in helping to win the war.

The day which has been long regarded as Labor's holiday, set apart for the demonstration of Labor's aims, will be marked this year in Chicago by ceremonies and a program that it is hoped will emphasize the patriotism of Labor as it never has been emphasized before.

President Wilson and Members of his Cabinet and Ambassadors from Allied countries and other dignitaries have been invited to be present, and plans are being made for their reception, entertainment and participations in the program of the day.

In view of the elaborate nature of the demonstration and parade that is planned, it is respectfully urged upon Your Honorable Body that upon Labor Day the streets of the downtown district be closed to vehicular and other traffic so as not to interfere with the parade which starts at nine o'clock. To this end the passage of the following order is respectfully urged:

"Ordered, That on Labor Day, Monday, September 2nd, that part of the City of Chicago lying between Van Buren street on the south, Lake street on the north, Franklin street on the west and Michigan avenue on the east be closed to vehicular traffic of all kinds between the hours of 8 A. M. and 6 P. M. o'clock, and that no street cars or vehicles with the exception of fire, police and health department vehicles be permitted on the streets on that day, unless such vehicles are participating in the Labor Day Parade and Demonstration.

"Be it further ordered, That the General Superintendent of Police enforce this order."

Respectfully submitted,

(Signed) SIMON O'DONNELL.
President.

Unanimous consent was given for consideration of the order embodied in the foregoing communication.

Ald. Powers moved to pass said order.

The motion prevailed.

Solution of Local Transportation Problems.

The Clerk presented the following communication, which was ordered placed on file:

THE CHICAGO ASSOCIATION OF COMMERCE,
CHICAGO, August 22, 1918.

The Honorable, the City Council, Chicago:

GENTLEMEN—Your attention is respectfully invited to the following resolution adopted today by the Executive Committee of the Chicago Association of Commerce:

"Resolved that The Chicago Association of Commerce strongly urges upon the City Council of Chicago that it remain in session or arrange for sessions until a solution of the traction question is obtained at this time."

Trusting that this expression will meet with favorable consideration, I am

Very sincerely yours,

(Signed) LUCIUS TETER,
President.

Street Railway Extension in Clarendon and Montrose Aves.: Petitions of Protest.

The Clerk presented petitions protesting against proposed street railway extensions in Clarendon avenue between Broadway and Montrose avenue, and in Montrose avenue between Broadway and Lake Michigan, which were

Referred to the Committee on Local Transportation.

Consumers Co.: Switch Track.

The Clerk presented an ordinance granting permission and authority to the Consumers Company to construct, maintain and operate a switch track across South Springfield avenue, south of the C., B. & Q. R. R., which was

Referred to the Committee on Local Industries.

J. A. Mottz: Claim.

The Clerk presented a claim of J. A. Mottz for compensation for damage to property, which was

Referred to the Committee on Finance.

DEPARTMENT OF GAS AND ELECTRICITY.

Contract with the Contracting and Material Co.: Definition of "Special Work."

The Clerk presented a communication, submitted by the Commissioner of Gas and Electricity, defining the classes or kinds of work to be included under the heading "special work" in a contract with the Contracting and Material Company for construction of underground conduits, manholes and laterals, which was

Referred to the Committee on Finance.

DEPARTMENT OF POLICE.

Crimes and Criminals: Arrests and Prosecutions.

The Clerk presented a report, submitted by the Acting General Superintendent of Police, of arrests and prosecutions of habitual criminals during the week ended August 17, 1918, which was ordered

Placed on file.

Persons Arrested for Carrying Concealed Weapons without Authority: Weekly Reports.

The Clerk presented a report, submitted by the Acting General Superintendent of Police, of persons arrested for carrying concealed weapons without authority during the week ended August 17, 1918, which was ordered

Placed on file.

DEPARTMENT OF PUBLIC WORKS.

Subways in E. 111th St., Etc.: in the Matter of Delays in the Completion of the Work.

The Clerk presented the following communication, which was ordered published and placed on file:

DEPARTMENT OF PUBLIC WORKS,
BUREAU OF STREETS,
CHICAGO, August 16, 1918.

To the Honorable, the City Council of the City of Chicago:

GENTLEMEN—Referring to the order passed by Your Honorable Body on August 5, 1918 (Journal of Proceedings, page 830), directing the Commissioner of Public Works to ascertain the reason for the delay in completing the work on the subways in 111th street, 113th street, and 115th street, at Cottage Grove avenue, and at 91st and State streets, "and to take such steps as will bring about the desired results at an early date," we respectfully report as follows:

The work is proceeding as rapidly as possible in the subways at 111th street, 113th street, and 115th street. There was some delay in getting it started, but it has been prosecuted without interruption since it began. James A. Sackley Company has the contract to lay the pavement, and will begin the work Monday, August 19th. It is a matter of only a short time until these subways are restored to first class condition.

It was necessary to lower the car tracks in the subway at 91st and State streets, which required the relocation of the water and gas mains; this caused some delay. The new tracks are now laid, and both roadways between the tracks and the curb have been concreted. It has been deemed advisable to operate the cars through the subway for about two weeks, so that in case the tracks settle the condition can be corrected before the permanent pavement is laid. The cars began to operate through the subway on Monday, August 12th.

We will endeavor to have all work in these subways completed at the earliest date possible.

Very truly yours,

(Signed) FRANK I. BENNETT,
Commissioner of Public Works.

(Signed) F. S. MITCHELL,
Superintendent of Streets.

Henry V. McGurren: Assignment to the War Department.

The Clerk presented the following communication submitted by the Commissioner of Public Works:

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE,
CHICAGO, August 21, 1918.

To the Honorable, the Mayor and the City Council of the City of Chicago:

GENTLEMEN—I transmit herewith for consideration by Your Honorable Body a communication from George W. Goethals, Major-General, U. S. A., Assistant Chief of Staff, requesting the services of Mr. Henry V. McGurren, Superintendent of Compensation, for a period of ninety days without suspension of salary.

The War Department has been negotiating with Mr. McGurren for the past thirty days, with a view of offering him a commission to assist in the purchase and lease of real estate for war purposes, but are unable to complete the transaction because of a recent

order prohibiting the granting of commissions to civilians on account of the pending draft legislation. It is felt that this order will be changed within ninety days and the enclosed request is made to cover the situation until that time.

I am enclosing an ordinance granting the necessary authority, with the suggestion that some action be taken because of the pending adjournment of the Council so that I may make a definite reply to General Goethals' request. Inasmuch as the Council will not reconvene for several months, I feel that the work of the Bureau can be carried on without entailing any additional expense upon the City.

Yours very truly,

(Signed) FRANK I. BENNETT,
Commissioner of Public Works.

—

The following communication was presented with the foregoing communication:

WAR DEPARTMENT, OFFICE OF THE CHIEF OF STAFF,
PURCHASE, STORAGE AND TRAFFIC DIVISION,
WASHINGTON, D. C., August 15, 1918.

Honorable Frank I. Bennett, Commissioner of Public Works, Chicago, Illinois:

MY DEAR SIR—There is great need in the Real Estate Unit, Purchase and Supply Branch, Purchase, Storage and Traffic Division, for the services of men having large experience in the handling of real estate transactions.

The name of Mr. Henry V. McGurren has been brought to the attention of this division as a man with exceptional qualifications along these lines, and he has consented to do the work required provided a leave of absence for ninety days will be granted him by the City of Chicago.

If consistent, will you kindly grant a leave of absence to Mr. McGurren for that period without suspension of salary, as this division is unable to compensate him to a greater extent than one hundred and fifty dollars per month, which will not do much more than cover his additional expenses while he is serving at Washington.

Respectfully,

(Signed) GEO. W. GOETHALS,
Major-General, U. S. A., Assistant Chief of Staff; Director of Purchase, Storage and Traffic.

Unanimous consent was given for consideration of the ordinance submitted with the foregoing communication.

Ald. Iliff moved to pass said ordinance.

The motion prevailed, by yeas and nays as follows:

Anderson, Kostner, Toman, Clark, Thos. J. Lynch—61.

Nays—None.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That permission and authority be and the same are hereby given and granted to the Chicago Coated Board Company, a corporation, its successors and assigns, to construct, maintain and operate a single railroad switch track connecting with the southerly main track of the Chicago and North Western Railway in East North Water street at a point approximately one hundred thirty (130) feet west of the west line of Lot twenty-eight (28) produced south in Chicago Dock & Canal Company's Resubdivision of their Original Water Lot thirty-five (35) and the accretion thereto, all of Block eight (8) and accretions and of that part of Block nineteen (19) lying east of Sub-block two (2), all in Kinzie's Addition to Chicago in North Fractional Section Ten (10), thirty-nine (39), fourteen (14); thence running in a northeasterly direction on a curve along and across East North Water street to a point on the north line thereof approximately five (5) feet west of the west line of said Lot twenty-eight (28), as shown in green upon blue print hereto attached, which for greater certainty is hereby made a part of this ordinance.

SECTION 2. The permission and authority herein granted shall cease and determine twenty (20) years from and after the date of the passage of this ordinance, and this ordinance shall at any time before the expiration thereof be subject to modification, amendment or repeal without the consent of the grantee herein, and in case of repeal all the privileges hereby granted shall thereupon cease and determine. In the event of the termination of the authority or privileges hereby granted by the repeal of this ordinance, the grantee by the filing of the written acceptance hereinafter mentioned, shall be understood as consenting that the city shall retain all money it shall have previously received from said grantee under the provisions of this ordinance, said money to be considered and treated as compensation for the authority, permission and privileges enjoyed from the date of the passage of this ordinance until such repeal.

By the filing of the written acceptance of this ordinance hereinafter provided for, said grantee hereby agrees to elevate at its own expense and without any expense, damage or liability to the City of Chicago of any kind whatsoever, the switch track herein authorized, upon notice so to do from the Commissioner of Public Works, or failing so to do, shall within sixty (60) days after being notified to that effect by the Commissioner of Public Works, remove the switch track herein referred to. Said switch track, if elevated, shall be elevated under the direction and supervision and to the satisfaction of the Commissioner of Public Works, and the construction and material used in the elevation of said switch track, shall be of the same character as that used in the construction of the main tracks with which said track connects.

SECTION 3. During the life of this ordinance the grantee herein shall keep such portion of said street as is occupied by said switch track in good condition and repair and safe for public travel, to the satisfaction and approval of the Commissioner of Public Works. At the termination of the rights and privileges herein granted, by expiration of time or otherwise, the said grantee shall forthwith restore such portion of said street, occupied by said switch track to a condition safe for public travel, similar to the remaining portion of said street in the same block, to the satisfaction and approval of the Commissioner of Public Works. If said grantee shall fail to restore said street at the termination of said privileges, then the work shall be done by the City of Chicago, and the cost and expense of doing such work shall be paid by the said grantee.

SECTION 4. The operation and maintenance of the switch track herein provided for shall be subject to all existing ordinances of the City of Chicago now in force or which may hereafter be in force relating to the use and operation of switch tracks and railroad tracks, and the construction and maintenance thereof shall be under the supervision and to the satisfaction of the Commissioner of Public Works.

SECTION 5. The said grantee agrees to pay to the City of Chicago as compensation for said switch track, the sum of one hundred dollars ($100.00) per annum, payable annually in advance, the first payment to be made as of the date of the passage of this ordinance and each succeeding payment annually thereafter, provided that if default is made in the payment of any of the installments of compensation herein provided for, the privileges herein granted may be immediately revoked by the Mayor, or this ordinance may be repealed by the City Council under the powers reserved in Section two (2) hereof, and thereupon this ordinance shall become null and void.

SECTION 6. Before doing any work under and by virtue of the authority herein granted, said grantee shall execute a bond to the City of Chicago in the penal sum of ten thousand dollars ($10,000.00), with sureties to be approved by the Mayor, conditioned upon the faithful observance and performance of all and singular the conditions and provisions of this ordi-

nance, and conditioned further to indemnify, keep and save harmless the City of Chicago against all liabilities, judgments, costs, damages and expenses which may in any wise come against said City in consequence of the granting of this ordinance, or which may accrue against, be charged to or recovered from said City from or by reason or on account of the passage of this ordinance, or from or by reason or on account of any act or thing done by the grantee herein by virtue of the authority herein granted. Said bond and the liability of the sureties thereon shall be kept in full force throughout the life of this ordinance, and if at any time during the life of this ordinance such bond shall not be in full force, then the privileges herein granted shall thereupon cease.

SECTION 7. This ordinance shall take effect and be in force from and after its passage, provided that a written acceptance of this ordinance and the bond hereinabove provided for shall be filed with the City Clerk within (60) days after the passage of this ordinance.

At the termination of the rights and privileges herein granted, by expiration of time or otherwise, the said grantee shall forthwith restore such portion of said street, occupied by said switch

track to a condition safe for public travel, similar to the remaining portion of said street in the same block, to the satisfaction and approval of the Commissioner of Public Works. If said grantee shall fail to restore said street at the termination of said privileges, then the work shall be done by the City of Chicago, and the cost and expense of doing such work shall be paid by the said grantee.

SECTION 4. The operation and maintenance of the switch track herein provided for shall be subject to all existing ordinances of the City of Chicago now in force or which may hereafter be in force relating to the use and operation of switch tracks and railroad tracks, and the construction and maintenance thereof shall be under the supervision and to the satisfaction of the Commissioner of Public Works.

SECTION 5. The said grantee agrees to pay to the City of Chicago as compensation for said switch track, the sum of one hundred dollars ($100.00) per annum, payable annually in advance, the first payment to be made as of the date of the passage of this ordinance and each succeeding payment annually thereafter, provided that if default is made in the payment of any of the installments of compensation herein provided for, the privileges herein granted may be immediately revoked by the Mayor, or this ordinance may be repealed by the City Council under the powers reserved in Section two (2) hereof, and thereupon this ordinance shall become null and void.

SECTION 6. Before doing any work under and by virtue of the authority herein granted, said grantee shall execute a bond to the City of Chicago in the penal sum of ten thousand dollars ($10,000.00), with sureties to be approved by the Mayor, conditioned upon the faithful observance and performance of all and singular the conditions and provisions of this ordinance; and conditioned further to indemnify, keep and save harmless the City of Chicago against all liabilities, judgments, costs, damages and expenses which may in any wise come against said City in consequence of the granting of this ordinance, or which may accrue against, be charged to or recovered from said City from or by reason or on account of the passage of this ordinance, or from or by reason or on account of any act or thing done by the grantee herein by virtue of the authority herein granted. Said bond and the liability of the sureties thereon shall be kept in full force throughout the life of this ordinance, and if at any time during the life of this ordinance such bond shall not be in full force, then the privileges herein granted shall thereupon cease.

SECTION 7. This ordinance shall take effect and be in force from and after its passage, provided that a written acceptance of this ordinance and the bond hereinabove provided for shall be filed with the City Clerk within sixty (60) days after the passage of this ordinance.

Compensation.

The Committee on Compensation submitted the following report, which was, on motion of Ald. Iliff, ordered published and placed on file:

CHICAGO, August 21, 1918.

To the Mayor and Aldermen of the City of Chicago in City Council Assembled:

Your Committee on Compensation, to whom was referred by the Bureau of Compensation, Department of Public Works, a request from The Philadelphia and Reading Coal and Iron Company for readjustment of lease covering space in Lumber and Wharf streets, having had the same under advisement, beg leave to report the passage of the following order by your Committee:

Ordered, That the Commissioner of Public Works be and he is hereby authorized and directed to cancel permit issued to The Philadelphia and Reading Coal and Iron Company for the use of seventy-one hundred fifty-one (7,151) square feet of space in Lumber and Wharf streets as of the date of January 1, 1918, and to issue a new permit to the said Company for the use of fifty-three hundred ninety-six and twenty-five one-hundredths (5,396.25) square feet of space in said Lumber and Wharf streets for a period of three (3) years from January 1, 1918, at an annual rental of six hundred seventy-four and fifty-three one-hundredths dollars ($674.53), payable semi-annually in advance, the first payment to be made as of January 1, 1918, and succeeding payments on January 1 and July 1 of each year, upon filing a bond for ten thousand dollars ($10,000.00) to indemnify the City in connection therewith, said permit to be subject to revocation upon thirty (30) days' notice in writing.

Respectfully submitted,

(Signed) GEORGE F. ILIFF,
Chairman.

Home Defense.

Roll of Honor: Memorial to Chicago Soldiers, Sailors and Marines.

The Committee on Home Defense, to whom had been referred (June 28, 1918, page 564) an order directing

consideration of the erection and maintenance by the City of Chicago of a Roll of Honor Memorial to Chicago soldiers, sailors and marines who lose their lives in the present war, submitted a report recommending the passage of an order submitted therewith.

Ald. Kostner moved to concur in said report and to pass said order.

No request being made by any two Aldermen present to defer consideration of said report for final action thereon until the next regular meeting, and the question being put, the vote thereon was as follows:

Yeas—Coughlin, L. B. Anderson, Jackson, Iliff, Schwartz, Hickey, Richert, Mulcahy, A. A. McCormick, Nance, Fetzer, Guernsey, Woodhull, Furman, Johnson, Govier, Klaus, McNichols, Cullerton, Krumdick, Kerner, Ahern, Horne, Maypole, Smith, Kaindl, Olsen, Kunz, Piotrowski, Adamkiewicz, Walkowiak, Touhy, Kavanagh, Powers, Bowler, Fick, Franz, R. Anderson, Kostner, Toman, Clark, Thos. J. Lynch—61.

Nays—None.

The following is said order as passed:

Ordered, That full and final authority be and the same is hereby granted to the Committee on Home Defense, acting through a committee composed of Alderman Joseph O. Kostner, Charles H. Wacker, Edward H. Bennett, Charles Hutchinson, Mrs. Heaton Owsley, Lucius Teter, Pompeo Coppini, Lieut.-Col. Nathan William McChesney, Captain William A. Moffett, U. S. N., Frank G. Logan and Samuel Insull, to erect and maintain, in the name of the City of Chicago, a temporary honor roll memorial at the location and according to the general plans outlined in the attached report prepared by E. H. Bennett and Pompeo Coppini, which report is hereby made a part of this order, the only limitation of the authority hereby granted to the Committee on Home Defense being that said committee shall not incur any financial obligation against the City of Chicago.

The following report was submitted with the foregoing order:

CHICAGO, August 19, 1918.

Honorable Joseph O. Kostner, Chairman, City Council, Committee on Home Defense:

Re: Proposed Honor Roll Memorial.

An explanation is necessary in order that the Council may not tax the architect or the sculptors with unnecessarily delaying the plans for the Honor Roll Memorial in Grant Park. The design represents an evolution of ideas, thoughts and studies which need some little time for serious consideration. The original idea of connecting the memorial with the colonnade at the north end of Michigan avenue was abandoned for a good reason, that of securing the dedication of an adequate site for the monument. Nothing should be secondary in the honor we intend to pay to those who have given for us and for the defense of our ideals the greatest thing they could give —their lives.

The site selected will serve also to commemorate the departure of our first Illinois troops as they were given a public farewell on Michigan avenue near Congress street and the Honor Roll Memorial will carry their names as heroes where they departed with enthusiasm to fight for the greatest cause and in the greatest war ever known.

This temporary Memorial it is hoped will be fine enough to make Chicago proud of it and also every relative of our boys fallen on the battlefield of Europe, proud of it in the sorrow of their losses.

There will be a semi-circular background of tablets so arranged as to give more than enough space for the casualty list it is estimated from statistics of other European army casualties may be necessary, and so arranged as to be in regimental and unit form with illustrative sculptural relief decorations to make them easily identified.

At intervals there will be statues of soldiers, marines, sailors, ambulance corps men, aviators, nurses, canteen workers, etc., in order to make an historical record of all the activities of the American Army and Navy. In front of these tablets there will be a large space—about 20 feet deep—that would serve as a walk for the visitors.

In the center there will rise a shaft of obelisk form 75 feet in height, emblem of the city life and strength. In front will be placed a figure of Chicago—proud but gentle, strong but not in armor, her expression one of submission to the noble sacrifice of her own blood. It will be the representation of one of the largest and most powerful cities of free, democratic America willing to sacrifice all to defeat the autocratic powers of the older world.

At the base of the obelisk, to the right, there will be a group representing the Army and to the left one representing the Navy.

The monument and its grounds although temporary may well help in the determination of any future scheme of improvement of Grant Park extending the work already begun north of the Art Institute.

A plaza has been proposed in the general plan opposite Congress street and this plaza will be outlined in a general way on the ground in connection with the monument and will serve as a gathering place for crowds of people assembling in this neighborhood on days of celebration. The whole being lighted in one way or another.

It is all to be done as quickly as possible and as conscientiously as artists can execute it in a limited time. However, we feel that our efforts will not be wasted, from criticisms that may be made and the faults that may be discovered valuable lessons will be learned in connection with the final erection of a permanent Memorial after the war.

(Signed) E. H. BENNETT,
Architect.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That Section 1936 of an ordinance passed December 30, 1912, and appearing on page 3025 of the Journal of the Proceedings of the City Council of said date, be and the same is hereby amended to read as follows:

"1936. Whenever the funds appropriated for the maintenance of the department of police are sufficient to permit the members thereof being given furloughs with full pay, each and every member of the department of police shall be entitled to a leave

of absence from duty for fifteen (15) consecutive days each year, with full pay. In every case the General Superintendent of Police shall designate when such leave of absence shall be taken; provided, however, that in the computation of the total time of service of any member of the police force furloughs or leaves of absence for over one (1) month shall be excluded from such total time of service of such member of the police force.

"Hereafter patrolmen shall have in addition to the furlough above provided for a furlough of one day in each fifteen days of each month with full pay."

SECTION 2. This ordinance shall take effect and be in force from and after October 1, 1918.

Play Streets: Designation for Playground Purposes.

Ald. Long moved to proceed to consideration of the report of the Committee on Parks, Playgrounds and Beaches on an order directing consideration of the question of closing certain streets to traffic one day or a portion of a day each week, for playground purposes, and an ordinance for the designation of certain streets to be closed temporarily to traffic, to be used for playground purposes, deferred and published July 17, 1918, page 688.

Anderson, Kostner, Toman, Clark, Thos. J. Lynch—61.

Nays—None.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That the Commissioner of Public Works be and he is hereby authorized and directed to designate and recommend to the Mayor and the General Superintendent of Police certain streets or parts of streets in the City of Chicago from time to time as play streets, to be devoted during such hours of the day as may be designated by the Mayor and General Superintendent of Police to the regulation and supervision of safe, innocent and wholesome games for children. The streets or parts of streets to be designated shall be selected, so far as practicable, with a view to affording opportunities for recreation to children living in neighborhoods where such opportunities are not available, and such streets or parts of streets shall be selected as are not main thoroughfares and are not much used for vehicular traffic.

Upon the request of the Commissioner of Public Works, the General Superintendent of Police shall recommend to the Mayor, and the Mayor may from time to time designate a part of a street as a play street to be roped off and freed from vehicular traffic at certain hours of the day, to be fixed by the Mayor, and to be devoted to child recreation on such days as may be authorized by the General Superintendent of Police. Such designation by the Mayor shall be in writing and shall describe the street and part of the street to be used for such purpose, and the hours of the day when it shall be roped off, and shall contain such other directions as may be deemed necessary by the Mayor and General Superintendent of Police, and the General Superintendent of Police is hereby authorized and directed to assign police officers to supervise the streets or parts of streets so selected and to see that no damage is done to property as well as to see that order is maintained and that the laws of the State of Illinois and the ordinances of the City of Chicago are not violated.

The Commissioner of Public Works is also authorized and directed to notify the Marshal of the Fire Department of the selection of the streets so designated and the dates when the same are to be used as play streets and the Marshal of the Fire Department is hereby ordered to flush said streets in the early morning hours before the time for the children to play on same begins. The selection of streets or parts of streets as playgrounds or play streets shall be made with the view of offering the least obstruction to traffic and the same streets or parts of streets shall not be used consecutively week after week unless the Mayor in his discretion shall determine that there is good and sufficient reason for doing so.

SECTION 2. During the hours that any play street is in use for the purposes of recreation as prescribed by this ordinance the carriageway thereof shall be closed to vehicular traffic by ropes or other removable barriers, and at each end of such section there shall be placed a standard or sign on which shall be painted or inscribed, in letters plainly legible for a distance of one hundred (100) feet a notice substantially in the following words:

"PLAY STREET

TEMPORARILY CLOSED TO VEHICULAR TRAFFIC BY ORDER OF GENERAL SUPERINTENDENT OF POLICE."

Such sign shall be kept in place until the close of each day during the period of recreation, and shall then be removed, together with the rope or other barrier excluding vehicular traffic from any such street.

SECTION 3. It shall be the duty of the heads of the several departments of the city government and the employes of the city to render such assistance in the administration of the play street system as shall be necessary to its success. No games of a dangerous character shall be permitted upon any such play street, and no child of unsuitable age, and no child who is affected with any communicable disease shall be permitted to join in such games except with the permission of the Commissioner of Health and of the Commissioner of Public Works. No game which is unsafe for small children shall be permitted upon the play streets; no hard ball shall be used on any such play street, nor shall football, shinny, or high or broad jumping be permitted thereon. Rope jumping, danc-

ing, roller skating, indoor baseball, ring games, etc., may be permitted under proper supervision. No expense or legality shall be incurred by reason of the designation of any street or part of a street as a play street by any official or other person or persons without the previous consent of the City Council to be expressed by resolution or ordinance which shall provide for raising or appropriating the necessary funds and prescribing the methods and objects of their expenditure.

SECTION 4. This ordinance shall be in full force and effect from and after its passage and approval.

Peoples Gas Light and Coke Co.: in the Matter of a Revision of Rates, Standards or Service Regulations.

Ald. Capitain moved to proceed to consideration of the report of the Committee on Gas Litigation in the matter of a revision of rates, standards or service regulations affecting gas supplied by the Peoples Gas Light and Coke Company, deferred and published August 14, 1918, page 906.

The motion prevailed.

Ald. Capitain moved to concur in said report and to pass the order submitted therewith.

The motion prevailed, by yeas and nays as follows:

Yeas—Coughlin, L. B. Anderson, Jackson, Iliff, Schwartz, Hickey, Richert, Mulcahy, A. A. McCormick, Nance, Fetzer, Guernsey, Woodhull, Furman, Johnson, Govier, Klaus, McNichols, Cullerton, Krumdick, Kerner, Ahern, Horne, Maypole, Smith, Kaindl, Olsen, Kunz, Piotrowski, Adamkiewicz, Walkowiak, Touhy, Kavanagh, Powers, Bowler, Fick, Franz, R. H. McCormick, Walker, Ellison, Bauler, Roeder, Haderlein, Capitain, Link, Pretzel, Kennedy, Littler, Adamowski, Hrubec, Byrne, Wm. J. Lynch, O'Toole, Moran, Fisher, Lyle, A. O. Anderson, Kostner, Toman, Clark, Thos. J. Lynch—61.

Nays—None.

The following is said order as passed:

WHEREAS, It is provided in the ordinance passed June 25, 1917, and accepted by The Peoples Gas Light and Coke Company July 31, 1917, that "Neither the City nor the Company shall alter, or seek to alter, the rates, standards or service regulations herein provided during the period of twelve months following the acceptance of this ordinance," which period has now expired; and,

WHEREAS, By acceptance of said ordinance the said Company agreed that the City of Chicago, by action of the City Council, should have the power, and expressly conceded the authority of the City from and after the date of the acceptance of said ordinance, to regulate the rates to be demanded and the standards and service to be maintained by said Company in the manufacture and distribution of gas in the City of Chicago; and

WHEREAS, It appears from the Journal of the Proceedings of the City Council of January 18, 1917, that the said Company claimed at that time that the rates provided in the ordinance of June 25, 1917, did not provide sufficient revenue to enable the Company to carry on its business or to meet the demands upon it for service, which representations of said Company were referred to the Committee on Gas, Oil and Electric Light, under the direction of which Committee an investigation has been made of the operations of the Company, and whereby information has been obtained by the City's representatives necessary for any adjustment of rates or standards of service which might be deemed advisable after the period of twelve months following the acceptance of said ordinance; therefore it is

Ordered, That the Committee on Gas, Oil and Electric Light make due inquiry to determine whether it is advisable to revise the rates, standards or service regulations provided in the ordinance of June 25, 1917, and particularly that said Committee request from the president and directors of The Peoples Gas Light and Coke Company a formal statement, first, as to whether said Company claims that it has ever requested the City Council of the City of Chicago to revise the rates, standards or service regulations provided in the ordinance of June 25, 1917; and, second, as to whether said Company desires at the present time to request the City Council of the City of Chicago to make any revision of the rates, standards or service regulations provided in said ordinance.

Adjournment.

Ald. A. A. McCormick moved that the Council do now adjourn.

The motion prevailed and the Council stood adjourned to meet on Monday, November 18, 1918, at 2:00 o'clock P. M.

REPORTS AND COMMUNICATIONS FROM CITY OFFICERS.

Protection of Soldiers and Sailors Against Certain Vicious Influences.

The Mayor presented the following communication, which was ordered published and referred to the Committee on License:

WAR DEPARTMENT,
WASHINGTON, December 26, 1918.

MY DEAR MR. MAYOR:

In the interests of the men in the service who are to be stationed in or near Chicago during the period of demobilization or who may be visiting the city on leave,

I am venturing to enlist your support and that of the City Council in a measure specifically prepared for their protection.

You will recall that early in October, as a result of a series of conferences called by Captain G. J. Anderson of the Law Enforcement Division of the Commission on Training Camp Activities, an ordinance was drawn designed to limit the activities of those engaged in the illegal sale of liquor to men in the service. The measure had the approval of all patriotic citizens and also the endorsement of all the organized liquor trade organizations of Chicago. It is not clear who could properly object to the provisions of the ordinance.

I am informed, however, by Captain E. R. Beckwith, who represents the Law Enforcement Division in Chicago, that although these ordinances were ordered favorably reported to the City Council by its License Committee on November 29th and although the Council has since had at least two regular meetings, it has, so far, failed to enact these measures into law.

I trust that this omission may be speedily rectified and I urge both upon you and the Council to do everything in your power to contribute this further protection to the members of the military forces who may be stationed in or the guests of your city.

Very truly yours.

(Signed) NEWTON D. BAKER,
Secretary of War.

Hon. Wm. Hale Thompson,
Mayor,
City Hall,
Chicago, Ill.

Public Improvements: Request for Immediate Construction.

The Mayor submitted the following communication, which was ordered published and referred to the Committee on Finance:

DEPARTMENT OF LABOR,
OFFICE OF THE SECRETARY,
WASHINGTON, December 26, 1918.

Honorable W. H. Thompson, Mayor of Chicago, Chicago, Illinois:

SIR—The great war, happily closed, has left us with a rehabilitation problem which deserves our immediate attention. By reason of certain closure actions necessary at a time when all our energies properly were being devoted to the prosecution of the war, public works, as well as private building undertakings, were practically brought to an end.

As a result, I am informed by men in the department who have made a study of conditions, not only are the dwelling accommodations throughout the country below the demands, but many public conveniences urgently required have been postponed.

Lack of dwelling accommodations and lack of public conveniences in the way of roads, bridges and public buildings are a serious detriment at this time when we are anxious to pass through the readjustment with all speed. There is another and equally serious side, however; namely, that with the lack of building activities many of our returned soldiers who are skilled in various building trades are in danger of finding themselves out of employment on their return to this country.

In recognition of the declaration by President Wilson in his message to Congress, delivered on the day before he left for France, advocating a liberal attitude on the part of public authorities toward building public works, and because of information gathered by the Department of Labor, I have decided that special effort is essential to encourage construction at this time.

To this end there has been organized inside the department a special division for the development of building and construction industries for the purpose of encouraging an immediate revival of building and construction of all sorts.

I have no thought of advocating wasteful or unnecessary building, for that would be a poor solution of a most serious problem; but I do feel that if we can secure from public authorities and from private individuals an early intention to start work in the construction of buildings, sewers, waterworks, bridges and similar undertakings, all of which are vitally necessary, we will not only be increasing the total substantial value of our country, but we will in a measure be stabilizing general economic conditions during the period of reconstruction.

May I hope that in your annual budget you will indicate a sympathy with the idea that this is the time for undertaking such works, always assuming that the necessity is plainly evident?

Respectfully yours,

(Signed) W. B. WILSON,
Secretary.

"British Day" Celebration: Acknowlegment of Co-operative Action.

The Mayor submitted the following communication, which was ordered published and placed on file:

THE SULGRAVE INSTITUTION
THE WASHINGTON MANOR HOUSE
Sulgrave—Northants—England.
Headquarters
American Branch Institution
SUITE 3903 WOOLWORTH BUILDING,
NEW YORK, December 30, 1918.

Hon. Wm. H. Thompson, Chicago, Ill.:

DEAR MR. MAYOR—Will you kindly permit me, in behalf of Judge Parker, Chairman, and the members of the National British Day Committee, to thank you for your courteous response to our note asking you to further the plan to celebrate on December 7th and 8th the debt which America and all civilization owe to the army, navy, and people of Great Britain, for their heroic defense of humanity and for their "holding the line" until America could prepare to fight. The celebration itself was historic; it stands unparalleled. Over two thousand towns and cities, all of the States, literally thousands of churches, schools, civic organizations, and thirty-nine hundred theaters took part in the event. Your part in it was most meritorious and cause of congratulation.

Will you not kindly inform the chairman and members of your City Committee how grateful we are for what you did?

Very sincerely yours,

MISCELLANEOUS BUSINESS.

Death of Theodore Roosevelt.

Thereupon, by unanimous consent, Ald. A. A. McCormick presented the following resolution:

WHEREAS, This Council has learned of the death of Theodore Roosevelt; therefore, be it

Resolved, That the Mayor be and he hereby is requested to appoint a committee to draft and submit suitable resolutions on the death of Theodore Roosevelt, and that as a mark of honor to him and the high office which he held and as a tribute to his achievements as a public official and as a private citizen, this meeting of the City Council be and the same hereby is adjourned until Wednesday, January 8, 1919, at 2:00 o'clock P. M.

Ald. A. A. McCormick moved to adopt the foregoing resolution.

The motion was carried unanimously by a rising vote.

Thereupon the Council stood adjourned to meet in adjourned session on Wednesday, January 8, 1919, at 2:00 o'clock P. M.

CHICAGO, January 10, 1919.

Hon. James T. Igoe, City Clerk:

DEAR SIR—We, the undersigned, Aldermen of the City of Chicago, do hereby call a special meeting of the City Council of said City of Chicago to be held on Saturday, January 11, 1919, at 11:00 o'clock A. M., in the Council Chamber, second floor, City Hall, for the purpose of taking appropriate action to welcome to the City of Chicago the soldiers of the "Blackhawk Division" of the U. S. Army now returning from France.

Yours truly,

(Signed)

JOHN A. RICHERT,
Alderman Fourth Ward.
MATT FRANZ,
Alderman Twentieth Ward.
W. F. LIPPS,
Alderman Twenty-sixth Ward.
GEORGE F. ILIFF,
Alderman Third Ward.
JOHN TOMAN,
Alderman Thirty-fourth Ward.
T. F. MORAN,
Alderman Thirty-first Ward.

"Blackhawk Division" of the U. S. Army: Expression of Appreciation and Welcome on Their Return to Chicago.

Ald. Richert presented the following resolution:

The United States of America entered the world's war for democracy not for conquest, not for revenge.

not for material profit. It entered in it reluctantly, unprepared both as to men and material.

Once the decision made, by common consent and by that unity of purpose which marks the greatest of democracies, it mobilized its entire resources in men and money.

Its achievement in organizing, equipping and sending overseas the magnificent army that turned the tide of autocracy and frightfulness in favor of democracy and righteousness, is unparalleled in the annals of history.

Giving all credit for the sacrifices of those at home, the supreme credit is due to those who were ready, willing and anxious to dedicate to their country the supreme sacrifice of devotion to the principles of truth, honesty and justice to all; the true principles of democracy on earth.

In this greatest of conflicts, the men of the State of Illinois and of the City of Chicago have upheld the faith; they have played their part; therefore, be it

Resolved, By the City Council of the City of Chicago, That there is hereby extended to the Blackhawk (86th) Division of the United States Army, the deepest and most heartfelt appreciation of the patriotism, sacrifice, and good citizenship which has marked the career of that division and its personnel.

They are welcomed with a feeling of gratitude and pride, and with a profound faith in the future of democratic ideals which their devotion exemplifies.

Unanimous consent was given for consideration of the foregoing resolution.

Ald. Richert moved to adopt said resolution.

The motion prevailed, by yeas and nays as follows:

Yeas—Coughlin, L. B. Anderson, Jackson, Iliff, Richert, McDonough, Mulcahy, A. A. McCormick, Guernsey, Woodhull, Klaus, McNichols, Cullerton, Kerner, Novak, Horne, Maypole, Smith, Kaindl, Olsen, Piotrowski, Walkowiak, Touhy, Kavanagh, Powers, Bowler, Fick, Franz, Bauler, Wallace, Steffen, Roeder, Haderlein, Capitain, Link, Lipps, Pretzel, Kennedy, Watson, Adamowski, Hrubec, Byrne, Wm. J. Lynch, O'Toole, Moran, Fisher, Lyle, A. O. Anderson, Clark—49.

OFFICE OF GENERAL SUPERINTENDENT OF POLICE,
CHICAGO, December 30, 1918.

Hon. Wm. Hale Thompson, and Members of the City Council:

GENTLEMEN—In connection with the awarding of the Carter H. Harrison and Lambert Tree medals permit me to submit for your consideration the suggestion that provision be made for the bestowing of an insignia in the form of a button to the officer who receives the medal, of appropriate design, in gold; to those receiving

Honorable Mention, a silver button, and to those receiving Creditable Mention, a bronze button. On account of the numerous acts of bravery, the board had some difficulty in selecting the one to receive the medal. This would be in keeping with the spirit which prompted the awarding of the Harrison and Tree medals, and the recipients could wear it on all occasions, in order to receive the credit due for their distinguished acts of bravery.

I suggest that the matter be referred to the appropriate committee so that the details of awarding these buttons may be provided for by ordinance or otherwise.

Respectfully,

(Signed) JOHN J. GARRITY,
General Superintendent.

Thomas Cusack Co.: Canopy and Bulkhead (Repeal).

The Clerk presented the following communication submitted by the Commissioner of Public Works, which was, together with the order and ordinance transmitted therewith, referred to the Committee on Streets and Alleys:

DEPARTMENT OF PUBLIC WORKS,
BUREAU OF COMPENSATION,
CHICAGO, January 8, 1919.

To the Honorable, the Mayor and the City Council of the City of Chicago:

GENTLEMEN—I transmit herewith for consideration by your Honorable Body an ordinance repealing an ordinance granting authority to the Thomas Cusack Company to maintain and use as now constructed a bulkhead or loading platform in the alley in the rear of premises at 1312-60 West Harrison street. The portion of the alley occupied was vacated by the City Council on July 17, 1918, for the benefit of the Thomas Cusack Company and the compensation required in the vacation ordinance paid.

There is also transmitted herewith an order authorizing the same Company to maintain a canopy one hundred nine (109) feet long over a portion of the alley. The original order authorized a canopy two hundred forty-three (243) feet in length, but a portion of the canopy extends over that part of the alley vacated in the ordinance referred to above.

The enclosed ordinance and order are for the purpose of correcting the records of this office and those of the City Comptroller.

Yours very truly,

(Signed) CHAS. R. FRANCIS,
Commissioner of Public Works.

Superintendent of Compensation.

Union Passenger Station: Report of Progress.

The Clerk presented the following report, which was ordered published and placed on file:

DEPARTMENT OF PUBLIC WORKS,
BUREAU OF ENGINEERING,
CHICAGO, December 30, 1918.

To the Mayor and Aldermen of the City of Chicago, in City Council Assembled:

GENTLEMEN—In accordance with Council Order of December 16, I submit herewith report of construction on Union Station project. Following is a brief outline of work done to date:

Sewers:

Reconstruction of all trunk sewers in district bounded by Fulton, Taylor, Clinton and the river, practically completed.

Public Utilities:

Utility Gallery completed in Monroe and Canal streets. Relocation of underground utilities in district bounded by Kinzie, Twelfth, Clinton and the river practically completed.

Buildings:

All buildings removed from site of main station. Miscellaneous buildings removed between Canal and the river. All obstructing buildings removed from freight district east of Canal between Harrison and Twelfth.

Pennsylvania freight house at Polk street completed.

C., B. & Q. R. R. freight house at Harrison street—foundations for east half completed.

Foundations for Butler Brothers' building completed. This building must be completed before buildings to the east occupying site of proposed yard can be wrecked.

Bridges:

Monroe Street Bridge practically completed.

Viaducts:

Lake street completed.

Monroe street temporary viaduct practically completed.

Harrison street—foundations 30 per cent completed. All steel for viaduct on site.

Polk street—portion in front of Pennsylvania freight house practically completed. Steel for remainder of viaduct 50 per cent fabricated.

Taylor street—east half under construction. Steel for remainder of viaduct 60 per cent fabricated.

Canal street between Polk and Taylor—foundations 75 per cent completed.

Miscellaneous:

Retaining walls built on Canal street and street raised to ordinance grade from Washington to Monroe, and from Jackson to Harrison. Monroe street and Van Buren street raised to new approach grade from Clinton to Canal.

Metropolitan Elevated structure raised and rebuilt across Canal street.

Gas Company tunnel built in Jackson boulevard.

Joint tracks relocated from Washington street to Carroll avenue.

The above work embraces between 15 per cent and 20 per cent of the authorized construction, with steel work now being fabricated about 5 per cent additional.

In regard to the schedule for 1919, I wish to say that in May, 1918, the Government stopped practically all construction. Late in October Mr. Aishton, Regional Director of Railroads, submitted to the Commissioner of Public Works a program for 1919 involving an expenditure of about $1,500,000.00. At this time this program was considered satisfactory, but with the signing of the armistice a more vigorous prosecution of the work became imperative.

I submit for your information a copy of my letter of November 25 to Mr. Aishton, outlining a more extensive program. On November 29 I received a reply from Mr. Aishton, stating that he would give the matter careful attention. I am informed that a schedule has been worked out along the lines suggested in my letter, but this has not yet been submitted to me.

The Union Station ordinance and the Pennsylvania freight terminal ordinance were accepted by the various railroad companies on September 23, 1914. This established the date for completion of the passenger station as September 23, 1919, and for the freight terminal September 23, 1918. As the work was delayed by the war and also by strikes, the time limit would be automatically extended. (Sec. 17, Chi. Un. Sta. Ord.).

The Union Station ordinance provides for a bond payable to the City of Chicago in the penal sum of $2,000,000.00 for the faithful observance and performance by the Union Station Company of all the terms and conditions of this ordinance. The freight terminal ordinance requires that a similar bond in the sum of $1,000,000.00 be executed by the Pennsylvania Company.

I submit herewith plat showing work still to be done by the Union Station Company, and also a chart showing progress on different items of the work.

Respectfully submitted,

(Signed) CHAS. R. FRANCIS,
Commissioner of Public Works.

JOHN ERICKSON,
City Engineer.

HARBOR BOARD.

Municipal Pier: Lease of Storage Space to U. S. Government.

The Clerk presented the following communications, submitted by the Harbor Board:

DEPARTMENT OF PUBLIC WORKS,
BUREAU OF COMPENSATION,
CHICAGO, January 11, 1919.

To the Honorable, the Mayor, and the City Council of the City of Chicago:

GENTLEMEN—There is transmitted herewith for consideration by your Honorable Body an ordinance authorizing and directing the Commissioner of Public Works to enter into a lease with the United States of America for the use of all the available storage space on the Municipal Pier for a period ending with the government fiscal year—June 30, 1919—with the option of renewal for one year thereafter, subject to cancellation on thirty days' notice in writing, at a rental of twenty cents per square foot per annum, the price which has heretofore been charged the Government for space on the Pier.

We are advised by the Motor Transport Corps of the Army that there is approximately $6,000,000 worth of motor equipment in the vicinity of Chicago which is rapidly deteriorating on account of exposure to the elements, and it is proposed to store the greater part of this equipment at the Pier. There is available about 600,000 square feet of space which can be used for this purpose and it is the belief of the Harbor Board that the conditions of lake navigation are such that no space will be required for that purpose at the Pier during the coming season. The proposed arrangement presents an opportunity to assist the Government in this emergency and also bring in a revenue of approximately $100,000 more than the returns from the Pier during the past season.

The enclosed ordinance, which was prepared by the Corporation Counsel's office, is accompanied by an opinion approving the legality of the ordinance and lease. In view of the urgency of the matter, it is requested that immediate action be taken on the ordinance.

Yours very truly,

(Signed) CHARLES R. FRANCIS,
Chairman, Harbor Board.

DEPARTMENT OF LAW,
CHICAGO, January 11, 1919.

IN RE: LEASE OF SPACE ON MUNICIPAL PIER TO THE FEDERAL GOVERNMENT.

Hon. Charles R. Francis, Chairman, Harbor Board:

DEAR SIR—We are in receipt of your letter in which you inquire whether the city has the right to enter into a lease with the United States Government by which the available space on the Municipal Pier will be used for the storage of motor equipment for war purposes.

It appears that the Federal authorities have applied for all the available space on the pier for the period ending with the government fiscal year—June 30, 1919—with an option for renewal for one year thereafter, subject to cancellation by the lessee on thirty days' notice in writing; that the Federal government has approximately $6,000,000 worth of motor equipment in the vicinity of Chicago for which there is no available storage room and which is rapidly deteriorating because of exposure; that the proposed term and provision for cancellation are necessary conditions on account of the limitations on the power of the Federal officers to contract.

You state that there is available on the Municipal Pier about 600,000 square feet of space for which the Harbor Board has fixed a rate of 20 cents per square foot per annum. We are further informed that the Federal authorities are willing to pay the price that you have determined upon, that it would be desirable for the city to lease the space in question to the national government if it can be done lawfully, and that in the judgment of the Harbor Board there is no good reason why these war needs of the government should not be accommodated unless there is some legal obstacle to prevent it.

You have indicated that you are in doubt as to whether the city has the right to enter into this arrangement with the Federal government by reason of provisos in Section 3 of the Harbor Act (Hurd's Rev. St. 1915-16, pp. 521-2), which read as follows:

> "*Provided, however,* that except as to railroad facilities at least one-third of the capacity of each such utility shall not be leased for a period to exceed one year and that at least one-half of said one-third shall at all times be reserved by such city or village for general public use, and that not to exceed 50 per cent in capacity of the remaining two-thirds capacity of each such utility shall be leased to any one person or corporation: *Provided, further, however,* that no leases authorized undert his Act shall contain conditions which shall admit of any unjust, undue or unreasonable preference or discrimination between leasees."

We are of the opinion that the above provisos have no application to the renting of space to the Federal government for the purpose indicated.

Aside from the fact that the Federal authorities have the undoubted right to commandeer this space if required for war purposes, it is plain that the intention of the Legislature was to prevent the monopolizing of available space for private purposes, and that it was not the intention to make any restriction on its use

for public purposes. The reservation of at least one-sixth of the whole space available for general public use is to be regarded as a minimum reservation. In fact, it is doubtful whether a provision which would restrict the amount of space for public use would be constitutional.

The use intended in the present instance is a public use, and while it may not be such a use as a pier or harbor facilities are intended to supply, nevertheless we can find nothing in the Harbor Act which will prevent the city from renting it to the general government for war purposes when it is not actually in use for harbor purposes.

We have, therefore, in pursuance of your request, drafted an ordinance authorizing the Commissioner of Public Works to enter into the proposed lease, and we transmit same herewith.

Yours truly.

Assistant Corporation Counsel.

The following is said ordinance as passed:

WHEREAS, There are approximately 600,000 square feet of space available on the Municipal Pier which can be rented by the city and on which the Harbor Board has fixed a rate of 20 cents per square foot per annum; and

WHEREAS, The Federal Government has a large number of motor vehicles and other motor equipment gathered and used for war purposes, for which it desires storage facilities, and the Federal authorities are willing to make arrangements for said available space at the price fixed as aforesaid under such terms and conditions as they are able to enter into lawfully: Therefore,

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That the Comissioner of Public Works be and he is hereby given the power and authority to lease to the United States Government all the available space on the Municipal Pier not otherwise rented or contracted for and not necessary for the city's activities conducted thereon, or such part thereof as may be required by the United States Government, at the rate of 20 cents per square foot per annum for the purposes of the Federal Government for storage of motor equipment, such lease to be for the period ending June 30, 1919, with an option for the renewal of same for one year thereafter, subject to cancellation by said Federal authorities on thirty days' written notice.

SECTION 2. This ordinance shall take effect and be in force from and after its pasasge and approval.

Appropriation Needs of the City for 1919.

The Committee on Finance submitted a report in printed form outlining the appropriation needs of the City for the year 1919, consideration of which was deferred.

The following letter of transmittal accompanied said report:

AN ESTIMATE PRESENTED TO THE CITY COUNCIL BY THE COMMITTEE ON FINANCE, MONDAY, JANUARY 13, 1919.

To the Mayor and Aldermen of the City of Chicago in City Council Assembled:

Your Committee on Finance transmits herewith for your consideration and such disposition thereof as may be deemed necessary the following tentative estimate of the appropriation needs of the City government from Corporate revenue for the fiscal year 1919.

Inasmuch as the probable Corporate revenue for the fiscal year 1919 is far short of this estimate, the passage of a budget based upon the same is precluded unless the City obtains remedial action by the State Legislature.

Your Committee, after careful consideration of every phase of the situation, feels strongly that the total amount of this estimate, viz. $32,463,147.09, is an amount that will barely meet the actual needs of the City during this year.

Respectfully submitted,

(Signed) JOHN A. RICHERT,
Chairman, Committee on Finance.

ALSO,

The same committee submitted the following report, which was, on motion of Ald. Richert, deferred and ordered published:

SIXTH WARD.

Ald. A. A. McCormick, L. B. Anderson, Woodhull, Guernsey and Cullerton presented the following resolution:

Be it Resolved, That in placing upon its records a tribute to the memory of Colonel Theodore Roosevelt, the City Council of the City of Chicago does so more in a spirit of pride and glory than in one of sorrow or regret; pride in the man and his achievements; glory in the country that gave him birth.

Colonel Roosevelt was a man of genius, and genius cannot be analyzed. While his life was an open book that all might read, yet it remains for future generations to appreciate his years of effort and ends attained in the causes of humanity, democracy and public truth.

Militant by nature; proved on the field of battle; he yet was a great exponent of peace and fair dealings among the nations of the earth.

He walked with kings and emperors and yet retained the purity of his democratic ideals.

He knew no caste; and the man who achieved through manual labor was held in equal esteem with the man who achieved through superior opportunity of education, environment and wealth.

Fearless always; in a righteous cause he welcomed conflict of ideas and method to the one end, the betterment and advancement of the human race.

Statesman, soldier, naturalist, historian and scholar, he was above all the exemplification of true, intense, belligerent and consistent Americanism.

Let us hope with him for the ideal in public affairs, and with that hope constantly in mind, devote ourselves to the task of making democracy triumphant, honest and just.

Ald. A. A. McCormick moved to adopt the foregoing resolution.

The motion was carried unanimously by a rising vote.

Ald. Cullerton presented the following order, which was, on motion, duly passed:

WHEREAS, The City Council of the City of Chicago is in receipt of a communication from the Secretary of the Department of Labor of the Federal Government, containing the request that the City of Chicago in common with other municipalities throughout the country, co-operate in the solution of the nation's rehabilitation problem by instituting a liberal policy in the matter of the building of public works and by the encouragement of private building operations; and

WHEREAS, All recognize the need for immediate co-operation of all governmental and industrial agencies in the nation, to the end that serious unemployment may be avoided and business may suffer as little depression as possible during the period of transition from war to peace; and

WHEREAS, Many of the important building operations of a public or quasi-public character in prospect in Chicago could be immediately prosecuted were it not for the fact that they are connected directly or indirectly with the operation of the various railroads entering Chicago, which railroads are not free to act because of restraints imposed upon them by the Federal Government; therefore, be it

Ordered, That the Commissioner of Public Works, the Chairman of the Committee on Track Elevation, the President of the Board of Local Improvements, the Chairman of the Committee on Local Industries and the Chairman of the Committee on Railway Terminals, be and they are hereby directed to prepare and submit to this Council at its next regular meeting, or as soon thereafter as possible, a survey of building operations within the jurisdiction of their respective departments or committees in Chicago of every character that affects the railroads and that is ready for prosecution as soon as the restraints imposed upon the railroads by the Federal Government is removed, to the end that an effort can be made by representatives of the municipal government of Chicago to induce the Federal Government to issue the necessary orders or take the necessary action to permit the railroads in question to do the construction work authorized and requested by the City.

Ald. Cullerton presented the following order, which was, on motion, duly passed:

WHEREAS, On December 26, 1918, the Commissioner of Public Works submitted a report to the City Council, in response to an order passed December 16, 1918, on the subject of causes for lack of water pressure on the South Side, which report shows conditions to be alarming and to be in need of early and constructive consideration; and

WHEREAS, Conditions as shown in said report to exist on the South Side also exist in other sections of the City; therefore, be it

Ordered, That His Honor the Mayor be and he is hereby requested to appoint a special committee of five members of the City Council whose duty it shall be to make an investigation of the water system of the City of Chicago and to report recommendations by which an adequate and uniform water pressure can be maintained throughout the City.

Ald. Cullerton presented the following orders, which were, on motion, duly passed:

Ordered, That the Commissioner of Public Service be and he hereby is directed to prepare and submit to the City Council at its next regular meeting a report showing the total number of cubic feet of gas purchased during the year 1918 by the Peoples Gas Light & Coke Company, from whom purchased and the price paid for same, and the total number of cubic feet of gas manufactured by the Peoples Gas Light & Coke Company during said year, said report to show whether the gas purchased by the company

is mixed in with the gas manufactured by the company or is handled and sold separately from the gas manufactured by the company.
